FIFTY-THIRD CONGRESS.

Summarized Proceedings of Our Law-Makers at Washington... ONE HUNDRED AND THIRTEENTH DAY.

SENATE.—To-day's session was almost entirely devoted to speech making... HOUSE.—No session was held in the House to-day.

ONE HUNDRED AND FIFTEENTH DAY. SENATE.—More than half of the time in the Senate today was consumed in the delivery of a portion of the speech which Senator Quay began on April 14.

ONE HUNDRED AND SEVENTEENTH DAY. SENATE.—Owing to the fact that the major portion of the day in the Senate was to be held behind closed doors in the consideration of executive business.

Disquieting news was received at the treasury from New York concerning gold exportations. Rates of foreign exchange continue higher and firmer.

Frank Hutton's Funeral. The funeral of Frank Hutton, editor of the Washington Post, occurred at 2:30 o'clock Thursday afternoon.

THE LABOR WORLD.

VIENNA, Austria, has 100,000 idle. BOOKBINDERS have thirty-two unions. SOUTH AFRICA is to manufacture cotton.

MINNEAPOLIS, Minn., has a labor temple. FRANCE has twenty-nine labor exchanges. CHICAGO bricklayers got fifty cents an hour.

LONDON pays municipal workers union wages. FALL RIVER, Mass., hasn't a non-union sweater. QUEENSLAND laborers say the Japanese must go.

STREASBURG (Germany) bricklayers got \$4.15 a week. TORONTO, Canada, has a Sisterhood of Bookbinders. The great strike of coal miners was expected to affect 3000 mines and over a quarter of a million employes.

SEVENTEEN 150,000 miners in States east of the Mississippi have struck the United Mine Workers to suspend work. JAMES DUNN, of Omaha, Neb., directed the receivers of the Union Pacific to restore the salaries of the employees of the road to their former figures.

LOCOMOTIVE engineers, firemen, car conductors, brakemen, trainmen and other railroaders of the National Brotherhood of Locomotive Engineers have established a Brotherhood Lyceum in Boston. One of the big soap factories near the Cortlandt street ferry, New York, employs a large number of Syrians, who dwell close by in that little Oriental corner of the city.

HATS and caps of very light and fine wire cloth are a novelty just introduced. They are intended for railroad employes or others who wear uniforms. Others are made with light wire frames and canvas covers. Miss LENA SETTER, a shop-girl of New York City, who supported her mother and family on \$6 a week, was so overjoyed at the raising of her salary recently to \$7.50 a week, that she became delirious and died two days later.

RIOTOUS MOB IN CLEVELAND

ASSAULT INNOCENT MEN.

Police Were Lenient, But Will Now Draw the Line.

Headed by two labor leaders, 5,000 idle men marched through the streets of Cleveland and created consternation throughout their line of march. Street cars were stopped and stoned, wagons seized and their contents thrown into the street.

At 10 o'clock in the morning the crowd formed in the public square as has been their custom every day for almost two weeks. Speeches were made by several leaders, and the men were cautioned to commit no acts of violence.

When crossing the viaduct a dozen teamsters and drivers were stopped. One was conversing with a woman, but was not serious. Another was driving a horse-drawn wagon and the fruit dumped in the street.

At the corner of Pearl street and Franklin avenue a motorman who refused to stop his car was hit with a stone, but was not seriously injured. A teamster in the employ of Wm. Edwards & Co. was hit with a brick, as were several others, but none were badly hurt.

At night the Socialists marched through the streets. Their cheers were heard for blocks. A drum corps headed the line. A large detachment of police was in the street, but no outbreak occurred.

HAYES WAXES WROTH.

The K. of L. Official Calls a Powderly Story a Lie. At the meeting of the General Executive Board of the Knights of Labor, Chicago, there was much indignation at ex-General Master Workman Powderly's attack on John W. Hayes, Secretary of the board.

The trouble growing out of Powderly's effort to amalgamate all the big labor organizations in the country. On this subject Powderly is credited with having said among other things: "John W. Hayes, by calculated delays, stands in the way. He is the enemy of trades unionism and the stumbling block in the way of amalgamation."

Mr. Hayes, as well as other members, was excited over the attack. "It's a lie," said Mr. Hayes, "and Powderly, Gompers and all the alleged leaders at that meeting know it. Powderly thanks God that he no longer wears a crown, and I join him in his expression of thanks. I also thank God that I am responsible that he is not wearing a crown now."

I have letters in my possession that are scandalous in their content. They are so scandalous that I would condemn Powderly forever. I am not in the way of amalgamation and I have done my full duty toward calling this conference. These men knew it when they were denouncing the lowest of us for money for money for money and named the second Tuesday in June as the date for the conference and St. Louis as the place for holding it.

FAITH IN THE FUTURE.

Encouraging Prospects Ahead Despite All the Pessimistic Events of the Past Week. R. G. Dun & Co.'s "Weekly Review of Trade," New York, says: It is now as it has been for nearly a year the amazement of intelligent observers that the United States suffers so little from reverses which other lands share but which fall more heavily here than anywhere else.

The most reassuring sign of a marked decrease in liabilities of firms failing, which were only \$1,448,144 for the last week of April, and for four weeks, \$2,722,708, of which \$4,643,367 of that sum was for the week ending April 15. The amount of liabilities at the South was \$2,919,419 against \$3,111,032 in Eastern, and \$2,692,257 in Western States. The failures this week have been 233 in the United States against 216 last year, and 35 in Canada against 27 last year.

MAY DAY IN EUROPE.

There Were No Serious Disturbances at Any of the Capitals. Dispatches received at London from the different capitals of Europe show that May Day passed without any serious disturbances. All was quiet at Berlin and Vienna, although meetings of workmen and others were dispersed by the police in both cities.

RAILROAD STRIKE OVER.

Compromise Made With The Great Northern Men. The strike of the Great Northern railroad, which involved its 5,000 employes on its 3,700 miles of line and which has suspended traffic, both freight and passenger, for two weeks, is over. This was accomplished by adjudication of the claims of the employes and the road, the court being a joint committee of the representative leading business organizations.

The result of the committee's conference is that the strikers gain nineteen-twentieths of the points made. President Hill conceded the wages of the engineers, firemen, conductors, brakemen, boiler makers, trackmen, section men and blacksmiths. The reduction in the cases of these men was 10 per cent. The wages of car inspectors, car repairers, oilers, operators, etc., were also practically restored.

The following official telegram was sent out by President Debs and Vice President Howard of the American Railway Union: "To the strikers of the Great Northern: A settlement has been reached. Report for duty at once."

How They Stand.

The following table shows the standing of the different clubs composing the National Base Ball League: Club. W. L. Per. Club. W. L. Per. Cleveland. 9. 2 818 New York. 6 7 462

ST. LOUIS. 9. 4 667 Brooklyn. 5 8 385 Philadelphia. 8 6 571 Chicago. 3 11 214 St. Louis. 6 6 500 Chicago. 2 8 260

BEYOND THE STATE'S POWER. The Supreme Court of Pennsylvania Reversed in an Interstate Commerce Case. "No State can levy a tax on interstate commerce in any form," was the gist of the decision announced by Justice Brewer, of the United States Supreme Court. J. W. Mann was agent for a Chicago firm south in Bristol, Pa., orders for picture frames. An ordinance of that required such solicitors to pay a license, failing to do this Brennan was fined \$25 the city court, and on appeal the Supreme Court of Pennsylvania affirmed the judgment.

THE Dickinson College baseball team has two Indian pitchers, and the Harrisburg Baseball Club also possesses an Indian pitcher named Mack. BOSTON'S infield is well nigh perfect. The four men play almost as one, the best of team work resulting. They all seem to be at the right place all the time.

MCPHEE, of the Cincinnati, an 1 Tony Mc Lane, of the Baltimore, are the only players in the big League who played with the American League in its inaugural year. The Baltimore's right field fence has been moved in about thirty feet, and the cranks in the Monumental City are already figuring on the number of home runs Dan Brouthers will make this year.

THE old battery of Bennett and Radbourne has been singularly unfortunate this year. Bennett lost both legs and Radbourne had an eye destroyed by a charge of shot. Manager Frank Selee, of the Boston, has already begun to make preparations for a grand testimonial for the benefit of Bennett to take place during mid-summer.

ADRIAN C. ANSON has been the marvel of the baseball profession. No other man who ever played ball can point to twenty-three years of successful life as a player on the field. Anson has done with the game as a player, that is sure, and while in a great emergency he may jump in for a day or so still he will not be out for a playing record of any sort. As a matter of fact, it is a physical impossibility for Anson to continue playing. He is thirty pounds over his playing weight at present.

THE Pennsylvania peach crop is not damaged. SMALLPOX has become epidemic at Chicago. THE rainfall in Arkansas has been unusually heavy. MISSOURI farmers are plowing up millions of the seven-year locusts.

A WOMAN LEADS IN A RIOT.

FIVE MEN SERIOUSLY HURT.

And Two of Three Probably Fatally.—The Cox Rioters of Pennsylvania the Scene of Trouble.

About 6 o'clock Saturday morning a riot occurred at the Painter plant, Scottville, Pa., of the McClure Coke Company, in the Deputy Sheriff Sanford White and Bookkeeper E. B. Boddy were badly beaten and two or three of the rioters were wounded. There were a few men working in the coke yard when the Hungarians and Poles living in the company houses decided to drive from work. The plant had only started at 3 o'clock and had not half a complement of men.

Shortly before 6 o'clock about 70 women living at the Painter plant, marched to the coke yards armed with clubs and coke forks. They were followed closely by the entire population of the plant. When they reached the little bridge, about 20 yards from the coke yards, they were met by Sanford White and E. B. Boddy, who commanded them to halt. They pressed on, and the woman in the lead hit White on the head with a hater, and he opened fire on the crowd. Not enough deputies were present, and the angry mob closed in on White and Boddy and brutally beat them.

After White had been knocked down, a big Hungarian was about to hit him with an ax, when James Farr knocked the striker down. With considerable trouble White and Boddy were rescued from their assailants and taken to the store building. Later White was sent to the Connelleville Hospital, Dr. Rogers, who attended him, says White has no chance in a hundred to recover. Boddy was not so much hurt.

Just how many of the strikers were injured it is difficult to say as the friend of the injured people took them away to their homes. One account placed the number of wounded at 10, but this is clearly impossible, as only White did any firing. Boddy refusing to shoot, three are known to be wounded for certain, two of whom were arrested, and these were the only ones arrested.

Deputy Sheriff Richards and Allen arrived shortly after the riot, and with a force of about 40 deputies, at once commenced the work of arresting the leaders of the mob, sixty-three were arrested, among whom were a dozen of women, one of whom had been shot through the ankle. One of the men arrested was shot in the back under the shoulder, the bullet lodging under the breast bone, he died shortly through the right arm. The prisoners were taken to jail to Uniontown.

THE NATIONAL GAME.

ENGLAND has organized her first baseball team. PARKER is the tallest man on the New York team. THE cry all along the line is, anything to beat Boston.

SOUTHERN practice trips will be in vogue again next spring. LATHAM has been appointed field captain of the Cincinnati. MILLER will play third base and captain the St. Louis Browns.

THERE are twenty-five players on the payroll of the Washington Club. THE New York Club intends to carry seventeen men throughout the season. JENNISON, Reitz and McGraw are playing phenomenal ball for the Baltimore.

The Chicago Club has returned to the use of the old and famous white stockings. Eastern Glasgow, of Syracuse, the post and broker, is an enthusiastic baseball fan. BOSTON has the three shortest outfielders in the League in McCarthy, Duffy and I. Banon.

THAT great American query, "What's the score?" has gone on duty for the season of 1894. THE mascot craze that was so prevalent in baseball a few years back has died out entirely.

THERE are four players among the Chicago who measure six feet one inch in height and two who are six feet tall. It is a noteworthy fact that every man on the Baltimore team began his baseball career either as a pitcher or a catcher.

MURPHY, the New York player, will make his mark in the League. He has showed up strongly in batting, fielding and base running. EX-PRESIDENT JOHN B. DAY, of the New York Club, thinks that this will be the most successful year for baseball in the history of the game.

THE Dickinson College baseball team has two Indian pitchers, and the Harrisburg Baseball Club also possesses an Indian pitcher named Mack. BOSTON'S infield is well nigh perfect. The four men play almost as one, the best of team work resulting. They all seem to be at the right place all the time.
