A MIRACLE IN MISSOURI. THE ACHIEVEMENTS OF MEDICAL SCIENCE FAR MORE WONDER-FUL THAN THE MAGIO OF THE EAST.

The Remarkable Experience of Por Einster Woodson, of Faname, Mo.— For Ten Years a Cripple—To-Day A Well and Hearty Man.

(From the Kansas City Times.) The people of Rich Hill, Mo., and vicinity ave recently been startled by a seeming miracle of healing. For years one of the st known men in Bates and Vernon counies has been Mark M. Woodson, now post naster of Panama, and brother of ex-State Inspector of Mines, C. C. Woodson, of this elty. The people of Rich Hill, where he formerly resided, and of his present home, remember well the bent form, misshapen almost from the semblance of man, which has painfully bowed its head half to earth and labored snall-like across the walks season after season, and when one day last month it straightened to its full height, threw away the heavy butt of cane which for years had been its only support from total helplessness, and walked erect, firmly, unhesitatingly about the two cities, people looked and wondered. The story of the remarkable case has become the marvel of the vo counties. Exactly as Mr. Woodson told to a Times reporter, it is here published : "For ten years I have suffered the tor-

ments of the damued and have been a useless invalid; to-day I am a well and hearty man, free from almost every touch of pain. I don't think man ever suffered more acute and constant agony than I have since 1884. The rheumatism started then in my right knee, and after weeks of suffering in bed I was at last relieved sufficiently to arise, but it was only to get about on crutehes for five rears, the allment having settled in the loint. Despite constant treatment of the most eminent physicians the rheumatism grew worse, and for the last four years I have been compelled to go about bent half toward the ground. In the winter of 1890-81, after the rheumatism had settled into its most chronic form, I went to Kansas City upon advice of my brother, and for six weeks I was treated in one of the largest and best known dispensaries of that city, but without the slightest improvement. Before I came home I received a strong galvanic battery, this I used for months with the same result. In August, 1892, I went to St. Louis, and there conferred with the widely known Dr. Mudd of hospital practice fame, and Dr. Kale of the city hospital. None of them would take my case with any hope of affording me more than temporary relief, and so I came home, weak, doubled with psin, helpiess and despondent.

"Auout this time my attention was called to the account of a remarkable cure by Dr. Williams' Pink Pills for Fale People of locomotor ataxia, rheumatism and paralysis, I ordered some of the pills as an experiment. When I began to take them, the rheumatism had developed into a phase of paralysis; my leg from the thigh down was cold all the time and could not be kept warm. In a short time the pills were gone, and so was the cane. I was able to attend to the duties of my office, to get about as a well and strong man. I was free from pain and I could enjoy a sound and restut night's sleep, something I had not known for ten years. To-day am practically, and, I firmly believe, permanently cursed of my terrible and agonizing allment. No magician of the Far East ever wrought the miracle with his wand that Dr. Williams' Pink Pills did for me."

To verify the story beyon I don't think man ever suffered more neute and constant agony than I have since 1884.

doubt Mr. Woodson made the following affidavit:

STATE OF MISSOURI, | SS.

I, M. M. Woodson, being duly sworn on my oath, state that the following statements are true and correct as I verily believe.

M. M. Woodson.

Subscribed and sworn to before me this 3d day of March, 1894.

JOHN D. MOORE, Notary Public,

Dr. Williams' Pink Pills for Pale People are manufactured by the Dr. Williams' Medicine Company, Schensetady, N. Y., and are sold only in boxes bearing the firm's trade mars and wrapper, at 50 cents a box or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Co.

WE WILL MAIL POSTPAID o fine Panel Picture, entitle

THE COAL MINERS' STRIKE

MAY POSSIBLY END SOON.

On a basis of 69 cents for Pennsylvania and 60 for Ohio, With Corresponding Rates Elsewhere.

The great coal strike is on the eve of adustment, particularly so far as the operators of Ohio, Pennsylvania, Indiana and Northern lilinois is concerned. The miners and operators of those coal districts will join in a movement which will bring about a settlement, re-open the mines and start the wheels

movement which will bring about a settlement, re-open the mines and start the wheels of industry in motion again. Such was the nature of the information received from A. G. Blair, of Toledo, who is registered at the Webbell House. Mr. Blair is the manager of 20 mines operated by the Wheeling and Lake Eric Radiroad Company. He is also one of the committee of Ohio operators who were appointed to affect a settlemat with the miners of this State.

As soon as he learned by the dispatches that the Hillinois conference came to naught, he immediately began a telegraphic correspondence with John McBride, President of the United Mine Workers, with the object of bringing about a satisfactory adjustment of the strike in Ohio. The correspondence ended, according to Mr. Blair, in an expression of willingness on the part of President McBride to arrange the terms which will bring the strike, not only in this State, but also in Pennsylvania, Indiana and Northern Illinois, to an end. Mr. Blair said: "President McBride consented to a settlement, It will be on the basis of 60 cents for the Pennsylvania miner and 60 cents for the Ohio miner. The Indiana and Northern Illinois men will go back at a relatively high rate. This will leave only the Southern Illinois men will go back at a relatively high rate. This will leave only the Southern Illinois men will go back at a relatively high rate. This will leave only the Southern and Central Himois, cannot but be forced to a settlement on account of the competition of the Indiana operators, who will resame operations with the rest of us."

Mr. Blair was asked when the settlement

Mr. Blair was asked when the settlement ould be affected, and replied in a tone which indicated positiveness that the strike would be over within a day or two. The action of the Ohio and Pennsylvania operators will virtually be a union with the miners to bring the Illinois operators to terms, and will be a contest against the only company which has constituted itself an obstacle in the way of an adjustment which has been awalted with maxiety by the entire country. d with anxiety by the entire country,

PRILADELPHIA. The effect of the coal THIADELPHIA.—The effect of the coal strike and business depression is apparent in the report of coal shipments of the Pennsylvania railroad for the week ending May 26. These are for the shipments east of Pittsburg and Erie.

For the week ending May 26: Coal. tons, 19,377; eoke, tons, 15,836; total tons, 197,213. Total for year to date, 5,967,235 tons; to this date last year, 8,430,724 tons.

MILITIA ON GUARD AT OSRALOOSA.
OSRALOOSA, In.—The 700 striking miners at ivans, Muchakinok and this place made no utbreak, being awed by the presence of the ve companies of State troops which were ushed to the scene.

MINERS BEEDING GOV, MATTHEWS,
BRAZIL.—The proclamation of Gov. Matthews, insisting on the sheriffs preserving
order in the counties in Indiana where the
miners are showing a riotous disposition, has had a good effect here.

ERIE'S INDUSTRIES AFFECTED.

ERIE, PA.—Watsons paper mill, employing 400 men was compelled to close on account of lack of fuel. Several other large manufacturing plants will suspend in a few days as a result of the coal famine.

REVIEW OF TRADE.

Business Less Unsettled by Strikers Than Expected.

R. G. Dun & Co's weekly review of trade says: It is a sign of cheering import that in finished business represented by clearings and railway tonnage, there has been less decrease since the strike began than might have been expected. But in wholesale business, the orders which start the wheels, to result in

orders which start the wheels, to result in tonnage and payment weeks or months later, there seems to be an actual decrease.

Meanwhile the consequent interruption of traffic and industry increase. The stoppage of iron furnaces between the Allegheny mountains and the Mississippi river has be-come complete and a great number of con-cerns manufacturing iron, and others requir-ing soft coal or coke for fuel havebeen forced to ston. Business cannot ingrease in volume to stop. Business cannot increase in volum under such circumstances and yet payment

to stop. Business cannot increase in volume under such efreumstances and yet payments through all clearing houses for the week show a decrease of only 20.8 per cent, compared with last year.

Though a large number of works are idle, the demand for products is not what might be expected either in volume or in urgency. The output of iron and steel has been suddenly and sharply reduced, but the reduced supply seems about as sufficient for the demand as it was a month ago, except in bessemer. Sales of small lots of bessemer pig at places as distant as West Troy and Duluth, for transportation to the Carnegie works near Pittsburg discloses how completely stocas are exhaused, and sales for delivery in July and August at \$11 to \$11.15, a price \$1.50 higher than prevailed a few weeks ago, indicates belief that the termination of the strike will not soon bring back the old prices. But for most products, notw-thistanding the interruption, the demand is exceedingly narrow, and buyers feel that the present advance is but temporary. Shipments of boots and shoes for the week, and for the past four weeks are a little larger than a year ago, and there are orders for some staple products to warrant work for some time to come, but many factories are discharging cutters, or otherwise reducing hands, because their orders do not justify hope of running much longer.

Sales of wool at three chief markets have been 3,584,000 pounds for the week, against 2,705,000 last year, about 6,000,000 per week being required from these markets for a full supply. New flue territory and Texas wool has sold at 28a 29c and 30a 39z cleaned, appears to be about the ruling price, but at Boston demoralization makes prices nominal. Again the lowest price ever recorded has been made for cash wheat, 564 c, at New York, against 75c a year ago, while the average in May, 1992, was 90c, and in April, 1891, \$1.185, W. vern receipts are maturally small, only 1, 4,864 bu for the week, against 2,919,599 last year; but Atlantic exports were only 807,800 bu, against 2

tain.

Liabilities reported in failures for the fourth week of May were \$2,593,087, and for four weeks ending May 24, \$11,391,042, of which \$4,445,605 were of mannfacturing and \$5,806,891 of trading concerns. Reports yet to come in may increase the aggregate to \$14,000,000 for the month.

Failures this week have been 183 in the United States against 238 last year, and 27 in Canada, against 21 last year. Only two failures, both banking, are for \$100,000 or more.

NINE PERSONS KILLED

And More than Three Score Injured, Some Fatally.

The St. Paul limited southbound train on the Wisconsin Central railroad met with a horrible accident. The train was made up of even conches and sleepers, and while running at 50 miles an bour struck a defective switch at Mannville, a deserted station near atarshifeld, Wis, derailing the entire train and piling engine and cars in a heap of broken timber. The entire mass was soon in sheet of flame. The dead are: James Hubbard, engineer,

The dead are: James Hubbard, engineer, Steven's Point; George Gebhardt, fireman, Steven's Point; John Bigelow, head brakeman, Steven's Point; W. B. Russell, civil engineer, Steven's Point; aged man and woman, names unknown, buried in the ruins, From out of this tangled mess men and women, who were lucky enough not to be pinned down, crawled, many making wonderful escapes. About 50 passengers were on the train.

IN MASSACRUSETTS.

terial escapes. About 50 passengers were of the train.

IN MASSACRUSETTS.

Two freight trains came together at Sharon Heights, Mass., on the Providence division of the Old Colony railroad, wrecking the engine and three loaded cars, killing three and injuring two persons, one badly. Matthew Chapman, of Roxbury, Mass., the engineer, was thrown through the eah window, but escaped with a few brulses. Edward E. Goodwin, the freman, of Roxbury, was instantly killed, as was also the head brakeman, Benjamin McLeod, of Boston, who was riding in the engine. A young man who, from papers on his person, was probably named Frederick Lawrence, about 18 years old, and Christopher Murray, of Pawtucket, were riding between the tender and the first car. Lawrence was crushed to death and ear. Lawrence was crushed to death and Murray was badly injured.

The rear coach of a train on the Albany and Columbia branch of the Southwestern railroad, a division of the Central railroad of Georgia, was overturned by a broken rail at Hottz, near Macon, Ga., and 40 people were injured. The train consisted of six coaches loaded with excursionists from Andersonville to attend Decoration Day experiess at the to attend Decoration Day exercises at the National Cemetery. The Intally injured are: John Smith, of Biuffton; Andrew Jones, of Edison, and Mrs. Little, of Hilton, Ga. About 1,000 people were on the train. The derailed coach, containing over 106 people, ro;led down a steep embankment.

THE GREAT FERRIS WHEEL

It is Being Shipped to New York, But There is no Site Selected.

New York City is to have the great Ferris wheel, the engineering wonder of and the sentral attraction of the World's Fair at Chiengo last summer. But where it is to be Chicago last summer. But where it is to be located is the question which is worrying Mr. Ferris, It is being rapidly taken down in Chicago and shipped to New York city. There have been rumors that it is going up on the southern half of the block bounded by Thirty-seventh and Thirty-eighth streets, Broadway and Sixth avenue. The owner wanted \$40,000 a year ground rent. He still wants it. Mr. Ferris feels certain, though, that he will yet secure a good site.

THE LABOR WORLD.

THERE are 30,000 union musicians. CHICAGO plumbers get \$3.75 a day.

SYRACUSE, N. Y., has a labortemple. LONGSHOREMEN have thirty unions.

ARRON, Ohlo, does not employ foreigners THERE are 8000 Brotherhood bookbinders. NEBRASKA has a State Federation of Labor. Baltimone musicians have refused to join ne national union.

Orz of the labor-saving improvements in machinery is an attachment carrying four machine needles that make 1500 stitches a minute. This is used on infants' and chil-dren's white goods and corsets.

Tan Brotherhood of Railroad Trainmen paid for disability and death benefits nearly \$3,000,000 during the last ten years. Five bundred and forty-six local branches, composed of men, are affiliated with it, besides seventy-seven auxiliary branches, the members of which are females.

The Midway to Become a Canal, The South Park Commissioners, of Chicago, have decided to turn Midway Plaisance into a canal 100 feet wide, with walks and lawns upon each side. The Illinois Central Railroad declares that it will never allow the canal to pass under its tracks and a legal contest is probable.

The Dry Goods Market.

The imports of dry goods at the port of New York for the week were \$1,218,591, and the amount marketed \$1,159,138. For the corresponding week of 1893 the imports were \$1,854,207, and the amount marketed \$1,667.

PROCLAMATION TO STRIKERS.

Gov. Pattison in an Official Notice Warns the Idle Men to be Orderly. Gov. Pattison received from Sheriff W. H. Wilhelm, of Fayette county, a letter recounting the murders and depredations committed in the Connellsville coke country during the present strike, the resistance offered his deputies by strikers and the armed mobs of strikers patroling the region. He concluded

Considering all the circumstances, I regard the situation as critical, and, as an emergency may at any moment arise which will make it necessary to call for the aid of State troops, I communicate to you these facts that you may in some degree understand the situation and the necessity for prompt action.

Gov. Pattison telegraphed the sheriff as

Your communication relative to disturbane in your county has been received. I have issued the following proclamation, which print and post conspicuously throughout the sections of your county affected. Communicate to me details as to any further disturb-

ances.

The proclamation follows:
In the name and by authority of the Common wealth of Pennsylvania - Proclamation:
Whereas. It had been represented to me by the proper authorities of Payett's county that rioteous demonstrations exist in various sections of said county, whereby the lives and property, peace and safety of the people are threatened, which the civil authorities are unable to suppress; and
Whereas. The Constitution and laws of this Commonwealth authorize the Governor

unable to suppress; and
Whereas. The Constitution and laws of
this Commonwealth authorize the Governor
whenever, in his judgment, the same may be
necessary, to employ the milita to suppress
domestic violence and preserve the peace.
Now, therefore, I Robert E. Pattison, Governor of the said Commonwealth, do hereby
admonish all good citizens, and all persons
within the territory and under the jurist etion of the Commonwealth against adding or
abetting such unlawful proceedings, and I do
hereby command all persons engaged in the
said rioteous demonstrations, to forthwith
disperse and retire peaceably to their respective piaces of abode, warning them that a
persistence in violence will compet resort to
such military force as may be necessary to
enforce obedience to the laws.
Given under my hand and the great seal of
the State at Harrisburg this 30 day of May,
in the year of our Lord one thousand eight
hundred and ninety four, and of the Commonwealth the one hundredth and eighteenth.
(Signed.)

YOU WANT THEM TO PAY THEIR OWN WAY.

even if you merely keep them as a diversion. In order to bandle Fowls judiciously, you must know something about hem. To meet this want we are selling a took giving the experience (Only 256. twenty-five years, it was written by a man who put all his mind, and time, and money to making a success of Chicken raising—not as a pastime, but as a business—and if you will profit by his twenty-five years' work, you can save many Chicke anutually, and make your Fowls earn dollars for you. The point is, that you must be able to defect trouble in the Poultry Yard as soon as it appears, and know how to remedy it. This book will teach you.

It tells how to detect and curr disease, to feed for eggs and also for fattening; which fowls to save for breeding purposes; and everything, Indeed, you eggs and also for fattening: which fowis to save for breeding purposes; and everything, indeed, you should know on this subject to make it profitable. Sent postpall for twenty-five cents in stamps.
