An interesting game of cricket was played at this place on July 4th, and the "Temperance Lily White," composed of old cricket players, was done up by what was called Stokes club, which was made up largely of men who had never played the game before. The score was 62 to 74 in favor of Stokes club.

Mrs. Bert Hays was driving a team of ponies yesterday morning and had her little daughter in the buggy with her. Just as she drove off the iron bridge into West Reynoldsville one of the ponies began kicking and they both started on a run. They ran into the ditch near the Italian's shoe shop and upset the buggy. About the time the buggy was going into the ditch Mrs. Hays jumped out with her daughter under one arm and escaped with a sprained ankle.

Last March the B., R. & P. R'y Co. reduced the wages of all employees 10 per cent. It was the general impression that after the miners' strike was settled that the employees of the B., R. & P. would strike. July 2nd the railroad company issued the following circular which will prevent any trouble: "Taking effect on and after Monday, July 9th, the wages of all employees of this company that were reduced 10 per cent. March 15 will be restored to the same amount as before the reduction."

Dandy Suits.

The Keystone band boys invested the prize money received from the DuBois band tournament in new band suits which are very pretty. With such excellent musicians, fine looking men and nobby suits the Keystone band is certainly a credit to our town.

A Long Ride.

Harry Kugler, a typo on the Philadelphia *Inquirer*, who was married to Miss Laura Phillips of this place a few years ago, is now visiting his father-in-law on Jackson street. Harry traveled from Philadelphia—a distance of 320 miles—on his bicycle. He left Philadelphia Thursday morning of last week and arrived here Monday evening.

A Brilliant Young Man.

James W. Stevenson, an erstwhile Reynoldsville young man who is identified with the *New York World* as one of its best reporters, is now enjoying a two weeks' vacation in this place and at Sandy Valley visiting his father, Henry Stevenson, and his father-in-law's family, Esq. M. M. Davis. His wife and son are spending the summer here and, of course, that makes Reynoldsville the most delightful place Jim can find to squander his short vacation.

Selling Without License.

Gretna Macro, the Italian who runs a grocery store at the East End of Main street, got a hearing before Esq. E. Neff last week for selling liquor without a license. Macro was bound over to court in the sum of three hundred dollars. It was three of his countrymen that "squealed" and made information against him, not that they have any respect for the law of our land, far from it, but because they were hankering after a little revenge. The Italians testified that since last September they have on various occasions received liquor from the aforesaid Macro.

Business Change.

The grocery store near Hotel McConnell, heretofore run by F. Swartz, changed hands yesterday, and I. M. and I. J. Swartz are now proprietors. The store has been a well kept establishment and has gotten a good trade. "Boby" and Isaac Swartz are gentlemenly young fellows with considerable business ability and we do not think the trade of the store will fall off any by the change. The young men have our best wishes for success. G. W. Swartz expects to move with part of his family to Florida in about one month and that is the reason the store was sold to his sons.

Extending Water Line.

When the tannery was destroyed by fire last December and there was doubts of its being rebuilt here, a few citizens of this borough and a few citizens of West Reynoldsville promised to have the water line extended to the tannery and furnish three or four plugs free for fire protection. Nothing definite was done about the matter but the company accepted the promise in good faith. When the buildings were almost completed and the company wanted the water it was not there nor could they get any satisfaction concerning it. The tannery company at last decided to have the line extended and put in plugs. A. G. Milliren will begin the work of laying the pipe to the tannery to-day or to-morrow. While two plugs, one furnished by West Reynoldsville and the other by the citizens of this borough, would be a small item for one or two years, yet it would keep good the promises made. It is hinted that the tannery company will hold some of the responsible parties to the promises made.

Death of James McMann.

On Monday, July 2nd, 1894, James McMann, who resided at O'Donnell, succumbed to the Monster Death. In the early part of the year Mr. McMann had a severe attack of pneumonia, but he had recovered sufficiently from that so as to be able to come to Reynoldsville and visit around a little when he got a back set which soon resulted in death. In 1872 James McMann was married to Miss Lucy Scott, sister of L. M. Scott of this place, and to them six children were born. The wife and five children, four boys and one girl, survive the father. One daughter preceeded the deceased behind the veil that hangs between time and eternity. Three years ago last winter when Rev. Jas. H. Jelbart was holding a protracted meeting at O'Donnell's Mr. McMann was taken into the Methodist Episcopal church and was from that time on a faithful and devout christian, and when the chilliness of death was creeping over his body he was able to testify that it was well with his soul. On the 4th of July the mortal remains of James McMann, who had lived in this neighborhood for many years, was buried beneath the sod of Beulah cemetery beside the grave of his daughter. The deceased was 52 years old. He was a kind hearted man and had many friends.

Reynoldsville Schools.

For a number of years eight teachers have been compelled to try and do the work of twelve teachers, which has not proven very satisfactorily to either the teachers or scholars, as the crowded condition of the rooms has interfered with successful work, especially in the primary department. This year there will be twelve rooms opened, eight in the public school building and four in the Reynolds Brick Star Building on Main street. Four rooms on the second floor of the Reynolds building will be fitted up with new desks and all the necessary paraphernalia for school purposes. This will be a big improvement over packing the rooms too full for one teacher to look after, and will allow all the children the privilege of attending school all day. For a few years part of the small scholars would attend in the forenoon and stay at home in the afternoon to make room for those who remained at home in the forenoon.

Ten of the teachers hired for the ensuing term are: Principal, Prof. T. R. Hillard; assistant principal, Prof. A. J. Postlethwait; D. M. Geist, Britta Butler, Mamie Aiman, Jessie Smeltzer, Evalyn Sechrist, Mildred Fuller, Minnie Whitmore and Mattie Waite. The other two teachers will be hired this week.

Allis; M. of F., Aaron Richards; K. of R. and S., L. C. Price; M. at A., T. J. White; Trustee, E. C. Burns. Wm. Copping was elected Representative to Grand Lodge.

S., Will Scott; Trustee, W. H. Ford.

Well Known Here.

U. G. Perry, son of R. T. Perry, of Ringgold, and who has been a clerk in the War Department for four years past, was a member of the recent graduating class of the Columbian University Law School, Washington, D. C., he passing a very creditable examination and graduating with honors. Mr. Perry employed his spare time since in Washington preparing himself for a professional life, and we most heartily congratulate him upon the acquirement of the title of Bachelor of Laws.—*Brookville Republican*.

Does Not Believe It.

The following dispatch appeared in the *Pittsburg Times* of Tuesday: Punksutawney, Pa., July 2.—W. C. Bond, who was defeated for the congressional nomination in Jefferson county two weeks ago, was here Saturday arranging for nomination papers. He will run as an independent candidate for congress in the twenty-first district.

A great many friends of Mr. Bond and enemies to the ring politicians of Jefferson county have been urging him to be a candidate, inasmuch as it is thought he would much better represent the interests of the laboring classes, but judging from the tenor of his speech at the county convention, the *Record* does not believe he has consented.—*Brookwayville Record*.

To Lock Haven on Bicycles.

John H. Schofield, John Sliffer and William Fergus rode their bicycles to Lock Haven, a distance of 107 miles, on Tuesday of last week. They left the mill at 3:40 A. M., rode to Curwensville for breakfast, stopped along the route for dinner and supper and arrived at Lock Haven at 10:20 P. M. One of the bicycles broke down near Clearfield and two hours was lost in waiting to get the wheel fixed. John Schofield says he can ride from this place to Lock Haven in twelve hours.

A New Enterprise.

The towns East and West Reynoldsville, Prescottville and Rathmel to be connected up by a system of telephone, bringing the cost within reach of every business house and private family; also the wiring of hotels for system of call bells. For particulars call on J. C. King & Co.

Having purchased the store of F. Swartz, we will continue in the business at the same stand, near Hotel McConnell, on a strictly cash system, but will guarantee to give you more goods for your money than any other store in town. Our room will be remodeled this week, but by next week we will be prepared to meet your wants with a full and complete line of groceries, flour and feed, and prices that will astonish all.

SWARTZ BROS.

Editorial Excursion.

The members of the Pennsylvania State Editorial Association hied away to Asbury Park, N. J., last week to sniff sea breeze, be tossed about by the waves of the Atlantic ocean, and in a general way enjoy the twenty-second annual outing of the Association. The editors and their wives and "best girls" met at Philadelphia Monday night and, through the kindness of the Pennsylvania Railroad Company, the excursionists made the trip from the "City of Brotherly Love" to Asbury Park Tuesday morning on a special train of seven coaches. This was a delightful and exhilarating ride of 89 miles over the elegantly equipped and well managed Pennsylvania Railroad. The scenery between Phila and the sea along this line is simply grand. Asbury Park was reached at 11:00 A. M. and the ladies were taken to the hotels in carriages and the "quill drivers" formed in line and marched to the hotels assigned them headed by a brass band.

The members of the State Association did not receive the especial attention from the citizens of Asbury Park that they have been accustomed to receiving from the cities they have visited in the past. This was on account of the National Editorial Association meeting at the same place and at the same time, as they received the attention. However, the Pennsylvania Association was not entirely forgotten and are indebted to the citizens of Asbury Park for favors received. The amusements at this delightful resort were so numerous that the editors did not lack for pleasure, in fact boating, fishing, driving, bathing and gazing at the phosphorescent foam-capped billows chasing one another up the sandy beach whiled away the hours so rapidly that ere we fully realized it the limited number of days had been piled into the archive of time and we were compelled to pack our little "grips" and turn our faces towards the active duties of newspaper life and our backs toward the restless old sea, even though we were loth to do so.

The sea breeze gives people almost unnatural appetites and makes sleep so enticing and sweet that even the cares of life cannot prevent a person from yielding to its gentle influence. People who visit this resort and want to sit down to a table well filled with eatables from a first-class culinary department, or want a good bed on which to fall into the embrace of morpheus, we unhesitatingly recommend Hotel Brandt. It is a new, neat and first-class house at reasonable rates.

Asbury Park is one of the most handsomely planned ocean resorts in the east, the streets and their arrangements being unrivaled. The main avenues in the city run at right angles to the ocean, and are two hundred feet broad at the shore front. A magnificent drive called Ocean Avenue extends from the north to southern boundary line. Between this drive and the ocean there is a wide board-walk or plaza extending the entire length of the city—about two miles long. Those who are too timid to boat ride on the bosom of the Atlantic can have their choice of three pretty lakes to go boating on, Deal Lake, Sunset Lake and Wesley Lake. The city is illuminated by night with electric arc and incandescent light; it has 2 banks, 3 daily papers, churches of every denomination, 200 hotels, 120 passenger trains daily, fine electric railway belt, amusements for old and young, new gaities for the ever-gay, beach promenades and pavilions, excellent highways for driving, &c., &c. The water is pure and has been a feature of the place for years.

Places of interest in the near vicinity are, Belmar, Interlaken, Lock Arbor, Elberon, made historic by President Garfield's death, Long Branch, Seabright, the famous Highlands of Navesink, and Atlantic Highlands.

Immediately south and adjoining Asbury Park, separated only by Wesley Lake, is Ocean Grove, made famous for its great camp meetings held there in August of each year. Bridges cross the lake connecting the two cities. The overworked men who want repose; the invalids who want rest, or the pleasure seekers will find these twin cities just the place they are looking for.

The beach is a delightful place for bathing, notwithstanding the fact that the waves dash against the shore with such force that men and women are often tossed helplessly about like a chip, and frequently have to be rescued by strong arms or their bodies would make food for the finny tribe that inhabits the sea.

By strolling along the beach in the evening time one can hear the ceaseless dash of the water upon the shore, listen to the music that is wafted on the breeze from the bands playing in the pavilions, hear the chatter of thousands of people as they promenade the broad walk and see the very latest fashions from New York, Philadelphia and other cities, for that is the time for exhibitions of fine togery.

The twenty-second annual outing was certainly a pleasure trip immensely enjoyed by all who took it in. We make our obeisance to the Pennsylvania Railroad Co. for their especial effort to make our trip a pleasant one.

Notice.
All parties knowing themselves to be indebted to me will please call and make immediate settlement.
