Reynoldsville has a ball team called Mayflowers, which is not classed in the first circle of ball players, but they can put up a good game. Last Saturday the following members of that club went to DuBois and played the Junior club of that place: Thos. Beatty, Wm. Bolt, Wm. Binney, George Ayers, Ed. Binney, Grier Clawson, Fred Butler, John Ross and Paul Kirk. The battery for Reynoldsville was Kirk and Butler. The score was 4 to 6 in favor of the DuBois boys.

The last Wednesday in June the Baptist Sunday school held a picnic in the grove and an accident happened which we did not "catch onto" until we saw the girl on the street Monday of this week using a pair of crutches. The day of the picnic Olie Dunn and another little girl were on a swing and Olie's companion jumped off while the swing was in motion and turned the swing in the direction of a stump and Olie's left leg was caught between the stump and swing and was broken.

The Utopia Circle of this place invited the Whittier Society of Brookville to come to Reynoldsville to attend a sweet pea lawn fete on F. M. Brown's lawn yesterday. Twenty members of the Whittier Society were present. The bill of fare was replete with the best market and culinary art of the Utopia ladies could produce. During the afternoon the Utopians offered a prize of a silver souvenir spoon to the person who could draw the best picture of a bird or animal written on a card drawn. Mrs. C. C. Bensooter, of Brookville, carried off the souvenir. The lawn fete was an exceedingly pleasant affair.

A Bakery Wagon.

Gottlieb Bohren, the Reynoldsville baker, went to Brookville last Saturday to buy a wagon to peddle bread. The wagon will make regular trips through town, West Reynoldsville, Rathmel, Elencora and other places. Gottlieb is enterprising and does not propose to sit down and let bakers from other towns take his trade from him.

Birthday Present.

Miss Amelia Morrow, daughter of J. S. Morrow, has had a longing desire ever since she became large enough to "pound" a piano to own one. Last Sunday she reached that age when girls think they are almost as big as their mother—thirteen—and to her inexhaustible joy a new piano found its way to Morrow's parlor last Saturday while Amelia was showing her aunt the town.

Wants to Resign.

Edward C. Burns, tax-collector of this borough, wants to resign and a petition has been circulated around town for signers which will be presented to the Court asking that Burns' resignation be accepted and that Frank P. Addlesperger be appointed tax-collector of this borough to fill Burns' unexpired term. Since the above was set in type Mr. Addlesperger has refused to accept the collectorship and the petition has been withdrawn.

A Luxury.

According to all reports huckleberries will certainly be a luxury this year; the berry has always demanded a fair price in Reynoldsville. David Hartman, Henry Roden, Milton Winslow and Will Bush "rigged out" and went to the huckleberry mountain last week but had to return without berries. It is claimed that there are no berries on the Clearfield mountains. Jack Frost is accused of visiting the ridges and destroying the crop.

Hurt in The Mine.

John Conners, a miner, was badly injured in the Hamilton mine last Wednesday forenoon. He set fire to a fuse for a blast and went into an adjoining room to wait until the shot had gone off and the smoke cleared away. The "rib" between the two rooms, where he was sitting was not as thick as Mr. Conners thought it was and when the shot went off the "rib" blew out and Mr. Conners was blown about twenty feet. His head was cut in two places and his right leg badly bruised. He is getting along nicely.

Broke the Law.

Two youthful sports of this place were arrested several days ago for trespassing and hunting rabbits. Any person that reads knows that there is a certain season of the year that rabbits can be killed lawfully, but that this is not the time for killing bunnies. Some time ago Alfred Wiggott published a notice in THE STAR warning people not to trespass on his land. The two boys referred to not only laid themselves liable for trespass, but also for hunting rabbits out of season. The boys got off by paying a small fine and costs.

Too Many Errors.

The Reynoldsville and DuBois ball clubs played a game on the Punxsutawney grounds last Wednesday afternoon. When the game was arranged for the winning club was to get all the gate receipts, but before the game began it was decided to divide the receipts. The score was 12 to 8 in favor of DuBois club. Up to the seventh inning Reynoldsville boys were ahead, as the score at the seventh inning was 8 to 2 in favor of Reynoldsville, but in the eighth the Reynoldsville short stop made three bad errors and DuBois got nine runs in that inning, and that gave them the game.

A Girl and a Match.

Last Wednesday forenoon the cry of fire! was given at Hotel Belnap. The firemen were soon on the scene, but their services were not required, as the little blaze had been extinguished. Francis, little daughter of Thomas Green, one of the proprietors of Hotel Belnap, got a match, went to the barn and set some straw afire in a stall. One of the girls saw the smoke issuing through the side of the barn and gave the alarm. Francis was standing looking at the fire laughing when the girl ran into the barn. Had the fire been allowed a minute or two more of a start Reynoldsville would in all probability have had a big fire.

Collar Bone Broken.

G. Walter Palen, superintendent of the tannery in West Reynoldsville, had his collar bone broken and right side badly injured last Sunday. Mr. and Mrs. Palen had driven to church in the forenoon and Mrs. Palen did not return with her husband. Mr. Palen took Philip Koehler's three year old son, Robert, in the buggy with him and when he arrived at Mr. Koehler's he carelessly threw the lines down and got out of the buggy, and just as he was setting the boy out Mr. Boner drove past and Palen's spirited nag wanted to follow after. Mr. Palen spoke to the horse and reached for the lines but the horse did not stop. Mr. Palen don't know just how he was injured. The horse stopped at the barn without doing any damage to the buggy.

Y. M. C. A.

We have made several attempts since taking the editorial chair of this paper to try and get our citizens interested in a Y. M. C. A. for Reynoldsville, but we have never been able to do more than get the people to talk about the advantages and privileges it would give the young men of our town, and there it dropped. A scheme was stirred up the early part of this year which looked favorable for a reading room at least, but this only ended in talk. We were asked by a young man the other day why we could not get a Y. M. C. A. started in Reynoldsville? Who will answer? We believe the real reason is lack of interest on the part of those who could help the organization along in a financial way. It takes money to get the rooms fitted up. If this was done there would be no trouble about keeping up the running expenses of the association. When parents, who are interested in their boys and want to keep them off the street and out of devilishness, consider the benefit such an organization would be for their boys they would become interested and give liberally and willingly towards one in this town. All well regulated towns of any consequence to-day are getting a Y. M. C. A., and Reynoldsville needs one badly. Get some place attractive for the boys to gather to spend the evenings and keep them off the streets and you will do a good work which may save you several times what you invest in it, save you from disgrace and save your boy or girl from a wasted life. A Y. M. C. A. in Reynoldsville is not an impossibility or we would not mention it. If we have a philanthropist in Reynoldsville let him come forward and expose his large heart by offering a big donation for a Young Men's Christian Association in this place.

Try it Here.

The Mercy and Help department of the Epworth League of the M. E. church of this place, have taken up a new branch of their work. This department has decided to take charge of babies of mothers who wish to attend church and bring their babies with them. The young ladies took charge of two babies last Sunday during the morning services and the result was so satisfactory that the mothers and the congregation and the Mercy and Help committee and the babies were well pleased at the idea. The church parlor is a large, cool room and makes a very pleasant place for a temporary nursery on such occasions. The committee in charge of this work have a large number of young ladies to call on for assistance if necessary, and as there are four nice class rooms, besides the parlor down stairs quite a number of babies can be taken care of while the tired mothers may have an opportunity of attending church.—Punxsutawney News.

Paid for the Potatoes.

The forest fire that raised such a commotion and smoke in West Reynoldsville on the 12th inst. was started by Wm. Burke, who had a piece of land near the school house that he wanted to burn the sticks, &c., off. R. S. Williams owned a potato patch nearby which was destroyed. Mr. Williams wanted Mr. Burke to pay the damage done to his potato crop by the fire, but Mr. Burke failed to settle and the case was given to W. L. Johnston, Justice of the Peace, in West Reynoldsville. James Moore and W. W. Wells were selected as appraisers, and they put the claim of damage at \$20.00, which Mr. Burke paid, also the costs connected with the case. Before people start fires in the woods they had better know a little about the law concerning such things, as it is very strict. Mr. Burke got off very easy. There is entirely too much carelessness about fires in the dry season. People should be more careful.

Little Things.

A serpent's fang is a little thing, but death is its victory. A baby is a wee little thing, but a constable was once a baby. A tongue is a little thing, but it fills the universe with trouble. A cross word is a little thing, but it is what stirs up the elephant. An orange-peel on the sidewalk is a little thing, but it has upset many a giant. A word is a little thing, but one word has been many a man's destiny for good or for evil. The acorn is a little thing, but the black bear and his family live in the oak that springs from it.—Ex.

Petit Larceny.

A newspaper in Illinois recently brought suit against forty-three men who would not pay their subscriptions, and obtained judgment in each case for the amount of each claim. Of these, twenty-eight made affidavit that they owned no more than the law allowed them, thus preventing attachments. Then under the decision of the supreme court they were arrested for petit larceny, and bound over in the sum of \$300 each. All but six gave the bonds. The postal laws make it petit larceny to take a paper and refuse to pay for it.

A Minister Denounced.

The following resolutions were adopted last evening by Local Union No. 542, U. M. W. of A.:

WHEREAS, The Rev. Johnson of the Presbyterian church of Reynoldsville, Pa., took occasion on Sunday morning, the 15th inst., to deliver what he termed a labor sermon, and during his discourse he either maliciously or ignorantly insulted both officers and members of labor organizations, first, by impugning their motives in combining for mutual protection; second, that they had anarchic tendencies, and that working men were ignorant and if given an increase in wages would spend it for liquor. Therefore, be it

Resolved, That we, the members of Local Union No. 542, U. M. W. of A., do enter our solemn protest against such misrepresentation of facts, and denounce the author of the above statements as being unworthy the exalted position he occupies, and that we withdraw both confidence and support from him unless he makes a public apology for his unwarranted attack upon our integrity and honesty of purpose. Be it further

Resolved, That while it may be considered presumption on our part to offer the Rev. gentleman advice, as we are ignorant, we would suggest that before he makes another tirade upon the creators of all wealth, that he studies the economic question of the day and learn from statistics compiled at Washington, D. C., that every man who works contributes \$13.00 per day to the wealth of this country, while the average wages of 1893 was only \$1.23 per day, he will then realize that we have good and sufficient reason for labor organization. COMMITTEE.

Forest Fire at Medix.

S. B. Rumsey, superintendent of the A. V. R'y, run a special train from Reynoldsville to Medix Run last Friday to haul the DuBois fire company to that place to fight forest fires, which threatened to destroy the \$50,000 mill of the Medix Run Lumber Co. and 4,500,000 feet of lumber that was piled around the mill. The fire had been raging in that section several days, and the men employed in and about the mill had been fighting it, but Friday forenoon the demon had crept so close to the property that the indications were favorable for destroying the mill and lumber, and it was at this point the lumber company asked for assistance. The DuBois fire company done good work. During the two days the mill men fought the fire a large number of rabbits were seen as they attempted to get away from the fire. One black bear in his hasty retreat from the heat passed close to two of the men who were firefighting. As the train hauling the fire company was nearing Medix at a high speed the driving-rod on the engineer's side broke and struck the cab, demolishing it badly. The engineer, Lew Arnold, narrowly escaped instant death. The train had to be pushed into Medix by a passenger train which was following closely.

Power of the Press.

The immense power of a local newspaper possessing an attracting trade in the town in which it is published or diverting it into other channels can hardly be estimated. Further, it is a matter that is seldom considered as an important factor in a town's prosperity, for the simple reason that business men generally do not give it a thought. He who will partially consider the assertion will be convinced of the truth of it. The local paper is very naturally biased in favor of the place of its publication and if given a fair living patronage by home business men will guard well their interests just as the merchant guards the interests of his individual customer. But if a niggardly support is doled out to it, and it is compelled to solicit custom from neighboring cities, it cannot in justice to those patrons exert itself in behalf of its own town as it otherwise would. Try a system of liberality in the matter of advertising expenditure and mark the result.—Ex.

An Ingenious Device.

E. B. Covill, the jeweler, has hit upon an ingenious device for turning out the gas jet at daylight which he leaves burning in his shop over night. When the jet was left burning until Mr. Covill reached his shop it heated the room up to an uncomfortable degree. So Mr. Covill attached a small alarm clock to the jet. To the winding bar of the alarm he affixed a small pulley. This was connected with a tape to a lever soldered to the stopcock of the jet. The alarm is set at 4 o'clock, and when it goes off the pulley winds up the tape which pulls in the lever and turns off the gas.—Brookwayville Record.

Miss Mollie McDowell, of New Bethlehem, who taught several very successful terms in the Reynoldsville borough school, and who was an applicant for room No. 3 this year, has been hired to teach room No. 3 in the New Bethlehem school. Miss McDowell is a good teacher and was well liked here.
