The Nubs the Best.

It is probable that ninety-nine out of every 100 farmers in this country baye the habit of shelling off the paraitly defective grains of the butts and nubs of their seed corn, and clating only the full shaped grains from the middle of the car. Till recently this plactice has never been questioned but actual experiments sometimes reveats errors in our most cherished traditions and customs, and so it may be in the selection of corn to plant. An intelligent writer in the American Cultivator has an "Agricultural item" that saves the nubs and butts of the cars that for a couple of centuries have been cast aside as no good. "Most farmers, in selecting their seed corn," says the writer, "break off the tip ends of the ears, especially those where the grains are either imperfect or malformed. It is probably true that corn from the impertectly developed tips cannot produce strong, vigorous plants. But there are some kinds of corn which, in favorable seasons, fill to their tip end with sound, well developed grain. It is really larger and heavier than the pinched grains from the middle of the car, where size is diminished so as to make the regular number of rows. There are large grains also at the butt of the ear. Here the cob is larger and the grains have greater room for development. We remember an interesting experiment tried some years ago by Dr. E. L. Sturdevant, in which a long strip of corn was planted just as it grew on the ear. The plants from the round, large grains at the tip were strongest when they came up and maintained their leadership through the season Those from the butt. which were also large, were next best, and the middle part of the cob produced the poorest plants. Yet we have often seen both the tip and butt broken off before shelling for seed, thus saving for planting what this experiment showed to be the poorest grain on the car for seed."

Metal-Plated Lumber.

Charles D. Kubach, a machinist who lives at 2858 Elliott street, Bal timore, has secured a patent on a machine which metal-plates lumber Mr. Kubach claims that the metal plated wood has stood the tests o fire and will prevent the spread o flames in any structure where the framework is so protected. This metal protection is a piece of shee steel that is drawn over the lumbe like a glove, by means of machinery rendering the space between the wood and the covering perfectly airtight. The thickness of this covering 1 about that of writing paper, and car be manufactured and placed on lum ber at less than 1 cent per square foot. This metal-plated lumber i not only fireproof, the inventor claims, but will be impervious to water and defy the havoc of rats.

A NO-TO-BAC MIRACLE. PHYSICAL PERFECTION PREVENTED

BY THE USE OF TOBACCO. An Old Timer of Twenty-three Years' To-bacco Chewing and Smoking ('ured, and Gains Twenty Pounds in Thirty Days.

LARE GENEVA, Wis., July 21-Special .-The ladies of our beautiful little town are making an interesting and exciting time for tobacco-using husbands, since the injurious offects of tobacco and the case with which it can be cured by a preparation called No-To-Bac, have been so plainly demonstrated by the cure of Mr. F C. Walte. In a written statement he says : "I smoked and chewed tobacco for twenty-three years, and I am sure that my case was one of the worst in this part of the country. Even after I went to bel at night, if I woke up I would want to chew or smoke. It was not only killing

LATE TELEGRAPHIC TICKINGS

As one result of the strike, negro railroad employes have become very numerous.

W. J. Lennard's bullet proof coat resisted shots at a test at Governor's Island, N. Y. Seven men were killed by an exploding dy-

namite cartridge on a wrecking boat near Portsmouth, England. The New York park department Saturday

discharged 100 laborers because they are allens. At Racine, Wis., Capt. John Crangle seri-

ously wounded his wife by shooting her and then killed himself.

Joseph Wallintz was hanged at Trenton, N. J., for the murder of James B. Lippincott, a deputy prison kseper.

Seventy-three men who took part in the Chicago strike gave bail there in sums ranging from \$2,000 to \$3,000.

At Traer, In., twelve stores, two shops and six dwellings, all frame, were burned. Loss, \$50,000. Origin incendiary.

The strike at the packing houses remains unchanged, at Chleago. On Saturday not more than 20 men of the 1,000 reported for work.

At El Paso, Ill, the careless handling of a lighted match by a young lady who was heating a curling iron caused a loss of \$176,000 by fire,

At Ashland, Wis., the jury in the Ed Fenuelly embezzlement case brought in a verdict of guilty. Fennelly, who was ecunty clerk embezzled \$16,282.

Mrs. William Benn is dying in Cleveland, O., from some disease which is causing the flesh to drop away from her body, leaving the bones and muscles have.

The two children of Mrs. Morinus Baker, of Paterson, N. J., are dead, and she and another woman are dying from the effects of trinking cherry beer.

The continental Palace Car Company has peen chartered, with a capital of \$5,000,000, to build cars at East St. Louis, Ill., as a rival of the Pullman company.

One hundred strikers, charged with particpating in Monday's riot at Pratt mines, Ala., where seven negroes and deputies were slaughtered, are in jail.

In a race on the Kingstown Yacht Club's sourse, Ireland, 50 miles, the Britannia for the eight time defeated the Vigilant. The Britannia won by 3 minutes, 7 seconds

At Kingstown, Ire., the Vigilant defeated he Britannia in the 50 mile race on Satur. lay by 3 minutes and 39 seconds. With an allowance of 1 minute and 10 seconds, the Britannia's defeat will be 2 minutes and 20 seconds.

An Italian workman at Nice was sentenced to six months' imprisonment for remarking, in learning of the death of President Carnot hat "It served him right. They should kill hem all, Crisp too."

John Crossley & Sons, brussel manufacturers, of England, have purchased the big mill of Horner Bros., in Philadelphia. The mill rives employment to 800 hands. The price is aid to be \$1,000,003.

At Montgomery, Ala., Peter Davis, Dan Washington and Charles Ezell, all colored, were hanged on the same scaffold. Two legroes were hanged there last Friday and wo more will hang next Friday.

The Massachusetts Supreme Court enjoined the Sugar Trust from doing further business n that State until it shall have complied with the law by filing a statement of its financial condition on March 1 of each year.

At Birmingham, Ala., fire broke out in a furniture store on Twenty-second street, desroyed nearly the whole block, including the Caldwell hotel, which was built in 1888. The loss is \$700,000; insurance, \$350,000.

At Millwankee Judge Seamans, in the United States court ordered the production of the telegrams that passed between Eugene V. Debs and C. S. McAuliffe, and F. A. Archibald, of the American Railway Union.

THE NATIONAL GAME.

CLEVELAND and Philadelphia are losing

Cannos, of Cleveland, now leads in the mat-ter of receiving bases on balls. CHANNERLAIN has evidently developed into Cincinnati's winning pitcher.

Gauverra, of Chicago, is bothering all the heaviest batters of the League,

O'ROURSE, late of Louisville, has signed to play third base for St. Louis,

New Yong is now the strongest club in the League from a pitching standpoint,

O'ROUMER lasted twenty years as a ball player, but only two months as an umpire, Surcaant, of St. Louis, has developed into one of the greatest outfielders in the pro-

lost a majority of the games that Baltimore dropped.

JENNINGS, of the Baltimore team, has been it nineteen times by pitched balls so far

Tuz only League clubs that have not been shut out this season are the Bostons, Phila-delphias and Pittsburgs.

Banronn, of Washington, is said to be the only player in the League who is exempt from Sunday ball playing.

BALTIMORE has gone crany over Hanlon's boys, and the city is now one of the best in the League from an attendance point.

In the St. Louis-Cleveland games of June 23 First Buseman Connor had but one put out and no assists, which is a record breaker.

Prefree, of Louisville, is playing some wonderful ball. If he has an equal on the diamond the player is certainly not in the big League.

KILLER, of Pittsburg, has probably had enough of the Brooklyns for this season, They have knocked him out of the box every time he has gone in against them.

NEARLY half of all the home runs made in the League so far this season have been made on the Boston grounds. The Bostons also lead the League teams in this respect.

The Boston management has taken the first step toward giving Boston at least one first-class catcher in securing that brilliant young backstop, Tenney, of Brown Univer-sity.

Time first base play of Tucker, of the Bos-tons, this season has never been surpassed. His record is twenty-two straight games without an error, and in thirty-two games an average of .999.

LOUISVILLE's poor record is brightened by five defeats of her oid rivals of Cinsinna it, from whom Louisville, in Association days, would have rather won the series than the championship. She also won three straight from the Brooklyns.

Axeon, of Chiesgo, does not allow any of his players to talk back to the umpire, and no wadays does very little kicking himself. Perhaps the old man has discovered in his many years' experience on the diamond that fighting the umpire does not pay.

Batring the impire does not pay. Batrinous has not yet won a game from Pittsburg, Chicago has not yet won any from Brooklyn, Louisville has yet to beat New York, Beaton, Brooklyn and Baltimore, Philadelphia has yet to win one from St. Louis, St. Louis has not yet beaten Balti-more, and Washington has lost six straight games to Baltimore.

How They Stand. The following table shows the standing of the different clubs composing the National Base Ball League:

NO SIGNS OF IMPROVEMENT. The Tariff and Strikes Put Business in Bad Shape

R. G. Dun & Co.'s "Weekly Review of Trade," New York, says: The effects of the two great strikes have not yet entirely worn off, and meanwhile disagreement between the two houses of Congress has made tariff ancertainties more distinct and impressive. It follows that the customary tests of the condition of business are less instructive than usual.

The financial situation is somewhat les The financial situation is somewhat less inversable, because the experts of gold have been resumed and are \$3,300,000 for the week, but treasury receipts \$2,046,391 for customs, against \$2,951,574 hast year, and \$7,474,553 internal revenue, against \$2,979,-518 last year. The extraordinary puyments to anticipate the increase of taxation on whisky are rapidly locking up a large amount of canital.

of capital. The volume of domestic trade is 17.2 per cent, smaller than a year ago, when the panic and the scarcity of money caused what was then considered a paralysis. Foreign trade shows no important change. The most hopeful sign this week is that failures con-tinue comparatively few and not very import-ans. They numbered hast week 200 in the United States, against 467 last year, and 44 in Canada, against 25 last year.

FOREIGNERS BARRED.

Congressman Stone Pushes His Anti-Im-migration Bill Through the House. Congressman William A. Stone, of Alletheny, Pa., got his immigration bill through the House on Friday. He did it by stealing

gheny, Fa., got his immigration bill through the House on Friday. He did it by stealing a march on the opponents of the bill during the exciting debate in the Senate, which drew to the other end of the capital all but 39 or 40 mentars of the house. With this small attendance present in the house, Mr. Stone got the bill up and passed without a hitch, and without calling the yeas and nays. The bill as it passed is quite brief and is as follows: That no allen immigrant shall be admitted within the United States unless he or she shall exhibit to the United States in-spectors of arriving immigrants at the place of admission, a certificate signed by the United States consul or other authorized representative of the United States at the place nearest where said immigrant last re-sided, setting forth that the said consul or other United States representatives have made an investigation concerning said immi-grant and that said immigrant of the United States under the provision of the net of Con-gress approved Maxeh 3, 1891, entitled, "An net in amendment to the various acts relative to immigration and the importation of allens under contract or supplements," or by any other law of the United States that now exists or may hereafter be passed. Said immigrants shall, in addition, conform to all present reor may hereafter be passed. Said immigrants shall, in addition, conform to all present re-

ulrements of law. It shall be the duty of United States consuls It shall be the duty of United States consuls and United States representatives in other countries to investigate and grant or withhold certificates, as shall be disclosed on investi-gations under the directions and instructions of the State department, according to the laws of the United States, as aforesaid. Sec. 2. —That this act shall take effect from and after first day of January, Anno Domini, eighteen hundred and ninetv-five.

THE VIGILANT WINS

After Losing Seven the American Yacht

Finally Successful. A dispatch from Belfast says: -- The Vigflant demonstrated that she is a better sailer in a stiff breeze by defeating the Britannia for the Rear Commodore cup, valued at \$250. The Britannia was disabled after at \$250. The Britannia was deaded after the Vigilant had a gain of six minutes and gave up the race. This robbed the Vigilant of some of the glory of outsailing the Britan-nia. The Britannia was steered by Mr. Jam-ieson and the Vigilant by Mr. Herreshoff, The American boat was bandled throughout very smartly.

smartly. The result of this contest has rekindled the The result of this contest has rekindled the interest in the Britannia-Vigilant races, which was waning, owing to the Britannia's repeat-ed successes, as it is fully recognized that the Vigilant was a certain winner when the Brit-annia was forced to retire

The Voice,

The man with a husky voice is never sanguine. He is a pessimist, and gazes with unexpected eyes at persons on such slight security. the progress of events. Quick, sharp-ly defined tones denote the energetic man, the originator of projects. They characterize the "man of the world. the man of action, not of thought. The slow and hesitating speaker is rarely quick in action. His mental processes are tardy, though the prodicts may be of permanent value. Indecision is his chief defect, and he is never guilty of energetic resolve. The man of great intellect and good heart has usually a rich and pleasing voice. In ordinary cohversation it is low toned, serene, and distinct. In the heat of friendly debate it rolls forth in loud but harmonious vibrations.

No Barbers There.

Among the Ainu tribe, in Japan, a beard is considered so necessary to beauty that the women tattoo their faces to make up for their beardless-Dess.

The practical value of a great man's friendship is illustrated by the following anecdote: A gentleman who had long been attached to Cardinal Mazarin, and much esteemed by that minister, but little assisted in his finances by court favor, one day told Mazarin of his many promises and his dilatory performance. The cardinal, who had a great regard for the man and was unwilling to lose his friendship, patiently ex-plained to him the many demands made upon a person in his situation as minister, and which it would be politic to satisfy previous to other requests, as they were founded on services done to the state. "My Lord," replied his companion, "all the favor I expect at your hands is this, that whenever we meet in publie you will do me the honor to tap me on the shoulder in an unreserved manner." In two or three years the friend of the cardinal became a wealthy man on the credit of the minister's attentions to him: and Mazarin used to laugh, together with his confidant, at the folly of the world in granting their protection to

me but my wife was also alling from the injurious effects. Two boxes of No-To-Bac cured me, and I have no more desire for tobacco than I have to jump out of the window. I have gained twenty pounds in thirty days, my wife is well, and we are indeed both happy to say that No-To-Bac is truly worth its weight in gold' to us."

The cure and improvement in Mr. Waite's case is looked upon as a miracle-in fact, it is the talk of the town and county, and it is estimated that over a thousand tobacco users will be using No-To-Bac within a few weeks. The peculiarity about No-To-Bac as a patent medicine is that the makers, the erling Remedy Company, No. 45 Bandolph street, Chicago, abso utely guarantee th use of three boxes to cure or refund the money, and the cost, \$2.50, is so triffing as compared with the expensive and unnecessary use of tobacco that tobacco-asing husbands have no good excuse to offer when their wives insist upon taking No-To-Bac and getting results in the way of pure, sweet breath, wonderful improvement in their mental and physical condition, with a practical revitalization of their nicotized nerves.

Can't Blame Her

One of the leading bankers of Basle, when visiting the Menagerie Planet when visiting the actuation repast, after a particularly copious repast, was induced to purchase a young and vicious lion, of which transaction, however, he failed subsequently to retain any remembrance. The arrival of the lion first alarmed and then infuriated the banker's wife to such a degree that a dispute ensued. which has now resulted in a suit for divorce.
