Misnaming a Unitd.

Not long ago a child was brought to me for baptism, and when I asked father for the desired name, he replied that it was Hathsheba, writes the Rev. T. De Witt Talmage, D. "When Things are Against Us" in the Ladies Home Journal.

Now, why any parent should wish to give to a child the name of that infamous creature of Scripture times, passes beyond my understanding. have often felt at the baptismal altar, when names were announced to me, like saying, as did the Key. Dr. Richards of Morristown, New Jersey, when a child was presented him for sprinkling and the name given, 'Hadn't you better call it something else?" There is no excuse for any assault and battery on the cradie when our innguage is opulent with names musical in sound and sugges-tive in n caning, such as John, mean-"the gracious gitt of God"; or Henry, meaning "the chief of a househola"; or Alfred, meaning "God our, salvation"; or Nicholas, meaning "victory of the people"; or Ambrose, meaning 'immortal'; or And:ew, meaning 'manly'; or Esther, meaning 'a star'; or Abi-gall, meaning 'my father's joy'; or gail, meaning 'my father's joy"; or Anna, meaning 'grace"; or Victoria, meaning 'victory"; or Rosalie, meaning 'beautiful as a rose"; or Margaret, meaning 'a pearl"; or Ida, 'Goodlike"; or Clara, meaning 'llustrious"; or Amelia, meaning 'beautiful"; and hundreds of other names tiful"; and hundreds of other names just as good that are a help rather than a hindranes

THE TRUST AFTER NO-TO-BAC. Estimated That Holi a Million Tobacco
Users Will Be Cured in '94 by the Use
of No-To-Bac, Causing a Loss of Many
Millions of Dollars to Tobacco Manu-

CHICAGO. August 11—[Special.]—It was re-ported to-day that a large sum of money has been offered the proprietors of the cure for the tobucco habit called "No-To-Bac," which the tobacco habit catted "No-To-Rac," which is famous all over the country for its wonderful effect. This offer, it was said, was made by parties who desire to take it off the market and stop its sale, because of its injury to the tobacco business. Mr. H. L. Kramer, general manager of the No-To-Bac business, was interviewed at his office, 45 Randolph street, and when questioned promptly said:

"No, sir; No-To-Bac is not for sale to the tobacco trust. We just refused a bull call.

"No. sir; No-To-Bac is not for sale to the tobacco trust. We just refused a half million from other parties for our business. Certainly No-To-Bac affects the tobacco business. It will care over a half million people in 1894, at an average saving of \$50, which each would otherwise expent for tobacco, amounting in round figures to \$25,000,000. Of course, tobacco manufacturers' and deal-Of course, tobacco manufacturers' and dealers' loss is the gain of the party taking No-To-Bac. Does No-To-Bac benefit physically? Yes, str. The majority of our patients report an immediate gain in flesh, and their nicotine saturated systems are cleaned and made vigorous. How is No-To-Bac solid? Principally through our traveling agents. We employ over a thousand. It is also sold by druggists, wholesale and result in the contraction. Principally through our traveling agents. We employ over a thousand. It is also sold by druggists, wholesale and retail, throughout the United States and Canada. How are patients assured that No-To-Bac will affect a cure in their case? We absolutely guarantee three boxes, costing \$2.50, to cure any case. Failure to cure incause the money back. Of course there are failures, but they are few, and we can better afford to have the good will of an ozensional failure than his money. We publish a little book called 'Don't To-bacco Spit or Smoke Your Life Away, that tells all about No-To-Bac, which will be mailed free to any one desiring it by addressing the Stering Remedy Co., 45-49 Bandolph street, Chicago."

Aluminum.

Experiments are being conducted at the armory in Springfield, Mass., in the use of aluminum for the bay onet scabbards for the new rifle. While the metal works well in bend ing and is about fifty per cent. lighter than the steel scabbards, no satisfactory method has been devised for soldering the edges together.

DESTITUTION IN THE WEST.

TERRIBLE EFFECTS OF DROUTH

The Sufferers Must Starve, Emigrate or be Fed By Charity.

An appeal for the drouth stricken portion of Nebraska, signed by a committee, has been sent to Governor Shouse of that state. It recites that the committe has just returned from an extended visit to the section through which the hot winds destroyed crops. The which the hot winds destroyed crops. The committee explains that it has reason to believe, from all it has been told, that thousands of families will "either starve, emigrate or
be fed by charity unless the people as a whole,
provide for them." The committee suggests as a solution of the problem that a special
assiston of the Legislature be called immediately to devise a State system of irrigation, and that the drouth-stricken district
be given employment on the ditches. The

tion, and that the drouth-stricken district be given employment on the ditches. The committee locates most of the distres west of Grand Island and Holdredge.

Governor Shouse is at present out of the State. The general impression is that the crop failures are not complete and that with economy, little actual suffering will result without State aid. The locality in which the drought was most severe has been troubled periodically since Nebraska was made a State. It includes several counties in which the soil is very sandy and requires at least one-third more rainfall or water than other farming lands in the adjacent counties.

A GREAT NEWS CENTER.

All the News of the Country Collected in

Pittaburg.
Pittaburg is now the greatest news center in the world. Its geographical position is such that it is the most convenient point for the collection and distribution of the news of the

It used to be that the news service was man-It used to be that the news service was managed by two great associations—the Western Associated Press with headquarters at Chicago, and the New York Associated Press with headquarters at New York, and the news collected by these two associations was exchanged between New York and Chicago, Some time ago the Associated Press was reorganized as a national association, and the New York association passed out of existence. The reorganization of the service on a national basis, led to the selection of Pittsburg as the mest advantageous point for

on a national basis, led to the selection of Pittsburg as the most advantageous point for handling the news collected from all points. All the news of the country comes to Pitts-burg first, and the distribution is attended to Both from the East and West, news goes di-rect to Pittsburg, but the West does not get Eastern news until it is relayed at Pittsburg, and the East does not get the Western news until it is relayed at Pittsburg.

BUSINESS IS DEFERRED.

Accumulating Demand Has Stimulated Manufacturing.

R. G. Dun & Co's, "weekly Review of Trade," says: With changes every hour in the prospects about the tariff, and a decision expected every day, business has unpleasantly resembled gambling. Orders and purchases have been largely based upon individual opinions regarding the legislative outcome, and a vast amount of business has been deferred because the decision was yet in the future. The accumulating demand which has stimulated trading and manufacturing within the past week or two represents to a great extent needs which have been postponed waiting for a settlement, but can be done no longer.

The startling advance in corn discloses a general belief that the injury to this most important crop has been so great as to effect the prospects about the tariff, and a decision

general belief that the injury to this most important crop has been so great as to effect materially the traffic ofrailroads, the demand for manufactured products and the cost of meats for the coming year. Corn has advanced 14 cents in two weeks and 9 cents since Friday of last week. Wheat has risen 3½ cents in the fortnight, and 2½ during the week although Western receipts have been 5,223,128 bushels against 3,162,694 last year. The volume of domestic business through clearing houses is 4.7 per cent, smaller than a year ago, and 22.8 per cent, smaller than in 1892.

THE NEW JAPANESE MINISTER An Able Diplomat and Statesman and an Amiable Gentleman.

Shinichiro Knrino, chief of the diplomatic bureau of the department of foreign affairs, has been appointed by the Japanese government to be envoy extraordinary and minister plenipotentiary to the United States.

Mr. Kurino was one of the students who were sent to this country by the government of Japan as soon as that Government decided upon the policy of sending young men abroad to pursue the course of studies in colleges and universities of Europe and America. In the summer of 1891, when certain changes were introduced in the organization of the department for Foreign Affairs, he was appointed chief of the diplomatic bureau. His abilities and high character are recognized, not only by his own Government but also by the officials of the foreign governments whose duties have brought them into contact with him. In a sociol way he is a remarkably amabie gentleman. Mr. Kurino was one of the students who

NO CHINESE ON BOARD.

War News From Japan One-Sided and Unreliable.

The steamship City of Peking, which arrived at San Francisco from Hong Kong and Yokohama, did not have a single Chinese passenger on board. There were only a few Japs. The Chinese government persists in its refusal to allow any Chinese to leave the country. Among the passengers on the Pek-ing vas Lieut. D. L. Wilson of the U. S. steam-ship Baltimore. He states that it is almost ing was fileut. D. I. Wilson of the U. S. steam-ship Baltimore. He states that it is almost impossible to obtain any reliable information from the Japanese passengers as the govern-ment allows very little news of importance to be published, and what the government does allow to become public is so one-sided as to be unreliable. Lieut. Wilson says both sides are preparing for a long struggle and that time alone will tell what will be the outcome.

Corea Begging Aig. Corea Begging Aic.

The officials of the Corean legation at Washington, D. C., are themselves taking steps looking to the shipment to Corea of any supplies that may be donated by the people of this countre. For this purpose the good offices of the American Trading Company of New York have been invoked and it has been asked to look after practical details of the movement. This company has promised to do everything possible to promote the movement. Mr. Ye Sung Soo, the minister, appreciates the sentiments which actuate the American people in remembering the suffering people of his native country.

Gold Found in Colorado. A most surprising strike of free milling gold ore has been made in the Annie Lode, fifteen miles east of Mossa, Col., by the Fullenwider Bros. Assays have been made with the astonishing result of, \$42,000 per ton. The gold is found in a honeycomb quartz, easily worked, almost crushing in the hand. Much of it is visible to the naked eye.

Extra Fostoffice Help. Postmaster O'Donnell, of Pittsburg, reports that his request for extra help during the G. A. R. encampment has been favorably acted upon by the department. He has been allowed the 12 additional carriers, and it is probable he will be allowed the six extra clerks.

THE NATIONAL GAME.

Bunns is the slogger of the Brooklyns be-St. Louis has the poorest batting pitchers in the League.

Durry, of Boston, is now at the head of the League batting list.

PHILADELPHIA now has more pitchers than any ciub in the League.

Dovle, of the New Yorks, has developed into a great first baseman.

The new blood seems to have done the Louisvilles a world of good.

The secret of the heavy hitting in the Western League is a lively ball.

Cincinnati has won just one game from Cleveland at Cincinnati this year.

TENNEY, the Boston backstop, wears a regulation football crop of black hair.

Anson, of Chicago, is actually leading Brouthers, of Baltimore, in batting. McAlzen, of Cleveland, is the unluckiest clayer in the League, as he is maimed every

In Tenney Boston has, unquestionably, secured a fine catcher. He throws left-handed, like Clements.

Elout teams with a winning percentage of 500 or over is a record never before made in this country.

In this country.

Farrell, of New York, has caught in more games this season than any other man who wears the mask.

Treadway, of Brooklyn, is the most peculiar runner in the League. He doubles himself up and lopes.

Buckley, of Pittsburg, says that three years is the average of a left-handed player's life in the big League.

The Brooklyn-Washington series has closed. Nine games belong to Brooklyn and three to Washington.

A good ball player, thoroughly alive to

A good ball player, thoroughly alive to the interests of his club, will always run out a ball, no matter where it is hit. There are still eight pitchers on the Cleve-land staff—Young, Cuppy, Griffith, Fisher, Dewald, Knauss, Braunn and Mullane.

Oxiz three clubs have succeeded in win-ning two games out of three in Baltimore this season—Boston, Philadelphia and Pitts-

NEITHER the Bostons nor the Philadelphias have been shut out this year. The pitcher who accomplishes the task against either thould have a prize.

Ex-Pitchen "Trs" Reere, of Phila-delphia, has been appointed a League um-pire in place of John McQuade, who resigned on account of ill health. Triose baseball cranks who last season ob-

jected to "pitchera battles" and who de-manded more batting certainly ought to be satisfied with the cannonading that is going on all over the country.

The lads of Eton and Rugby, "Merric England," have temporarily abandoned cricket for basefull, and some of the games recently played would do credit to the "nines" of American universities. HARRY WRIGHT, chief of the National League umpires, says that the umpires are all too lenient regarding the balk rule and that many pitchers constantly violate the rule without as much as a caution.

The race for the National League pennant is unquestionably the best on record, and this accounts in a measure for the heavy attendance at the games and the general enthusiasm manifested all over the country.

TED SULLIVAN, a Southern League manager, says the sight of the year was Esterbrook trying to play ball. He lasted but one day with New Orieans. He played in the outfield and didn't come within thirty feet of a single fly ball.

Ewiso says that Clarkson's arm is hope-lessly gone. The muscles are so tied up that he will never be able to again pitch winning ball. If this is true, the once great battery. Bennett and Clarkson, will drift into retirement the same season.

Now comes the Kansas City Cinb with a record of thirty-nine runs captured from Grand Rapids. Nothing like this has been seen since the Red Stockings toured the country mopping up local clubs with scores of 115 to 3 or thereabouts. If it is to continue the pitching will have to be done by machings.

How They Stand.

The following table shows the standing of

	PareBall League:	
1	Club, W. L. Pet,	Club, W. L. Pet.
