

A Seaman's Frolic.
A seaman was fined at Birmingham, England, for interfering with the comfort of railway passengers. He stepped out of an express train while it was traveling fifty miles an hour and wandered along the foot-board. One lady, who stopped the train, was greatly alarmed at seeing his face appear before the window of her carriage.

Tobacco Caused Consumption - Notable Cures the Tobacco Habit and Consumptive Gets Well.

TWO RIVERS, Wis., Aug. 25.—[Special.]—Great excitement and interest has been manifested in the recovery of an old-time resident of this town, Mr. Jos. Bunker, who has for several years been considered by all his friends a hopeless consumptive. Investigation shows that for over thirty-two years he used three and a half pounds of tobacco a week. A short time ago he was induced to try a tobacco-habit cure called "No-To-Bac." Talking about his miraculous recovery today he said: "Yes, I used No-To-Bac, and two boxes completely cured me. I thought, and so did all my friends, that I had consumption. Now they say, as you say, 'how healthy and strong you look, Joe,' and whenever they ask me what cured my consumption I tell them No-To-Bac. The last week I used tobacco I lost four pounds. The morning I began the use of No-To-Bac I weighed 127½ pounds; to-day I weigh 169, a gain of 42½ pounds. I eat heartily and sleep well. Before I used No-To-Bac I was so nervous that when I went to drink I had to hold the glass in both hands. To-day my nerves are perfectly steady. Where did I get No-To-Bac? At the drug store. It is made by the Sterling Remedy Company, general western office, 45 Randolph street, Chicago, New York office, 10 Starke street, but I see by the printed matter that it is sold by all druggists—I know all the druggists in this town keep it. I have recommended it to over one hundred people and do not know of a single failure to cure."

If the deed is good let it speak for the motive.

Maintaining Quarantine.
French journals are criticizing the attitude of United States delegates to the sanitary convention at Paris. The Americans have opposed every measure tending to make quarantine less rigid. Their object is to make the regulations so close that quarantine measures can be used to restrict immigration.

ENLIGHTENMENT

THE NATIONAL GAME.

New York split even on the Baltimore series.
KEEPER is doing good work as a National League umpire.

Just 108 of the first 346 games played were won by one run.

LOUISVILLE seldom hits a left-handed pitcher with any success.

LYONS has signed with the St. Louis Club. He will play third base.

GRIFITH, of Brooklyn, has just made his third error of the season.

The Providence Club appears to have pretty plain sailing at the top in the Eastern League.

But few outfielders in the League manage to get over as much ground as Lange, of the Chicago.

PITCHER FISCHER, late of Cleveland, and outfielder HOGAN, of the Pennsylvania State League, have been signed by Cincinnati.

HOGAN, the lately praised centerfielder of the Pennsylvania League, made a very creditable debut with the Cincinnati Club.

NEW YORK is ninth in club batting and tied for seventh place in fielding with Louisville and Brooklyn, and yet is in third place.

DAWLES, of the Chicago team, after making a hit in his last forty-two games, failed in his forty-third, even though his club made eighteen hits.

WHEAT BRODIE, of the Baltimore, had played in eighty-three games he had struck out but four times and got his base but nine times on balls.

SHURTZ, of Pittsburgh, has been wonderfully successful against the Cleveland this year, having won all the games he has pitched against them—seven.

BUFFALO is ambitious to become a member of the National League and is casting its eyes toward Cleveland. It would be a much better city for the League than Washington.

The pitchers of the St. Louis team are not noted for base stealing. Breitenstein and Hawley have only one each to their credit, while Arthur Clarkson has yet to steal his first base.

WILMOT, of Chicago, has made the record of the season, with eight stolen bases in two successive games. He is only one stolen base behind Hamilton, of Philadelphia, who leads the League.

ANSON, of Chicago, is playing the great game, and his former partner, John Stachel, made but six errors and had forty-three assists. His fielding average at this time was .991 and his batting .382. He did not make an error in twenty-eight games.

SENATOR HILL's sole recreation is attending a ball game. He used to play ball years ago, and his former partner, John Stachel, was pitcher on the Amherst nine while in college, and later of the best amateur team Elmira, N. Y., ever had.

ALBERT SWAN, the pitcher of the Hamilton A. C., of Brooklyn, met with a peculiar mishap at Newark, N. J. While practicing for a game with the Harrison A. C. his right arm fell limp at his side and he felt a sharp twinge of pain. An examination showed that his arm had been broken. The game was not played.

According to President Young about forty protests have been received from League clubs this season, only two of which have been upheld. Protests based on errors of judgment on the part of an umpire get but little attention. It is only those based on a misconstruction of the playing rules that receive consideration.

All of the League teams except the Louisville and the Washington have won the majority of games played on their respective home grounds. The St. Louis have won an equal number of games played at home. Only the Boston, New York and Cleveland have won the majority of games played away from home.

How They Stand.
The following table shows the standing of the different clubs composing the National Base Ball League:

Club	W. L. Per.	Club	W. L. Per.
Boston	.48 35 660	Pittsburgh	.51 51 509
Baltimore	.64 36 640	Chicago	.47 36 456
New York	.48 38 626	Cincinnati	.41 37 476
Philadelphia	.56 42 571	St. Louis	.42 42 494
Cleveland	.54 46 540	Washington	.49 46 539
Brooklyn	.53 48 525	Louisville	.32 71 311

A TRAIN OF 25 COACHES.
Over 1,600 People Hauled 38 Miles in an Hour by One Engine.

Since the Memphis Route beat the world's record recently by hauling a train of 25 loaded passenger coaches out of Kansas City, Mo., there has been much interest in railroad circles all over the country to know what road would beat the record.

Florida bore of the palm Monday. The regular morning train out of Jacksonville over the Jacksonville, St. Augustine and Indian River Railroad hauled over 1,500 people to St. Augustine in 25 coaches and one engine car. The train was drawn over the entire distance of 33 miles by one Schenck locomotive, and the time was only a few minutes over an hour.

A GREAT WATERSPOUT.
Parkersburg Visited by a Most Destructive Storm.

At five o'clock Sunday morning a most destructive rain storm swept over Parkersburg, W. Va. W. A. Wyatt's residence on Thirteenth street was wrecked by lightning. A water spout fell upon the large dairy farm of George Woodyard, two miles from there, transforming it into a lake and destroying farm buildings and crops, drowning poultry, hogs, etc., and making it impossible for the owner to reach his livestock for five hours after the storm broke. Reports beginning to arrive indicate that a great deal of damage in the aggregate has been done by this storm, but thus far no loss of life is reported.

PLAGUE OF GRASSHOPPERS.
Swarms of the Pests Devouring Everything Green in a New York County.

Farmers of Steuben county, N. Y., are much alarmed over the appearance of grasshoppers in large swarms. In many places they are attacking all kinds of vegetables. Many fields of buckwheat are eaten off close to the ground.

Farmers in many instances have been compelled to cut their oats green in order to save them. The pests seem to be working eastward. Many farmers are plowing up their meadows where the pests are most abundant with the view that the grasshoppers may be killed by burying them.

Came to Life Again.
Mrs. Lucinda Allen, of Midway, was seized with colic and physicians and nurses, after six hours of attention, pronounced her dead. She was dressed and placed in her coffin, and just as the casket was about to start to the graveyard a neighbor asked for a last look at her. The neighbor thought she discovered signs of animation. The supposed corpse was taken from the coffin, and placed in a tub of water and soon revived.

Ten Men Entombed.
A mining disaster is reported from the Tamrieno district, southwest of Durango, Mex. A cave-in occurred in one of the mines burying ten miners. Six of them were rescued alive, but the others were dead when found. The superintendent of the mine was arrested, as is the custom of the authorities in case of an accident, and will be held until the investigation of the catastrophe is completed.

Hardy Old Fellow.

Alexander Brownlie, of Tumut, New South Wales, who has reached the venerable age of 76, was lost recently while prospecting in the ranges, and wandered absolutely without food for eight days. But he had water to drink and a pipe to smoke, and he came back to civilization, if not well, at least alive.

SOME men would get credit for being very wise if they could not talk.

Let Their Newspapers.

An Australian confectioner has hit upon the idea of printing the news of the day upon a thin paste of dough, using chocolate instead of ink. He delivers these cakes to his customers, who first read them and then eat them with their coffee.

Didn't Know.
"Now, Johnny," said the teacher, "you may tell us this: Suppose your mother had told you to come home at five o'clock, and you did not go; what would you be doing?"

"I don't know whether it would be swimming or playing base-ball."

Had to Play the String Out.

A man seated himself in a chair in a Chicago barber-shop and ordered one plain shave, without tonic. "Look here," he said, by way of amendment, "I've got an awfully tender face and I want you to be very careful with it."

The barber promised solemnly to return it to him as whole as he found it, and then he proceeded to strap his razor finely. He lathered his particular customer carefully, took his ear in his hand, and with one swipe removed beard, lather, and cuticle from hair to chin. The patient howled with pain, and sitting bolt upright in the chair, he eyed the barber reproachfully.

"What in — are you trying to do?" he demanded, angrily.

"You see, my razor is too sharp," apologized the Chesterfieldian barber. "It is so sharp that when it takes hold it will not let go, and I am obliged to play the string out."

Marriage Age.
In Austria, 14 years for both sexes. In Spain, the man at 14, the woman at 12.

In Germany, the man at 18, the woman at 14.

In Belgium, the man at 18, the woman at 15.

In France, the man at 18, the woman at 15.

In Russia, the man at 18, the woman at 16.

In Saxony, the man at 18, the woman at 16.

In Switzerland, the man at 15, the woman at 12.

Why Don't They Try It.
Some physicians have arrived at the conclusion that most persons struck by lightning, and to all appearances dead, could be recalled to life by applying the method of artificial respiration in use for resuscitating the drowned.

Those who have the most have it, as a rule, because they save the most. They're more economical. These people buy Pearlina. Proof—in all stores of the better class throughout the land, you'll find the sales of Pearlina far in the lead. Now, these economical people wouldn't use Pearlina for their washing and cleaning, if they didn't find it to be just what we say—the most economical in every way. Would they?

Send Peddlers and some unscrupulous grocers will tell you "this is as good as" it Back "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, and if your grocer sends you something in place of Pearlina, be honest—send it back. 420 JAMES WYLLIE, New York.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
