Chicago, September 8.—[Special.]—The Chicago Inter-Decan's Illustrated Supplement, describing the great success and merit of No-To-Bac, has made it famous in a day.

Mr. H. L. Kramer, the active man, was seen to-day at his office, 45 Randolph street, and in talking of No-To-Bac's growth, said it was hard work to keep up with the rapidly increasing demand, as every box sold advertised No-To-Bac's merit.

He said: "No-To-Bac's merit.

He said: "No-To-Bac's not sold on the strength of the thousands and tens of thousands of testimonial statements, but under an absolute guarantee to cure or money refunded." That made a long story about merit very short, as it absolutely protects the user from physical injury or financial loss. "Why," said he, "No-To-Bac will make 100,000 cures this year, and the saving will average \$50,00 for every one cured, or a grand total of \$5,000,000 saved from going up in smoke and out in spit." No-To-Bac, is indeed, a God-send to the poor man these hard times. According to the testimonials, however, the money saving is the least consideration, for almost everyone reports an improvement of the nervous system, increase in weight, and a revival of physical and mental powers that is indeed miraculous.

Prominent physicians look upon No-To-Bac as a great success, and are very free to prescribe it.

Every wholesale drug house in this coun-

prescribe it.

Every wholesale drug house in this country and Canada sells No-To-Bac, and the retail druggists are pushed to supply the demands of customers; the direct mail demand

mands of customers; the universe is immease.

The cost of No-To-Bac compared with the results is a small matter, as the saving in a week pays the cost of a cure for a lifetime.

No-To-Bac is sold for \$1 a box, or three boxes, \$2.50, with a guarantee to cure, or money refunded.

money refunded.

A few extra copies of the Inter-Ocean Supplement (eight pages) illustrated in five colors, have been secured and will be mailed for the asking, by addressing the Sterling Remedy Co., Chicago office, 45 Randolph street; New York office, 10 Spruce street; Laboratory, Indiana Mineral Springs, Ind.

MERKIN, of New York, is the swiftest pit-cher in the League.

MERCER, ef Washington, has done fine work for that club this year.

THE Bostons lead the clubs in fielding and the Philadelphias in batting. Snoon and Dowd are among the best foot-ball players in the National League.

It is generally poor umpiring at the bot-om of any "scene" on the ball field.

Ir doesn't pay to judge a new pitcher by one game, nor by two, for that matter. Twicz this season ten runs have been cored in one inning against the Pittsburgs. BROUTHERS, of Baltimore, has made more bits and runs than any other first baseman in the League.

CONNAUGHTON has proved a fine utility player for Boston, and plays well in all the colitions he is assigned to.

A FLORIDA league is to be organized for the winter, and many of the League players will spend the winter there.

The Washingtons have the largest record of total bases in a game, and it was made against the Bostons—forty-uine.

CATCHER ZIMMER, of Cleveland, tosses the ball down to second quicker and with appar-ently less effort than any backstop in the League.

Tucken wants to get away from Boston, where he says he is not appreciated. There are eleven other League teams anxious to get him.

THE use of the extchers' glove among in-fielders is spreading. Connaughton and Sugden are the latest offenders. Legislation is needed.

CERTAIN elergymen of Gilpin County, Col-orado, have organized a base ball team that, it is said, can beat any other nine in that lively Tennific batting has won a majority of the games credited to the Chicagoes this sea-son. Boston, too, has won out many games by slugging the ball,

McALERE's accident has curbed the Cieve-land outfielder's talent as a base runner. Once a player's limbs are injured he develops a caution that knecks all the dash out of him, especially when he is on the bases.

Pirchens Curpt and Parrot actually now use mitts while pitching. Pretty soon all the fielders will use the unsightly mitts and next we may expect to see nests brought into use. This is getting away from baseball pure and simple with a vengeance.

RUSE and Stivetts say they prefer the present pitching rules, despite the harihitting handicap. As they are the speedlest pitchers in the League their preference for the new rules proves that speed, after all, is the thing in these heavy hitting days.

SCHRIVER, catcher of the Chicago Baseball
Club, has caught a ball thrown from the top
of the Washington Monument. Nearly all
of the prominent ball players who have visited Washington since the shaft was erected
have tried the feat, which was generally supposed beyond any man's power.

CAPTAIN TEREAU, of Cleveland, is the only one of the long list of ball players suffering the misfortune of a broken leg to become entirely cured. His leg never troubles him, though other players always complained of temporary weakness and were always fear-ful of an accident in their base running.

Some weeks ago a Baltimore newspaper telegraphed to Anson, of Chicago, thus: "Send us, not to exceed fifty words by wire, giving your opinion of the Bultimores' chances to win the pennant." The response came back in much briefer form than was anticipated. The "special" when set up and printed, read thus: "None. A. C. Anson."

Coins Issued by Private Mints. The constitution of the United

States provides that no State shall coin money; but it seems that in-dividuals might do so, up till about the time of the late civil war. Of course, it has always been against the law to counterfelt or imitate the coinage of the United States, and so, necessarily, a coin is ued by a pritinct in shape or makings as to show that it was not intended to pass as Federal money. For this reason the by several private mints in California during the flush times of the '50's were octagonal in shape.

Gold coins were also issued by the Mormons of Utah at about the same time, and the same thing had been ione by parties in Georgia and North

Probably the latest of these private mints was the one established in Denver in the early '60's. It is said that the coinage of this establishment being brought to the attention of Secretary Chase, that eminent financier was much astonished to find a respectable firm of bankers engaged in making and uttering money.

The methods and tastes of pro-fessional authors in this matter are quite as varied as is the character of their several contributions to litera-ture. For example: The novelists, Charles Reade and Victor Hugo, preferred immense sheets of paper the coarsest of pens: while, on the other hand, both William Black and R. D. Blackmore cover dainty sheets of note paper with their almost mi-croscophic chirography. Charlotte

An old-fashioned way of getting there. Slow and safe, but hard work. Most women, have got beyond this kind

Now, why can't you look at that other old fashioned proceeding in the same lightwashing things with soap and hard rubbing. That's slow enough and tiresome enough, everybody knows, and it's not as safe - as washing with Pearline. It's really destructive, in fact, the wear of that constant rubbing. Break away from these antiquated ideas. Use modern methods. Pearline saves at every point.

point. Send Peddlers and some unscrapulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, it Back and if your grocer sends you something in place of Pearline, be honest—send it back.
