How Helena Started. The mines which built the city of Helena, in Montana, were discovered by a party of four prospectors who were on their way to a well-known camp in the foot-hills of the mountains.

When the population ceases to multiply and the generations that crowd on after you and never heard of you stop coming on.

When you have convinced everybody whose life will touch yours that you have better goods and lower prices than they can get anywhere else.

When you perceive it to be the rule that men who never advertise are outstripping their neighbors in the same line of business.

When men stop making fortunes right in your sight solely through the direct use of the mighty agent.

When you can forget the words of the shrewdest and most successful business men concerning the main cause of their prosperity.

Real Beauty. A reply which was at once wise and witty is said to have been made by a gentleman to whose decision in regard to a certain matter two pretty young girls appealed.

They were discussing the question as to what constitutes beauty in a hand, and differed greatly in opinion. At last they referred the matter to the old man, of whom they were both very fond.

"My dears," said the old gentleman, with a kindly smile, "the question is too hard a one for me to decide. But ask the poor, and they will tell you that the most beautiful hand in the world is the hand that gives the most freely."

And Now Magnetize Them. A late invention is a scheme to illuminate keyholes.

Let the men wash, if they won't get you Pearline. Let them try it for themselves, and see if they don't say that washing with soap is too hard for any woman.

This hard work that Pearline saves isn't the whole matter; it saves money, too—money that's thrown away in clothes needlessly worn out and rubbed to pieces when you wash by main strength in the old way.

That appeals—where is the man who wouldn't want to have the washing made easier—when he can save money by it?

Beware. Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled! If your grocer sends you an imitation, be honest—send it back.

When to stop. The following answers were received by an English paper in response to a request for opinions as to when to stop advertising.

When the population ceases to multiply and the generations that crowd on after you and never heard of you stop coming on.

When you have convinced everybody whose life will touch yours that you have better goods and lower prices than they can get anywhere else.

When you perceive it to be the rule that men who never advertise are outstripping their neighbors in the same line of business.

When men stop making fortunes right in your sight solely through the direct use of the mighty agent.

When you can forget the words of the shrewdest and most successful business men concerning the main cause of their prosperity.

THE OLD-FASHIONED STYLE. It gives you a feeling of horror when you see it and when you feel it. Like the "blunders" of a former decade, it is big and clumsy, but not effective. In this century of enlightenment, you have Dr. Pierce's Pleasant Pellets, which cure all liver troubles in the most effective way.

Sick and Bilious Head-ache, nothing has been found to equal these pills of Dr. Pierce's invention. Constipation, indigestion, Bilious Attacks, Sick and Bilious Head-ache, nothing has been found to equal these pills of Dr. Pierce's invention.

Mr. SAMUEL BAKER, Sr., of No. 211 Summit St., Philadelphia, N. J., says: "There is nothing that can compare with Dr. Pierce's Pleasant Pellets, as Liver Pills. They have done me more good than any other medicine I have ever taken."
