Samebody's Good.

To make our own troubles the means of helping the troubles of others is a noble offort for good. A well filustrated instance of this kindly sympathy is shown in a letter from Mr. Enoch L. Hanscom, School Agent, Marshfield, Me., an old Union Soldier. He says. "It may do somebody some good to mate, I am a man of 60 and when 40 had a bad knee and rheumatism set in. I was lame three years and very bad most of the time, I got St. Jacobs Oil and put if on three times and it made a cure. I am now in good health,"

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an infamed condition of the numous lining of the Eustachian Tube. When this tube gets infamed you have a rumbing sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Deilars for any case of ilvafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. Chemey & Co., Toledo, O.

What Hissing Signifies. Hissing means different things ac-

cording to where you happen to be at the time. In West Africa the na-tives hiss when they are astonished; in the New Hebrides when they see anything beautiful. The Basutos applaud a popular orator in their assemblies by hissing at him. The Japanese, again, show their rever-ence by a hiss, which has probably somewhat the force of the "hush" with which we command silence.

You won't make a home run by striking at every ball.

ASSIST NATURE stomach and bowels and you thereby avoid a multitude of distressing de-rangements and dis-

less frequent need of your doctor's service.

Of all known agents for this purpose, Dr. Pierce's Pleasant Pellets are the best. Once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity with sufferers from habitual constipation, piles and their attendant discomfort and manifold derangements. The "Pellets" are purely vegetable and perfectly harmless in any condition of the system. No care is required while using them; they do not interfere with the diet, habits or occupation, and produce no pain, griping or shock to the system. They act in a mild, easy and natural way and there is no reaction afterward. Their help lasts.

The Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, costed tongue, indigestion, or dyspepsia, windy belchings, "heartburn." pain and distress after eating, and kindred derangements of the liver, stomach and bowels. In proof of their superior excellence, it can be truthfully said, that they are always adopted as a household remedy after the first trial. Put up in sealed, glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildy cathartic. As a "dinner pill," to promote digestion, or to relieve distress from overeating, take one after dinner. They are tiny, sugar-coated granules; any child will readily take them.

Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.

A mob broke into the jail at Irvine, Ky., Tuesday morning and took out Alexander Richardson, a white man, and hanged him to a railroad bridge, about 100 yards from the telegraph office.

DEATH IN A MINE.

Negligence of a Well Known Rule Causes

One workman dead and four others closed in the mine, with all avenues of escape cut off and the most disastrous mine fire ever known in the unthracite coal fields raging at

known in the unthracite coal fields raging at the Luke Fidler colliery. Shamokin, Pa., is the result in brief of a carsenter's negligence. Fifty-dve other workmen who were in the mine at the time of the accident had thrilling escapes. The four men who are still missing have been smothered before this.

The fire started in the air way of No. 1 shaft late Tuesday night and Irving Buffington whom the colliery officials hold responsible for the disaster, is dead. His body was not burned, as death was due to suffocation. George Brown, a miner, and his Folish helper Anthony Beberttik; Bobert, a boy driver from Luke Fidler and another Polish laborer are in the mine, and no hope is entertained of recovering them. The mine is a mass of flames and cannot be approached from any direction.

tion.

The officers of the mine say that Irvin Buffington, a carpenter, lit his naked lamp and set fire to the timber and thus the fiame spread. Buffington might have escaped but lost his life while trying to get a pair of gum boots. Three relief parties have been formed and the sixty imprisoned mentrescued through No. 3 air way on the mountain.

It has been decided to drown out the fire, but it will require six weeks to fill the inside workings with water. Operations cannot be resumed at this mine for at least two years. It employed 900 men and boys, and its pay roll averaged \$25,000 per month.

months ago. A bold attempt was made to wreck and rob a Santa Fe train near Denver. Spikes had been pulled from the rails and the cars ran on to the ties. The ears did not overturn

A TRAIN ROBBED

Seven Masked Men Got Away With \$180,000 From an Express Car in Virginia.

The northern bound passenger train on the road was held up near Quantico by seven masked robbers. The engineer and fireman masked robbers. The engineer and fireman were forced from their engine, and the engine was cut loose and sent ahead. The express car was then entered, and the messengers covered with pistols and forced to open the safe, which the robbers rifled, and then disappeared. The runaway locomotive was stopped at Quantico by obstructing the track.

The railroad company has offered \$1,000 reward for the arrest of any one of the

robbers,
Express Messengers B. F. Crutchfield and
Murray had barred the doors of their car, but
the doors were blown open with dynamite.
The thieves made off with their booty in the
direction of the Petomae river, where it is
supposed they had a boat in waiting to take
them to the Maryland side.

The correct researches are the sole con-

The express messengers say the safe con-tained \$189,000 all of which the robbers took. None of the passengers were molested.

TO SEARCH FOR LENZ.

The United States Government Interested in the Wheelman.

Attorney J. J. Purington, of East Liver-pool, O., a relative of Frank G. Lenz, the Pittsburg bicyclist who started from New York in June, 1892, for his trip around the York in June, 1892, for his trip around the world on a wheel, has been in correspondence with the state department in Washington with the object of finding some trace of the young man, if possible. Acting Secretary E. F. Uni writes Mr. Purlington that the United States ministers at Teheran and Constantinople will be notified to make a systematic search for the young man. He was last heard from, Mr. Uhi says, at Tabriz, Persia, where he stopped en route for Constantinople in April of this year. The acting secretary informs Mr. Purlington that the most active search will be made for Lenz. He started from New York in June, 1892, coased the continent and had almost "ravdrsed Asia when he disappeared

To Be Closed Out.

To Be Closed Out.

The wholesale business of Hilton, Hughes & Co., the old house of A. T. Stewart & Co., is to be closed out. In its palmiest days it sold \$40,000,000 worth of goods in a single year and made A. T. Stewart the best known of all merchant princes. Since his death the firm has experienced various mutations, but this change is the most radical of all. All the employes of the wholesale department have been notified that that branch of the business would be closed as speedily as the stock on hand could be disposed of, and they were advised to seek positions elsewhere. There are about 400 of these employes,

Explosion of a Meteor.

A large meteor exploded near Neversink Station, Penn. It came from the east, and when near the earth there was a crash which shook buildings a mile away. The meteor was kite-shaped, tapering off to a tail with a streak of fire behind it.
