seldom they have as keen enthusiasm for merits.

Armstrong county has proclaimed to the world that a detective is badly needed in that county.

The man who gains the knowledge that his life is immortal, and that the greater and more important part of it lies in a to him untried but certain hereafter, has mastered the philosophy of life as completely as it is possible for man to master it.

There are hearts hard enough to resist the force of wrath, the malice of prosecutior, and the fury of pride, so as to make their acts recoil on their adversaries: but love is stronger than any of these, and hard, indeed, is that heart which can resist it.

Among the many questions effecting the well being of any city, town or village, none is of more vital importance than that of where its citizens purchase their goods. The prosperity of any community depends, in a great measure, upon the manner in which the citizen answers that question.

"We shall know each other there," is often sung in church by people who "dont know each other here." Better make up and get acquainted, or you may know each other in a land where they don't shovel snow. The scriptures don't make any provision for those who School Notes

The Punxsutawney schools are in a rowded condition and the school board has d-eided to open another room. They are advertising for a teacher. There are five thousand, three hun-

dred and eighty-six pupils attending Altoona's public schools.

This is the last week of the second month of the Reynoldsville public schools

As there is no room to plant new rees on the school gounds, there was nothing special done at the borough schools on arbor day-last Friday-but to raise the stars and stripes over the school house

The flag is not run up over the school building every day because of the difficulty in getting it up. It is almost impossible to run the flag up without tearing it.

The borough schools will give an entertainment in the near future to raise money to secure books for the school library. This library was started last year and is not a very extensive thing yet. Prof. Stamey put in a few books which he took away with him when he left and that reduced the selections. Sometime next spring the school will have a "book day" and then it is hoped the library will be greatly enlarged.

Examinations for the second month of school will be held the latter part of this week.

vant to fight with their neighbors

Nine tramps lynched a fellow tourist at Waverly, Pa., last Friday. The tramps engaged in a quarrel and nine of them strung the tenth one upagainst a wall and shot him through the head. Perhaps these villians each one got a good "hand out" from christian homes before they killed their partner.

Under an act of Congress, of August 23rd, 1894, fourth-class postmasters are authorized, empowered and required to authenticate pension vouchers. No postmasters, except those of the class mentioned, can act in this capacity, nor can their assistants act. Their power to authenticate is confined to vouchers. No other papers in a pension case can be executed before them. They are required to act, if called upon to authenticate such vouchers, and they must fill up the same as well as administer the oath or take the affirmation. The stamp of office to which the law refers is held to be an impression of the postmarking stamp of the office of the postmaster, authenticating the voucher in question.

Three men were killed and a number wounded at Washington Court House, Ohio, last Wednesday evening while attempting to take a prisoner from jail to lynch him. There was such a mob that the sheriff had to call for aid from the malitia, and it was the soldiers who fired into the mob. The prisoner was a colored man who made a brutal assault on a white woman. The crime was sufficient to arouse the people, but not sufficient to allow them to take the law in their own hands. It is uncivilized and barbarious for men in the nineteenth century to want to resort to the lynch law. While it is to be regretted that lives should be lost to civilize people, yet if they will not be civilized any other way, then let the malitis do their work. The point is not in saving the skin of a black rascal who is deserving of the most severe punishment, but it is to compel people to respect the laws of our land.
