Gen. Hastings will be inaugurated as Governor of Pennsylvania on Tuesday next, January 15th.

Capt. A. C. Little, of Punxsutawney, was appointed Chief Doorkeeper of the Senate at Harrisburg through the influence of Senator Jas. G. Mitchell, of Jefferson county.

There is quite an outbreak of small-pox in Philadelphia. One peculiarity of the disease seems to be that it confines itself mostly to children and young people. Comparatively few of mature age are attacked.

Some men who are defeated in an argument resort to profane language and want to fight; other men whose trickery is exposed hanker after a libel suit. A newspaper that is not occasionally threatened with a libel suit is a very tame sheet.

The Grangers propose to be heard in the present Legislature; they have fifty representatives and the Farmer's Alliance ten. These, with members not in those organizations but who have agricultural constituencies form a body of about eighty members that will look after the farmer's interests.

The whistle on a passenger engine does not concern the passengers on the train, nor does it add to the speed of the train, but it is the custom on most all railroads to use the foghorn whistles on passenger engines. The Pennsylvania railroad is replacing the foghorn whistles on its big locomotives with chime whistles. The new whistles have not the harsh sound of the foghorn, although more penetrating and decidedly clearer.

Now, that the holiday season is over, it is no time to cease advertising. To be an effective method of producing trade advertisements must be continuous for a business whose managers wish it to thrive. These are days of fierce competition and the merchant who wishes to lead the trade or even hold a portion of it must adopt the plan of advertising. If he does not he will certainly go to the rear, no matter how low his prices or what is the quality of his goods.

W. H. Baker, president of the Ridgeway Publishing Co and editor of the *Advocate*, and Gustaf Linden, editor of the *Advokaten*, a Swedish paper published by the above named publishing company, were arraigned before a Justice of the Peace at Ridgeway on the 24th ult. on the charge of criminal libel, sworn to by Associate Judge John Kime. The editors were held under bail for their appearance at January court in the sum of \$1,000 each. Judge Kime is the instigator of the suit. He objects to the manner in which the *Advokaten* commented on the action of the Elk county court at the November session.

The *Pittsburg Times*, which is becoming noted for its liberal offers of vacation trips, has announced that splendid vacation trips will be provided for the public school teachers, voted most popular, for 1895. The first coupon will be printed on Friday, March 1st, thus making the period for voting four months, instead of six months as has been the custom heretofore. The week before the first coupon is printed the *Times* will tell all about the vacation trips.

It is not uncommon nowadays to pick up newspapers and read of robbery, and frequently murder, because some man or woman kept a large sum of money hid in their house or on their premises. The most foolish people in the world are those who keep large sums of money in their homes, and their folly becomes criminal carelessness if they live in the country. They may imagine that nobody knows their secret, but such things cannot be kept. Don't be foolish by keeping your money in your home.

The Westinghouse Electrical Co., of Pittsburg, received an order from the Cataract Construction Co., of Niagara Falls, for three dynamo electrical generators, each of 5,000 horse power. One of the machines has been shipped. It is expected the three machines will be ready for operation in several months. The total horse power expected to be developed at Niagara Falls will be about 119,000. This will require twenty-one more machines of the same capacity as the three built in Pittsburg. The power developed is calculated to supply 238 mills of 500 horse power each. Half the power is to be transmitted to Buffalo, twenty miles distant. It is quite an immense undertaking to harness up Niagara Falls, but it looks now as if the great contract must be man's servant.

"Eat Justice, Eat Coelum."
 (Communicated.)

We have almost arrived at that point in the history of our country when something must be done, and what shall we blame it upon? The Administration? Oh! no. The people of America? No! most emphatically, no! Where then shall we place the blame? Why, simply where it belongs, upon the accursed monopolies, who grind down the American laborer to the starvation point and then discharge him to make room for one of the foreign element that is dumped upon our shores by every incoming steamer. The sum and offsetting of foreign nations, coming in and scattering all over our broad land, a curse and blot upon civilization. Is this justice? and who is to blame for this? The monopolist, of course. Let him beware, for "Woe unto him that oppresseth the hireling in his wages. I will come as a swift messenger against him saith the Lord." Our miners work at starvation wages until forbearance ceases to be a virtue and then they strike. Can we blame them when our operators give the "plum" of the work to foreigners who are no benefit to our country and who never contribute a cent of taxes? No. And still the foreign scum continues to arrive daily, to push and crowd our honest, hardy American workman out. Can they stand it? Will they stand it? Time alone can tell whether or no the American workman will sit calmly by and see his wife and family starve, while a foreign outlaw "takes the bread out of his mouth." The crisis must come eventually, as we Americans are being rapidly driven to the wall and it is contrary to American principles to be trodden upon. God help and pity the poor, but let thine anger rest upon the heartless, soulless monopolist who looks indifferently upon his oppressed, starved, dying countrymen, and turns a deaf ear to their appeals for justice. Woe is he, for verily he shall receive his reward, as the cry of the oppressed goeth up from all the land, "then let justice be done though the heavens fall."

The Brockwayville *Record* is authority for the statement that a glass factory will be erected at Lane's Mills, two miles south of Brockwayville, that will give employment to from one to two hundred men, and also that a colony of sixty families from Pittsburg will soon move onto the large tract of land in that vicinity that Lane and Humphrey's, extensive lumbermen, have taken the timber off of and will farm the land.

During the past half-century—since the discovery of Ayer's Sarsaparilla—the average limit of human life in civilized countries, has been considerably lengthened. Ayer's Sarsaparilla is everywhere considered the standard blood-purifier, the Superior Medicine.

The *Emporium Weekly Echo* suspended publication last month because the subscribers failed to pay their subscriptions as promptly as they should. We are sorry Bro. Johnston was compelled to suspend the publication of his sly little sheet, but it takes money to run a newspaper and people who take a paper should be prompt in paying for it.

Colds, coughs, bronchitis, and all throat and lung diseases are effectively treated with Ayer's Cherry Pectoral. To neglect the use of proper remedies for these ailments, is to induce consumption, which is said to cause one-sixth of the mortality in all civilized countries.
