# MICHIGAN'S BENEFACTOR. AN OFT REPEATED STORY OF TRUE

What Chas. H. Hackley Has Done for Western Michigan.

(From Grand Rapids, Mich., Evening Press.) The most beautiful spot in all this city is inseparably associated with the name of Hackley. Chas. H. Hackley has been in the lumber business here continuously since 1856, and in that time has amussed a fortune which gives him a rating among the wealthy men of the nation. But with wealth there did not come that tightening of the purse strings which is generally a marked characteristic of wealthy men.

It is no wonder then that the name of Charles H. Hackley is known at home and abroad. His munifleence to Muskegon alone represents an outlay of nearly half a million. For the past twenty years he has been a constant sufferer from neuralgia and been a constant superior from neuragin and rheumatism, also numbers of the lower limbs, so much so that it has seriously inter-fered with his pleasure in life. For some time past his friends have noticed that he has seemed to grow young again and to have recovered the health which he had in

has seemed to grow young again and to have recovered the health which he had in youth.

To a reporter for the News Mr. Hackley explained the secret of this transformation. "I have suffered for over 20 years," he said, "with pains in my lower limbs so severely that the only relief I could get at night was by putting cold water compresses on my limbs. I was bothered more at night than in the day time. The neuralgic and rheumatic pains in my limbs, which had been growing in intensity for years, finally became chronic. I made three trips to the Hot Springs with only partial relief, and then fell back to my original state. I couldn't sit still, and my sufferings began to make my life look very blue. Two years ago hat September I noticed an account of Dr. Williams' Pink Pills for Pale People and what they had done for others, and some cases so nearly reaembled mine that I was interested, so I wrote to one who had given a testimonial, an eminent professor of music in Canada. The reply I received was even stronger than the printed testimonial, and it gave me inith in the medicine.

"I begantsking the pills and found them to be all that the professor had told me they would be. It was two or three months before I experienced any prreprible betterment of my condition. My disease was of such long standing that I did not expect speedy recovery and to three months between the long standing that I did not expect speedy recovery and to the least st months have felt myself a perfectly well man. I have recommented the pills to many people and any is a large of the blood and restore shattered neves. They are for sale by all druggers.

They are for sale by all druggers. They are for sale by all druggers.

elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists, or may be had by mail from Dr. Williams Medicine Company, Schenectally, N. Y., for fifty cents per tox, or six boxes for \$2.50.

Massinger enjoyed veal chops, breaded with plenty of butter and a glass of ale.

Denfness Cannot be Cured

by local application, as they cannot reach the discussed portion of the ear. There is only one way to core Deafness, and that is by constitutional remedies. Deafness are caused by an inflamed condition of the marcus liming of the Eustachian Tube. When this tube gets inflamed you have a rumbing sound or imperfect hearing, and when it is entirely clusted Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out ten are caused by entarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dullars for any case of leatness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Figlidge said that tarts made with current.

Fielding said that tarts made with current jelly always reminded him of heaven.

# The Most Pleasant Way

Of preventing the grippe, colds, heatlaches and fevers is to use the liquid laxative remedy. Syrup of Figs, whenever the system needs a gentle, yet effective cleansing. To be benefited one must get the true remedy manufactured the California Fig Syrup Co. only. For sale by all druggists in Mc. and \$1 bottles.

# KEYSTONE STATE CULLINGS

# A HOUSE OF DEATH

Four Little Victims of Diphtheria in Stricken Home.

Four children lay dead Monday in the house of Jacob K. Levan, of Oiey township, Berks county, two having died Sunday night and two Sunday morning. A fifth child was burled Saturday. All were victims of dipatheria. There are still two children in the family in a critical condition.

Charles Conant, a young man of 27 years, died suddenly in convuisions at a club room on Third avenue, New Brighton. Conant has been released from the Beaver county jail, where he had been incarcerated for the last three mentils awaiting sentence on the charge of embezziement, to which he pleaded guity one month age. Attorney Eberhart wrote to his grandiather in Colorado. The old gentleman at once sent on the moneyto pay back the amount of his peculations, and all court charges. The matter was then arranged so that he was given his release. Too last company caused his downfait. DEATH FOLLOWS IMPRISONMENT.

# A NEW YEAR'S ACCIDENT.

William Barelay, foreman of the Mayer pottery at Beaver Falls, while skating on a dam skated into an open hole. Ernest Dyson feli in also. After much tromble Dyson was rescued. Barelay was kept above water with sticks by the crowd to keep him from drowning until a skiff could be dragged from the shore over the ice. He was brought to the shore more dead than alive.

# HER DANK PAILED.

Mrs. Henry Bartholomew, a farmer's wife, sear Easton, hid \$100 in bills in a stovepip without notifying her family. A party ofneigh-bors were invited to the house to see a Christ-mas display and a fire was built in the stove used as a savings bank. When Mrs. Bartho-lomew saw the fire she screened and fainted, remaining unconscious long enough for the flames to reduce her 5300 to ashes.

TEMPERANCE WORK IN VEYASOO. A temperance movement under the leader-ship of E. W. Mills, of McKeesport, and F.M. Suistey, of Scottdale, is making good progress in Venning county. One might has week 199 men signed the pledge at a meeting at freedtown.

# ANARCHIST MOWERAY INDICTED.

Breedtown.

The grand jury at Philadelphia found a true bill of indictment against Charles W. Mowbray, the English anarchist, charging him of making a seditions speech.

Leading State Populists held a conference at Greensourg, Dr. C. V. Bush, of Hunting-don, presiding. The Omaha blatform was indersed, but Senator Films's Greater Pitts-burg and good roads bills were disapproved. Coxey's road scheme and Tillman's State dis-pensary plan were indested.

Zeke Mackey, Shuller Simmons, Harry Barnes and Perry Power, furnacemen at Oliver Bros.' furnace at New Castle, were badly hurt by the fall of bail and attach-ments weighing fifteen tons. The loss is

Reports from the Riker farm, at Whites-town, Batier county, would indicate that an-other hundred foot pool has been located. The Dorsev well drillor in a few days ago, found but 12 feet of sand.

The coroner's jury at Davistown, returned a verdict that David Roberts came to his death partly from injuries received at the hands of Thomas Hart and John Williams and partly by a fall from a window.

The 3-year-old son of John Giadfelter, at Meyerstown, killed his infant sister on Mon-day by throwing a pair of seissors at her head.

Michael Moroski, a Polander, was killed at the mines of the McCure Coke Company, near Scottdale. He leaves a wife and Tour children.

At Johnstown the plumbing shop of Walter taper and ment shop of F. C. Callaghan, Hager and meat shop of F. C. Callagh were burned, while F. A. Joy & Sons, store was damaged. Loss, \$2,909.

The Covenanter chapel on Patterson Heights, near Beaver Fails, was burned Sat-urday night at a loss of \$2,300; no insurance. The building had just been dedicated.

The engine house in a mine at Oliphant burned Saturday, but by great exertions the fourteen men at work in the mines were rescued after being imprisoned all night.

James S. Wolf, a machinist of Washington has invented a shell, which he claims will revolutionize warfare. Two of them would

wreck a city. Uniontown, Connellsville, Greensburg, Brownsville and Monongaheia City will soon have telephone communication with Pitts-

burg. At the Beaver county teachers' institute Robert G. McGreagor, the oldest teacher in the county was presented with a purse of

An unknown Hungarian was found dead on the bank of the Monongahela river near Cali-fornia Monday.

Joseph Shoenski, a Hungarian, aged 28 years, was fatally hurt in the Cambria mines at Johnstown.

At Lock Haven Brown Bros. picture frame factory, a barn, and other buildings burned at a loss of \$15,000; insurance \$7,000. Firebugs are at work in Johnstown, the last attempt having been made Tuesday on the Hagen block.

A war of extermination is apout to be wage upon speak-easies at Johnstown.

Two Bradford bakers will cut the price of bread from 8 to 5 cents per loaf.

\$110,000 for Charities.

The will of Eugene Kelly, the millionaire banker, of New York, has been filed for probate. It bequeaths the entire estate to members of his family, with the exception of \$110,000 which is to left executors to be distributed among Catholic orphan asylums and institutions, among them being several Hebrew institutions.

Four Children Die.

The home of Daniel White, colored, near Williamsons Station, Ky., was destroyed by fire. Four children who were asleep in the house were burned to death. White and his wife escaped with their baby in their night clothes.

# LABOR REVIEW.

Encouraging Reports from Many Places in the Industrial Field.

in the Industrial Field.

At the first meeting of the new Executive Council of the American Federation of Labor is New York, the books and papers of the Federation were handed over by ex-President Samuel Gompers. John McBridte, the newly elected president, James Duncan, of Baltimors, second vice president; T. J. Elderkin, third vice president; Augustin Medratth, general secretary, and John F. Lennon, treasurer were present. P. J. McGuire, of Philadelphia, first vice president, and Ilhody Kenelin, of Denver, fourth vice president, were the only absentees. President McBridesaid he could not speak on any anticipated changes.

sons M'anida.

President A. D. Seamon, of the Buckeye Glass works, Martins Perry, O., has announced that he is willing to arbitrate. He proposes to leave the difference to a committee of three, one to be selected by the company, one by the union, and these two to select the hird. Should the committee decide that the plant can be run successfully and pay union wares. President Seamon promises not to make an attempt to start non-union.

# A RIG STEEL BAIL ORDER.

As is customary at the beginning of a new year, the Penusyivania Bailroad Company has year, the Pennsylvania Railroad Company has ordered a large supply of steel rails for use in renewals and in new construction. The contracts call for the delivery of 30,000 tons of rails, and are divided between the Pennsylvania Steel Company, the Edgar Thompson steel works, the Cambria Iron Company and the Scranton Steel Company. It is believed that some 30,000 tons more will be ordered later in the year. In 1993 the Pennsylvania railroad used 67,000 tons of steel rails. Last year, when the amount of new construction fell off greatly in consequence of the extreme depression prevailing, only 33,000 tons were used.

END OF STRIKE IN SIGHT.

The outlook in the strike at, Haverhill is hopeful for a speedy settlement. The action of W. W. Spaulding in calling Agent Pome-roy to a conference is favorably commented upon, and although it cannot be learned just upon, and aithough it cannot be learned just what was said or done, it is generally believed that the big manufacturer decided to accede to the demands of his employes. In view of this the manufacturers will undoubtedly follow his example.

WILL NOT START MASSILLON MINES. will you start Massillon Mines.
Secretary Phillips, of the Massillon district
coal operators' association, said concerning
the coal situation: "We small not make any
attempt to start the mines at present. We
have every reason to believe that the men
will reconsider their action taken last Friday
and go to work at the price stipulated in the
award of the arbitrators."

AWARD AGAINST THE MINERS. The state board of arbitration unanimously decided against the miners in the wage dispute in the mine of Morgan & Tanby, near Zanesville. The miners wanted 60 cents per on, the scale for that vein, but the vein was unusually thick in that mine, and the operators offered the wages usually paid for mining in veins of that thickness.

IT DISPLACES THE GIRLS.

Labor saving devices, which ligure largely in wage disputes, have lately been added to Arbuckles' establishment in Pittsburg, where a machine is in operation which packs and pastes pound packages of coffee, a work that has hitherto been done by hand, and required he services of 25 girls. Manager Kew says that the machine has passed the experimental stage and is a success.

COUNTRY WILLS BOOMING.

With the new year, work in the Cambria company and Johnson company mills, at Johnson wills, at Johnson wills, at Johnson wills, at Johnson will be former has under way plans for increasing its manufacturing products. The Johnson company is crowded with orders, so much so that the contemplated moving of the rail mill to Lorain, O., cannot be made without loss, and will be postponed several months.

As a result of the present cold spell 5,000 miners of the Monongalicia valley are idie. A resumption of work cannot take piace until the weather moderates, as the Monongabela river is frozen over in many places in the different pools and navigation is entirely suspended. This state of affairs has forced a uspended. This state of affait but-down at all the river pits.

# OLASS WORKERS WIN.

OLASS WORKERS WIN.

The factory of the Bridgeport, O., Glass Company, after nine months idieness, resumed operations in full Wednesday morning. Two years ago this concern dismissed all the members of the glass workers' union, and filled the factory with non-union men. There was no trouble, but the new workmen have proved unsatisfactory and now the old force of union men is again employed.

# POTTERIES RESUME.

The East Liverpool, Ohio potteries are proparing to resume. Half a dozen of them have started and only a few will remain idle after the first of the week. Salesmen for all the firms are preparing their samples to start out on the road immediately.

The trouble on account of the cut in wages at the works of the American axe and tool company at Beaver Falls still continues. The polishers seem to be the ones upon whom the cut fell heaviest. On common axes a cut of 2 cents per hundred was made, and on "Phantom" axes they were cut from \$2.10 per hundred to \$1.70. The bit drawers, grinders and other departments are willing to accept the reduction, but the polishers will not.

The Festoria Glass Company at Mounds.

The Festeria Glass Company, at Mounds-ville, which has been off for the holidays, went on full with orders enough to keep busy till the summer stop.

# Robbers Brutal Crime.

Louis Galloway, colore I, an agod and prosperous farmer living on Mr. R. C. Withers's plantation, one mile from Edwards, Misa, with his wife, was found dead Sunday morning about a hundred yards from their cabin. Both had been beaten to ceath with ciubs. Galloway was in town and carelessly exhibited about \$100, which is supposed to have led to the murder. One arrest has been made and doubtless others will follow.

It is not what you put into your pocket, but what you take out that will make you rich.

# Sanitation in Sicily.

At Syracuse, in Sicily, a model disinfecting station has just been opened by the Italian Government, for persons coming from suspected Eastern ports
It is on the site of the old Fort Vittoria, built in in 1565 by Viceroy Don
Gargia de Toledo, on an island in the harbor. Over the gateway is the in-scription, "Salus populi suprema lex." The building is divided into two parts; on one side is a hospital, provided with every modern appliance to secure pure nir, proper drainage and the prevention of contagion; on the other side are the disinfecting rooms. Among the out-buildings are a dead house for postmortems, a crematory and a "columbarium" for the ashes of cremated bodies. Passengers and crews of suspected vessels are sent into the disrobing rooms, one for each sex, in the disinfecting wing; they there undress and pass their clothes through a hatchway to an attendant. They then go into a bath room, from which, after a thorough wash, they pass into a dressing room, where, after awhile, they receive their disinfected clothes. The clothes have

# DISCOVERY

Cures Ninety-eight per cent. of all cases of Consumption, in all its Earlier Stages.

Although by many believed to be incura-

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully of percent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are sequainted. Nasty coditiver oil and its fifthy "emulsions" and mixtures had been tried in nearly all these cases and had either interly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchits, lingering coughs, asthma, chronic masal catarrh and kindred maladies, have been skillfully reproduced in a book of too pages which will be malied to you, on receipt of address and six cents in stamps.

DISCOVEDY

as well closs the shutters, Order is brought out of chaos often very easily, and Mrs. John Malin, of South Burte, Mont., Feb. 17, 1893, found an easy way out of her difficulties, as she writes thus: "My husband and I took very bad rheumatism from severe cods, and my arms were so lume I could not raise them to help myself. I sent at once for a bottle of St. Jacobs Oll, and before the bottle was half empty I could go about my work. My husband became so lume he could not get out of bed. Two and half bottles completely cured him. I will always praise St. Jacobs Oll, and you may use this as you see fit." This is a clear case of what is "est at the right moment, and how every household can be made happy where pain abounds. as well close the shutters. Order is brought

Didn't Recognize His Image.

An officer decorated with the Legion of Honor recently entered a waxwork show near Porte-Saint-Denis, and, after looking at the exhibits carefully, addressed himself to the showman: annoance on your list Gen. Dodds. Would you kindly point him out to me?"

"Why, you have just been looking at him," replied the showman, pointing at a model in a general's uniform. "There's the conqueror of Behanzin." "It's not very like," said the stranger. "Excuse me," rejoined the showman, "it was executed by one of the genernl's closest friends. You can't have ever seen him." By way of answer the stranger handed his card and the showman read: "Gen. Dodds."-London

THERE is a sweetness in a woman's smile at a dry goods store that her husband never sees.

In a recent article on Coffee and Cocoa, the eminent German Chemist, Professor Stutzer, speaking of the Duten process of preparing Cocoa by the addition of potash, and of the process common in Germany in which ammonia is added, says: "The only result of these processes is to make the liquid appear turbid to the cyc of the consumer, without effecting a real solution of the Cocoa substances. This artificial manipulation for the purpose of so-called solutibility is, therefore, more or less inspired by deception, and always takes place at the cost of purity, pleasant taste, useful action and aromatic flavor. The treatment of Cocoa by such chemical means is entirely edjection, able. . . Cocoa treated with potash or animonia would be entirely unsalable but for the supplementary addition of artificial flavors by which a poor substitute for the aroma driven out into the air is offered to the consumer." The delicious Breakiast Cocoa made by Waiter Baker & Co., of Dorchester, Mass, is absolutely pure and soluble. No chemicals, or dyes, or artificial flavors are used in it.
