

Mr. James H. Sumerville.

HOOD'S BUILT ME UP

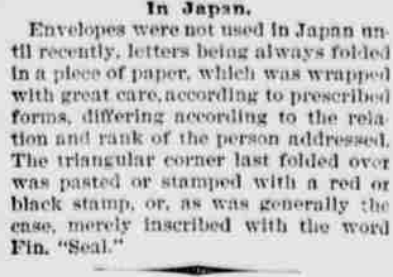

"I was attacked by rheumatism very suddenly and was confined to the home for six months. I did not do any work for a year. Hood's Sarsaparilla put me on my feet again and gave me strength to work. Nervous prostration and trouble with my kidneys have also been cured by Hood's Sarsaparilla. I believe this medicine saved my life." J. B. SUMMERVILLE, Whitefield, Vermont.

Hood's Sarsaparilla Cures

Envelopes were not used in Japan until recently, letters being always folded in a piece of paper, which was wrapped with great care, according to prescribed forms, differing according to the relation and rank of the person addressed. The triangular corner last folded over was pasted or stamped with a red or black stamp, or, as was generally the case, merely inscribed with the word "Seal."

Another Corn Cure.

Linsed oil is said to be a sure cure for corns. Bind on a soft rag saturated with the oil and keep it thus moistened night and morning until the corn can be removed without pain.

LEAVES ITS MARK

every one of the painful irregularities and weaknesses that prey upon women. They fade the face, waste the figure, ruin the temper, wither you up, make you old before your time.

Get well! That's the way to look well. Cure the disorders and ailments that beset you, with Dr. Pierce's Favorite Prescription.

It regulates and promotes all the proper functions, improves digestion, enriches the blood, dispels aches and pains, melancholy and nervousness, brings refreshing sleep, and restores health and strength. It's a powerful general, as well as uterine, tonic and nerve, imparting vigor and strength to the entire system.

Mrs. Anna Ulrich, of Elm Creek, Buffalo Co., Neb., writes: "I enjoy good health thanks to Dr. Pierce's Favorite Prescription and Golden Medical Discovery. I was under doctors' care for two years with womb disease, and gradually wasting in strength all the time. I was so weak that I could sit up in bed only a few moments. I commenced taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery, and by the time I had taken one-half dozen bottles I was up and going as well as I pleased, and have had good health ever since—that was two years and a half ago."

A book of 168 pages on "Woman and Her Diseases" mailed sealed, on receipt of 10 cents in stamps for postage. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, 665 Main Street, Buffalo, N. Y.

WORLD'S FAIR HIGHEST AWARD!

"SUPERIOR NUTRITION—THE LIFE!"

IMPERIAL GRANUM

The "IMPERIAL" is the Best and Most Economical Cereal and Cereal Food. They are made of fine flour, both sides flaked, and better reversible one collar is equal to two of any other kind. They are soft, easy to eat and look well. A box of Ten Cakes of Five Bars of Cereal for Twenty Cents. A Sample Collar and Pair of Cuffs by mail for Six Cents. Name style and size. Address, REVERSIBLE COLLAR COMPANY, 71 Franklin St., New York. 17 Kilby St., Boston.

Has justly acquired the reputation of being The Savior for Invalids and The Aged.

An incomparable Alimento for the Growth and Protection of Infants and Children.

A superior nutritive in continued Fevers, and a reliable remedial agent in all gastric and enteric diseases; often in instances of consultation over patients whose digestive organs were reduced to such a low and sensitive condition that the IMPERIAL GRANUM was the only nourishment the stomach would tolerate when LIFE seemed depending on its retention;—And as a FOOD it would be difficult to conceive of anything more palatable.

Sold by DRUGGISTS. Shipping Depot, JOHN CARLE & SONS, New York.

KEYSTONE STATE CULLINGS

PENROSE DEFEATED.

Judge White Holds Court Pending the Contest.

Snow slides covering five miles a few miles west of Look Haven on the Philadelphia & Erie railroad, blocked traffic Sunday morning. While a freight train, eastbound, was running along the base of the snow-capped Alleghenies, with the ice-bound Susquehanna below, it was suddenly submerged by an avalanche of dry sleety snow, which poured down the mountain side between Ritchie and Hyatt. The train was covered almost its entire length. Crews from the east and from the west, to the number of several hundred men, came to the rescue, and worked it free through the snow for a distance of five miles.

FALL IN THE COKE OUTPUT.

Coke production was nearly 28,000 tons less last week than on the previous week and the shipments are about 2,500 cars short. The prospects for the coke trade during 1935 are good. The price is very low, but there are many indications that it will not continue so for more than a couple of months longer. The operators are of the opinion that the region is on the eve of an improvement of no moderate proportions, but it will be manifested by conservative action. In fact it is this tendency to hold back that prevented a rise in the price of coke on January 1.

GEOLOGICAL SURVEY DEFICIENCY.

The final report of the commissioners of the geological survey has been submitted to the governor. It shows that the appropriation of \$1,000 made by the legislature of 1934 was completely exhausted last August. There is a deficiency of \$4,800, which the commissioners trust to the legislature to make good. It is recommended that the work be carried on, and that the state expend \$125,500 on a topographical map.

JUDGE WHITE SWORN IN.

At Indiana Register and Recorder McGee's administration the oath of office to Judge Harry White, and two hours later he was on the bench. Many thought that, owing to the contest, some other judge would hold court in Indiana pending the investigation. The law, however, is that the candidate returned to the contest should conduct the business until the contest is decided.

PLEAD GUILTY.

Frank Hanson, the brieker arrested by Detective Brown after a long chase, confessed that he had stolen the automobile of Mrs. Hannah Dice, of New Castle, Saturday night and the residence of Andrew Douthett, of Wampum, on Wednesday night. He also turned up the stolen watches he secured by the same means. He was given a hearing and will plead guilty at the next term of court.

AN ILLEGAL FENSON.

Joseph Conrad, aged 70, was arrested and sent to the Northumberland county prison for impersonating his dead cousin of the same name and drawing a pension on false papers. He was granted a pension a year ago of \$18 per month, and was drawing \$300 from the United States treasury.

ELECTRIC RAILROAD EXTENSION.

The McKeesport, Duquesne & Wilmerding Railway Company has been granted a right of way from Wilmerding along the township road in North Versailles Borough to the borough of Pottsville. The company will commence the work connected with the extension of its lines next week.

TRIED TO KILL A CONDUCTOR.

On the arrival of the 7:15 Pittsburg and Lake train at Bellevernon, James Griffith shot Conductor Sharrar three times in the side and back. Drs. Guiler and Nickie say the wounds are not dangerous. Griffith is slightly demented.

RAILROAD OFFICERS SELECTED.

The directors of the Central Pennsylvania & Western Railway Company met in Williamsport. R. T. McCauley, of New York, was elected president. The board reorganized by re-electing the old directors.

A lot of wool in the wool picking house of the Chambersburg Wool Company caught fire as a result of spontaneous combustion, and a quantity of it was burned and the building and machinery were damaged. The loss will be about \$15,000, covered by insurance. There was about \$5,000 worth of stock in the building, but it was nearly all removed before the fire could reach it.

The Republican city convention of Philadelphia, nominated City Solicitor Charles F. Darwick for mayor, giving him 684 votes, against 237 for State Senator Boies Penrose, and 10 for George D. McCrory, the retiring "reform" city treasurer. The convention was one of the most turbulent and exciting that has assembled in that city in recent years.

At the Thompson Run coal mines a few miles north of Beaver Falls the water burst into the mines in a great flood and caused the miners to abandon their tools and flee for their lives. Some of them had very narrow escapes. It will take many days to free the mines from water.

The American electric telephone company has been formed at Johnstown with a capital stock of \$15,000. The rental charges will be \$30 a year.

The Westmoreland county law association unanimously endorsed the bill now pending in the legislature providing for an additional law judge in that county.

Frank Gahn, a gauger in the employ of the National Trust Company, was killed by a train near Glade Run. He lived at Warren, and leaves a wife and eight children.

Swan Peterson, residing in Pleasant township, Venango county, committed suicide by hanging himself to a rafter in a barn.

Wm. Spalding, employed on the tippie at the Oliver works at Uniontown, was killed by a fall to the bottom of the shaft.

C. W. Sausser, marble dealer, and A. J. Matern, dry goods merchant at Tyrone, have failed.

Mrs. E. A. Scofield milliner, and Scofield & Co., general merchants, of Sandy Lake, have assigned.

Cyrus Burnworth was found dead in a hole near Summerfield. He was a victim of the recent snow storm.

Wilson Bitner, a P. McK & Y., brakeman, was fatally crushed at Dickerson Run, and died shortly afterward.

W. B. Thornburg was elected steward of the Beaver county almshouse.

Budd Will Be Seated.

The legislature of California convened Monday. Republicans have a majority in both houses and elected temporary officers. Governor-elect Budd received from Attorney General Hart an opinion in which it is asserted that there can be no gubernatorial contest before the present legislature and that the oath of office must be administered to Budd.

J. N. Galopsis, in New York City, sold all the assets of the Utica and Unadilla Valley Railroad Company. It was bought by the Reorganization Committee for \$25. The road, which is twenty miles long, extends from Bridgewater to East Berlin, N. Y., and is in full operation.

LABOR REVIEW.

Items and Notes of General Interest to All Classes.

The recovery thus far experienced from the inactivity and quiet brought on by the holiday season has been only partial and yet a great revival of business is evident and resumption of closed and suspended factories have been general. Many of the factories that temporarily suspended operations one or two weeks ago are again in operation, and almost without exception with largely increased forces of workmen. Not only is this true, but throughout the country there have been a large number of mills and factories put in operation that have been idle for two, three and four years, and it is estimated that the ranks of the unemployed experienced a larger reduction during the past week than during any one week for more than two years.

DESTITUTE MINERS.

A delegation of miners from Nelsonville waited upon Governor McKinley, to ask, through him, assistance from the people of the state for the miners of that locality and their families. In the vicinity of the mining center 1,500 miners are reported idle, and in consequence 5,000 people are in want of the necessities of life.

A call has been issued for the annual meeting of the United Mine Workers of America to be held in Columbus February 12. The call contains nothing except the citation of constitutional provisions regarding the suspension. A secret call has been issued to the local assemblies for the meeting of National trades assembly 135, K. of L., the secret branch of the United Mine Workers, to be held February 11. The call deals with the supposed attempt of the general executive board of the K. of L. to reorganize N. T. A., 135 and appeals to the members to stand by the United Mine Workers.

MASSENON MINERS MORE HOPEFUL.

A hopeful feeling prevails throughout the Massillon district in consequence of the action of the miners' convention which was held Monday evening, in which they resolved to accept the arbitrators' award for an indefinite period. The verdict was denounced as unjust, but was swallowed unconditionally. A committee was elected to meet a committee of operators and arrange all matters not included in the award, the conference to take place after the resumption of work. It was also resolved that hereafter the miners must remain above ground on idle days, and not prepare coal for mining, as heretofore.

PREVENTION BEATS SETTLEMENT.

The discussion of the question of "Compulsory Arbitration and Conciliation" still continues to be general throughout the country, and many new and interesting points are being brought to light by the new discussion that is being carried on by the labor press. The recent Chicago Congress has had its partial effect, and it is generally believed that the day is not far distant when some definite form of compulsory arbitration will be conceived and put into practical use, which will be the direct result of the deliberations of the Congress and the subsequent agitation of the question.

INCORPORATED LABOR.

We find in the message of Governor Rich, of Michigan, some judicious observations on the labor question, concluding with the recommendation that labor associations be incorporated with certain well defined powers, to the end that they may treat with incorporated capital on an equality, and that there may be a means of enforcing contracts. This is in line with a plan proposed by a royal commission in Great Britain.

Seventy-five or a hundred men will soon be wanted at the Corning steel works, Hammond, Ind. This plant has been idle for some years past, and will be put in operation in a few weeks at the latest. It is well equipped. General Manager Sherburn will give information.

Reports come that within the past few days there has developed a demand for all kinds of laborers in the Indiana gas belt. Nearly all the factories that have been closed down are being put in operation, and there are very few idle men in any of the manufacturing cities and towns of that State.

Carpenters, brick and stone masons and other workers in the building trades are in demand at New Orleans, where work will soon begin on a new Court house, a mammoth hotel building and a large business block, together with many other buildings of less magnitude.

The Kansas, Oklahoma and Southwestern Railroad Company will soon begin the construction of a section from Coffeyville, Kan., to Vernon, Tex., and will give employment to several hundred laborers. Robert Martin, Guthrie, O. T., is President of the Company.

In October last the employes of the C. O. & S. W. Railroad were subjected to a cut of ten per cent in their wages. They were assured at the time, however, that the scale would be restored on Jan. 1. This was done, the deducted ten per cent, being added to their wages.

There is a demand for boys at the several glass factories in Muncie, Ind. Employment will be given to men who have boys and will remove to Muncie, in order to secure the services of the boys. The wages offered by boys thus employed are very satisfactory.

Work is soon to be commenced on the construction of the proposed electric railroads in Indiana, and a large number of workmen will be wanted. N. J. Clodfelter, Anderson, Ind., will give information.

Several hundred men will soon be wanted to work on the construction of the Tennessee Central Railroad, from Kingsport to Cross-titons. Address letters of inquiry to Thompson Iron, Harrison, Tenn.

The Anderson Bell Works, at Anderson, Ind., resumed operations last Monday, after a shutdown of several weeks. Two hundred men were given employment.

Work will be commenced on the proposed electric railway from Indianapolis to Marion, Ind., about Feb. 1. This will give employment to several thousand men.

The Midland Steel Company, Muncie, Ind., is adding new men to its pay roll almost daily. A large number are still wanted.

Geo. R. Webb, Baltimore, Md., will give information regarding the employment of men on a new electric railroad in that city.

The Big Four Railroad Company will shortly begin the erection of a large passenger depot at Louisville, Ky.

Gold Brick Victims.

Three victims of confidence men went to Richmond, Va., to see if they could identify Thomas H. Parker, alias Carlson, alias Smith and arrest as one of those who helped to dupe them by means of the bogus gold brick. Joseph Shannon, of Hemstead, Pa., and Robert M. Bonar, of Wheeling, W. Va., arrived on the same train and Patrick Morton, of Trenton, N. J., came in at midnight.

Shannon and Bonar identified Parker as the leader of the gang that swindled them. Bonar lost \$4,000 by the gold brick scheme and Shannon put \$5,000 in the tin box on going into a land speculation, and received worthless notes in exchange. It is not believed that the Richmond prisoner is "Red" Austin, of New York, as some there seem to think.

Educating His Child-Wife.

General Cassius Marcellus Clay, the "Old Lion of White Hall" is carrying out his plan of educating his young wife to fit her for her new station in life. A few days ago he engaged a governess, who has gone to White Hall to give Mrs. Clay lessons in deportment, music and the ordinary branches of learning.

The Rise of the Buckwheat Cake

The leaven of yesterday ruins the cake of to-day. Don't spoil good buckwheat with dying raising-batter—fresh cakes want Royal Baking Powder. Grandma used to raise to-day's buckwheats with the souring left over of yesterday! Dear old lady, she was up to the good old times. But these are days of Royal Baking Powder—freshness into freshness raises freshness.

And this is the way the buckwheat cake of to-day is made: Two cups of Buckwheat, one cup of wheat flour, two tablespoons of Royal Baking Powder, one half teaspoonful of salt, all sifted well together. Mix with milk into a thin batter and bake at once on a hot griddle.

Do not forget that no baking powder can be substituted for the "Royal" in making pure, sweet, delicious, wholesome food.

ROYAL BAKING POWDER CO., 108 WALL ST., NEW-YORK.

CHEMISTRY IN INDIA.

Some Curious Answers Given by Natives in a Written Examination.

The uncivilized nations are like children in their simplicity and guilelessness. Every adult knows what odd questions a child will ask and what curious explanations they are in the habit of giving. Nothing could equal the childlike simplicity of the questions lately given in an examination in chemistry held in an Indian university.

"Sulphur is a smellful gas. Nitrogen is a remarkably lazy gas and is good for nothing. Carbon always exists in a dark room. There is no living being in the whole world that does not contain carbon.

"Gas is made by filling a poker with coal and heating it. Chlorine gives botheration to the throat. Hydrogen is a colorless, invincible gas and burns itself without anybody's help. Nitric acid is used in the preparation of curant electricity. It is very bad for teachers to pour it on our hands.

"Soda is formed by heating castor oil and potash. Caustic soda is used in the manufacture of soda water, and this is used in medicine for purgative purposes. Caustic soda is used as a summer drink. Quicklime is made by pouring water on slaked lime. We can eat this substance (CaO); it has the power of digesting food.

"Lime is used as a kind of gum for builders to stick bricks together."

Electric Wires.

Some writer very aptly likens the nerves to electric wires, and the general working of their system to that of electric cars. A man who "slips his trolley" like Mr. Jeremiah Eney, 1812 W. Lombard St., Baltimore, Md., will need something better than even a galvanic battery to set him all right. Mr. Eney found that something in the following way "I suffered," he says, "a long time with neuritis in the head. I gave it Jacobs Oil a fair trial and am entirely cured." In this way the great remedy acts as a motor man for electric wires, and sets the system to perfect action.

A man in Somerset, Mass., pays 7 cent tax on a pet monkey and nothing else.

STATE OF OHIO, CITY OF TOLEDO, Lucas County.

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. CHENEY & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE. FRANK J. CHENEY.

Worn to before me and subscribed in my presence, this 6th day of December, A. D. 1935. A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, etc.

April 26, Memorial Day is observed in the States of Alabama and Georgia.

There are over ten million ruptured people in this country. To those of our readers thus unfortunately afflicted we call attention to the advertisement of O. V. Hone, Mgr. Co., 24 Broadway, New York. This old reliable firm make a very comfortable truss which can be worn night and day with ease, and is warranted to retain the rupture under all circumstances. Send for a catalogue or go to see them.

May 10 is Memorial Day in North Carolina, and is a legal holiday.

Swallow It.

That is the best way to take a Ripans Tubule, best because the most pleasant. For all liver and stomach disorders Ripans Tubules are the most effective remedy, in fact, the standard.

Rogers Mills county is the Democratic stronghold of Missouri.

Dr. Kilmer's Swamp-Root cures all Kidney and Bladder troubles. Pamphlet and Consultation free. Laboratory Birmingham, N. Y.

Birmingham, England, makes 7,666 guns weekly.

Karl's Clover Root, the great blood purifier, gives freshness and clearness to the complexion and cures constipation. 25 cts., 50 cts., \$1.

Garbage is cremated in 55 English towns.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c. a bottle.

Germany has 20,240 breweries.

Husband's Grievance.

All things have their limits and imperfections, even woman's taste in matters of dress. The Indianapolis Journal represents a "worried-looking" man as saying:

"My wife has the poorest kind of taste about dress."

"Indeed!" answered his neighbor. "I always understood from my women folks that she was one of the best dressers in town."

"Oh, that is all right enough. But I'm talking about my own clothes. She thinks two \$15 suits a year are plenty enough for me."

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

It is excellent in due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Wanted—agents for safety. Cleanse the system. The best article in the market for agents to make money selling the best laxative. Send for catalogue. J. H. Dax & Co., Cincinnati, O.

RUPTURE Cured

POSITIVELY CURED BY THE RUB, RUB, RUB. Worn night and day. Has an adjustable pad which can be made larger or smaller to suit changing condition of RUPTURE. Price, 50c. Sent by mail. J. H. Dax & Co., Cincinnati, O.

PENSION
