A Big Wreck.
Three freight trains were involved in a rear end collision at Carmon on the B. R. & P. last Tuesday, in which one man was lost entirely, another man lost an arm, and three or four others were badly injured. Part of the wreckage was piled up on the bridge at Carmon. All three trains were coming south and the first section stopped to set off a car and the second section, an engine and caboose, was flagged, but the third section was not flagged in time to stop and it crashed into the second section and drove it into the first section. Some of the men made miraculous escapes.

Book Day.
The teachers and scholars of West Reynoldsville schools are making an effort to get a good library for the schools. They have already received a number of books, and believing there are people in that borough who would contribute a good book to the library if an opportunity was given them, a day has been designated as "book reception day," which will be Washington's birthday, Feb. 22nd, when all persons who are interested are cordially invited to visit the schools and carry a book with them, expecting to leave without the book. There is no doubt but that "book reception day" in West Reynoldsville schools will greatly enlarge the school library.

A Pleasure Trip.
A few married ladies of West Reynoldsville who longed for a sleigh ride, got a good supply of that kind of pleasure last Saturday, in fact a trifle more than they cared for in one day. The ladies were packed into a sled with their faces turned toward Howe, Pa., their objective point. It was not the most delightful day of the season, but the ladies had made previous arrangements to go, and they did not propose to be baffled, even though the winds did howl and the breeze was scented with a north-pole chilliness. The pleasure-seekers made the trip to Howe and return, not, however, without upsetting a number of times and sticking in more than one snow drift. They were glad to start out in the morning and were exceedingly glad to get home again.

Editorial Meeting.
The 27th annual business meeting of the Pennsylvania State Editorial Association was held in Harrisburg on Thursday of last week. It was the largest and most interesting meeting ever held by the Association. Seventy-five new members were taken in.

The association resolved to urge the passage of a bill by the present legislature providing "that it shall be the duty of the secretary of the commonwealth within ten days after the signing of any bill by the governor whereby it becomes a law, to cause such law to be published in full once a week for three consecutive weeks in at least one newspaper of general circulation in each of the counties of the commonwealth, and that the compensation to be paid such newspapers for publishing such laws, shall be ten cents per line for the first insertion and three cents per line for each of the two subsequent insertions, solid nonpareil or six-point body, standard column, to be measured in the copy furnished by the secretary of the commonwealth."

The officers elected were: President, Lucius Rodgers, Kane; vice-presidents, first, J. W. Malloy, Summit Hill; second, T. T. Wiley, Elizabeth; third, J. S. Sanders, Wilkesbarre; recording secretary and treasurer, R. H. Thomas, Mechanicsburg; corresponding secretary, Mrs. J. W. Stofor, Elizabeth; assistant recording secretary, R. H. Thomas, Jr., Mechanicsburg; executive committee, Frank Mortimer, New Bloomfield; E. F. Acheson, Washington; J. A. Sweeney, Hazleton; J. Zeamer, Carlisle; J. O. K. Roberts, Phoenixville.

The association will reconvene in Harrisburg about the middle of April at which time new members will be taken in and arrangements will be made for the summer outing. An invitation has been given the association to go to Southern Pine, North Carolina, Atlanta, Georgia and other points of interest in the south. It is very likely the invitation will be accepted.

Too Much Snow.

For the first time since 1876 the Low Grade Division of the A. V. R'y was tied up by too much snow last Saturday, or at least the east end of the road was from Tyler to Driftwood. During the howling storm Friday night the large cut near Weesville was drifted so full of snow that it was impossible to get trains through until late Saturday afternoon. The train that arrives here at 7:40 A. M., was annulled. This left the company without a passenger train at Red Bank to represent train No. 1, west. The Sligo Branch train with one coach and a combination car was run from Red Bank to Dubois as No. 1, and returned to Red Bank as No. 2, and as far as Reynoldsville as No. 5 in the evening, arriving here about on time. This train made connection with the Main line and carried passengers and Pittsburgh papers, but did not carry mail, as there was no mail car or mail agent on the train. The regular passenger train that left Driftwood at 5:00 A. M., arrived here about 5:30 P. M. and remained at Reynoldsville until the Sligo train arrived as train No. 5, and then they run through to Driftwood nearly on time. The railroad company had about as much trouble getting local freights over the road on Sunday as they had experienced on Saturday, the snow having drifted again at points on the road between Bennezette and Driftwood Saturday night.

At the Capitol.

The editor of this paper had the pleasure last week of treading the Legislative halls of this Commonwealth and shaking hands with some of the Senators and Representatives that are now at the Capitol framing laws for the people of the Keystone state. Since the last session of the Legislature a large sum of money has been expended in erecting a new building, that would be a credit to any state, and in improvements on some of the old buildings. Something like \$125,000 was expended in beautifying the interior and enlarging the Lower House. It is certainly very pretty, but we failed to see where all of the \$125,000 was put. The acoustic properties were made defective by the improvements. Formerly it was an excellent chamber for speaking purposes. Wires were put across the hall on Thursday which improved the acoustics of House.

The only improvements on the Senate side is the new toilet department and bath rooms, which are good enough for a king. We were informed by a member of the Senate that this improvement cost less than \$5,000, notwithstanding the fact that some of our Democratic exchanges say it cost \$10,000. The people of this Commonwealth have no reason to be ashamed of the buildings of the state that adorn Capitol Hill in Harrisburg.

Party Last Night.

Fifteen couples from Brookville and thirty couples from Dubois drove to Reynoldsville last evening and tripped the "light fantastic" in Reynolds block until a few of the morning hours had been ticked off by the town clock. An elaborate supper was served by Mine Host Black at Hotel McConnell about midnight. A number of the young people of Reynoldsville joined in with the visitors and helped while away a few pleasant hours.

"Why is it?"
[Communicated.]

There seems to be a growing tendency among the majority of our citizens to put their foot down, so to speak, upon every enterprise that is suggested for the good of the town. "Why is it?" Let one merely mention an enterprise of some sort to one of our moneyed men and up goes his hands in holy horror, as he exclaims, "No! It will never pay." Everything that is gotten up is by the poorer class who earn their bread by the sweat of their brow. The cry is "Hard Times." What assists in making them hard? Our moneyed men, when they get hold of a dollar clutch it until the eagle squawks, and then lock it up for fear of its getting away and proceed to grasp for more. If perchance one of them does take hold of any project he expects all back that he paid in the first three months. What cares he for the good of the town, so his sordid selfishness is satiated? He expects to erect a Solomon's Temple on a ten-cent margin, and reap therefrom large dividends. Fie on such philanthropy. Can we always depend upon the coal mines? Everything must have an end and coal will run out. What have we then to keep our town up? Simply nothing. Our sister towns are full of push and enterprise and have manufactories to fall back upon, while we have nothing. Let us waken from our lethargy and offer inducements for enterprises and manufactories to locate here. We had at one time a Board of Trade. Where is it now? Echo answers: She sleeps while our neighboring towns capture and carry off the rich prizes. And still we fold our hands like the sluggish and exclaim, "yet a little more sleep, a little more slumber, a little more folding of the hands to sleep." Our town is still, whereas if our people so will it, the hum and buzz of mills and factories might be heard daily and instead of our town being like unto Goldsmith's "Deserted Village" it would be a veritable beehive, full of energy and busy industry. "Why is it?" Let our people ponder well and each one answer himself, "why is it?" Then waken up, put their shoulder to the wheel and in a short time the old Reynoldsville will be a thing of the past and peace and prosperity will reign, and our people will be happy.

A Good Country.

George W. Swartz, and son, Ammon, arrived in Reynoldsville last Thursday evening direct from Winter Haven, Florida. When they left Florida the thermometer registered 80 degrees in the shade and when they arrived here the thermometer was below zero. The contrast has been too great for Mr. Swartz and he has been indisposed since coming home. Five months ago Mr. Swartz and his sons went south. Mike and Willis will remain in Florida and Mr. Swartz will return next November. He has sixty acres of good land near Winter Haven, twelve acres of which is an orange grove of bearing trees. After the frost destroyed their twenty-four acres of tomatoes the latter part of December, Mr. Swartz and his sons replanted eighteen acres of tomatoes and five acres of squash. This will get them into the Philadelphia and New York markets four or five months later than the first crop, and the price is then away down to what would have been in February, the usual time to get into the markets. Mr. Swartz and his sons are well pleased with the south. The land is level and there is an abundance of long leaf yellow pine timber. Ammon has the mired in the party of "tender-feet" from Reynoldsville. He took great delight in hunting game and sitting along the streams "hooking" the finny tribe. Game and fish are plenty. Ammon has since suffered for the sport from malaria which he caught while onsnaring the innocent fish, and for that reason was compelled to return north.

Bond the Borough.

Are you in favor of bonding the borough for \$25,000, or do you want to handicap the school directors and put a sprag in the wheels of education? Reynoldsville can better afford to do without paved streets than to do without a new school building. Education is one of the boasted powers of free America. Shall we allow a small increase of tax to influence us from voting for the best interests of home and country? It has been hinted that it is likely some of our citizens will vote against this issue because there are now two members on the board who were active in serving the injunction on the school board when they proposed to erect two new school buildings in the borough. We hope no intelligent citizen of this borough will vote against bonding the borough merely for revenge or spite work. If a man conscientiously thinks it will not be wise to issue the bonds and votes against it for that reason, no man has a right to say aught against him. Every man can use his ballot as he pleases, but don't, for heaven's sake, don't rob the boys and girls of our town to pay some one back, "in their own coin," as you may say. It is our opinion that one large school house will be of more benefit to Reynoldsville than two small ones would have been, and it can be kept up at less expense, but as that is not the question before the tax payers now, we will not discuss it further.

Our people are well posted on the necessity of having more school room and for this reason we believe the majority will vote to bond the borough.

For every purchase of goods and ten cents additional Mr. Stoke will give a beautiful portfolio of the "Earthly Footsteps of the Man of Galilee." It is the joint production of Rev. John H. Vincent, D. D., LL. D., Bishop of the M. E. church, Rev. James W. Lee, D. D., and R. E. M. Bain, the celebrated landscape and scenic photographer.
