

# RICH RED BLOOD

In the body of an adult person there are about 18 pounds of blood. The blood has as its most important elements, small round corpuscles, red and white, in proportion of about 300 red to 10 white ones.

If the number of red corpuscles becomes diminished and the white ones increased the blood is impure, thin, lacking in the nutrition necessary to sustain the health and nerve strength of the body.

Then that tired feeling, Nervousness, scrofula, Salt Rheum, or others of the long train of ills, attending to the temperament and disposition, attack the victim.

The only permanent remedy is found in a reliable blood medicine like Hood's Sarsaparilla, which acts upon the red corpuscles, enriching them and increasing their number. It thus restores the vital fluid to healthy condition, expels all impurities, cures Nervousness, that tired feeling, Scrofula and all other diseases arising from or promoted by low state of the blood.

That these statements are true we prove not by our own statements, but by what thousands of perfectly reliable people say about Hood's Sarsaparilla. Read the testimonial in the next column from a beloved clergyman. Then take

"In view of the benefit I have had from Hood's Sarsaparilla I wish to give the following testimonial. I have several times been badly **Poisoned With Creeping Ivy.** As the old school of medicine simply tried to remove the symptoms instead of the sources of them, much of the poison was left in my system to appear in an itching humor on my body with every violent exertion in warm weather. At all times there were more or less indications of poison in my blood, up to a year ago last winter, when **Large Sores Broke Out** on my body. I then purchased a bottle of Hood's Sarsaparilla, and after using that and a half of another bottle the sores and humor disappeared. I attended the Christian Endeavor Convention in Montreal and also visited the World's Fair in the hottest weather of the summer. Was on the go all the time, but **Had No Recurrence** of the burning and itching sensation which had marred every previous summer's outing. I have reason, therefore, to be enthusiastic in my praise of Hood's Sarsaparilla." SAMUEL S. SCHNELL, pastor of Free Baptist Church, Apalachin, N. Y.

**Road Foundations of Cloth.**  
The Massachusetts Highway Commissioners' Board has found in building macadamized roads, that, upon loose, sandy soil, much stone is wasted by being driven into the sand. In such cases gravel, when accessible, has been placed upon the sand to a depth of three or four inches, and the stone laid on this. By so doing the cost is greatly reduced. There being no gravel at Martha's Vineyard, cheap cotton cloth has been spread upon the sand, and over that the stone. The sand does not work up through the stone and much less stone is required. Layers of tarred paper were tried, but without success, as the stone pressed through them.

### AN ALARMING STATEMENT CONCERNING WOMEN.

#### HOW BAD HABITS ARE FORMED.

The New York Tribune says: "The habit of taking 'headache powders' is increasing to an alarming extent among a great number of women throughout the country. The powders, as their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache. In many cases their chief ingredient is morphine, opium, cocaine or some other equally injurious drug having a tendency to deaden pain. The habit of taking them is easily formed, but almost impossible to shake off. Women usually begin taking them to relieve a raging headache and soon resort to the powder to alleviate any little pain or ache they may be subjected to, and finally like the morphine or opium habit, get into the habit of taking them regularly, imagining that they are in pain if they happen to miss their regular dose."

In nine cases out of ten, the trouble is in the stomach and liver. Take a simple laxative and liver tonic and remove the offending matter which deranges the stomach and causes the headache. Dr. Pierce's Pleasant Pellets are composed entirely of the purest, concentrated, vegetable extracts. One Pellet is a dose; sugar-coated, easily swallowed; once used, always in favor. They positively cure sick headache and remove the disposition to it.

## TORTURED BY ROBBERS.

### Three Women and Two Men Bound and Gagged.

Five masked robbers entered the house of John McMillin, near Watts Mills, and gagged the hired man and three women and waited nearly three hours for the return of McMillin. When he came he was bound to a board and leaned head downward against the wall, while the robbers threatened him with instant death unless he divulged the hiding place of his money. McMillin had deposited \$1,000 in a bank the day previous. After burning his feet with hot coals and whipping him unmercifully the villains finally believed his story and departed.

McMillin and daughters, who were compelled to witness the torture of McMillin, are in a very serious condition from fright.

### AFTER A MILLION DOLLAR ESTATE.

Half a dozen Altoona people claim to be among the heirs to the Robert Edwards estate, alleged to include a large section in New York City, in the vicinity of the Battery, and valued at \$1,000,000, for which it is said a fight is to be made in the New York courts. The claim is that the land was granted to Robert Edwards by King Charles, of England. The heirs number several hundred and are scattered all over the country. The Altoona heirs have been identified as Cambria, Indiana, Bedford, Huntington and Fulton counties in the employment of counsel to look after their interest in case a favorable decision is rendered.

### JEFFERSON PEOPLE ARE RICKING.

There is considerable dissatisfaction among Jefferson county people, because the county was not made a separate district in the house and senate judicial apportionment bills. Representative Smith, of Buchanan, made a hot fight in committee for it, but as a matter of fact, the county could not meet the constitutional requirement.

### WESTINGHOUSE BRANCHING OUT.

There are good prospects of a busy summer in the Turtle Creek Valley. The plans for the new machine shop to be erected by the Westinghouse company at Britton were submitted to the contractors last week. The shop will be 60x223 feet. It will be erected of brick and iron and will be two stories in height. When completed 1,500 men will be employed in it.

Bernard Kemper, of McSherrystown, York county, was arrested by United States Officer Jerome Connolly, of Harrisburg, on the charge of fraudulently collecting money. Kemper is a highly-respected citizen of that town and his arrest has created a sensation among his friends. He is a veteran of the Seventy-sixth Pennsylvania volunteers. During last summer he traveled through the eastern section of the state, representing himself to be a special pension examiner. His method was to call upon those persons who were pensioners and pretend to examine them and their papers for an increase of pension. He usually charged them a fee and asked whatever he thought he could get, judging his victims' circumstances from their surroundings.

The McKeesport and Wilmerding electric railway company has made a deal with the syndicate holding franchises in Jeannett, Greensburg, Iron and Turtle creek, and will allow the latter company to use its tracks from McKeesport to Duquesne, from which place it will build to Pittsburgh. The syndicate, during the summer, will construct a line from Greensburg to West Newton, and from West Newton to McKeesport, entering the city at the old driving park. Thence it is to use the McKeesport and Wilmerding line to Pittsburgh.

The Pennsylvania railroad company has added to its holdings at Blairsville a tract of land upon which it will erect a 50-engine roundhouse and large car and machine shops for the repair work of the West Penn division. This will concentrate at least 500 road and shop men at this point.

The Mahoning and Sheanago iron manufacturers have demanded a 25 per cent. reduction from both purchasers and finishers. A convention of the Amalgamated lodges will be held on April 1 to settle the question.

At Uniontown, the jury rendered a verdict in the ejectment proceedings brought by James B. Carr against Thomas B. Craig and the H. C. Frick coke company to recover 20 acres of land valued at \$25,000.

### Only One Tone in His Voice.

Possibly as ludicrous a thing as ever happened was the experience of my friend, Professor Roswell Park, of Buffalo, N. Y. A man's life had been saved by the beautiful surgical skill of a successful laryngotomy. When health had been restored, my friend proposed to the patient the insertion of an artificial larynx, so that vocal tones, or true voice, could be added to the whisper that necessarily resulted from the absence of the vocal chords. This apparently highly desirable thing was done, but the tone, of course, was uniform; there was no change of pitch possible to the mechanical larynx, and expression, modulation, timber—everything that makes voice pleasant and more than useful was absent. The man could speak, convey ideas perfectly, but when he tried to give emphasis, nuances, shadings, diverse meanings, and especially when he tried to express emotion, anger, or resentment, there was only the monotonous drone and squeak of the intolerable machine. Nothing could control the convulsive laughter of the surgeon and assistants. The poor man's indignation sought outlet in speech, but the very words of wrath were turned to outrageous absurdity by the infernal device. In a spasm of ebullient rage he tore the mechanism out of his throat, and is probably running and hoarsely whispering invectives at him still. He never came back.—Dr. George M. Gould's "Meaning and Method of Life."

### WAS GOULD INSANE?

#### FINANCIAL WORRY AND PHYSICAL EXHAUSTION NOT THE GREATEST DESTROYER OF HUMAN LIFE.

#### For Humanity's Sake, After Thirty-six Years of Nervous-Creeping Slavery, He Tells How He Was Set Free.

Caldwell, N. J., March 25, 1925.—(Special.)—Since one of our prominent citizens suffered so terribly from tobacco tremors, has made known his frightful experience in behalf of humanity, the ladies here are making tobacco-using husbands miserable with their entreaties to at once quit tobacco. The writer of this article is attracted by the wide-spread attention. When interviewed to-night he said: "I commenced using tobacco at thirteen; I am now forty-nine; so, for thirty-six years I smoked, smoked, smoked and smoked. I smoked and smoked I chewed before I quit my pants on, and for a long time I used two ounces of chewing and eight ounces of smoking a day. Sometimes I had a show in both cheeks and a pipe in my mouth at once. Ten years ago I quit drinking whiskey. I tried to stop tobacco time and again, but could not. My nerves craved nicotine and I fed them till my skin turned a tobacco-brown, cold, sticky perspiration oozed from my skin, and cracked days, my back at the least exertion or excitement. My nerve vigor and my life was being slowly sapped. I made up my mind that I had to quit tobacco or die. On October 1 I stopped, and for three days I suffered the tortures of the damned. On the third day I got so bad that my partner accused me of being drunk. I said, 'No, I have quit tobacco.' 'For God's sake, man,' he said, offering me his tobacco box, 'take a chew you will, get wide; and I was wide. Tobacco was forced into me and I was taken home dazed. I saw double and my memory was beyond control, but I still knew how to chew and smoke, which I did all day, until toward night, when my system got tobacco-souped again. The next morning I looked and felt as though I had been through a long spell of sickness. I gave up in despair, as I thought that I could not cure myself. Now, for suffering humanity, I'll tell what saved my life. Providence evidently answered my good wife's prayers and brought to her attention in our paper an article which read: 'Don't Tobacco Spit and Smoke Your Life Away.' 'What a sermon and warning in these words! Just what I was doing. It told about a guaranteed cure for the tobacco habit, called No-To-Bac. I sent to Druggist Hessler for a box. Without a grain of faith I put out my tobacco pipe and put into my mouth a little tablet upon which was stamped No-To-Bac. I know it sounds like a lie when I tell you that I took eight tablets the first day, seven the next, five the third day, and the next morning I was cured. My nervous and mental depression was gone. It was too good to be true. It seemed like a dream. That was a month ago. I used one box. It cost me one dollar, and it is worth a thousand. I gained ten pounds in weight and lost all desire for tobacco the first day. I sleep and eat well, and I have been benefited in more ways than I can tell. No, the cure was no exception in my case. I know of ten people right here in Caldwell who have bought no No-To-Bac from Hessler, and they have been cured. Now that I realize what No-To-Bac has done for me and others, I know why it is that the makers of this wonderful remedy, the Sterling Remedial Company, of New York and Chicago, say: 'We don't claim to cure every case. That's Frank's talk, a lie, but we do guarantee three boxes to cure the tobacco habit, and in case of failure we are perfectly willing to refund money. I would not give a public endorsement if I were not certain of its reliability. I know it is backed by men worth a million. No-To-Bac has been a God-send to me, and I firmly believe it will cure any case of tobacco using, if faithfully tried, and there are thousands of tobacco slaves who ought to know how easy it is to get free. There's happiness in No-To-Bac for the prematurely old men, who think as I did that they are old and worn out, when tobacco is the thing that destroys their vitality and manhood.'"

The public should be warned, however, against the purchase of any of the many imitations on the market, as the success of No-To-Bac has brought forth a host of counterfeit letters and imitations. The genuine No-To-Bac is sold under a guarantee to cure, by all druggists, and every tablet has the word No-To-Bac plainly stamped thereon, and you run no physical or financial risk in purchasing the genuine article.
