

# Spring Medicine

Dr. in other words, Hood's Sarsaparilla, is a universal need. If good health is to be expected during the coming season the blood must be purified now. All the germs of disease must be destroyed and the bodily health built up. Hood's Sarsaparilla is the only true blood purifier prominently in the public eye today. Therefore Hood's Sarsaparilla is the best medicine to take in the spring. It will help wonderfully in cases of weakness, nervousness and all diseases caused by impure blood. Get Only Hood's Because

"My little girl has always had a poor appetite. I have given her Hood's Sarsaparilla, and since I have given it to her she has had a good appetite and she looks well. I have been a great sufferer with headache and rheumatism. I have taken Hood's Sarsaparilla. I am now well and have gained in strength. My husband was very sick and all run down. I decided to give him Hood's Sarsaparilla and he began to gain, and now he has got so he works every day." Mrs. ANNIE DUNLAP, 285 E. 4th St., S. Boston, Mass.

**St. Patrick's.**  
Two St. Patrick's days in succession—that of 1894 and 1895—have been remarkable for being clear and cloudless. Nevertheless, there were typical wind flurries, and while the old Saint is supposed to have driven out serpents, he has never succeeded in driving out rheumatism and like pains and aches, which hold their own at this time of the year. No, it has been left to another Saint to accomplish this: St. Jarvis Oil, and whenever used for rheumatism it cures promptly. Don't trust the weather, but have a bottle handy all the time.

## STATE ELECTION RETURNS.

### A LIGHT VOTE.

Party Lines Ignored in Many Municipalities.

#### Wisconsin.

Wisconsin elected a Justice of the Supreme Court to succeed Justice Winslow, who was the candidate of the bar and on a general call for re-election. His opponent was Judge George B. Clementson, also a candidate on a general call, as no party nominations were made.

Party lines were to some extent drawn, as Winslow was a Democrat and Clementson a Republican. The vote was light, and the returns indicate the election of Clementson, Waller, Republican, is re-elected judge of the Municipal Court over Nye, Independent, by 8,000 to 10,000 plurality.

Republicans have elected mayors of the following Wisconsin cities: Ashland, River Falls, Delavan, Columbus, Marshfield, Mauston, Sparta, Waupun, Black River Falls, Manitowish, Hudson, White Water, Lake Geneva, Hartford, Centralia and Watertown.

Democrats were elected in Mineral Point, Plymouth, Durand, Prairie Du Chien, Alma, Madison, Chilton, Kenosha, Berlin, Ripon, Fox Lake, Shawano and Beaver Dam.

#### Illinois.

In Chicago the returns indicate that the Republicans have obtained complete victory, electing George Swift their candidate for Mayor, by a plurality close to 40,000. In the state so far as heard from the following are the results: In Moline the People's party gets the Mayor, six out of eight aldermen and the remainder of the ticket. In Rock Island the Republicans secure all but the city clerk and two aldermen. In Peoria they elect all the township ticket except collector. In Springfield the Democrats secured everything but two aldermen. In Quincy the Democrats got the Mayor and probably all the city council. In Litchfield the parties divide the offices about evenly. In the Tenth congressional district, G. W. Prince, Galeburg, Republican, is elected by about 7,600 plurality over Bastain, Democrat.

#### Nebraska.

Specials from all parts of the state on municipal elections show that party lines have not been drawn in municipal elections in Nebraska in many cases, but when they were the Republicans gained except at Hastings and Platteville, where the Democrats carried the day. Frank Graham, Republican, was elected Mayor of Lincoln by a large majority. The Populists showed no strength where they had tickets up.

#### Rhode Island.

The state elected a governor and other state officers. The Republican candidate for governor is Charles Warren Lippitt and the Democratic George L. Littlefield. At the last state election the Republican majority was 6,307.

Lippitt was elected by 10,600 plurality, leading his ticket eight to one. The senate stands three Republicans and three Democrats; the lower house sixty-nine Republicans and three Democrats.

#### Texas.

Charter elections were held throughout Texas. Party lines were drawn in but few cities, and since Democratic victories Dallas elected Frank Holland mayor and the Democratic board of aldermen. The Democrats were successful at Fort Worth and Waco.

Municipal elections throughout Kansas generally show victories for Republican candidates. The prohibition question was the predominant issue.

Election returns from forty-four Missouri towns show twenty-five were carried by Democrats, nine by Republicans and five non-partisan.

The most noticeable feature of the Minnesota municipal elections was the success of the license ticket in nearly every place where the liquor question was at issue.

### BUCKEYE LADY VOTERS.

Plans of Party Leaders Upset in Several Instances.

The women of the State of Ohio had their opportunity Monday, and many took advantage of it. Under a law passed at the last session of the legislature, the women were given school suffrage, and ever since the campaign opened there has been much interest taken in the preparations of the gentler sex to exercise their new prerogative. Opinion was divided as to the probable effect of the political work and aspirations.

The number of women who voted is, relatively speaking, not large, but it surprises some of the older politicians, especially those who thought the ladies would back out at the last minute.

Returns show that in many cities and towns the female candidates for members of boards of education were successful. They figured prominently in settling more than one litter contest. The inclement weather undoubtedly kept down the total vote, but the result was an agreeable surprise.

Akron Republicans elected two ladies members of the board of education. They figured for other offices. East Liverpool Prohibitionists were lucky in having a woman candidate for she was elected. Xenia, St. Marys and other towns were captured by the new voting element.

Republicans generally were successful throughout the state except where personal matters were injected into the campaign. At Cincinnati there was no election, the terms having recently been arranged so as to have all expire the same year. In Hamilton county Mr. Captain W. W. Peabody, of Madisonville, was elected to the board of education, and she had a woman as competitor. At Harrison, that county, three women were defeated; at Carthage one woman was elected, and at Norwood the woman voted for was elected.

The women were defeated at Camden. Elsewhere they voted as follows: At Van Wert 50 voted, at Hillsley 60, at Martins Ferry 49 out of a vote of 1,200, at Mansfield and at Morrow they turned out quite strong, and returned offers of precedence by men.

The returns of the feminine vote from small towns, not referred to elsewhere in the press dispatches, are as follows: Elyria—Only one woman voted. Bucyrus—Eight hundred women voted. Cadiz—Seventy-five women voted. Two out of three members elected to board of education were women. London—Four hundred and eighty-three women voted. Two women were elected members of school board by large majorities. Mt. Gilead, O.—Two women elected to the school board. One hundred and sixty-three women voted. Oxford—A woman, Mrs. Sarah R. Porter, was elected member of the school board. Washington, O.—Two hundred women voted, but half of them voted for men. Xenia—One woman was elected member of the board of education. Portsmouth—The entire Republican ticket was elected here, excepting one councilman. The five woman candidates were all defeated.

#### Michigan Elections.

Republicans again carry Michigan by a decisive majority, the size of which cannot yet be approximated. The election was for Supreme Judge and University Regents. Incomplete returns show victories for the winning ticket in almost every large town. Among the exceptions are Marquette, where the independent candidate for mayor had 450 majority, and Manistee, which has gone Democratic by a small plurality.

### Quizzing as a Fine Art.

On the occasion of Lord Melville's trial before the House of Lords, Hook had a seat among the spectators. He could not resist the opportunity of mystifying his neighbors, a lady and her daughter from Sussex. When the Bishops appeared in their state attire—wearing scarlet and lawn sleeves over their doctors' robes—he confidentially observed to the lady:

"These are not gentlemen; they are ladies, elderly ladies—the dowager peeresses in their own right."

When the Speaker of the House of Commons appeared, and attracted attention by the rich embroidery of his robes, the lady inquired:

"Tray, sir, who is that fine-looking person opposite?"

"That, madam," said Hook, "is Cardinal Wolsey!"

"No, sir," cried the lady, with a look of angry disdain, "we know a little better than that; Cardinal Wolsey has been dead many a good year!"

"No such thing, madam, I assure you," replied Hook, with imperturbable gravity; "it has been, I know, so reported in the country, but without the least foundation; in fact, those rascally newspapers will say anything."—Temple Bar.

### Cannot Compe with Africa.

J. Ross writes in the Engineering and Mining Journal that since the diamond discoveries in South Africa the Brazilian diamond-mining industry has fallen so low that the annual output is now not over \$150,000, which thirty years ago it was upwards of \$2,500,000. Brazilian diamonds are so much smaller than the African that it does not pay to mine them against African competition.

### A FAMOUS INSTITUTION.

The Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

What can be accomplished by judicious enterprise, when backed up by ability and professional skill, is shown by the magnificent building of the Invalids' Hotel and Surgical Institute at Buffalo. This model sanitarium furnishes one of the sights of Buffalo, not alone for its architectural beauty, but on account of the world-wide fame of Dr. Ray V. Pierce, who established the Institution many years ago, and is today its managing director and president. A beautiful five-story building situated on Main Street, the principal business street of Buffalo, the Invalids' Hotel can well be said to surpass any institution of its kind in the country.

Sixteen physicians form the medical staff of this institution, who devote their time to the patients in the building, and to correspondence by letter with patients who consult them from all over the United States. Each physician or surgeon is chosen for his skill and proficiency in curing one class of chronic disease. Thus the patient has for his physician an experienced specialist who is thoroughly familiar with the case. A material aid to the medical treatment are the mechanical, "mechanical movements," or massage, electrical apparatus, Turkish baths, etc., with which the Hotel is thoroughly equipped. Large and airy rooms, parlors, reading rooms, elevator, and many other conveniences make this

A PLEASANT REMEDIAL HOME, and far different from the private hospitals so commonly known. The World's Dispensary Medical Association, of which Dr. Pierce is President, and the largest laboratory, called the World's Dispensary, as well as standing on the same lot, which runs through to the next street, is the huge laboratory, its stories in height, which furnishes ample room for manufacturing Dr. Pierce's Favorite Prescription, Dr. Pierce's Golden Medical Discovery, Dr. Pierce's Pleasant Pellets, Dr. Sage's Catarrh Remedy, Dr. Pierce's Extract of Sarsaparilla, and other preparations. For his physician's room, and far more than all the sanitariums and newspapers of Buffalo combined, over \$300,000. The mail matter amounts to over \$500,000 annually. The first story of the World's Dispensary building is occupied by the shipping department; the second floor is devoted to the large newspaper advertising department and the mailing third floor, printing room and bindery; fourth floor, drug mills and paper warehouses; fifth floor, boating, wrapping and packing department; on the sixth floor is one of

THE BEST-PLANNED LABORATORIES in the country, in charge of a thoroughly scientific chemist, formerly of the Harvard medical school laboratory. In this department the machinery and the system with which these large institutions are equipped, makes the manufacturing process of their medicines as accurate as though by clockwork. would well repay a visit to it.

## You want the Best

Royal Baking Powder never disappoints; never makes sour, soggy, or husky food; never spoils good materials; never leaves lumps of alkali in the biscuit or cake; while all these things do happen with the best of cooks who cling to the old-fashioned methods, or who use other baking powders.

If you want the best food, ROYAL Baking Powder is indispensable.

ROYAL BAKING POWDER CO., 108 WALL ST., NEW-YORK.

Thought is not simply the sea upon which the world of action rests, but, like the air which pervades the whole solid substance of our globe, it permeates and fills in every part. It is thought which gives to it its life. It is thought which makes the manifestation of itself in every different action of man. I hope we are not so deluded as men have been sometimes, as some men are to-day; that we shall try to separate these two lives from one another, and one man say, 'Everything depends upon my action and I care not what I think,' or, as men have said, at least in other times, 'If I think right it matters not how I act.' But the right thought and the right action make one complete and single man.—Phillips Brooks.

## "Shave your Soap"

—so the soap makers say, especially if you're washing delicate things. Now, in the name of common sense, what's the use? When you can get Pearlina, in powder form for this very reason, why do you want to work over soap, which, if it's good for anything, gets very hard and difficult to cut. Besides, Pearlina is vastly better than any powdered soap could be. It has all the good properties of any soap—and many more, too. There's something in it that does the work easily, but without harm—much more easily than any other way yet known.

## Beware

Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled. If your grocer sends you an imitation, be honest—send it back.
