 An spur what others despise."

Bellefonte will celebrate its centennial June 6th and 7th. The town is making preparations for a big time.

If we could see the faults in ourselves as we see them in our neighbors we would find our neighbors better fellows than we thought.

The bill prohibiting the killing of deer for a period of five years in this state has passed the House finally at Harrisburg, and will more than likely become a law as it is looked upon with favor by the Senate and Governor Hastings.

April 21st the Pennsylvania railroad run a train from Camden to Atlantic City, a distance of fifty-nine miles in forty-five and three-quarter minutes, an average speed of seventy-six miles per hour. Twenty-five miles was run at the rate of eighty-three miles an hour. The Pennsylvania is the best line of railroad in the country.

Professor Benjamin Everhart, of West Chester, the eminent botanist, will prepare a bulletin for the state department of agriculture, describing the fungi detrimental to grains, fruits, vegetables and vines. The bulletin will be based on the professor's observations in the field and studio during the past 40 years. The state has never published anything of this kind.

When a man takes a cigar out of his mouth to tell an editor to stop his paper because he can't afford it, the editor may say nothing, but he thinks a good deal. And when he orders his paper stopped because he "hasn't time to read it," and then goes down and whittles a dry goods box for two hours, the editor may not say anything, but he thinks a good deal. And when he stops his paper because a two line item did not suit him, and then pesters his neighbor to borrow his paper, the editor may say nothing but he thinks a good deal.

Jas. E. Long, president of the defunct Bank of DuBois, had a statement of his personal assets and liabilities, independent of the bank, published in the Courier Monday morning of this week for the information of the depositors and creditors of the bank. This statement shows his individual assets over all individual liabilities to \$76,660.43. Mr. Long says in the statement: "After my individual indebtedness is duly met, I stand ready, if necessary to protect depositors and creditors, to give every cent of the above to meet any shortage in the Bank of DuBois."

The Farr compulsory education bill, which has passed the Senate finally, provides that every parent, guardian or other person having the control of children between the ages of 8 and 13, shall be required to send them to a school in which the common English branches are taught at least 16 weeks of each year, unless the children are excused by the school board on satisfactory evidence that they are prevented from attending by mental or physical or other urgent reasons. The penalty fixed for the neglect of this duty by the person in parental control when convicted before a justice of the peace or alderman is \$2 fine on the first conviction and not over \$5 fine on each subsequent conviction. The fines are to go into the county treasuries for the use of the school board in the district where the convicted person resides. Provision is made for the appointment of an officer to be known as attendance officer, who shall look after truants.

When a woman sends her subscription to The Ladies' Home Journal special privileges seem to go with it, besides getting her full money's worth in the magazine. She can take the fullest advantage of a perfect educational plan by which she can educate her daughters or sons at the best college in the country free of charge, and now the Journal has arranged it so that she can buy her books—even a single book at a time—at prices heretofore obtained only by large buyers. There comes to us from this magazine a very artistically-gotten-up illustrated booklet of over 250 pages, called "5000 Books," which serves as an easy guide to the best books in any department of reading. No book will, perhaps, do so much to extend good reading as this guide, so carefully gotten up, so beautifully printed, and so generously offered, free of any charge, by the publisher of The Ladies' Home Journal. "5000 Books" is unquestionably the best and easiest guide to a wise selection of books that has been issued for a long time.

May Make Trouble.
 A surprise was sprung upon the miners of the Toby Valley this week. This was the posting of notices on Tuesday at the Northwest mines up the creek as well as at those of the Shawmut mining company to the effect that an advance of five cents a ton on the mining rate would be paid on June 1st, providing the advance was general all over the district.

The surprising part of this announcement was the date set for the advance to take effect. As the Bell, Lewis & Yates and the Rochester and Pittsburg Coal and Iron companies had offered to pay the same rate of advance on May 1st, the Toby valley operators were naturally expected to fall in line with their bigger neighbors. This offer of the two big operating companies was also subject to the condition that if the advance was not general by June 1st the price was to revert back to the scale now in effect. Consequently if the Toby valley miners accepted the offer to wait until June 1st there might be a possibility of not getting it all. All would depend upon the ability of the miners' organization to secure the advance all over the district.

It is not known what the Toby valley miners will do, but in all probability they will enter a protest at least. There is a splendid outlook for a local strike, but matters may be satisfactorily adjusted without any trouble.—Brockwayville Record.

In other words, don't criticize where there are no flaws to pick; but if your Walls are not in keeping with your Carpets and Furniture, and if your Window Shades look faded and tired, it's time for you to criticize. Tell your husband about our stylish Wall Papers. Ask him, in that eloquent way you have, to take a walk with you down to our store.
