

CABINET APPOINTMENTS.

OLNEY SECRETARY OF STATE

That was as Expected but His Successor Caused Astonishment.

The place left vacant at the President's cabinet by the death of Judge Gresham was filled by the transfer of Attorney General Olney to the secretaryship of state, while Judge Judson Harmon, of Cincinnati, was selected by the president to succeed Mr. Olney as head of the department of justice. The latter appointment came as a complete surprise to everyone here, and it is believed that the attorney-generalship was tendered to Judge Harmon, only that day.

The selection of the Cincinnati man is generally attributed to the influence of Secretary Carlisle, of whom the new attorney-general is an old friend and associate. It shows once more the reliance with which the president places in the judgment of his secretary of the treasury.

It is believed that the attorney-generalship was first offered to two or three eminent New York lawyers, who did not care to relinquish their vast remunerative practices in order to assume the more arduous duties of chief law officer of the government for the comparatively insignificant salary of \$8,000 a year.

Mr. Harmon was for a long time judge of the common pleas court, and is about 50 years of age, and one of the more conspicuous lawyers in the west. Upon the retirement of ex-Governor Hoadly from his Cincinnati firm on his removal to New York, Mr. Harmon took his place at the head of the firm of Harmon, Colwell, Goldsmith & Hoadly, the last named being the son of ex-governor Hoadly, of Ohio.

Judge Harmon is not only recognized as one of the foremost lawyers and jurists of this state, but is one of the most popular citizens. He was born near Cincinnati many years ago, has always lived there, and is known by all. His father, Rev. B. F. Harmon, was a Baptist minister, well known throughout the Ohio valley. Judge Harmon graduated at Denison university, a Baptist institution, at Granville, O., in 1858, and began the practice of law in Cincinnati in 1859.

He was a Republican till 1872, when he Greeneyed. He was elected superior judge in 1878, re-elected in 1883, and when ex-Governor George Hoadly went to New York, in 1887, Judge Harmon came from Cincinnati to the head of the firm of Harmon, Colwell, Goldsmith & Hoadly, which represents several railroads and other corporations, and with which firm he will continue his connection.

When Judge Harmon resigned in 1887, Governor Foster appointed Judge William Taft, now United States circuit judge, and formerly solicitor-general to the vacancy.

One recommended the general adoption of the eight-hour day. The other was on the silver question, there being a majority favoring free coinage, and a minority report opposing it. Debates occupied the balance of the afternoon session, and both reports were finally laid upon the table. All of the other resolutions were adopted, as follows:

For the total suppression of the liquor traffic; the protection of Sunday as a day of rest; granting the rights of suffrage to women; better educational facilities in the public schools and opposing State appropriations to sectarian schools; extending the period of naturalization of foreigners to six years; opposing all trusts and combines, and settling all disputes between capital and labor by arbitration; adjustment of all tariff questions by a non-partisan commission vested with necessary powers; union of all reform parties; that the President, Vice-President and United States Senators be elected by the direct vote of the people; representation of all political parties in legislative bodies in proportion to the vote of each party; government control of railroads, telegraph and telephone lines and public roads, and opposing indiscriminate foreign immigration.

When the preamble was read the omission of the name of Christ as the ruler of all nations gave rise to a lengthy debate, which ended in insertion of the word "Jesus."
