#### One Dollar A Year.

From this time forth THE STAR has decided to adopt a new regulation governing the financial part of its business. And that is to make the subscription price one dollar a year to all who will pay in advance. Those who want THE STAR for that price can get it by settling all arrearages and paying an extra dollar in advance. New subscribers will also receive the advance yearly dollar rate. The price will remain the same as heretofore, \$1.50 a year, but a discount of 50 cents will be given those who pay in advance. THE STAR would like all its old subscribers to avail themselves of this offer and as many new ones as possible. Remember we will stick strictly to the \$1.50 a year price when the subscription is not paid in advance. This special offer holds good until the 1st of January, 1896.

Crowded House. The Probibition meeting in Centennial hall last Friday was well attended, the crowd being too large for the seating capacity of the hall. Hon, W. H. Berry, candidate for State Treasurer gave an interesting address, and the singing by Mr. and Mrs. C. C. Beveridge was excellent.

#### Not Uniform.

The Shawmut brick company shipped two car loads of brick to Reynolds to be sod for facing on the new brick school house, but the brick were not all the same color or the same size and the architect condemned them. These two car leads, which are good brick, can be used for tiling in the basement of the school building.

#### Telephone to be Put in.

Five or six business men of this place who have telephones in their places of business, waited on S. B. Rumsey, Supt. A. V. R'y, yesterday afternoon and asked to have a telephone put in the tolograph office. Mr. Rumsey gave his consent and the telephone company will put a 'phone in as soon as it can be done. This is a good step and one that will be of great convenience to those who have phones. A telephone should be placed in the freight office also.

#### Business Change.

Dennis and P. F. Bolger, who have been running a merchant tailoring and gents' furnishing store in Reynoldsville for a number of years, dissolved partnership yesterday, Dennis retiring from the firm. P. F. Bolger will continue the business and Edward Bolger, oldest son of P. F., who has just graduated from the Robert Phillips Co. cutting school, of Chicago, will have charge of the cutting department. Dennis has gone to Wilkesbarre, Pa., where he expects to go into business.

## Warrants Issued.

A number of good sized boys have been a great annoyance to Mr. and Mrs. N. Hanau for sometime, and more especially have they been annoying since Mr. Hanau went to New York last week. Mrs. Hanau had warrants issued for five of the boys. The warrants have not been served on the boys yet because they have been on their good behavior since the warrants were issued. Mrs. Hanau does not want to give the parents of the boys trouble and will let the mater drop if the boys continue to behave

## Big Runites the Victors.

On last Thursday afternoon a game of ball was played at this place between the Big Run and Reynoldsville ball clubs, which resulted in a victory for the Big Run team by a score of 15 to 11. The following were the players: Revnoldsville-W. Williams and Bitters, battery, McPherson, Jarvis Williams, J. Hanley, Kirk, Jos. Williams, Burge. S. Hanley. Big Run-W. Blose, Hodgkinson and Cochran, battery, D. Me-Quown, C. McQuown, LaBorde, L. Blose, Smouse, Gourley. One of the features of the game was a triple play by Jarvis Williams, by catching fly, holding on first and throwing to second.

## Rev. Johnson's Work in Reynoldsville.

Last Sabbath completed the second vear of Rev. H. R. Johnson's ministry in Reynoldsville and vicinity. In his morning sermon he stated that during that time he had preached three hundred and thirty-five sermons, delivered fifty-two lectures and addresses, conducted eighty prayer-meetings, baptized fifty-four persons, buried twenty-one, and married nine couples. The sermons, if printed, would make seventeen books of over four hundred pages each, and the lectures and addresses would make four more. He stated that he had called on every family between Sandy Valley and Rathmel that he sup posed he had any right to visit. If any family had been missed it was accidental. During the two years one hundred and sixty-four persons have been received into the churches of Revnoldsville and Rathmel, and in every respect the work of the churches

is very prosperous. Rev. Johnson spoke gratefully of the kind support of his people, and earnestly requested them to put on all the Christian graces and undertake vigorously the abundant work before them in the community-cheering the despondent, helping the weak, rescuing the unsaved; agitating temperance, public education and better home train-

## Squirrels and Coon Hunt.

While looking for news yesterday we dropped into Walter Spry's grocery and found four or five gentlemen holding down boxes and barrel lids and discussing the topics of the day. Among the number was Dr. Foust. Dr. and Walter Spry furnished the following squirrel and coon narratives: Peter Robertson, Lo Henry, Ed. Hughes and one other nimrod, whose name we did not learn, went squirrel hunting one day last week. They drove ten miles into the wilderness, killed ten squirrels and were home early in the afternoon. The only remarkable part of the bunt was that one of the hunters killed three black squirrels at one shot.

Friday night Ed. Hughes and Peter Robertson were out coon hunting with a number of other men. Hughes and Robertson captured a coon. Hughes caught the coon by the hind legs and was to hold it up so that Robertson could get a good "swipe" at its head with a club. Robertson was going to knock the coon into kingdom come at one blow. The club missed the coon's head but it did not miss Hughes' left shin. He was able to walk home.

#### Good Fire Protection.

A. C. Shaffer, special agent for the St. Paul Fire Insurance Co., Minn., was in Reynoldsville last week to make a a new rating for the company at this place. Mr. Shaffer was anxious to know whether the water works of Reynoldsville had force and could do effective work if a fire would occur. Frank J. Black, chief of the fire company, and four or five firemen got out a section of hose and tried several plugs. Mr. Shaffer was surprised at the force of the water and did not hesitate to say that Reynoldsville has good fire protection. Right you are, Mr. Shaffer.

Reynoldsville has water works second to none in this section of the country. Every citizen of this town has reason to be proud of our water works and fire department. A more willing and efficient lot of non-salaried firemen is not to be found within the State. We appreciate the fire protection and the firemen as they should. All honor and praise to the noble boys who respond so promptly to a fire alarm, whether they be dressed in a Sunday suit or every day apparel.

## Right Kind of Spirit.

Thursday of last week the people of Allen's Mills got together, men, women and children, for the purpose of clearing a place for a Baptist church parsonage. The women were evidently new women, for some of them were piling brush, rolling stones and working as hard as the men. The people of Allen's Mills have the right kind of spirit, and when they do a thing they do it with all their might.-Falls Creek Herald.

## Gospel Temperance Meeting.

A gospel temperance service will be held in Centennial hall on the evenings of Sept. 23rd, 24th and 25th. The ministers of the different churches, the members of the different temperance societies and choirs of the Presbyterian M. E. and Baptist churches are requested to participate. J. C. Hogan, of Forest City, will conduct the services.

The county fair to be held at Brookville four days next week, opening Tuesday and closing Friday, promises to be the best fair that has ever been held in the county. Many exhibitors have already made entries. The \$1,200 offered in premiums for speed will draw all the fast stock of this section to the fair to contest for the premiums offered.

## MINERS' MASS MEETING!

REQUEST PRESENTED TO GEN. MANAGER ELLIOTT REJECTED.

The Men Decided to Suspend Work Until All Receive 35 Cents.

It was advertised last week that a general mass meeting of all the miners of Reynoldsville, Rathmel, Sandy Valley, Falls Creek, Rochester and London mines, who are employes of the Bell, Lewis & Yates Coal Mining Co., would be held at Rathmel at 10.00 o'clock last Saturday morning for the purpose of discussing the mining situation, and to decide what had best be done, with a hope of bettering their condition, which for sometime has been in a deplorable state. The weather being fine and the questions to be discussed being of such vast importance, as large a body of interested men never before attended a meeting in this section such as the one held at Rathmel. About three hundred miners from Du-Bols and London mines walked down to Rathmel and were met there by the miners from this place, who marched up headed by the Excelsior band and carrying the American flag. The men from all the mines, numbering at least a thousand, then assembled in a field and the meeting opened with Walter Ainsley, the last checkwayman at Rochester mine, acting as chairman and John Robinson secretary. A committee, consisting of one representative from each mine, was appointed to draw up resolutions to be presented to the company. The meeting was then opened for the discussion of any subject which concorned the interests of the miners, and was first addressed by Mr. Ainsley, the chairman. He is of the opinion that the men at this place are used better and given more work than the company's employes at DuBols. He also stated that it was expected when a number of the men quit that those who continued to work would be given more to do; but that since 300 or 400 had left, still there was nothing to do. Mr. Ainsley's address was followed by a short speech by Mr. Robinson, which opened

The committee on resolutions reported the following:

a discussion in regards to establishing a

scale for machine and pick mining.

Committee on resolutions organized with T. J. White, of Soldier Run mine, as chairman and S. S. Haine, of Henry mine, as secretary. After discussing the situation the committee agreed on the following resolution:

That we demand a continuance of the present rate, 35 cents per ton, up to Oct. 1, 1895, and from that time on the price shall be 40 cents per ton for all pick mined coal. And for machines, the price to remain the same as before up to Oct. I, and from that date on it shall be equivalent to the advance.

The resolution was amended to state more clearly what should be the advance in machine mining and was made to read "four-fifths of the advance in pick mining." The report was then adopted and a committee appointed to present the resolutions to General Manager S. B. Elliott. The committee secured a rig and drove to the office of the company at this place, where Mr. Elliott was interviewed. He claimed that the company had opened the Hamilton and Rochester mines for charity and that they would shut them down again and continue to pay 35 cents in the mines working, and if all the other companies cents on the 1st of October the B., L. & Y. Co. would also pay 40 cents. The committee reported to the mass meeting and the men would not accept the proposition and now all mines are idle.

The miners are not willing to believe that the Hamilton and Rochester mines were opened for sweet charity's sake, but think it was a scheme to get the price down to 30 cents a ton in all the mines. Men were promised five days a week if they would work in Hamilton for 30 cents a ton; men who were working in Big Soldier, so we have been informed, were asked to go to work in Hamilton at 30 cents; men have come in from other places to work in Hamilton for 30 cents and as soon as they struck the town they could tell just where they were going, how much they would receive per ton and that they would get all they could do. For these reasons the men do not have faith in the statement that the mines were opened for

The miners think they should get the 40 cents the 1st of October whether all the other companies pay the advance or not. As they understand the proposition, if one or two companies pay the advance they will not get it unless all pay the advance.
