The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the meducal fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the sisease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonics. Address F. J. Chensy & Co., Toledo, C.

# WOMAN'S ENEMY.

PERITONITIS SELDOM SPARES ITS VICTIMS.

When It Does She is But a Wreck .-- Phyalcians Have Long Reen Powerless --- The Experience of a Baltimore Woman.

From the Herald, Battimore, Md. Mrs. J. P. Grove, a married lady with grandchildren, lives 417 Pinkney Place, Battimore. She would easily pass for a woman of half her age, and owes her present state of good health and probably her life to the use of Dr. Williams' Pink Pills. A Herald reporter called at the house a few days ago and was informed that Mrs. Grove had cone out for a walk and would soon be back. The scribe was ushered into the parlor to awalt her arrival. The room gave every evidence of refinement and the care and attention of a good housewife. Choice books lay around giving proof of the intelligence of the family, and the walls were descrited with many rare anticles of virtu and brica-brac from South America, Japan, and other countries. When Mrs. Grove was announced the reporter was astonished to find her such a young looking and healthy woman. She is well educated, and is a finent talker and interesting to listen to. She, however, decilned at first to speak of the ramits she had experienced from taking the Pink Pills as, she said, she did not like to have her name appear in print in any way. "However," she added, after some little hesitation, "the pills did me so much good that I might be doing wrong by not letting some other sufferer know what they did for me." Then she said, "Dr. Williams." Pink Pills are certainly all the proprietors represent them to be. I never had such relief from any other medicine. A short time ago I had an attack of peritonitis which loft me is such a prostrated and nervous condition that I despaired of recovery. I could neither sleep, ent or read with any degree of pence or satisfaction, and life was absolutely a burden, Having heard that others had been cured of the same troubles by Dr. Williams Pink Pills, I secured several boxes and began to take them. As if by marie I at once began to innerove. They cured me, and now I have no symptoms of nervounces or of the disease which so prostrated me. Now that's enough," said Mrs. Grove, in reply to another question. She walked to the door as lightly as a articles of virtu and bric-a-brac from South

#### To Attract Custoni.

An ingenious device for attracting custom was that of a fruiterer in a Midland town. Instead of the ordinary plate glass, a large number of rough magnifying glasses formed the window. Seen through one of these panes an orange looked as large as a pumpkin, and cherries as large as apples. A great disadvantage attaching to this noveity was the fact that at the distance of a few yards from the window it was quite impossible to see into the shop. Everybody knows that you must hold a magnifying glass close to the eyes to see anything through it. Nevertheless, for some time, at all events, the enterprising proprietor did a rushing trade,

Spilled 120 Tons of Molten Glass. A costly accident occurred the other morning at the Marion, Ind., fruit jar works. The bottom of a large tank and dealy fell out, spilling and ruining a mass of molten glass weigning 120 tons. Since the accident four streams of water have been playing constantly upon the molten mass, thus preventing what might have been a disastrous fire. The factory was compelled to shut down two weeks.
