TRADE REVIEW.

Iron and Steel Products Show a Decrease With Competition for Orders.

R. G. Dun & Co., say: Of reaction in business there is none. Efforts to explain it or to attribute it to this or that temporary influence are all wasted. In every business men now

attribute it to this or that temporary influence are all wasted. In every business men now perceive the fact that the purchases in advance of current distribution, which were made when prices were beoming, involved of a necessity a season of halting when the rise stopped, and until the actual demand for consumption has been measured.

Iron and steel products are lower, averaging 1 per cent for the week and 7 per cent for the highest. Bessemer, anthractic No. 1 bar are quoted lower, while sales below quotations are frequent. There is competition for orders, most works having little ahead, and new business is remarkably small. Structural work is cut down by the strike of house workers here, and quite a number of mills, principally bar, have stopped within a few days. The associations reaffirms prices, but do not well enough to keep works busy.

The demand for cheap boots and shoes is a shade better, but many shops are idle, or working part time, and buyers generally hold off, although considerable reductions are now offered by manufacturers, on men's split shoes and on grain, grain-glove and buff polish and polika shoes. Shipments for the month are 22.7 per cent loss than last year. Letther is weaker, though only one class is quoted lower but hides at Chicago have again declined about 2 per cent, and average relatively lower than letther and shoes.

Freducts are lower, without disturbance or sign of panic. A reputable estimate of 473, c00,000 bushels of wheat excites little remark. Prices have declined about 1 cent. Corn declined 45 a cent further. Perk products also have reason for weakening; lard 15 cents per 100 pounds and pork 25 cent per barrel. The cotton market has been assisted all the week by small receipts and remarkably stiff statements of searcity, but has gained a sixteenth. Exports are small, partly because the manufacturer abroad does not find a market hear and adoes not find a market hear already and partly because the manufacturer abroad does not find a market hear called in the season of the ana

by small receipts and remarkably stiff statements of scarcity, but has gained a sixteeath. Exports are small, partly because stocks abroad are heavy and partly because the manufacturer abroad does not flud a market for the usual quantity of goods, the British being especially embarrassed. In this country the cotton manufacturer has fared better, escaping an excessive rise and the resulting decline. Itelail distribution has hardly kept pace with manufacturers orders or with sales to retailers. The opening of clay worsteds by two leading mills at advanced prices has not yet been followed by others, and it is doubted whether foreign prices, after London wool sales sext week, will be hopeful.

Failures for he week have been 320 in the United States, against 32 last year, and 42 in Canada, against 31 last year.

They assert that Japan is a nation professing to be civilized, but it is the most barrarous on earth. The queen was hung up by the hair, and after being otherwise abused, tied hand and foot, soaked in oil and burned in the rear of the palace, her remains being reduced to ashes so that all trace might be lost. Thirty attendan's of the queen, it is alleged, were butchered, their bodies being left about the palace. When the palace was attacked of some 1,500 guards on duty only sfx remained at their posts, and they were quickly disat their posts, and they were quickly dis-patched. According to dispatches there were 15 ladies of title in the court, the queen, her mother and 199 ladies in waiting. They were nearly all soaked in oil and burned, while the men's throats were cut.

A NEGRO LYNCHED.

Three Hundred Masked Men Take Him

From Jail to His Death. Charles Hurd, a negro, who murdered Jasper D. Kelley, a young white man, near Har riman, Tenn., ten days ago, was taken from riman, Tenn., ten days ago, was taken from
the jali at Wartburg, the county seat of Morgan county, and lynched Wednesday night.

A mob of 300 masked men gathered at a
point three miles from the jali and marched
in fours to the prison. A demand was made
on Jalior Langtry to "open up." This he refused to do, and the door was broken open
with a siedge hammer.

When the men were on the inside the jalier
was placed under the point of pistols and
guns, and finally gave up the keys. The negro was taken from his cell and a rope placed
around his neck. He was dragged to an oak
tree 100 yards distant, where he was swung

Entire Village Burned.

Details from Santa Clara show that the town of Guinia de Miranda, the most important in the district, has been entirely burned by the Cuban insurgents, commanded by Roloff. A majority of the brick houses of the place, and 50 paim huts, were destroyed. Before the rovolution there were 4,500 inhabitants there. The main wealth of the place was in tobacco, coffee and cattle. The small garrison defending Guinia de Miranda made a heroic defense.

Bahri Pasha Puts in Charge of Turkish Troops at Aleppo.

reda further instance of manifest insult to
the powers, especially Great Britain. This
was the appointment of Bahri Pasha as military commander in the Aleppo district
This notorious official made himself so
conspicuous by his cruelty to the Armenians
and maladministration of his district when
governor of Van, that British Ambassador
Currie demanded his removal, which was
done only ofter infinite trouble. Following
this degradation the Suitan ecoly gave England a slap in the face by forgiving the
butcher, and bestowing upon him the decoration of the Order of the Osmanich. Soon
afterward it was said that Bahri Pasha was
to be appointed to command the large forces
of Turkish troops being concentrated at
Marash for a movement upon Zeitoun, which
is held by the Armenians. This report raised
such a storm of indigration that the plan was
abandoned.

Now, however, Bahri Pasha has been appointed military commander of the Aleppo
district. The bad impression which this has
produced can hardly be exaggerated, for the
diplomats feel that it will be almost impossible to prevent him from pursuing the same
tactics at Aleppo as he did at Van.

Upon receiving the news of Bahri Pasha's
appointment to the military command of Aleppo the representatives of the powers held a
meeting and discussed the matter. The resuit was that they have joined in a note to
the Turkish government saying that they
cannot answer for consequences which must
ensue should the Armenians of Zeitoun be
massacred after their surrender, which the
Armenian patriarch, at the instance of the
powers, is endeavoring to bring about in order to prevent further bloedshed. Aleppo is
situated about 75 miles distant from Marash,
which is about 15 miles from Zeitoun, and is
the capital of the vilayet of Haleb, in which
both Marash and Zeitoun are situated.

A dispatch from Constantinople says that
20 villages have been burned in the northwestern portion of the district of Aleppo, and
that the inhabitants have been massacred.

Settling prices for sig iron and steel; weakness, though less pronounced, in nearly every form of finished product; a prolongation of the wait in iron ore, that now promises to go on until there are distinct signs of new conditions in secondary markets—this is the situation in brief. There is plenty of optimism abroad in the trade, in spite of the quietness, and there are those whose predictions of \$20 Bessemer iron were made freely and confidently three months ago, who are still giving utterance to their faith in the plentiful buring and the remunerative prices that are to come with the opening of the new year.

Control of the Senate.

Not counting the disputed senatorship from Delaware, the Republicans will have 42 senators, requiring two more to make a majority of the 51 senators holding unchanged seats. The Democrats will have 39, and the Populists 6. When the two Urah senators both Republicans, are admitted early in the coming year, the number of senators will be increased to 90, or 59, allowing for the Delaware vacancy. Forty-six will be a majority of a full senator, while the Republicans will have only 44, being as far from a majority as they are now. The admission of the Utah senators and the decision of the Delaware contest in their favor will not give them a majority. As the senate, unlike the house, is a continuous body, and always organized for business, this complication will not interfere with its taking up legislative work at the opening of the session, as the old officers will hold over until superseded by new elections. The South Carolina constitutional cenven-tion took action adopting an ordinance pro-viding that courts should recognize divorces granted heretofore and hereafter in other states of the union, under certain conditiona.
