Chinese Laundry Tickets.

The Chinese washermen have a sys tem of ticketing a bundle of soiled clothes based on the many gods and goddesses of the laundry. Though it is complicated, the laundryman seldom delivers a bundle of washed clothes to the wrong person.

Furthermore, if the ticket is lost, the chances are that you will not get your Unen, unless you are a particular friend of the proprietor. Instances are on record where an American has gone to court to force the Chinese to yield up the washing, but the judge was not convinced that the case of the white man was a good one.

The Chinese laundryman at the beginning of each week makes out a batch of checks, in duplicate, to be used as wash tickets. He selects the name of some god or goddess, or of some object, as the sun, the moon, or the stars. To this name he prefixes a number, as "Moon, No. 1," "Moon, No. 2," and so

In the space between the two legendsfor the signs are repeated twice-he has his own name, as, for instance, "Wal

When a customer takes a bundle of washing to the laundry, the Chinese, first tearing a ticket in two in a ragged fashion, puts one-half on the packet for reference; the other half he gives as a receipt to the person who has brought

the package of laundry.

It must be presented when the laundry is demanded, and no fears need be entertained that the package of clean clothes will not be forthcoming, for they are scrupulously exact in these

An English Gunpowder Factory.

The royal gunpowder factory at Wal-tham, England, bears more the appearance of a pleasure resort than of the prosaic plant that such a purpose involves. The factory covers in all its branches a beautiful stretch of wooded land, some 400 acres in extent, intersected by four miles of running streams. Electric launches ply between the different buildings, while cargoes of explosives are conveyed by sail barges, so as to reduce the liability to danger to a minimum. The threshold of the "danger building" is barred with a board, which not even the inspector may step over without having a special pair of large overboots on his feet, to keep his shoes from taking grit from outside upon the felt carpet. Once every week there is an explosion with in the grounds, which is heard for many miles along the country side. In one part of the grounds is a pond into which the water from the nitro-glycerine factory is drained. This extraordinary lake is exploded every Saturday afternoon with a dynamite cartridge to prevent too great an accumulation of waste nitro-glycerine. Some times there is already so much in the water that holes twenty feet deep are made, and the water is all blown away.

The Fastest Boat.

The fastest war vessel afloat is own ed by France. The sea going torpedo boat, the Forban, recently tried, built under a contract for a speed of 29 to 30 knots, easily made 30.2 knots, or 34.7 land miles per hour, despite a heavy sea and high wind, which shows her to be faster than any other ship in the world. The Forban is 144 feet long, 13 feet 6 inches beam, and draws 3 feet of water. She has two screws, and her engines are capable of developing 3,200 horse power. She carries two 37-millimetre (1.45 inches) quick-firing guns, and two torpedo tubes above water.

Reed and rattan workers are organizing a National union.

The oil mills of Washington, Ga., are now running night and day.

There are 380,600 women employed in busi-less houses in London. The Machine Wood Workers and the Furni-ture Workers' International Unions are about to be consolidated.

The file and rasp makers' strike in New York City has been settled.

Attempts are being made by the screw makers to form a National union. The United States Leather Company shut

down its tanneries for sixty days The iron ore miners of Southern Michigan are rapidly affiliating with the A. F. of L.

 Trades unionists' wives in Chicago have organized the Doreas Federal Labor Union for educational purposes. Waitresses in certain restaurants in San Francisco, Cal., St. Louis, Mo., and New York City are in bloomers.

Wisconsin's State industrial school is to be equipped to teach the inmates a trade, or to make them proficient in such work as en-gineering, millwrighting, etc.

The number of workmen benefited by the wage advances since the beginning of the year is estimated at over 300,000.

The rubber works at Bristol, R. I., which had closed down for an indefinite period, started up again and 1400 employes returned

There is no longer any doubt of the re-

moval of the headquarters of the Brother-hood of Bailway Trainmen from Galesburg to Peoria, Ili. It has been decided by the Granite Cutters'
National Union by a referendum vote to affiliate with the Federation. The headquarters of the union are at Baltimore.

The Housesmiths' Union, New York City, began a general strike for increased wages and shorter working hours. Their demands were refused by the principal firms in the trade, who constitute the Iron League.

A rolling-mill in Gate City, Ala., is filling an order for five hundred tons of rails for a road in one of the South American States.

By the use of mechanical devices now em-ployed it is said that a workman can make the "bodies" for 400 hats a day. By the hand process he could only prepare four or five.

Better times are reported from the engineering centres in Lancashire, Engiand.
The manufacturers are receiving liberal orders, and workers in the different trades, including machine toolmakers, stationary engine boilers and boilermakers, are now engaged full time. ged full time.

It has been the custom for a number of years for the Union Pacific Railroad to sell its employes coal at reduced rates. This will be discontinued on January 12. This addested everyment on the system, and the privileges has been enjoyed by everyholdy who could lay claim to being an employe.

Burgettstown, Pa., on the Panhandle read, was the scene of a disactrons fire Friday morning. Esveral business houses and their contents were destroyed, lavelving a loss of upwards of \$20,000, upon which there was but a small inarrance. The fire originated from a natural gas jet, which had been left burning. I communicated to the wall of Lowe's barber shop.

A HARD-FOUGHT BATTLE.

A Spanish Force of 10,000 Men Defeated

A Cuban messenger who arrived at the Cuban junta in New York, direct from the seat of the revolution, reports that on November 19 one of the largest battles had been fought 19 one of the largest battles had been lought since the beginning of the present trouble with Spain took piace. The battle occurred at Taguasco, a town in the interior of the interior of the island. The Spanish forces consisted of about 10,000 man, while the Cubans had but about 4,000. The Spanisrds were led by Generals Valdez, Lacque and Aldave, and General Maximo Gomez was at the head of the Cubans. The Cubans had a most favorable position at the bottom of a hill, For 30 hours the opposing forces fought, but for 30 hours the opposing forces fought, but the Spaniards were unable to drive the Cu-

bans back.

The latter, hawever, could do no more than hold their own. Finally, at a critical moment, General Antonio Maceo, of the Cuban forces, came rushing in with a force of 3,500 mea. With the aid of this reinforcement the Spanlards were quickly routed. The Cubans advanced then towards Trinidad and Clenfue-

gos.

General Aldave is reported to have been killed in the battle, and the total number of killed and wounded is placed at 600.

General Gomez secured 700 rifles and a large amount of ammunition.

Many Cubans Killed.

The force of Rego, the insurgent leader, according to official advices, at the last engagement, fest about 100 in killed and wounded. Among the wounded was General himself. A large quantity of sugar cane has been burned at a plantation near Soledad. The sugar cane belonged to an American named Akina.

named Atkins.

Spanish official reports give the government losses in the field and hospitals from the commencement of hospitals to date at

22,000 men.
It is reported in Havana that President
Cieveland, of the United States; Caro, of Columbia, and Gutierrez, of San Saivador, will
be decorated by the queen regent, as the executives of Mexico and San Domingo were a fortbight ago, in token of Spain's gratitude for their neutrality in the Cuban question.

A BIG ORDER.

Bethlehem Works to Run all Winter on Russian Armor.

A cablegram was received by President Linderman, of the Bethlehem, Pa., Iron company, Monday, informing him of the award to the company by the Russian government of a contract for the manufacture of armor plate. The plate is to be used on the new battleship Bostislav, and calls for 1,128 tons of Harveyized armor. This is one of the largest contracts for armor plate ever award. largest contracts for armor plate ever awarded by any nation in recent years. The work is to be completed by the close of next fail, and will be begun as soon as necessary plans and details arrive from Russia. President Linderman said he would keep the ordnance works of the company running throughout the winter. When the news was received the flags at the ordnance works were run up and all whistles blown, and there was a general rejoicing throughout the town.

Secret Turkish Plots.

Secret Turkish Piots.

A special dispatch from Viennas says: The situation is growing daily better. A diplomatist who is just back from the east, says that secret plots against the suitan, supported by many Italian newspapers, now constitute the chief danger. The suitan's overthrow, he says, would render the question very grave and bring about bloody riots as well as troubles in Constantinople. The European cabinets are discussing this eventually.

A Moonshiner Deacon

Reports from Union county, Tenn., say revenue officers captured a still, 20 persons and 1,000 gallons of whisky. The still was run near a church and a deacon of the church was the leader of the moonshiners.

PROMINENT PEOPLE.

Queen Victoria's daily income is \$8000. Gladstone will spend the winter at Monte

General Schofield has concluded to return to Chicago to live. Senator Hill, of New York, will lecture on "Liberty" in ten cities.

Lieutenant Perry announces that he has carned the Eskimo language. Richard Watson Gilder is probably the best known of New York's poets.

J. M. Coe Forsaythe, the future king of the Cannibal islands, is worth \$2,000,000, It is said that the Prince of Wales receives 200 begging letters, on an average, every

Henry Watterson, editor of the Louisville Courier-Journal, is going to Europe to write a life of Abraham Lincoln.

Count Toistol recently refused two big offers for a story he had written, and gave it

to a magazine for nothing.

Sir Algernon Borthwick, editor of the
London Morning Post, is the first journalist
who has been raised to the British peerage. Governor Brown, of Kentucky, proposes to move to Logisville and engage in the practice of law at the expiration of his term of office,

Count Badenyi, the new Prime Minister of Austria, is descended from an Italian cook, who was in the service of one of the last Kings of Poland. He has not a hair on his head.

The poet of the Fifty-fourth Congress is Rowland Bleanerhusset Mahany, from the Thirty-second New York District. He is a native of Buffalo, and has had a stiff struggle with fortuna.

S. M. Inman, of Atlanta, Chairman of the Finance Committee of the Southern States and Cotton Exposition, has donated \$50,003 to pay the floating debt, and the other mem-bers paid the other \$50,000.

Ex-Empress Eugenie, in her latest will as constituted herself the godmother of al has constituted herself the godmother of all male children corn in France on the birth-day of her son. The number amounts to 8334, all of whom she has remembered in her will.

Marion Butler, of North Carolina, youngest of the members of the new Sonate, is thirty-two years old. His father was an extensive slaveholder, and he was reared on a plantation, but the war deprived him of his family possessions.

James B. Garfleid, who was elected State Senator from his father's old district in Ohio, was nominated on July 2, the four-teenth anniversary of his father's assassina-tion. He is thirty-three years old, and close-ly resembles the late President.

If resembles the late President.

Frank S. Black, Representative in Congress from the Nineteenth New York District, began life as a farmhand and now looks like a college professor. He is a Maine man by birth, and taught school after he gave up farm work. Later he was a newspaper reporter, and then he studied law, a profession in which he has been successful.

General Duchesne, commander of the French army that routed the Hovas in Midagascar, won the Cross of the Legion of Honor at Solbrino, and is now fifty-eight years old. He distinguished himself in the war of 1870 and in the Tonquin campaign. At present he is on the high tide of popular esteem and if he desires may perhaps succeed Boulanger in the role of the "man on horseback."

J. Frank Hanley from the Night Indiana

In the role of the "man on horseback."

J. Frank Hanley, from the Ninth Indiana District, is the log-cabin man of the Fifty-fourth Congress. He was born thirty-two years ago, amid the forests of Champaign County. This was a sparsely activel section, and his parents were very poor. They had no neighbors measure than four miles. When six years old his status purchased a "listory of the Civil War," and from this the boy learned to read.

PRICES SHRINKING

Iron Market Really Weaker Than Quotations Indicate.

G. Dun & Co.'s review of Trade says: Business has not improved, though there is very little change, except in the shrinkage

is very little change, except in the shrinkage of prices which a period of function usually causes. After the extraordinary buying of the summer and early full a marked decrease was inevitable, and it is yet most too early in most branches of business to judge how for the future was anticipated in purchases. Retail stocks are still reported full in nearly all branches, with delayed distribution in many on account of unfavorable weather. The movement of crops is only fair, both cotton and wheat being largely kept back in the hope of higher prices, and there is a prevalent feeling that foreign imports will fall off.

The woolen business makes scarcely any gain, although clay worsteds are largely sold at the advanced prices recently made and some dress goods and overcoatings at prices partly higher and parily lower.

The iron market is decidedly weaker again, and while Bessemer pig has decided to \$12.85 at Pittsburg, and gray forge to \$12.25 and plates to \$1.50 at Philadelphia, so that the average of all quotations is about 1 per cent lower than last week, the markets are

\$12.25 and plates to \$1.50 at Philadelphia, so that the average of all quotations is about 1 per cent lower than last week, the markets are really much weaker than the quotations, as concessions are generally given by manufacturers in order to secure business. A sharp decline is noted in barbed wire, attributed to the failure to complete an expected combination. The Bar Iron association and the two nail associations refuse to reduce prices of their products although it has surprisingly reduced since the great advance two or three months ago.

The coke combination holds prices firmly, but it has been obliged to reduce its output to five days in the week, so that a decline of 10,-380 tons for the week is recorded.

Offerings of copper are less urgent at 11

330 tons for the week is recorded.

Offorings of copper are less urgent at 11 cents for lake, but this weaker at 4,25 cents, because of heavy supplies, while lead is a shade stronger at 3,37 cents.

The western receipts or wheat continue larger than last year, for the week, 4,505,201 bushels, against 3,565,404 a year are, and for four weeks of November, 29,371,000.

As before Atlantic exports are relatively small, and for four weeks have been only 8,267,106 bushels, flour included, against 6,742,405 last year. It is evident that with such movements higher prices can hardly be expected, nor can the exchange situation be favorably affected.

During the past week failures have been

During the past week failures have been 279 in the United States, against 289 last year, and 47 in Canada, against 36 last year.

A Laper in New York. A Leper in New York.

A leper, in whom the disease was well advanced, was found in the streets of New York. He was taken to the offices of the Health Board and examined by Dr. C. E. Bonedict, of the Bureau of Contagious Diseases. Dr. Benedict ordered the man sent to the Reception hospital. The man said he was Fito Deibo, and that he came here several months ago. Lately he has been living in the tenement at 32 Cherry street.

Baking Powder ARSOLUTELY PURE

Russians Are Economical.

The Russian workman spends very little for food, lodging and dress, as compared with the foreign artisan. Coming from the village, he is very modest in his demands. His food is very simple, but it is abundant and answers to his taste. In Moscow, for example, the board of a workman amounts to not more than 10 shillings

Coaling on the Run at Sea.

A remarkable experiment of a system of coaling at sea was recently made by the French battleship Richelleu. By a novel system of transfer with a collier alongside she took in, while running at the speed of six and a half knots, about 100 tons of coal in three hours.

All the Year Round.

The avocations of men go on just the same in winter as in summer, and those who labor hard with bands, body and muscles know this full well. The sports also are just as festive and are attended with many acci-dents. The chances of accident are about the same to all, but to the laboring man a mishap means very much. For instance, a sprain may cripple badly and mean loss of time, place and money, were it not that we all know how readily St. Jacobs Oil will cure a sprain, and prevent all these misgivings. So let us enjoy ourselves without fear.

Lettuce is useful to those suffering from

To Double Their Typewriter Plant.

The decision of the Remington Typewriter Company practically to double the capacity of their already extensive works at Rion, N. Y., is very significant of a general improvement in the business outlook, for the typewriter is now so intimately connected with every form of National activity that the

every form of National activity that the prosperity of its manufacturing industry serves as a convenient barometer of general trade conditions.

The Remington people will crect an additional building, 150x54 feet, six stories high. This is to be completed at once, and will be equipped as speedily as possible, for the demand is so large as to tax the present capacity of the plant to its utmost, and leaves no margin for the future increase of the business which is in sight.—From New York Tribune, October 25, 1895.
