The court convened on Thursday of last week for the purpose of hearing and disposing of an election contest from Punsxutawney borough.

The time of the court was taken up on Thursday hearing evidence of a fraudulent count, and of the ballot box being broken open, and after argument on Friday morning the court decided that the contents of the ballot box should be examined in open court.

Record and his friends are sanguine of success, as he has a majority of 47 in the South precinct and needs but 17 of the 111 missing ballots to give him a majority in the borough.

The investigation demonstrates many commendable features in our election laws. The secrecy of the ballots remaining in the box was not disclosed.

A thorough investigation should be made, and the will of the people of our neighboring town as expressed in the ballot box should be ascertained and sustained.

Just why there are so many business men in this place who get their job printing done outside of Reynoldsville, is something we cannot understand.
