Another Pensioner.

Esq. E. Neff received the papers last Friday from the Pension Bureau granting Mrs. W. W. Ford, of Grant st., a pension of \$8.00 per month for herself and \$2.00 per month for each child under 16 years old. The pension will date from July, 1894, which will allow Mrs. Ford a back pension of \$275.00. Esq. E. Neff has had papers filed at Washington, D. C., for a number of years showing him to be a pension attorney with privilege of practicing in the Department of the Interior.

Tiny Blaze.

A small blaze on the roof of the building in which Mrs. M. E. Gibson lives on Main st. last Wednesday forenoon got the fire company out on double quick. A few buckets of water extinguished the fire before the company got the water turned on, although the boys were not long in getting out after the alarm was given. This is the second time this year that a small blaze has made its appearance within a few feet of the same place on the same roof. The cause of fire both times is unknown. The supposition is that it caught this time from a spark from a fire in a neighboring yard.

Would be a Good Investment.

A call has been issued for a meeting of the Board of Trade to be held in the Flynn hall to-morrow, Thursday, evening, April 23rd. The object of the meeting is to try to form a stock company and raise money enough to buy the large grist mill in Prescottville, which is for sale. This matter has been talked of among some of the business men for sometime. The mill is well equipped with roller process and latest improvements for milling purposes, and if the business men would buy the mill and get their flour from it, the plant would be a paying investment. All interested should attend the meeting to-morrow evening.

Rev. H. G. Furbay's Call.

Rev. Harvey Graeme Furbay, who was pastor of the Reynoldsville Presbyterian church several years and who accepted a call three years ago to the pastorate of the First Presbyterian church of Tyrone, received a call last week to become pastor of the Oxford Presbyterian church of Philadelphia, which is considered the wealthiest and most influential church in the "City of Brotherly Love." The modest salary of \$6,000 per year is what the Oxford church pays its pastor. Rev. Furbay has not accepted the Philadelphia call yet, so far as we can learn, but it is taken for granted that he will do so on his return from Atlantic City, where he has gone for a short rest.

Sprinkle or Not to Sprinkle?

Mr. Whitmore is making an effort to get enough subscribers to pay him to put on the street sprinkler. It is yet doubtful whether he will succeed in getting enough. It will be a mistake not to have the sprinkler put on. Enough goods will be damaged by dust to pay for running a dozen sprinklers. Some will use the hose to sprinkle in front of their places of business, but perhaps when a dust-laden gust of wind comes along the very people who use the hose will get their neighbors dust. A street sprinkler avoids all such discouraging circumstances and the store keepers and customers are not annoyed with dust half the time during the summer months. A street sprinkler is just the thing for comfort.

Buried Yesterday.

Mrs. Nancy Simmons, aged seventy years, three months and 28 days, died at her home on Main street Sunday night. Funeral services were held in the M. E. church at 2:30 P. M. yesterday, conducted by Rev. J. W. Crawford, pastor of the church. Remains were buried in Beulah cemetery. Mr. and Mrs. George Simmons moved from Hancock to Reynoldsville about twelve years ago. Five years ago Mr. Simmons died from what is called "miners' asthma." A few years ago Mrs. Simmons had an attack of the grip from which she never fully recovered. Asthma set in some time ago which finally ended her earthly career. The deceased was a member of the Daughters of Rebekah, I. O. O. F., of this place, and the members of that order attended the funeral.

Struck by an Engine.

Last Saturday as train No. 1, which is due here at 1:00 P. M., ran into the big cut just west of Reynoldsville at about 30 miles an hour, Engineer John Murphy saw a man about a train length ahead of the engine lying full length on the ties on the outside of the rail. Murphy applied the air but could not stop his train and just about the time the train reached the man he raised his head. He was afterwards picked up out of the ditch and hauled to the A. V. R'y passenger station on an engine, that was nearby when the accident happened, and two doctors were summoned. The injured man proved to be Michael Cannon, of O'Donnell. He had a bruised place behind the right ear, in which a small quantity of brain matter was found when the doctors opened the dump. Michael was taken to his home on train No. 2. Mike had been sipping from the cup that intoxicated and was well "boozed" when struck by the engine.

Big Contract.

W. B. Coleman and E. E. Stear, two young men of Smicksburg, Pa., who have been running a portable saw mill on the Wheeler tract near Reynoldsville since last July, sold their mill to Jacob Condon, of Smicksburg, last Friday and yesterday morning they left this place for Millstone, Elk Co., on the Clarion river, where they have a contract of sawing 60,000,000 for Dickey, Moore & Kelso, of Brookville. Messrs. Coleman and Stear will build a \$7,000 stationary mill, with a capacity of 60,000 a day, to do the sawing. They expect to average 40,000 a day, two hundred days in the year and that it will take them about six years to fill the contract. There is a probability that 40,000,000 more will be added to the first contract—60,000,000. Mr. Coleman and Mr. Stear are gentlemen fellows and while working in this section the past nine or ten months have made warm friends who wish them success with the big contract they now have on hand.

Democrat Candidate.

Sam'l States, one of the present board of commissioners of Jefferson county, is a good business man. He is honest and upright in his transactions not only for himself but also for the county. While serving the county Mr. States, who is a Democrat, has gained the confidence of many of the citizens of this county outside of his own party for the conscientious manner in which he has looked after the county's business. In another column of this issue will be found the announcement of Mr. States for re-nomination for county commissioner on the Democratic ticket. There can be but little doubt of his re-nomination, as his party certainly appreciate his course as a commissioner, and will, doubtless, give expression of their appreciation by re-nominating him. There will be other men, no doubt good ones too, seeking the nomination, but Mr. States has been tried and not found wanting, and is a good man for the office for another three years.

Have You Cleaned Your Premises?

A number of Reynoldsville people have taken advantage of the pleasant spring weather the past week and have cleaned up the grounds around their dwellings, but there are others who have paid no attention to this matter. As soon as the weather permits in the spring there should be a general cleaning up of all refuse in gardens or grounds immediately surrounding dwellings. There is no surer source of disease than decaying vegetable or animal matter, and those who are wise will see to it that all such deleterious stuff is removed before the warm rays of the sun cause it to rot and give forth foul odors. A little care and attention may save a doctor's bill and perhaps save life.

Queen of Trades.

The Business Men's Carnival entertainment will be given at the opera house on Wednesday and Thursday evenings of next week. One hundred young people are engaged in this entertainment. In the grand march the Queen of Trades will appear with her maids of honor, and royal page will herald her coming with silver bugle. About ninety costumes of varied kinds will be used, forming a kaleidoscope unique for its variety, such as has never been witnessed in Reynoldsville. The Illuminated Woman, Nellie Bly and Mrs. Rip Van Winkle, together with other specialties will be added. A large and kindly patronage is asked for.

More Plugs Needed.

West Reynoldsville should have three or four more water plugs put in, and that without delay. The water plugs will only cost \$25.00 a year and the taxpayers certainly will not object to paying a small tax for them. There is not a taxpayer in West Reynoldsville, we venture to say without fear of contradiction, that would object to having the water turned on if his house caught fire or if his neighbor's house caught fire and there was danger of his home being destroyed. This being the case would it not be wise to have the water handy in case of emergency?

Foiled With the Law.

Two young men were pulled in Monday night for making more noise than the law allows. They paid a fine for their misconduct. There were four in the party and two of them escaped that night, but a warrant will be issued for them and they will also have to come down with a specified amount of the stuff that makes business hum. The young men had been told by the officers to seek their homes, which they did not do.

A Home Man Gets It.

J. V. Young has received the contract to build the three story brick hotel on the corner of Main and Fifth streets for Green and Conser. The contract price is \$11,000. The work is to begin about the first of May.

Monday's Fire.

At 4:30 A. M. on Monday of this week fire was discovered in the west wing of the Stephenson house in West Reynoldsville, the place that ye editor called home for many years. The fire, which caught in some unknown way, had a good start before it was discovered and the inmates had to make a hasty exit from the second story without time to save the household goods on that floor. J. W. Cooper lived in part of the house and John M. Stephenson lived in the other part. Cooper saved his goods, which were down stairs, but Stephenson lost his beds, bedding and most of the family's clothing, which were on the second floor. The house was totally destroyed. Had there been a water plug nearby part of the house might have been saved, but the nearest plug was at the Ross House and by the time sufficient hose was gathered up and attached the Stephenson house was beyond all hopes and the firemen turned their attention to saving the house of Mrs. Snyder, a widow. Although the water force was not strong on account of a leak at the plug, yet had it not been for the water works there is no doubt but that four or five other houses that were built close to the one burned would have ascended heavenwards in smoke and flames. The Snyder house was badly damaged by fire and water but the fire fiend got no farther. The Stephenson house was insured, the household goods were not, and Mrs. Snyder had no insurance on her property. The house burned was in the Building and Loan Association.

Don't Ride Too Fast.

So far the bicycle riders of Reynoldsville have not been compelled to ride our streets at a dog-trot pace, as they do in some other towns, which makes it unpleasant for the bicyclists. We have noticed two or three bicycle riders racing on Main street several evenings during the past week, which is not a wise thing to do. Last Saturday evening, when there was a large crowd on Main street and people were continually crossing the street these riders were speeding their wheels recklessly on Main st., between Fourth and Sixth streets. If this is kept up some one will get hurt and the bicyclists will likely be compelled to ride at the rate of six or seven miles an hour. During the day time it would be all right to indulge in "sprints," but after dark, when the streets are well filled with people, is the wrong time for fast riding. The editor of THE STAR enjoys seeing bicycles make fast time, and for that reason this article has been written as a gentle hint to those who may be thoughtless about the matter and who may not only have to reduce their own speed but force the same unpleasantness upon all other riders.

Woman's Fancy.

In the spring a woman's fancy generally turns to home beautifying. She wants to brighten up the surroundings, clear away everything sombre, add a touch of color here and there, make everything suggestive of budding spring. What is better than new wall paper? Where is a better place to get it than at Stoke's, the druggist? Everything that's good in wall paper we have. The other kind finds no place in our stock. Beautiful designs sold exclusively at this store and so many of them go to make up a display that easily demonstrate our leadership in the wall paper trade. Popular prices reign supreme and make this everybody's store. STOKES' PHARMACY.

Sunday Rendezvous.

Last Sunday a number of Italians, men and women, came from Eleanora to this place and met at the home of an Italian near the R. & F. C. R'y, west Main street, where they spent the day in drinking beer and boisterousness. Beer was rolled into the house from the barn, half barrels at a time. If we have been correctly informed the Ikes frequently make that house a Sunday rendezvous for drinking, and that the Sabbath-observing people in that immediate part of town are becoming tired of it and will likely have it declared a nuisance.

Long Separation.

A mother and daughter, who had not seen one another for fourteen years, met at the A. V. R'y station last Thursday on the arrival of the one o'clock train. The young lady did not know her mother was living until she received a letter Thursday morning that she would come to Reynoldsville on the noon train.

In the "Pen" Seven Times.

It is claimed that David Trainor, who stole a horse near Punxsutawney and was captured and taken to Brookville jail last week, of which mention was made in THE STAR, is something of a desperate character. He has served seven terms in the penitentiary and has an eighth term staring him in the face.
