Out-Door Sports.

The hardy, strong, athletic man, after months of out-door life and sports, feels all the better, although he may have suffered as many do, from serious sprains and bruises as many do, from serious sprains and bruises, if sports were stopped on that account, we would have no more of the great baseball games, sports of field and turf, of oar and gun, of rod and racquet, but all sportsmen and athletes fake sprains and bruises as an accompaniament with composure, because they know how easy and certain it is to use St. Jacobs Oil and get rid of permanently the worst forms of any such accidents. There may be some, indeed, many, not quite up to date in being prepared for the season's enjoyment, and such should undoubtedly have a supply of this great remedy for pain.

GOOD SHOWING BY GRANGERS

An interesting meeting of the Central Pennsylvania grangers was held at State College. The various reports presented disclose a large number of new organizations in the past six months, and many new members. The secretary of the fire insurance department read his report, which showed a large percentage of increase in the business of the past year. The committee on the annual plente and exhibition to be held at Grange park in September reported every thing now indicated one of the most successful times in the history of the grange. In the program was a practical talk by S. R. Leathers on the "Fertilization of Land," followed by a general discussion of the topic, "Preparation of the Soil and Pianting." The tax commission and the revenue bill came in for a stage of talk, which was opened by Hon. Leonard Rhone. Before adjournment the fifth degree was conferred on all fourth degree members.

AN INDEPENDENT BAILBOAD. The surveyors have completed the route of the Beliefonte & Clearfield railroad, the extension of the Central railroad of Pennsylvania from Belifonte to Clearfield, a distance of 56 miles. The finest wire in the country is made at Taunton, Mass. This metal cobweb of minute diameter is exactly the 1-500 part of an inch in thickness—much finer than a hair. Ordinary wire, even though of small diameter, is drawn through holes in steel plates, but, on account of the wear, such plates cannot be used in making the hair wire. The Taunton factory mentioned uses drilled diamonds for that purpose.

nail. This was under the orders of the new Warden, Coffin, who offered the boon of conversation as a reward for good behavior.

There are nearly one thousand men in this division, and they have earned the right to talk by violating the rules only seven times, or three less than the maximum number allowed under the order granting this privilege.

There was a constant hum of voices in every part of the room as soon as Deputy Warden Dawson announced that they could talk. The next time that the violations of rules are less than ten the convicts scated in the east wing will be permitted to talk.

Warden Coffin issued the orders for this innovation soon after he took charge of the prison, but this is the first time the men have earned the privilege by keeping the number of reports below ten.

A Turn in the Lane at Last Brings Health and Gladness...An Interesting Nar-rative With a Happy

From the Gazette, Baldminsville, N. Y.

The Gasette recently called attention in The Gasetic recently called attention in these columns to the case of Herbert Spencer, in this village, and his release from suffering after long bondage. Interested in all things pertaining to the betterment of the moral and physical welfare of our community, we had no sooner given to the readers of this paper one article for their perusal and thought when we sought information regarding more such. Our south aide druggists, Gardner & Davis, reported that Mr. Frank Williams, of Warner, N. Y., a flourishing hamlet four miles south of this village, had been greatly benefited by the use of that willey, known and highly-regarded medicinal preparation known as Dr. Williams' Pink Palls for Pale People. To fully set forth the facts concerning the case at Warner, we drove to that village one pleasant July evening. Mr. Williams was not at his pleasant little home in the suburbs of the village on our arrival, but we found him just entering the store of George Burr, in the center of the town, near the N. Y. C. tracks. Mr. Williams is a tall, pleasant looking man, six feet and one-nall inch in height, with a face which at once impresses you with a belief in his candor and honesty. In response to our inquiry as to whether he had ever used Dr. Williams' Pink Pills for Pale People and his willingness to publish abroad his optnion of this medicine, Mr. Williams said:

"I am glad of the opportunity to let my these columns to the case of Herbert Spencer,

said:
"I am glad of the opportunity to let my friends and the public generally know of the results of my taking this widely-advertised remedy. I want people to know there is an escap a from the evils of some diseases, at least, and that there is reliability and virtue in the state of the st n one of the many advertised remedies now

least, and that there is re'iability and virtue in one of the many advertised remedies now before the people."

We stepped over to a show case nearby where we could write with ease and Mr. Williams continued:

"I have resided! in Warner and vicinity for twenty-one years. Am forty-six years of age, and by occupation a carpenter and general utility man, inding employment nearly, if not quite all of the time. In January, 1891, I was attacked with a severe nervous trouble, which greatly weakened me and continue! to grow gradually worse, with pains everywhere, sometimes in my fingers, again in my toes, but mostly in the heart region. For a year and a half I was unable to do a full day's work. For overthree years I tried the skill of the physicians and grow worse under theircare. Also tried some well-known proprietary medicines, and while, perhaps relieved for a time, yet the nervous twitching continued, and for two years I felt that there was no help for me. One day I read in a newspaper a testimonial from a man whose came seemed to resemble mine, and he claimed to have been cured by a medicine advertised under the name of Dr. Williams Pluk Pills for Pale People. Before I forget it, I desire to say that there was no shaky trouble in my hands, only a quivering of the muscles, sometimes showing in my face. I resolved to try these pills and first parchased a box at the drug store of Gariner & Davis, in Baldwinsville. I feit so much better at once that I continued their use until I had taken eighteen boxes, when I feit entirely well again, and have never had a return of the disease, excepting after a period of severe, hard labor, when I feel a bit of the old nervous twitching, but no pain, and when these come on, which is very seidom, I take a few pills and I am all right again. I might also add that my daughter was troubled with palpitation of the heart, and used two boxes, which gave her instant relief. Regarding my present condition I am able to work every day, and my neighbors attribute my cure to something akin to

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrap of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed overywhere, Syrup of Figs stands highest and is most largely With a better understanding of the
