#### Decoration Day in Beechwoods.

It was announced in THE STAR last week that the old soldiers and their friends of Beechwoods proposed to observe Decoration Day in an appropriate manner, an excellent program having been prepared for the occasion, and the affair was a grand success. Never in the history of the past has such a large crowd gathered in the Beechwoods cemetery on Decoration Day to pay respect to the dead and living soldier boys. It is estimated that over 1,000 people were in the cemetery Saturday. The procession formed in line at the Waite school house and marched to the cemetery keeping time to the music of two brass bands-Falls Creek and Mill Creek. After the services in keeping with the day, to honor the dead, had been performed in the cometery, the people returned to the school house and emptied the baskets of good things that had been prepared by the fair sex for the occasion. The afternoon was spent in listening to music-instrumental and vocal-and orations by Revs. Hill, Steadman and Hon. A. C. White. The day's doings was a magnificent success and sister of Mrs. D. S. #### A Cow Did It.

The Jersey cow of A. E. Dunn, the hardware merchant, threw an R. & F. C. R'y engine off the track last Thursday afternoon near the foot of Fourth street, but it cost the bovine's life. Engine No. 2 with a train of loaded coal cars behind it was running fifteen miles an hour when the engine struck the cow near Shaffer's siding. The engineer thought the cow had fallen off the track on the fireman's side and the fireman thought she had dropped off on the engineer's side, but as she could not found the cow on the cow-catcher with reached the siding the cow's head caught between the main track and of the engine off the track, cut the cow's head off in front of the horns and the animal's body rolled down a small embankment. The heavy train was not easily stopped and the engine was pushed along past six telegraph poles before the train was stopped. As the entire distance the engine ran with the curve, it is almost a miracle that the engine did not go over the embankment into the creek.
