One Way to Put It.

Many of the sayings and doings of the Southern negro, that find their way

enough are known to be true to make good his claim to humor. A gentleman discussing coon-hunting relates an in-

eldent, in Forest and Stream, that illustrates this characteristic drollery. The party, consisting of hunters, dogs, axes and torches galore, had been

hunting for a good part of the night without any luck whatever. Finally, the dogs treed a coon. It would take

some time to fell so large a tree, and

one of the negroes volunteered to climb

it and ascertain the whereabouts of the

Fall Text of the Resolutions Agreed Upor by a Majority of the Committee. Curcano, July 8 .- The platform reported to. the convention by the majority of the Com-

mittee on Resolutions was as follows: Jeffersonian Principles Reaffirmed.

Jeffersonian Principles Reaffirmed. We, the Democrats of the United States. In National Contention assembled, do reaffirm our allogiance to those great essential prin-fiples of justice and liberty upon which our institutions are founded, and which the Democratic party has advocated from Jeffer-ton's time to our own-freedom of speech, treedom of the press, friedom of conscience, the preservation of personal rights, the quality of all citizens before the law and the faithful observance of constitutional limita-tions.

Centralization of Power Resisted.

Centralization of Power Resisted. During all these years the Democratic party has resisted the tendency of selfab in-terests to the centralization of Governmental power, and steadfastly maintained the integ-rity of the dual system of government estab-lished by the founders of this Republic of Re-publics. Under its guidance and teachings the great principle of local self-government has found its best expression in the main-tenance of the rights of the States and in fir assertion of the necessity of confining the general government to the exercise of the powers granted by the Constitution of the United States. into print, may be apoeryphal, but

Silver Once the Unit of Value

Silver Once the Unit of Value. Recognizing that the money question is paramount to all others at this time, we in-vite attention to the fact that the Pederal Constitution names aliver and cold fogether as the money metals of the United States, and that the first coinage law passed by Con-gress under the Constitution made the aliver dollar the unit of value and admitted gold to free coinage at a ratio measured by the silver-dollar unit. "The Crime of "73."

"The Crime of '73." We declare that the act of 1873, demonetiz-ing silver, without the knowledge or ap-proval of the American people, has resulted in the appreciation of gold and a correspond-ing fall in the price of, commodities pro-duced by the people; a heavy increase in the burden of taxation and of all debt, public and private; the enrichment of the money-lender class at home and abroad; prostration of industry and impoverishment of the peo-ple.

Monometallism Denounced.

Monometallism Denounced. We are unalterably opposed to monometal-lism which has locked fast the prosperity of an industrial people in the paralysis of hard times. Gold monometallism is a British policy, and its adoption has brought other Nations into financial servitude to London. It is not only un-American, but anti-Ameri-ona, and it can be fastened on the United States only by the stifling of that spirit of love and liberty which proclatmed our politi-cal independence in 1776 and won it in the War of the Revolution. 'Yes, sah," was the reply, "I'se got dis here coon; but I wish you'd send some o' dem darkies up here to help me They Pay a Sad Penalty for Their Neglect.

Free Coinage at 16 to 1.

Free Coinage at 16 to 1. We demand the free and unlimited coin-age of both gold and silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other Nation. We de-mand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the fautre the demonstization of any kind of legal-tender money by private contract.

Object to "Gold" Bonds.

We are opposed to the policy and practice of surrendering to the holders of the obliga-tions of the United States the option reserved by law to the Government of redeeming such obligations in either silver coin or goid coin. Bond Issue Denounced.

Opposed to National Banks.

Congress alone has power to coin and issue money, and President Jackson declared thai this power could not be delegated to corpor-ations or individuals. We therefore demand that the power to circulate as money it taken from the National banks and that al paper money shall be issued directly by the Treasury Department, be redeemable in cols and receivable for all debts, public and private.

Tariff for Revenue Only.

We hold that tariff duties should be levied for purposes of revenue, such duties to be so adjusted as to oporate equally throughout the country and not discriminate betweer class or section, and that taxation should be limited by the needs of the Government hon estly and economically administered.

McKinley Law Denounced.

We denounce as disturbing to business the Republican threat to restore the McKinley law, which has been twice condemned by the people in National elections, and which, en acted under the false plea of protection to bome industry, proved a prolific breeder is nome natury, proved a prolific breeder to trusts and monopolies, enriched the few a the expense of the many, restricted trad-and deprived the producers of the grea American staples of access to their naturn markets. certain cases of contempt. Against Pacific Funding Bill. No discrimination should be induiged by the Government of the United States in favor of any of its debtors. For Liberal Pensions. Recognizing the just claims of deserving Union soldiers, we heartily indorse the raik of Commissioner Murphy that no names shall be arbitrarily dropped from the pension roll, and the fast of ealistment and services should be deemed conclusive evidence against disease or disability before enlistment. Torritories Should Be Admitted Territories Should Be Admitted.

We favor the admission of the Territories of New Mexico and Arizona into the Union as States, and we favor the early admission of all the Territories having the necessary of all the Territories having the necessary population and resources to entitle them to Statchood, and while they remain Torritories we hold that the officials appointed to ad-minister the government of any Territory, together with the District of Columbia and Alaska, should be bona fide residents of the Territory or district in which their duties are to be performed. The Demo-cratic party believes in home rule, and that all public lands of the United States should be appropriated to the establishment of free homes for American clitizens. We recom-mend that the Territory of Alaska be granted a delegate in Congress, and that the general land and timber laws of the United States be extended to said Territory. Sympathy for Cuba. Monday's storm was very severe about Chambersburg. It caused the dam at Five Forks to overflow and washed out 50 feet of the W. M. R. R., delaying traffic two hours. On the M. Income Tax Law Repeal. Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as are nec-essary to make up the deficit in revonue caused by the adverse decision of the Su-preme Court on the income tax. But for this decision by the Supreme Court there would be no deficit in the revenue under the law passed by a Democratic Congress, in strict pursuance of the uniform decisions of that court for nearly one hundred years, that court for nearly one hundred years, that court having sustained constitutional objections to its enactment, which have been over sat on that bench. Its Re-Enactment Demanded. For Restricted Immigration.

For Restricted Immigration. We hold that the most efficient way to pro-tect American labor is to prevent the impor-tation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactures.

Federal Ballroad Ownership.

Federal Baliroad Ownership. The absorption of wealth by the few, the consolidation of our leading railroad system; and the formation of trusts and pools require a stricter control by the Federal Government of those arteries of commerce. We demand the enlargement of the powers of the Inter-state Commerce Commission, and such re-strictions and guarantees in the control of railroads as will protect the people from robbery and oppression.

For E. momy in Office.

For Economy in Office. We denounce the proflighte waste of the money wrung from the people by oppressive fraction and the lavish appropriations of recent Republican Congresses which have kept taxes high while the labor that pays them is unemployed, and the products of the people's toll are depressed in price till they no longer repay the cost of production. We demand a return to simplicity and economy which befits a Democratic Government and a reduction in the number of useless offices, the selaries of which drain the substance of the people.
