Factories Starting Up and Others Increas ing Their Forces.

It is claimed by a number of manufacturers of Cleveland, O., that the election of Me-Kinley has already had a favorable effect upun their business. In some cases it is stated idle plants have been started up and in others

the number of employes has been increased.
The Britton Robing Mill Cempany, manufacturers of tin plate, whose plant has been falle for some time past, announced that they have just closed a large contract and will resume shortly with 150 men.
The Lake Shore Foundry Company stated they have received orders from a number of their customers to begin shipping on contracts and they have received orders and plant of their customers to begin shipping on contracts and they have received orders of increase.

Quite a number of other manufacturers in various lines report having received numer-ous inquiries which they believe indicate a revival of business.

1.500 More Men Working.

"We will put 1,500 more men on the con-struction of the Kansas City, Pittsburgh & Gulf railway at once," said President A. E. Btillweil of that road. "We began laying track south of Mona, Ark., Wednesday at the rate of three-fourths of a mile a day. We received cablegrams from Europe buying our securities this morning."

More Mills Start Up.

The woolen and cotton mills of the Ipswich corporation at Ipswich, Mass., which have been shut down for some time, will start on full time. Employment will be given to about 1,000 hands.

At Bridgeport, Conn., 200 additional men were put to work in a carriage factory, and Enton, Cole and Burnham put on 300 more men in their steam valve works. The Malicable iron, works will add 500 men. The Stanley Rule and Level company of New Brighton has posted a notice that hereafter the shops will be run six days each week instead of four days, which has been the schedule for the past few months, and the Russell & Irwin screw shops will also tax their factory to the utmost. The mills of the Glastonbury Knitting company at Manchester that have been tidle for several weeks will also start and the Mt. Carmel axle works will begin running full time. The Ingraham begin running full time. The Ingraham Clock company of Bristol states that it has orders enough to keep all its hands at work for a year. The orders were given to the company conditional on McKinley's election.

The Sub-Treasury at Boston Couldn't Take All the Gold Offered.

Information received at the treasury de partment shows that large amounts of gold are being offered at the several sub-treasuries are being offered at the several suc-treasuries in exchange for currency, no stipulation being made as to legal tenders. One million in gold was offered at Boston on the 5th, and the sub-treasurer telegraphed the secretary for instructions, stating that the current work of the office was somewhat bening owing to the late flurry, and further that the paymint of that amount of currency would leave the sub-treasury there inconveniently short.

Instructions were returned authorizing the acceptance of half of the amount offered. At New York, the sub-treasure, it is understood, has given notice that he would not receive gold in exchange for currency. There are about \$0.400,000 in assay office cheeks outstanding, which are now being deposited for currency, and all of those will be received. The domain for currency, and especially small bills in anticipation of a revival of business, is exceptionally heavy and it is expected that several days will shopse before the officials will be in a position to meet all demands. The treasury officials anticipate no further withdrawals of gold for export and revard the financial situation as greatly improved.

Instructions were returned authorizing the

A WEIGHT LIFTED.

Dun & Co. Say the Business World Breathes Freely.

Dun & Co,'s weekly review of trade says: A great revolution has been effected this week in the conditions which control busiiess. It could not be in any fair degree re-

ness. It could not be in any fair degree reflected as yet in transactions or in records, but there is ample evidence already that a crushing weight has been lifted and rolled away and the business world has begun to adjust itself to a state of freedom and security when it has not known for years.

It was not strictly logical that wheat advanced 5 cents, reaching \$2 cents for November and 85 cents for Docember, and heavy realizing of profits showed perception of the fact. Western receipts were only 6,087,159 bushels, against 8,019,010 last year, and Atlantic exports, flour included, were only 1,588,358 bushels, acainst 1,990,833 last year. A growing disposition appears among farmers to hold wheat for better prices than are now realized, although at present any advance checks buying for export. Speculation in cotton was also excited on the theory that mills would not start up, as many have done, and would meet a large demand for goods. But the advance was met by realizing sales and a slight reaction. It will be all the better tor business if bright hopes do not holest prices too fast.

The election immediately stiffened prices of pig iron, which reached \$12 at Pittsburgh for bessener, and the certainty that many

hoist prices too fast.

The election immediately stiffened prices of pig fron, which reached \$12 at Pittsburgh for bessemer, and the certainty that many inrge orders for buildings and bridges and other finished forms would now become operative, justifies some advance.

The future of this trade now depends upon the extent of increase in demand for furnished products of iron and steet, which is largely to be materially affected by the course pursued by various combinations. The bliftsburg, and has caused no end of disturbance in business by favoring one class of producers to the detriment of another, has been in session here, and is said to have changed its basis of allotment so as to secure fairer results. The nail combination is now threatened with a hostile league of jobbers and producers especially are undersold. The bar combination, netwitestanding its large rebate, is still demanding more than the prices at which steel bars are sold in great quantities.

A slight advance in sheetings and print A slight advance in sheetings and print cloths is the only change which yet appears in the marker for cotton goods. Practically no change has yet appeared in woolens, but the reported purchases of wool, including one of 11,000,000 pounds of territory, said to have been made by a syndicate, amounted to 18,561,000 pounds, against 5,621,350 last year, and 8,215,000 in 1892. The average of prices rose about by a cent in October, and since September 1, 104 quotations by Coates Bros, have risen from 12.16 cents to 12.92 cents, or 6.3 per cent. Failures for the week have been 200 in the United States against 280 last year, and 52 in Canada, against 49 last year.

NEXT CONGRESS. The Probable Standing of the Parties in

Both Houses.

Latest returns from Indiana and Ken neky received at the headquarters of the Republican Congressional committee indi cate that the Republicans will have a majority on joint ballot in the Legislature of those states and that Blackburn and Voorhees, who have for so long been conspicuous figures in Congress, will be retired Blackburn would hardly have been re-elected at any rate, as he has made himself obnoxious; even to many of his old friends, but if the reports be true, Carlisle will also be compelled to hunt for other employment than that of a statesman, for at least two years, when it is supposed both he and Blackburn will attempt to secure seats in the House from their respective districts.

Very close figures are being made to determine whether the Republicans will have a majority in the next Senate, and the probability is that with the vote of the Vice President they will have a balance of power.

In the Fifty-fourth Congress the Republicans have 40 Senators, the Democrata 39 and the Populists 10, including in the latter number Senators Dubols, Cannon, Teller and Pettigrew, who have departed from their party.

The Republicans gained through the electcate that the Republicans will have a ma-

party.

The Republicans gained through the elect-The Republicans gained through the elections on Tuesday Senators from Bilnois, Wisconsin and New York. The party has already gained Senators in Ohio and Maryland, which would increase the Republican side to 45, but there have apparently been losses in Utah and Washington and possibly North Carolina, the latter State having election in the Carolina of the Carolina

North Carolina, the latter State having elect ed a fusion Leglisiature, which may possibly elect a Republican, though the probabilities are against such action.

Leaving North Carolina out of the calculation the Republican ioss of Utah and Washington will give the party 44 votes in the Senate. This will require the election of a Republican Senator from Kentucky and Indiana in order to give the victorious party full control of the Senate with the vote of the Vice President.

climed up over the tender and covering the engineer and fireman, made them stop the train. They then made the porter cut express cars loose from the passenger cars and made the engineer pull out on the hill this side, where they made him uncouple the engine and pull off a distance.

Going to the express car, they ordered the messenger out. After he got out they made him get back in the car and told him to hand out the money quick. Instead of doing so he turned off the light and shut and fastened the door. While this was transacted the greatest excitement prevailed and the robbers, who were doubtlessly novices, were disconcerted by the action of the messenger. The engineer realizing the situation, pulled the throttle open and run into Grand View and wired Hilisboro. The robbers became alarmed and fled when the passengers put out the lights.

Sheriff Bell organized a posse and sent it with bloodhounds to the seeme of the hold-up but up to 1:30 they have not taken the trail. The passenger was due at Hilisboro at 8:05 but did not reach here till 10 o'clock. The above facts were gleaned from the engineer, messenger and a passenger. The robbers were described as boys about 17 to 20 years old. They did not get anything. The officers are scouring the country and are confident they will arrest the robbers.

THE SABBATH-SCHOOL LESSON.

INTERNATIONAL LESSON FOR

NOVEMBER 15.

Lesson Text: "God's Blessing Upon Solomon," Kings Ix., 1-9-Golden Text: Prov. x.. 22-Commentary

1. "And it came to pass, when Solomon had finished the building of the house of the Lord, and the sing's bouse, and all Solomon's desire which he was pleased to do." According to verse 19 the work occupied twenty years, and during all this time Hiram, king of Tyre, helped him with codar and it trees and with gold, according to all his desire (verse 11). For this service Solomon gave Hiram as a kind of present twenty cities in Galilee, which, when Hiram as aw, were not pleasing unto him, and he called them Cabul, or displeasing (verses 11-18). It is impossible to please every one, and the great joy of a real servant of the Lord is that he seeks not to please men, but God, who trieth our hearts (Gal. L. 19; I These, H., 4). Concerning all this work it is written that Solomon made all that came into his heart and prosperously effected it (H Chron. vil., 11). This was wholly due to the blessing of the Lord, which maketh rich and to which toil addeth nothing (Prov. x., 22, R. V., margin). The temple is suggestive of the New Jerusalem, the Bride, the Lamb's wife, which is to come down from God out of heaven and be a center and source of blessing to all Nations on the millennial earth. It is now being builded and will be the pure and eternal home of the redeemed out of all Nations. At the building of Solomon's temple there was neither hammer nor axe nor any tool of fron heard in the house while it was building, for the stones wowmade gasdy before they were brought thither (I Kings vil., 7). Bolievers are the living stones in the living temple and are all made ready down here in the quarries of daily life before brought to the place of building (I Pet. il., 5). When we receive the Lord Jesus, we are by His blood made fit to enter heaven (Cot. 1., 12), but by all His healings with us from that time we are being prepared for our place in His temple. There is not a trial nor a blow too many in all the daily His, buta "needs be" for every one.

2. "That the Lord appeared to Now, after twenty years when ske only for wisdom

and glory to all who receive Him.

3. "And the Lord sai! anto him, I have heard thy prayer and thy supplication that thou has made before Me." When we nek anything according to His will we know that He heareth us, and knowing that He has heard us we know that we have the potitions we desired of Him (I Join v. 14, 15). The Lord accepted the house to put His name there, and assured Solomon that His eyes and His heart would be there perpetually. There is something very comforting in this for every believer, for if we present our bodies according to Rom. xii., 1, 2, we may be sure that He accepts the surfilee, and If His name and eyes and heart would be upon a building of wood and stone, how much more will they be upon every member of the church which is the body of Christ.

4. "And if thou will walk before Me, as David, thy fasher, walked, in integrity, of heart, and in uprightness, to do according to all that I have commanded thee." Compare elapters ii., 4: vi., 12; xv., 5. To walk before God in truth with all the heart is the sum of Christian living. To Abram God said, "Walk before Me and be thou perfect" (Gen. xvii., 1). The Lord being with us (Math. xxyiii., 29), it only requires that we steadfastly believe it, and trust Him to live out His file in us, according to Gal. ii., 29. A walk with God implies agreement, humility and full control of the Spirit, but if we are only willing God will do It (Amos iii., 3; Mic. vi., 8; I John ii., 6; II Cor. vi., 16).

A wark with God implies agreement, humility and full control of the Spirit, but if we are only willing God will do it (Amos ill., 3; Mic. vi., 8; I John ill., 6; II Cor. vi., 16).

5. "Then I will establish the throne of thy kingdom upon Israel forever, as I promised to David, the John in the Israel forever, as I promised to David was unconditional that his throne would be established forever (If Sam. vil., 12, 16). It will be fulfilled in Solomon if he will walk before God with a perfect heart; if not, it will have to wait for some other who will so do. The king has not yet sat on David's throne who completely filled the bill, but He lives and waits for it, and will do it when He shall come the second time. See Isa. ix. 6, 7; Luke i., 32, 33; Jer. xxill., 5, 6; Acts ill., 30, 6, 7, "If ye shall at all turn from following Me then will I cut off Israel out of the land which I have given them, and Israel shall be a proverb and a byword among all people." The Lord had said about the save the and which I have given them, and Israel shall be a proverb and a byword among all people." The Lord had said about the same thing to Moses in Daut. iv., 26, 27, and 28-37, and for over elighteen conturies the world has seen it fulfilled, for they continued as a Nation to despise His word and misuse His prophets until there was no remedy (II Chron. xxxvi., 16). When in the fullness of time the Son of God Himself came to be their Saviour and King they cast Him out and killed Him, saying, "We have no king but Caesar." Hence for all these centuries since our Lord was crucified the land has been desolate and Jerusalom trodden down of the gent les.

8, 2. "Why hath the Lord done thus unto this land and to this house? Because they forsook the Lord their God, who brought forth their fathers out of the land of Egypt." Thus, said the Lord, would people ask and be answered when they should see the desolations of the city and the land, and so it has been. Whether the Lord deals with Israel or with the church, He desires to show the abundance which He has for and loves to give to His people, that He may be known and trusted in, to His giory and His people's good. See in Deur. xxvii., 1-4, the fullness of blessing which was within Israel's reach simply on condition of obedience. See in Math. xi., 27-30; John xiv., 13, 14; xv., 11; xvi., 21; flom, xv., 13—some of the fullness that would be manifestly ours to God's glory if we would keep ourselves wholly for Him. Consider also Eph. iii. 29, 21; Jude xxiv., and similar exceeding great and precious things which would be to His obselient ones. Hydrog only Ech. iii. 29, 21; Jude xxiv., and similar exceeding great and precious things which would be to His obedient ones, Hving only unto Him. "Of the children of Israel did Solomon make no bondsmen" (I Kings ix., 22), and while we who are redeemed delight to at the bond slaves of Jesus Christ there is no slavishness in His service, for we are at the same time children and friends, free in our Father's house to enjoy all that is His and to delight to do His will.—Lesson Helper.
