#### Are You One of Them?

Two weeks ago THE STAR entered Its sixth year and we want to call the attention of a large number of our subscribers, who were paid in advance. to the fact that with the beginning of the sixth volume they enter into a new year that is not paid for in advance. We mention this so that those who want to pay in advance and get the special rate of \$1.00 can do so, and will have no room to kick if the subscription goes unpaid for a year and they will have to pay \$1.50 for the year's subscription. The date of the expiration is printed beside each subscriber's name so that there is no excuse to say, "I didn't know when my subscription run out." For instance if Mr. Blank's paper expired May 11, 1897, the figures opposite his name would be 5 11 97. The first figure is the month, second figures the date of the month and the third figures the year. We would rather all our subscribers would take advantage of our special offer of \$1.00 eash in advance rate, but if they do not they have only themselves to blame, and we will expect all back subscriptions to be paid for at the \$1.50 a year

We have repeatedly called attention to our special cash in advance rate so that we are not to blame if our subscribers don't take advantage of it. It is easier for each subscriber to keep track of their subscription, if they want to save the difference for cash in advance, than it is for us to be continuously looking over a thousand or more names to see when each subscription expires. The figures printed on the paper with the name of the subscriber are for the purpose of allowing subscribers to know just how their subscriptions stand, whether in advance or arrears.

Bad roads, mud, ruts and irregularities are expensive things. An old farmer used to say that ruts and freezing and thawing cost him a new wagon every five years. Very few people realize what rough roads cost them. Of course, it is only a bolt to-day, a tire to-morrow, a wheel sprung next week or an axle warped out of shape at some other time, but these things come. sometimes over-lapping like shingles on a roof; they are put down to wear and tear and in a way accepted as the inevitable simply because roads have always been bad and one scarcely has a right to expect anything else. But the difference in the lasting qualities of a wagon on a thoroughly good road and an extremely bad one would surprise the owner of such a vehicle were he able to keep track of the exact figures in the two

Few people know that John Wesley was ever in America. Few know that it was he, and not Robert Raikes, who established the first Sunday-school in the world. It was John Wesley who preached the first Methodist sermon delivered in the United States. In The Ladies' Home Journal for June Rev. W. J. Scott will tell in the "Great Personal Events" series the story of "When John Wesley Preached in Georgia," which is said to be one of the most interesting narratives in this most successful series.

The Legislative committee inquiring into the causes of general distress in the mining regions in various sections of the State, met at Clearfield last Thursday and examined a number of witnesses. Miners from Philipsburg, Osceola, Houtzdale, Hawk Run, Glen Campbell, Morrisdale, Coalport and Reynoldsville were examined.

It is May, it is May,
this tushegay,
Let us fare far away form the town;
Let's sway to the mill.
At the foot of the hill.
Where the water goes thundering down.

It is May, it is May,
The lambs are at play
Out there where the meadows are green;
Come love, let us his
To some currier where I
May long you without being seen.

It is May, it is May,
But, darling, I prny,
Take along a good thick winter sacque—
It is May, but you know,
It is likely to snow.
Like sixty before we get back!
