A Story of the Early Days of the Cou

nellaville Coal Region A writer in Forest and Stream says that Elias Blank, one of the early settlers of what is now the great Connellsville coal region, in western Pennsylva-nis, was among the first Americans to burn soft coal. How the thing came

about is thus described: One night Mr. Blank was aroused by a rapping at his door. Opening it, he admitted a famous Indian fighter, Lewis Whetzell, and a companion, Jonathan Gates, commonly known as "Long

"Friend Jewis," said Blank, "where have thee and our friend been and where bound?"

"I want to get out of here at once," said Whetzell, "and Long Arms is of the same opinion. This country's bewitched, and Long Arms and I are nearly scared to death."

"Friend Lewis, thee must not tell such stories to me," said old Elias. "Thee knows I am thy friend, and I have saved thee when a price was on thy head. I know thou art a man of courage, and friend Jonathan Gates, whom some call Long Arms, fears nothing on earth, and I'm fearful nothing anywhere else, and yet thou tellest me that he and thee are scared even almost unto death. Shame on thee so to declare before thy friend, who loves ye both as he were thy father!"
"No, no, Elias," said Whetzell, drop-

ping into the Quaker speech. "I tell thee no lie. We are scared. Yesterday afternoon we were in hiding about a mile from Dunkard creek, and in the evening we built a fire under the bank very carefully, and we got some black rocks to prop up a little kettle and put them beside the fire rather than in it, and the black rocks took fire and burned fiercely, with a filthy smoke and a bright light, and Long Arms said the devil would come if we staid, and we grabbed our kettle and poored out the water and made our way here, leaving the black rocks to burn."

Elias Ble k was much interested. He did not tell Whetzell what the black rocks were, but he found out exactly where the men had made their fire, and when they went away he gave them each a new Ezra Engle rifle, a knife and a tomehawk, with four pounds of

powder and a supply of lead. Then he hunted up their camping ground, found the "black rocks" and ened a coal bank into one of the river bills, and this coal bank is still in existence in a 12 foot vein of coal that is baolutely free from slate and burns like pitch.

Resting at Unyanyembe.

My march is nearly over. I have got back into well beaten tracks and am even occupying a house where near-ly every Englishman who has entered this region of Africa has lain and groaned over his fevers, his delays and the thousand and one troubles inciden-tal to African travel. Livingstone waited here with patient resignation for months, ruminating no doubt now on the great lake, anon on the "great open sore of the world." Stanley barricaded and loopholed its walls in the war with Mirambo. Here Cameron grouned over his fevers and his delays, and before me rises the picture of Murphy, stout and burly, sinking with a groan to the ground, and Dillon, blind and helpless, lying wearily on his couch. In later times Captain Carter of elephant fame had to fiee from the house as from a house infected, and but a few days ago his Scotch assistant and two Belgians were on the point of shooting each other with their revolvers, and, last of all, to close this "strange, eventful history." here lies yours truly, resting from his long and lonely march and feeling as if his work was o'er.

to that horrible scourge, prickly heat, making me feel as if needles were ooz-ing out of every pore of my corpus. Mosquitoes by the million buzz about my ears, but sing no pleasant love song to my maddening brain. I am also martyr to certain volcanic cruptions vulgarly known as boils, which prevent walgarly known as boils, which prevent
me from sitting, lying, walking or
standing with any degree of comfort.
Then the temperature is so high that
at midday I have not got out of my
pyjamas, while to get a breath of air
I have continually to resort to the fan.
—Biography of Joseph Thompson, African Explorer.

Clean Shirts In Germany. The Ber. in Boersen-Courier tells about a German's invention of a paper shirt front which is intended to appeal to the large number of continental Germans who wear dickies. The shirt front has a paper collar polish and is in seven layers. As each layer is torn off it reveals another white, glistening front. Thus from one paper dicky the wearer may evolve a clean paper shirt front for every day in the week. The dicky is made to button to any kind of shirt. It coets but 30 pfennig, or about 7 cents; consequently the expense of a clean front is but a cent a day. In view of the prevalence of the dicky habit in Germany the inventor has taken steps to manufacture his compound shirt fronts in large quantities. The Ber. n Boersen-Courier tells

Acids and the Teeth.

It is a dentist's word that acids are quite as injurious as sweets to the teeth, unless their traces are promptly removed. Oranges or apples eaten at night need the brush as certainly as do candy and other sweets. If persons would be careful, too, what is taken before a teeth filling appointment, those with assistive teeth will find some mitigation to their suffering. Acids that set the teeth on edge are particularly to be avoided.

Good Argument.

y—Mudge, what makes you your own stories? —Why shouldn't I? 'I they

Milton's Wives and Daughters

Of Milton's three wives and his rela-tions with them enough has been written. It was a hard thing to be Milton's wife or Milton's daughter. He was stern, be was austere, he was self centered; his impeccable strength was purchased by a sublime and monotonous egoism, which is the name they give to selfishness in poets. Very chill must have been the life of his girls in that Puritan house, reading to the inwrapped Puritan father from languages they did not understand and taking down from his lips poetry they understood still less. Milton found them undutiful. Poor little "undutiful" daughters! Fathers had terrible conceptions of duty in those days. Did any one ever want to know Milton? Did any one ever not want to know Shakespeare? Doubtless there are readers of the Exeter Hall class who would have yearned for the godly company of the "great Christian poet." But, on the whole, how thankful one should be that Shakespeare was not a "Christian poet!"-Academy.

Does It Pay to be Sick?

Besides the discomfort and suffering, illness of any sort is expensive. Hundreds of people consult the doctors every day about coughs and colds. This is better than to suffer the disease to run along, but those who use Otto's Cure for the throat and lungs do better still. It costs less and the cure is certain. You can get a trial bottle free of our agent, H. Alex. Stoke. Large size 25c, and 50c.

Livery stable keepers should always keep Arnica and Oil Liniment in the stable, nothing like it for horses. Arnica & Oil Liniment is countly good for man and beast. 25 and 50 cents per bottle. For sale by H. A. Stoke.

Thousands walk the earth to-day who would be sleeping in its bosom but for the timely use of Down's Elixir. For sale by H.

For a mild cathartic and efficient tonic, us Baxter's Mandrake Bitters. Every bottle warranted. For sale by H. A. Stoke.

~~~~~ DR. HENRY BAXTER'S MANDRAKE BITTERS, **CURES CONSTIPATION** AND BILIOUSNESS.

A delightful tonic and laxative. Can be taken by young and old. No dieting necessary. Eat anything you like and plenty of it. Builds up "run down" people making them well and vigorous. Try it. At Druggists. Only 85e per bottle. Honry, Johnson & Lord, Props., Burlington, Vt.

For sale by H. A. Stoke.

A Note From the Editor.

The editor of a leading state paper writes: "If you had seen my wife last June and were to see her to-day you would not believe she was the same woman. Then she was broken down by nervous debility and suffered terribly from constipation and sick headache. Bacon's Celery King for the nerves made her a well woman in one month." H. Alex. Stoke will give you a free sample package of this great herbal remedy. Large size 25c. and 50c.
