

**A Note From the Editor.**  
The editor of a leading state paper writes: "If you had seen my wife last June and were to see her to-day you would not believe she was the same woman. Then she was broken down by nervous debility and suffered terribly from constipation and sick headache. Bacon's Celery King for the nerves made her a well woman in one month." H. Alex. Stoke will give you a free sample package of this great herbal remedy. Large size 25c. and 50c.

**CUBA TO BE FREE!**

**Congress Has Asserted That Cuba Ought to be Free and we Will Help Her.**

**WAR RESOLUTIONS PASSED YESTERDAY!**

Unless the Spanish Government Concedes to the United States' Demand Quick, Blood will be Shed.

The resolutions as passed by both houses of Congress after one o'clock yesterday morning are as follows:

"A joint resolution for the recognition of the independence of Cuba, demanding that the government of Spain relinquish its authority and government on the island of Cuba, and to withdraw its land and naval forces from Cuba and Cuban waters, and directing the President of the United States to carry these resolutions into effect.

"Whereas, The abhorrent conditions which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, culminating, as they have, in the destruction of a United States battleship, with 266 of its officers and crew, while on a friendly visit in the harbor of Havana, and cannot longer be endured, as has been set forth by the President of the United States in his message to Congress of April 11, 1898, upon which the action of Congress was invited; therefore,

"Resolved, By the Senate and House

of Representatives of the United States of America in Congress assembled,

"First—That the people of the island are, and of right ought to be, free and independent.

"Second—That it is the duty of the United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba, and withdraw its land and naval forces from Cuba and Cuban waters.

"Third—That the President of the United States be and he hereby is directed and empowered to use the entire land and naval forces of the United States and to call into the actual service of the United States the militia of the several States to such extent as may be necessary to carry these resolutions into effect.

"Fourth—That the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island except for the pacification thereof, and asserts its determination when that is accomplished to leave the government and control of the island to its people."

**Hopkins.**

Saturday Harry Byrnt bought an Apollo bicycle and he is taking a great deal of pleasure with it.

Saturday Drew Courtney, aged about five years, son of Ed. Courtney, while playing on the tram railroad at the mill, fell off the trestle to the ground, a distance of fourteen feet, and was knocked unconscious. His father ran and picked him up and carried him home. When the father reached the house the boy returned to consciousness and asked what was the matter, and began laughing.

Monday afternoon P. F. Griffin and F. P. Strickland were engaged in hauling green lumber over an old tram road in the mill yard and the trestle gave away and these two gentlemen had to make a desperate leap for their lives, otherwise they would have been crushed to death under the wreckage.

James F. King is in Lock Haven this week spending a few days with his family.
