A Little of Everything.

Corked in the harbor with his fleet. With scarce enough of food to eat. Cervera sits with sullen brow. And wonders why and wonders how. Why did I take this cursed route? And how in sin will I get out? Oh, me! Oh, my! It makes me sigh To think how great a chump was I. To get into this cruel plight. Where I can neither run nor fight. Schley, with his ships, is just off shore. And Sampson, with a dozen more. A little further out to sea Is waiting longingly for me. The Cadiz squadron? What of it? That cannot help me—not a bit. For should it dare to show its head, 'Twill decorate the ocean bed. No matter how I cast about. The problem will not figure out. Take from my lips this bitter cup: I'm bottled up! I'm bottled up! —Punxsutawney Spirit.

This will be a rare opportunity for the people of Reynoldsville to hear the greatest chorus leader and solo singer of the age.

Let the Good Work Continue.

There has been more improvements, such as tearing down old fences, making pretty lawns, painting houses, &c., in Reynoldsville this season than has ever been known in the town before in one season. When one man makes such an improvement his neighbor sees how unrightly his property appears, and down comes his fence and the lawn is fixed up, and the property beautified. If this spirit of improvement continues, and we believe it will, in a few years Reynoldsville will be one of the prettiest towns in this section of the state.

It is expected that a large number of farmers will be in town that day, some to get the machines they have ordered and others to hear the speeches on fertilizers and practical farming.

Small Blaze at Hopkins.

The citizens of Hopkins had a fire excitement Saturday evening. A number of the employees of the mill, and some of the gentler sex of the hamlet, were dressed in their best "bib-and-tucker" and were at the station waiting for the 6.30 train for Reynoldsville. Just as the engine whistled for the station the mill whistle screamed out the fire alarm and Reynoldsville was instantly forgotten. Smoke was seen to issue from the shavings tower at the planing mill and it was only a few minutes until two streams of water were playing on the shavings tower and the fire was extinguished before a great amount of damage was done. The supposition is that the fire started from a spark from the smoke stack. Had Watchman Iseman not discovered the fire until after the train had pulled out it is likely that thousands of dollars worth of property would have been destroyed before the fire could have been controlled. The shavings tower from the planing mill are fanned into the tower through pipes and are packed from the tower into bales and shipped away. The tower, which holds one car load of shavings, was full at the time of the fire. When the excitement was over a number of Sunday suits were found to be badly soiled. The men rushed to the work without stopping to doff their Sunday apparel. Hopkins has a fine lot of men working for him who never shirk their duty. The A. V. R'y Co. sent an engine to Hopkins, but the fire was extinguished and the engine was not needed.

Narrow Escapes.

Last Friday evening as a Rathmel gentleman was driving along Main street, near the Burns House, the shafts dropped from the buggy on to the horse heels and the animal became unmanageable and ran towards Rathmel at a reckless speed with the shafts hanging to it. M. H. Stiles, the Prescottville grocerman, was driving towards Reynoldsville and met the runaway horse in Prescottville. Before Mr. Stiles could get out of the way the wild steed ran into his cart and upset him. He was slightly injured, the cart was wrecked and the harness broken. The horse continued its mad run towards Rathmel. Above Prescottville a boy was run down by the horse and slightly injured, and at Rathmel the shafts caught the seat of a bicycle and tossed rider and bicycle both to one side of the road, without damage to either rider or bicycle. The two men and boy all escaped miraculously.

Reynoldsville Lady Married in Clearfield.

Wednesday morning at 11 o'clock a pretty wedding ceremony was celebrated at the residence of James T. Leavy, on Second street, by Rev. D. T. Byer, of the Woodland M. E. church. The principals in the event were Waring T. McDowell, of DuBois, and Miss Eulalia Z. Pentz, of Reynoldsville. James Pentz, a brother of the bride, and Miss Blanche McDowell, sister of the bridegroom, occupied the places of honor. The ceremony was witnessed by a few of the immediate relatives of the bride and groom and several of their friends from a distance, also by the members of Mr. Leavy's household and the editor of the Republican.

Promptly at 11 o'clock the bridal party entered the parlor and were met in the centre of the room by Rev. Byer, who soon pronounced the words that joined Waring McDowell and Eulalia Pentz "until death does them part." When Rev. Byer had concluded his congratulations at the end of the ceremony the other guests followed in wishing the newly married couple all the good things of life.

The groom is the fifth son of Mr. and Mrs. Elijah McDowell, of Bradford. He is a carpenter and follows his trade in DuBois. As are all the McDowell boys, Waring is a fine young man and will prove a good husband to the charming young woman who has placed her life in his keeping. The bride is a daughter of Joseph Pentz, of Reynoldsville, and is highly regarded by a large circle of friends in her native town where her many virtues and accomplishments are so well known.

They will go to housekeeping in DuBois and their friends will send thousands of good wishes after them.—Clearfield Republican.

Butter Factory in Operation.

Last week we devoted considerable space to a write-up of the butter and cheese factory at this place, and will not enter into details again this week. On Thursday the stockholders of the plant met at the factory to see it tested on butter and cheese making. Everything worked satisfactorily. Six hundred pounds of milk was tested and worked into butter that day. It was sweet cream butter as it was worked the same forenoon it was brought in. The stockholders were pleased with the working of the plant and, as stated in THE STAR last week, the success of the plant depends now entirely on the supply of milk carried to it each morning. A butter and cheese factory cannot run without cream no more than a saw mill can be run without logs.

At a meeting held in Centennial hall Thursday afternoon the stockholders decided to start the factory Monday of this week, and butter is now being made at the Reynoldsville creamery.

The directors met at the creamery Saturday and elected the following officers: W. J. Boner, of Sandy Valley, president; H. Alex. Stoke, of Reynoldsville, secretary. C. Mitchell was elected treasurer at a former meeting.

Winslow Township School Board.

The Winslow township school board met at Frank's New Tavern Monday with the township auditors. The accounts for the year were settled without difficulty, as everything had been kept in good shape. After transacting all the business before it, the old school board adjourned and the new board was organized, with the following officers: President, John Dougherty; secretary, W. A. London; treasurer, O. H. Broadhead.

A new school building is to be built at Big Soldier and a committee was appointed to look up a location for the new building.

The millage was laid as follows: school 4 mills; building 2 mills. The board decided to increase the school term one month, making the term seven months hereafter. Under the new appropriation law the board felt that it was their duty to increase the school term. Elsewhere in this issue will be found an article on school appropriation from the pen of County Superintendent Teitrick.
