Camp Life at Chicamauga.

Below we publish a portion of a private letter written at Chicamauga July 24, by Walter D. Williams to a friend in this place:

Our bill of fare is beans, hardtack, bread, meat and black coffee. We are all getting fat on that. It is not necessary for me to tell you how we like the "grub." You can imagine.

The program of the day is: At 4.30 A. M. we have to get up; 5.00 roll call: 6.00 breakfast; 7.30 clean camp; drill from 9.00 to 11.00; dinner at 12.00; drill at 3.30 P. M.; suppor at 5.45; dress parade at 6.30. We have until 9.00 P. M. to go to Salvation Army, if we want to. Jay Evans and I were out hunting relies on the old battle ground of Chattanooga. We found several bullets. We have all been equipped and were

getting ready for a fifteen mile march this morning, but it began raining and the Captain said we would not go. Herbert Burns is having a terrible time getting a pair of shoes to fit him.

He has gone over to a regiment of Kentuckians to trade shoes. Burns and I are letting our whiskers grow. We look as if we had just come

from Ireland. Our colonel told us yesterday that before the 10th of August we would be in Porto Rico, so there is some chance of us getting into a "scrap." The boys are all anxious for the time to arrive. An old "jay" came into the grounds with a load of fruit to sell. We all got around him and upset his wagon and took his fruit.

More Milk Needed.

There was some talk of closing the creamery at this place on account of lack of a sufficient amount of milk to make the plant pay, but at a meeting of the stockholders on Saturday it was ad make special efforts to get more milk. The plant makes excellent butter and the demand for it is much greater than can be supplied. So far the supply of milk has averaged about thirteen hundred pounds per day and it should not be less than two thousand pounds per day to make the creamery a paying investment. The creamery is a good thing if it can be supplied with enough milk to make it pay, and we believe it will eventually reach that point, but to do this some of those already furnishing milk will have to buy or raise more cows and some plan adopted to up the defendant he sent him home. get the milk to the creamery. It does not pay for each farmer to drive to town every day to bring in his supply of milk. Arrangements should be made for one

Are You a Borrower.

Do you borrow THE STAR, from your neighbor, or are you a subscriber to the paper? We know of cases where three or four families will borrow THE STAR from one neighbor. There is some satisfaction in knowing that these people are so anxious to read the paper that they will borrow it, yet that don't help pay the necessary expenses incurred in publishing the paper, nor does it give the editor the encouragement that it would if you would become a subscriber. Among those who borrow THE STAR from their neighbors are many who are abundantly able to pay the subscription price and thus encourage the printer. and at the same time stop annoying their neighbors. Your neighbor may loan you his paper because he dislikes to refuse you, yet at the same time he may entertain this thought: "I wish you would subscribe for the paper and not annoy me every week borrowing it.'
