Judge Reed fixed the third Monday of January next, at nine o'clock, A. M., for hearing applications for liquor licenses; also that licenses then granted shall take effect and be in force for one year from the 16th day of February following the granting of the same. M., then drive to Brookville and attend a meeting at eight o'clock to-morrow evening. Its The Same To-day. It is an every-day occurrence to hear renters remark that they "cannot rent a house for love or money." Why not build houses and thus supply this want? It will certainly pay. Don't let our town be kept from increasing her population for want of dwelling houses.—The Reynoldsville Paper, March 22, 1893. Although a couple of hundred houses have been built since the above item appeared in The Paper, over fifteen years ago, yet the item is applicable to the town to-day. Vacant houses are not to be found. Change in Tailoring Business. Snyder & Johns, tailors, have dissolved partnership, and A. Z. Snyder, who is an experienced tailor, will continue the business at the old establishment near Hotel McConnell. Joseph Hamblet will go to Colorado and Michael Swartz will remain here for the present. W. A. Thompson, of Brookville, who has had forty years' experience, will be the cutter for Johns & Thompson. The Conclave at Pittsburg. Dr. C. C. Rumberger, pastor of the M. E. church, who was among the number from this place that witnessed the Knights Templar parade in Pittsburg last week, sums up the affair thusly: "The conclave demonstration was the finest thing I have ever seen, and it was the biggest event that Pittsburg ever experienced. The marching pageant of Knights was a sight indescribably grand and imposing, and the decorations and illuminations were never before excelled. The hospitality of the people of Pittsburg and the visiting commanderies was unbounded, and the crowd was simply enormous." New Three Story Brick. Messrs. A. T. McClure and Francis Smith, proprietors of the Reynoldsville Hardware Company store, have had the one story frame annex to their main store building torn down during the past week to make room for a three story brick addition, which will be built and ready for occupancy as soon as possible. The new structure is to be 26 feet wide and 100 feet deep. Messrs. McClure and Smith are pleasant and agreeable gentlemen to deal with, consequently their business is on the increase, and although they already have a mammoth store room, they find it necessary to have more room. The new building will be a substantial improvement on Main street. Large Funeral. The funeral of James Burns last Thursday afternoon was the largest one that has been seen in Reynoldsville for some time. Services were held in the Presbyterian church, conducted by Rev. Wm. A. Henderson, rector of the Episcopal church of DuBois. The church was not large enough to accommodate the crowd. There were fifty rigs in the procession that followed the mortal remains of James Burns to Beulah cemetery. The floral display was very pretty. The R. & P. C. railroad boys furnished the anchor and the wreath was furnished by the brothers of the deceased. The pall-bearers were six railroad men: Ernest Bloom, William Repsher, Marshall Harding, "Pete" London, George Coax and Mead Lucas. Among the out of town people who attended the funeral were: Prothonotary W. D. Clarke and wife, Ed. A. Carmalt, Esq., of Brookville, John D. Lowther and wife, of Walston, and Mrs. Fred Miller, of Shawmut.

Lecture Goes, Attention. Enough season tickets have been subscribed to justify the public schools in conducting the third lecture course. The first number of the season will be a concert by the Schubert Glee Club of Chicago, on Friday evening, October 25th. This company is one of the very best musical organizations traveling at present. Reserved seats will be placed on sale at Stoke's drug store on Tuesday, October 25th. The additional price of reserved seats will be 10 cents for each entertainment. Season tickets good for five entertainments \$1.00 each. Single admission will be 35 and 50 cents. It is to be hoped that many season tickets will yet be sold since the number sold to date is not sufficient to cover all the expenses of the course. Patrons will find it cheaper and more satisfactory to procure season tickets. These tickets are transferable and may be used by any one. Read what is said elsewhere in this issue about the Schubert Glee Club. Soldier Boys Coming Home. Co. L, 16th regiment, P. V. L., the company the Reynoldsville boys belong to, is expected to arrive in Punxsutawney this morning and the boys are expected home to-day. Mrs. E. L. Evans, Mrs. D. B. SILK MILL OPENING. Thousands of People Visit the Plant—A Few Speeches Were Made. The silk mill was opened Monday from 4.00 to 8.00 P. M. for public inspection, and it is estimated that at least 6,000 people visited the mill during those four hours. After supper there was a continuous line of people going to and from the mill, and yet the crowd was so large in the mill from 7.00 to 8.00 that it was difficult to get through the building to see the machines work. The crowd of visitors was not composed of Reynoldsville people alone, they came from far and near. At night the entire plant was illuminated with electric lights which made it an imposing looking structure. Arrangements were made for a few short speeches from a platform on second floor of the mill and about 5.30 the machinery of the mill was stopped to hear the speeches. Mayor H. Alex. Stoke was elected to preside as chairman of the meeting. Mayor Stoke, in a neat speech, introduced Judge John W. Reed, of Brookville, who in his usual eloquent and eloquent way, characterized the growth and developments from industries at other places and assured his hearers that this would not be an exception. In part the Judge said: "The people of Reynoldsville have a just right to be proud of the strides that the town is making in the proper directions. I have noted already that from the undertaking of this industry quite a number of new houses have been built. Others will follow. The sweetest music to me is that of the loom, flying shuttle and buzz of industry. This is the beginning of a bright future for Reynoldsville. The good effects of the industry will not be felt instantaneously, but the good and substantial effects will eventually be felt, not alone by the opulent, but by those who are engaged as laborers in the mill. It behooves the citizens of Reynoldsville to give their hearty support to the management of this industry, and by so doing they can hope to obtain highest and best results. An enterprise, such as this, is a gigantic affair and while I am pleased and delighted that Reynoldsville has secured it, yet I am sorry that Brookville has lost it. Lawyer G. M. McDonald was the next speaker. He spoke of the natural advantages of Reynoldsville and the products of the hills, calling to mind the fact that lumber industry had disappeared and, while a blessed people, attention in the past had not been directed to manufacturing industries. He said, "We have taken a step in the right direction, and from it great good will come to the community at large. I, with the rest of the committee, labored earnestly because I am a citizen of the town and take pride in the town and its developments." Rev. Paul Metzenthin, formerly of this place, now of Wheeling, West Va., said: "Rome was not built in a day. While Reynoldsville has grown within the past ten or twelve years, yet within my recollection of the past year, many houses stood empty and families were leaving town almost daily, but with the advent of the silk mill, which is a monument to the genius of Joseph W. Place, the president, and a credit to the noble committee who labored energetically for it, the town has taken on a new aspect, and instead of trains bearing people hence, every train is bringing people here until, I am reliably informed, that there is not a vacant house within the city limits. The name of the town should be changed from Reynoldsville to Reynolds City." Capt. F. K. Mullen was the next speaker and he said: "While I did not get my company to the front, I have won the honorable name of Captain of the Reynoldsville Volunteers. My colleague, Lieut. W. H. Stamey, and I unfortunately pulled the wrong string and the consequence was our company did not get to the front, but during the days and weeks of anxiety and waiting, we were both, as well as the rest of the committee, earnestly working and overseeing the erection of this structure that you admire to-day. I am proud of the effects that crown a successful undertaking. Good results have been obtained so far and Reynoldsville has better prospects for the future than any other town in the country." W. H. Stamey, Esq., who worked zealously to get the silk mill here, and to whom much credit is due for the imposing silk plant that we can now boast of, was the last speaker. He said: "I have little to say. Less than eight months ago I tendered a proposition to the citizens of Reynoldsville and they accepted it, and as a result of good faith on both sides, a complete 200-loom silk mill is now in operation here. A mill that can, and will, be run both day and night, employing from 350 to 400 hands, and with the earnest support of the citizens in the future as in the past, I assure them that the mill will grow to greater dimensions, with larger pay roll and increased number of employees. With the success of the mill, so is the success of our city, for each is dependent upon the other. Fuel is cheap and intelligent labor can be had, as has already been demonstrated, for we have now almost 150 people employed." Men's working pants 50c., 75c. and \$1.00 at L. P. Seeley's. Guns, ammunition, &c., will be found at Alex. Riston's.
