Miss Effie Clover, of DuBois, is the guest of Miss Gertrude Delbie.

The members of the Shakespearean Literary Club in their regular meeting last Friday chose the following officers for the ensuing month: Pres., Miss Elsie Ross; Vice Pres., Pearl Barto; Sec., Miss Etta Shaffer; Program Com., Misses Elizabeth Irving, Clara Geisler; Critics, Misses Mollie McDonald, Effie Milliren and Harry Herpel.

Wallace Gray, of room 8, in an affray with Ed. Smith, a fellow school mate, one day last week had a knife thrust into the hip of his right arm. We were informed that the deed was done intentionally by Smith, who seemed rather careless of the manner in which he flourished his weapon. It would be advisable for the pupils to be very careful what instruments, and how they use them, for defence on such occasions, as they oftentimes create serious results.

One of the teachers from our rural sections while on his way to Reynoldsville last Saturday to attend institute, accosted a Dutch lady, who happened to be passing at the time, with this question, "Madam, how far is it to Reynoldsville?" "Shoot a leetle ways," was the reply. "Yes, but how far?" again queried the pedagogue, whom the lady now thought rather inquisitive, "Shoot a leetle ways," more emphatically. "Madam, is it one, two, three, four or five miles?" The old lady ingeniously replied, "I dinks it is." The fellow arrived.

The literary program rendered last Friday proved an entire success and all those who participated in it deserve great praise for the manner they performed their duty. The appearance they made on the stage is evidence that their literary talent has been greatly developed during the last term of school, and we can safely say that it is the result of continual practice in such work.

Our literary workers will hold a mock trial next Friday afternoon. Very careful preparation is being taken to make the trial as interesting as possible for those who attend.

Miss Amelia Morrow has ceased to be a member of the High School.

The educational meeting held in Assembly hall last Saturday will prove a memorable affair in the annals of our school. The morning exercises, though of short duration, were very interesting and well conducted. There was a large attendance in the afternoon, both of teachers and patrons. Many important facts to aid the teacher were disclosed during the day, and if they are remembered and practiced, we are sure fruitful results will be reaped. We offer but one criticism, which is that a number of the teachers present did not pay the attention required of them. Their minds may have been dwelling on more important subjects, but we doubt it.

We are aware of the numerous critics who are constantly searching our column, and the conspicuous signs of their serious remarks make it quite evident that no other opinions are current. Though the contents of our article on the stereopticon affair coincided with the original report of the bout, yet we gladly received the "trifling corrections" which appeared on the local page of this paper last week.

Local Institute.

REYNOLDSVILLE, PA., Mar. 11, '99.
Teachers' institute for district of Reynoldsville, West Reynoldsville and Winslow township organized at 10:30 A. M. in Assembly hall. Officers elected as follows: President, Prof. G. W. Leukerd; Vice Presidents, Prof. L. E. Bartlett and Prof. R. C. Wilson; Secretary, Orpha Beer.

Program of the day opened by devotional exercises, led by Rev. Reber. Singing by the institute quartette.

The first topic for discussion, "Evidences of a Teacher's Success," was opened by Prof. Russell Randolph. Then followed a very able discussion of the subject by Miss Nettie Coax, Prof. A. J. Postlewait, Prof. L. E. Bartlett and Rev. Reber.

Prof. C. E. Rugh, teacher of Pedagogy at Clarion State Normal School, was then introduced. He occupied the remainder of the forenoon with instructions to teachers.

Institute adjourned to meet again at 1:30 P. M.

Afternoon session was opened with singing by the institute quartette.

An interesting discussion of the first topic, "How Should a Teacher's Time be Spent Out of School," was given by Prof. Broed, Prof. J. G. Ballentine, Prof. G. W. Leukerd and Henry C. Smith. Following which Prof. Rugh gave a very interesting and instructive address on the "Situation in Pennsylvania."

The next number on the program was a vocal solo by Miss Elvie Coleman.

Then followed the report from the Directors' State Convention at Harrisburg by W. A. London, of Sykesville.

Dr. J. W. Foust read a highly instructive paper on Hygiene.

Next followed a short address by County Superintendent R. B. Teitrick. As usual his talk was full of inspiration and encouragement for teachers. This was followed by a vocal solo by Miss Myrtle Shobert.

Prof. C. E. Rugh gave a few parting words of cheer and institute adjourned.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose, that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hannick & Co., of Shelby, N. C. Trial bottles free at H. A. Stoke's Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

Silk Mill Notes.

Only six narrow looms remain to be provided with warps on the last section of looms situated right under the wrecked floor at the silk mill. All trace of the damage has disappeared and activity and cheerfulness reigns in this portion of the building as in all the other parts.

Pay day Saturday.
Emil Schultz, of Williamsport, a twister, has come to the mill to fill up a vacancy.

Over 150 young girls from school have made application to the mill. Every one is anxious to get work there before every place is filled and every loom provided with weavers. As to the warping department under Miss May Munsheimer all the warping frames have long ago been supplied with a select set of girls, who, under the skillful teaching of that lady, have commenced to become quite expert in their lines.

Mams Roltz and Frank Foley have for the last two weeks commenced learning twisting and the prospects are that they will become expert twisters when by practice they have acquired more speed. Young Sadie Thompson also is learning twisting. The mill may now increase its capacity. Steady twisters are now at the mill ready to meet any big orders coming from New York. Winding and quilling departments follow suit and are rivaling the other departments in increasing their production.

Last spring time come and when the first rays of the April sun will compel the silk worms in the huge bee hive to open the windows the western breeze will bring to the strolling people on Main street the buzz and clank of pulleys and shuttles. Reynoldsville's citizens have not taxed themselves in vain, they may be proud of their new industry. Let them increase it and get some more besides.

Glorious News

Comes from Dr. D. B. Cargile, of Wishita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by H. A. Stoke, Druggist. Guaranteed.
