ow Mach Air Do You Breathe?

"Man wants but little here below" is an axiom which applies markedly to the quantity of air which is necessary to support life. It is estimated that when a man is at rest he consumes 500 cubic inches of air every minute, an allowance which, at the first glance, appears large. It is, however, absurdrate of consumption it would take a man five days and nine and one-half hours to exhaust the air in a small room 15 feet square and 10 feet high. Any form of exertion, however, great-ly increases the consumption of air. Thus, if we saunter at two miles an hour, we require just twice as much air as when sitting in our arm chair; and at four miles an hour nothing less than 2,300 cubic inches will satisfy us. Taking an average consumption throughout life of one cubic foot of air every two minutes, we reach some very interesting conclusions. Thus, an hour's supply of air could be contained year's supply we should require a reservoir or hall 100 feet square and plumes in their helmets. a shade over 26 feet high, and the sup-ply for a long life of eighty years would be contained in a large hall list being published every year. a shade over 26 feet high, and the sup-1,000 feet long, 500 feet wide and 42 feet

WHERE WIVES TRIUMPH.

In the Philippines the law which relates to the property of married peo-ple is entirely in favor of the wife. Any property a bride may possess is Enterprising Texas planters have shipped 6,000 pounds of cotton seed to well off, he can only become at most an administrator of her possessions.

After death, unless she has executed a deed in her husband's favor, under a lawyer's eye, the property goes to her children and blood relations, but none to her husband,

A married woman retains her maiden name and adds to it that of her husband with the prefix "de" and the children bear the names of both parents.

The husband symbolically endows the bride with all his worldly possessions after the marriage. In fact, it is clearly a case in the Philippines of "what's yours is mine and what's mine ly small when we consider that at this is my own," as far as the women folk are concerned.

Soldiers and Feathers.

The effort to persuade women to cease adorning their hats with birds or their plumage has not been very successful, for feminine vanity has demanded this slaughter of the innocents. Englishmen have on this occasion proved themselves more humane than the women of the land. Sir John Lubbock has secured the abolition of the use of osprey plumes in the British army. He pointed out that these plumes were stripped from the birds in their breeding season, involving the in a trunk 5 feet long, 3 feet wide and death and the destruction of their feet deep. In a day we should ex- young by starvation. On learning this haust a small roomful, 10½ feet long, the military authorities decreed that 7 feet wide, and 10 feet high. For a officers should no longer aid in this wanton destruction by wearing osprey

The Island of Luzon has the same area as Ohio.

REPARE for the turn of life. It is a critical period. As indications of the change appear be sure your physical condition is good. The experience is a wonderful one and under some circumstances full of menace. Mrs. Pinkham, of Lynn, Mass., will give you her advice without charge.

She has done so much for women surely you can trust her. Read this letter from MRS. M. C. GRIF-FING, of Georgeville, Mo.:

"DEAR MRS. PINKHAM:-The doctor called my trouble ulceration of womb and change of life. I was troubled with profuse flow

ing and became very weak. When I wrote to you I was down in bed, had not sat up for six months; was under a doctor's treatment all the time, but it did me no good. I had almost given up in despair, but your Vegetable Compound has made me feel like a new woman. I cannot thank you enough. I

would advise any woman who is afflicted as I have been to write to Mrs. Pinkham, at Lynn, Mass., and get her advice and be cured as I have

TRADE REVIEW.

A Slight Luft in Eusiness Circles-Strong Prices of Iron Products

R. G. Dun & Co., in their weekly reriew of trade, report as follows for last week: Failures during the first quarter of 1859 have been in amount of liabilities not more than about \$26,580,-330, against \$31,109,152 last year, \$45,-330, against \$31,109,152 last year, \$45,-307,910 in 1897 and \$57,525,105 in 1898. While the latter returns may increase the amount for the quarter a little, the complete return, which will be given next week, will be very remarkable in comparison with that of any previous year.

able in comparison with that of any previous year.

Business is not at present improving. There has been something very like a check, partly the result of heavy buying since January first to anticipate the market, partly caused by the uncertainty about the operation of many combinations and a shade of doubt about foreign affairs also had some influence. The new rule of the clearing house banks at New York about taxation of country checks also causes some shifting of accounts. A period of transition from one ownership and management to another, and ship and management to another, and from one industrial system to another, when it affects many hundred estab-lishments throughout the country inevitably causes some hesitation in

lishments throughout the country inevitably causes some hesitation in
business.

A little later the many hundred
concerns may be doing more business
than ever, as they were just before
combinations were effected. But at
the point of transition nobody knows
just what to expect. There is much
withdrawal of iron business because
continuance of high prices is doubted,
because great purchases made by
many works have not been met by orders, and because works affected by
many other combinations proposed are
not inclined to buy more largely.

Prices are strongly maintained at
\$15 15 for bessemer pig at Pittsburg,
the Valley association having soid
120,000 tons for delivery in the last half
of the year at \$14 50, and gray forge is
stronger at \$14 40, but hesitation appears at Philadelphia about maintenance of future prices. Chicago is inactive compared with recent weeks.
With no sales reported except 10,000
tons at Chicago, rails are quoted \$1
higher there and as much at Pittsburg,
and the sale of 250,000 tons of steel biliets to the Tin Plate Company sets
prices for 160-pound plate at \$4.05 after
July 1. Structural demand increases,
but bar mills at the West and South
are consolidating and are not disposed
to take large contracts, although the
Pittsburg mills are asking \$1.50 because behind their orders. For plates
the demand far exceeds the supply at
Philadelphia and Chicago, and the
leading mills at Pittsburg are full untill August or later. In hoops, cotton
ties, tubes and other products expected
consolidation affects business. Minor
metals are stronger for tin at 24 cents,
with consuming demand, and for copper at 17.5 cents, owing to London
speculation.

The fluctuations of the wheat market have been lurge and tend on the

with consuming demand, and for copper at 17.5 cents, owing to London speculation.

The fluctuations of the wheat market have been large and tend, on the whole, toward higher quotations. Exports at Atlantic ports, flour included have been, for four weeks, 11.679,512 bushels, against 9.22.495 bushels last year; and Pacific 3.953.687 bushels against 2.774,112 bushels; and the other exports, not given last year, make the total 17.317,689 bushels. Western recipts, have been 12.949,815 bushels against 8.968,373 last year.

Raliroad carnings for three weeks of March have been 41 per cent larger than last year and 8.8 per cent larger than last year and 8.8 per cent larger than fin 1892, and the eastbound tomage from Chicago in four weeks has been 46,438 tons, against 622,901 last year and 356,355 in 1892, which indicates quite clearly the remarkable deoression in rates at Chicago.

THE pleasant method and beneficial effects of the well-known remedy, SYRUP or Figs, manufactured by the California Fig Syrup Company, illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative,

> CLEANSING THE SYSTEM EFFECTUALLY, DISPELLING COLDS AND HEADACHES, PREVENTING FEVERS, OVERCOMING HABITUAL CONSTIPATION PERMANENTLY.

Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, gently yet promptly, without weakening or irritating them, make it the ideal laxative. In the process of manufacturing figs are used, as they are pleasant to the taste, but

THE MEDICINAL QUALITIES ARE OBTAINED FROM SENNA AND OTHER AROMATIC PLANTS,

by a method known to the California Fig Syrup Company only. In order to get its beneficial effects, and to avoid imitations, please remember the full name of the Company printed on the front of every package. Consumers of the choicest products of modern commerce purchase at about the same price that others. pay for cheap and worthless imitations. To come into universal demand and to be everywhere considered the best of its class, an article must be capable of satisfying the wants and tastes of the best informed purchasers. The California Fig Syrup Company having met with the highest success in the manufacture and sale of its excellent liquid laxative remedy. Syrup or Figs, it has become important to all to have a knowledge of the Company and its product. The California Fig Syrup Company was organized more than lifteen years ago, for the special purpose of manufacturing and selling a laxative remedy which would be more pleasant to the taste and more beneficial in effect than any other known. The great value of the remedy, as a medicinal agent and of the Company's efforts, is attested by the sale of millions of bottles annually, and by the high approval of most eminent physicians. As the true and genuine remedy named Syrup or Figs is manufactured by the California Fig Syrup Company only, the knowledge of that fact

will assist in avoiding the worthless imitations manufactured by other parties. ALIFORNIA FIG SYRVP (? GOUISVILLE, KY. SAN FRANCISCO NEW YORK, NY.
