### A Great Prize Offer.

We have a great prize offer to make the farmers of Jefferson county! By a special arrangement with the publishers of the *Farm Journal*, a most excellent farm paper that costs 50 cents a year, we are able to offer one year's subscription to THE STAR and FIVE years' subscription to the *Farm Journal*—the two worth \$3.50—all for the small sum of \$1.25. Of course this only applies to advance paying subscribers. We can furnish a few papers at this rate, and if you want them on these terms, you must act QUICKLY! Sample copies of the *Farm Journal* will be sent free on application. Address, C. A. STEPHENSON, Reynoldsville, Pa.

A manufacturer of lies needs no trade mark to protect his goods.

In shipping cattle abroad, only one in a thousand is lost or dies at sea. This is a better record than the United States government has in transporting troops to Cuba.

One often hears of the high prices which labor receives in the Klondike. 'Tis true that men receive one dollar an hour, but it is seldom that any of them have a job lasting longer than a few hours.

The common people are the concrete mass upon which the superstructure of this government is built. The danger is not in the downfall of the superstructure, but in the splitting and cracking of the concrete.

American iron is carried all over the world. Recently we landed a few cannon balls at Samoa. The Philippines are receiving large installments and Spain, Cuba and Porto Rico received sufficient supplies last year.

The price of all hard rubber goods has been increased 7 per cent. The reason given is that there is a scarcity of the crude article. A few months ago the rubber companies formed a trust; now they limit the supply of the crude article and naturally the price is raised.

Eggs from Texas are shipped to New York. If there is such a great demand for eggs in the Empire State that Texas must furnish them, then there is an opportunity for the unemployed. They should arrange that a supply of eggs can at all times be secured by New York dealers at nearby points.

Denver will introduce horseless vehicles in her fire department. A few more years and one of the most exciting scenes of our great cities will have disappeared. There is nothing more inspiring than to see the big, spirited, noble horses dash to the scene of fire with the heavy fighting apparatus.

The waters of Niagara are now furnishing electrical power for Buffalo. Los Angeles, Cal., receives her light from a turbulent stream 90 miles away, conducted in by means of the electric current. An eastern man has now a machine by which the rise and fall of the tide will be utilized for power. Before the close of the century we may be privileged to see some shrewd American adjusting a shaft to the axis of the earth and thereby furnishing the world with power.

Alex. Riston, the cigar manufacturer, makes some of the best brands of cigars on the market, and yet there are comparatively few of the business houses of Reynoldsville that handle his cigars. We have not made inquiry as to how much cheaper, if any, outsiders can deliver cigars to our business men than Mr. Riston does, but the fact that he finds a good sale for his cigars in other towns is evidence that his prices are as low as any other cigar manufacturer. For the very reason that our townspeople do not patronize each other as they should, the town—with all its past success—has not been as good a business place as it might have been. It is a fact that cannot be gainsaid that too many people of our town spend their money out of town for things they could get at home just as cheap. Ladies will send to city firms for dress goods, &c., and in numerous cases pay as much, and more, than they would for the same article at home, and pay the express or mailage in addition. If the people want to make Reynoldsville a better town than it now is they should patronize home stores and home industries, but business men should set the example. If Mr. Riston sells more cigars in town he will give employment to more men and there will be so much more money put in circulation here. What is true of Mr. Riston's cigar manufactory is true of all other industries in town.

### The Reward of Merit.

The school directors of Jefferson county will meet in triennial convention in the Court House, in Brookville, on Monday, May 2nd, 1899, at 2.00 P. M., for the purpose of electing a County Superintendent for the succeeding term of three years. Under the conditions as they exist this year, this will be a duty that will be easily and pleasantly performed. The present incumbent of that office, Prof. R. B. Teitrick, has demonstrated his fitness for that position to such a degree that public sentiment has crystallized in his favor and precluded all possibility of other aspirants making a creditable showing and much less to succeed in a contest against him for re-election, hence he has been given a clear field and will be the unanimous choice of the convention as his own successor. And this is as it should be, if merit is to have its reward. Prof. Teitrick's administration of the affairs of his office has been productive of great good to the public schools and educational interests of the county, his ability, energy, and perseverance instilling both teacher and pupil with new zeal and interest in their work, the progress made during the past three years being easily recognized—*Brookville Republican*.

When Prof. Teitrick was a candidate three years ago for county superintendent THE STAR was one of his supporters, believing at the time that he was the right man for the office, and we have not been disappointed. The *Republican* has only stated facts in the above complimentary notice.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at H. A. Stoke's Drug Store.

# C. C. C. Bicycles

In the last issue of the paper I announced that my line of Bicycles for 1899 was complete, but after seeing the

## Waverly and Featherstone

lines I found them to have so many good points that I could not resist the opportunity of giving the people of Reynoldsville more and more of a good thing.

You know the WAVERLY people build a Bicycle from the ground up; that is, make everything that enters into the construction of a Bicycle and make it right, and the FEATHERSTONE CO., being the largest makers of Bicycles in the United States, having made 92,000 in 1898, are making a line this year second to none, at surprisingly low prices. I offer them with G. & J., Hartford or any other standard make of tires, at

\$25, \$35, \$40.

I am the only dealer in town selling strictly high grade wheels, and for several years have sold more bicycles than any other dealer and expect to maintain that standing.

I represent five different manufacturers whose business integrity cannot be questioned, who fully guarantee every wheel made.

Juveniles at \$20, just as good as the full grown. Come in and get a CAT.
