County commissioners and county treasurers are authorized by one of the new laws signed recently by the governor to withhold fees, mileage and other moneys claimed by any person who is indebted to a county for fines, costs, damages, penalties or unpaid taxes.

The Clarion State Normal is one of the best equipped schools in the State and a scholarship of one year in this fine institution that is without a superior is well worth working for. There is plenty of time to start in and win. Send in your name and get started as soon as possible.

An education that is not practical—that does not equip a man for the battle of life—is like the blue jay on the woman's bonnet—more ornamental than useful. A woman who is a good cook and is able to put half-soles on the seats of little breeches, is a jewel. If she simply knows how to embroider and paint on china she is different.—Punxsutawney Spirit.

Up to September, 1898, it was estimated that there were 3,000,000 bicycle riders in the United States. It is estimated that there will be this year 850,000 more. The export of bicycles and parts amounted to \$7,000,000. The sum of \$200,000,000 is invested in bicycle manufactures. There are 90,000 people employed in this business. The number of reputable bicycle manufacturers in the United States is only 150.

A bill was signed by Governor Stone that authorizes borough councils to pass an ordinance taxing fire, assignee, bankrupt or other sales. The fee is to be not less than \$25 per month nor more than \$200. If a principal or agent wishes to conduct such a sale in a township he shall pay \$25 per month to the county treasurer, for the benefit of the school district of such township. Heretofore borough authorities have been handicapped in collection of licenses from fakirs, owing to the vagueness of the law on the subject, but this act cures the defect.

The Supreme Court of Tennessee declared the law forbidding the sale or giving away of cigarettes in that State constitutional, and said, in part, as follows: "We think cigarettes are not legitimate articles of commerce, because they are wholly noxious and deleterious to health. There use is always harmful, never beneficial. They possess no virtue, but are inherently bad, and bad only. They find no true commendation of merit or usefulness in any sphere. On the contrary they are widely condemned as pernicious altogether. Beyond question their every tendency is toward the impairment of physical health and mental vigor."

We offer the advertising columns of the Breeze in evidence of the fact that Johnsonburg has in it as many live, up to date merchants to the square inch as can be found on the same amount of territory anywhere in the state. Nevertheless, there are a few who do not patronize their home paper. Recently a Breeze man found a merchant who has been trying to do business in the town for three or four months, sitting in front of his store half asleep, who never has spent a dime in advertising in the town, and who said he had not even seen a copy of the local paper in that time, and when asked to take the Breeze on trial for three months at the enormous cost of 25 cents, said he could not afford it. And yet he sits and sits and waits and waits for customers that will never come. Moral: If you want to do business in Johnsonburg, or any other live town, advertise in your home paper.—Johnsonburg Breeze.

Story of a Slave.

To be bound hand and foot by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife had been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a godsend to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cents. Sold by H. A. Stoke, Druggist.
