Just Arrived from Klondike.

R. D. McCreary and wife, of Leechburg, Pa., were guests of Mr. and Mrs. George Mellinger Sunday. Mrs. McCreary was visiting in Brookville and that is why Mr. McCreary made that his first stopping place. It took one month to make the trip from Alaska to Jefferson county. Mr. Mc-Creary says the Klondike is a badly misrepresented country so far as bardships are concerned. He says it is extremely cold there but that he did not suffer any more from cold weather than he does in this country. They have no wind and the snow falls from three to four feet deep. During the summer there is no night in Alaska. Mr. Me-Creary gives a very interesting account of the Klondike and its gold.

Scores Galore.

The ball game last Thursday afternoon on the grounds at this place between what was called the Hotel Mc-Connell and Hotel Imperial teams, was the greatest game of the season-for scores. The score was 47-32 in favor of Hotel Imperial. "Unele" Ed. Seeley says that is the kind of a game he enjoys. He likes to see the players "come in home." Scientifically there have been better games played at this place, but for wild throwing, muffing the ball, &c., the game has not been surpassed in many years. The game was called at 3.30 and was finished about dark. Before the game was ended there was not much "rooting," as the players had the grounds almost entirely to themselves. There was one scientific feature of the game and that was the "kicking" on the umpire's decisions, and that was so vigorous that it required three umpires before the finis of the game. Some of the fine points in the game were the way "Mark" Conser caught the ball with his foot, the fielding of Thomas Green and Thos. Malloy, John Dunsmore's work on first base and the pitching done by "Doc" Hayes, Dr. Harry King, Will Herpel, Will Wiley and John O'Hare. The Imperial team only got 13 scores off Hayes In the first inning.

Y., a graduate of the school of music in that city and a member of two quartette choirs in its churches. The musical program will be interspersed with recitations by Raymond Brown, the winner of the oratorical prize of '99 at Ithica, N. Y., and Miss Edna Boyd, of DuBois, one of our neighboring elocutionists. Reserved seats will be placed on sale at Stoke's drug store, Thursday morning. Prices of admission 30, 25 and 15 cents. Funeral service will be held at his late residence at 10.00 a. m. to-day, after which the mortal remains of a noble man will be laid to rest in the Beechwoods cemetery. The deceased was a brother of 'Squire Thomas Hutchison. When a mere lad his parents moved into the section near Pancoast and Joseph ever after resided there. The deceased was a man who attended strictly to his own business. He was a good husband and an excellent neighbor. He leaves a widow to mourn for him. His only son was killed at Johnsonburg several years ago by a house falling on him. Joseph Hutchison was 68 years old.

Mr. Robinson's Answer.

July 29th a mass meeting of the miners was held at this place, as previously stated in this paper, to attend a convention at DuBois last week. A committee was sent from the DuBois convention to see General Manager L. W. Robinson, and below we publish that part of his answer to the committee which concerns the employment of miners at this place and the running of the train

to Big Soldier: "In regard to the Reynoldsville men who have not received work: As before stated, it is my intention to do as you have suggested in giving our employes work, but there are a number of men who have not been near Soldier Run mine to ask for work. They will find if they go there and ask for work, they will be placed to the best possible advantage at this late date to secure employment. We have no way of knowing whether there are ten or fifty who have not secured work, but any who apply will receive employment. "As far as the train is concerned, we

shall no longer haul our employes or any one in box cars. Your committee have had it fully explained to them why we do not consider it safe or policy to run this train as we did heretofore. The question of train will be held over for the present, and if it is decided to put one on it will be a regular passenger train, which will be safer, and reasonable compensation will be charged. The service given will depend upon the schedule of through trains, and if the accommodation of the miners between Reynoldsville and Soldier Run is to be considered, the service will depend entirely upon the relations existing beween the employes and the company."

The Ubiquitous Mosquito.

"Did the mosquitos bite you last night?" was a common interrogation as friend greeted friend in this place last Friday morning. It is such a rare thing to be annoyed in Reynoldsville with the pesky "skeeter," that the general attack Thursday night was unexpected and no one was prepared for it, but the following night the mosquito didn't bave it so much its own way, as everybody laid in a supply of what each one considered the best thing to induce the mosquito not to present its bill. Of course we have always had more or less mosquitos in this place for years, but never such an influx as that of Thursday night. It may be that the mosquitos have heard of Reynoldsville's popularity as a summer resort since Frank's Park has been opened and a delegation was here investigating. The experience of Thursday night convinced

many of our citizens that many of our citizens that

"The ubiquitons mosquito has a stinger
Long and sharp, and he's a singer.
He trills a merry little sonnet.
Secures a soft spot, settles on it.
And ere you can locate the creature
He's pumped his supper from some feature
And has softly flown away.
Still humming his welrd roundelay.
The kissing bug may raise a ruction,
But for a sangulnary suction
And annoyance of the kind
That can upset a victim's mind,
The pesky insect one should see to
Is the persistent mosquito."
