THE FOLDING AUTOMATIC SPRING WASHER

Manufactured by GEORGE & TWEEDALE, Constantine, Mich.

W. G. HARTWICK, Reynoldsville, Pa., Owner of Patent. Assisted by T. C. REYNOLDS.

The Automatic Washer.

The Wood Folding Automatic Spring Washer has been before the public since November 9, 1886...

We feel honored and proud of the fact that we are able to invite public attention to the first successful and only perfect washing machine in the known world...

The machine is revolutionizing the washing business. It is manufactured by George & Tweedale, Constantine, Mich., and persons wishing information are referred to the Manufacturers' First National Bank of that place...

What We Claim For It.

We can wash with this machine a bed quilt in 5 minutes—give you an hour with your washboard to do the work as well; 3 to 5 sheets in 5 minutes; 1 table linen and 50 napkins 3 to 5 minutes; 20 towels to your one on the washboard. The dirtiest meal of wheat sack in one-half minute; 15 feet carpet in 5 minutes, and all classes of other goods as fast, just in warm suds as prepared on the wash board; and that it does not injure the finest fabric can be proven by washing a \$100 greenback or piece of paper.

It will rapidly and thoroughly cleanse the dirtiest wristbands, collars, cuffs and the most soiled hems of skirts, dresses, etc. The truthfulness of which assertion many ladies have their opinion—never having seen a machine that would wash such parts perfectly except the old hand washboard. To see it yourself is proof of the merit claimed for it.

Sold only by persons owning territory.

Special Notice.

Our plan of selling townships is as follows: A person pays for a township by buying 12 Wood Folding Automatic Spring Washers at \$10 each and has the entire sale of the machine in it for seventeen years from the 9th day of November, 1886, and all machines he can sell during this time at \$— confidential. In other words we realize profit on just the first 12 machines township and the purchaser has the right to sell the length of the patent.

IT SELLS AT SIGHT.

Below we give the names of purchasers in the past few months, mostly of Reynoldsville, Pa., who have bought machines of us:

- J H Hughes, Gustave Harrold, Walter Mason, E C Davis, Frank Deltz, T C Reynolds, F S Hoffman, W B Hoffman, Mrs G W Dampsey, John Miller, Ezra D Hartman, Mrs P Foley, Ed O'Reilly, Mrs R J Mulholland, F K Alexander, Wiley & Sweitzer, Bullington & Brady, H Alex Stoke, Edward A Carmalt, James Mitchell, Mrs Mary Belford, Mrs Robert Douthit, Mrs David Reynolds, Mrs A C Huntington, Rev Thomas Brady, Mrs Paul Sence, Jennie E Welch, Ed Gooder, Mrs Margaret McKay, Mrs Leona C Mills, Mrs Benjamin Kline, D S Adams, A M Myers, D L Postlewait, Mrs Mary J Bolt, Mrs M R Gorsline, John C Lyons, H P Strickland, Mrs M O Garman, Mrs M S Rombough, Moses Thomas, Noah Strauss, James F Henry, C O Sprague, Mrs A Phillippi, Francis Delarm, Jake Womeldorf, Gordon Clark, Mrs F H Gallagher, W A Osborn, OShertliff.

Public Exhibition on the Street at Reynoldsville.

At a public exhibition on the streets of Reynoldsville we saw the Folding Automatic Spring Washer put to the severest tests and think it exceeds any washer we ever saw. We saw a lot of dirty clothing washed—and washed clean—in a very short time. A horse blanket was washed clean in ten seconds, and to prove that the machine would wash goods without harm, a \$100.00 bill was placed in the machine and washed clean without harm to the bill.

Mr. Hartwick, the agent, claims that the machine will pay for itself in a short time in the saving of goods, which we have every reason to believe is true. We know this machine will wash collars and wrist bands as well as can be done with the hands and washboard.

SPECIAL NOTICE.

To Those Who Have a Spirit of Speculation and Who Like to Make Money, the Purchase of Thirty Automatic Spring Washers Secures a County.

To those who wish to engage in a pleasant and profitable business we invite their attention to our plan of closing counties. The purchase of thirty machines at \$10 each and a county goes with them. A person pays for a county when he buys thirty machines and gets a genuine deed for the county for 17 years from date of patent, and all the washers manufactured, packed and delivered to him on board the cars at Constantine, Michigan, at \$— (confidential) that he can sell in the county during the seventeen years. Next we sell states by counties, as we close townships in counties. W. G. Campbell and H. L. Fireman, well known men of Reynoldsville, have purchased 30 machines at \$10 each and thereby secured the county of Clearfield. They have a deed for the county and the exclusive agency for 17 years from the 9th day of November, 1886, and all the machines manufactured, packed and billed to them on board the cars at Constantine, Mich., at our confidential contract price to agents that they can sell or have sold in said county.

In like manner Benjamin Kline, of Reynoldsville, has bought thirty machines at \$10 each and has taken Elk county in which to sell machines.

J. C. Dillman and F. W. Zettler have bought 30 machines and secured the sale of the machine in McKean county.

S. B. J. Saxton and John C. Lyons have purchased 30 machines and have a deed to Washington county, Pa.

Samuel M. Lowther, of Mt. Pleasant, Pa., also has purchased 30 machines and has a deed to Westmoreland county. Mr. Lowther has made the sale of some townships and has sold a number of machines at retail.

John Pomroy, of Reynoldsville, has also purchased the right of Jefferson county, except Brookville and the townships of Winslow and Pinecreek in which to sell machines.

Lewis P. Lorentz, of Reynoldsville, has purchased 30 machines at \$10 each and thereby secured the county of Armstrong.

R. B. Dudd, of Troy, Pa., purchased 30 machines at \$10 each and has a deed of Lycoming county.

W. Whipple and F. Lockwood, of Worcester, N. Y., purchased 30 machines and selected Bradford county, for which they have a deed.

W. B. Straight, of Troy, purchased 30 machines at \$10 each and secured a deed of Tioga county.

In this manner 13 counties have been sold in this state in the past few weeks and ere long this machine will find its way into every household in Pennsylvania, as the business is being pushed by reliable business men. When you look at the number of machines that have been sold in the past few weeks, and learn the profits all agents have you can see it will interest any one who likes to make money. We refer you to any of our agents for confidential contract price to agents.

Points of Superiority.

- 1. It is self-adjusting and will wash anything from a horse blanket to a linen handkerchief. 2. It works smooth and runs easy. 3. It washes with either warm or hot suds, as desired. 4. Read This.

Do not wait for personal convenience to see the Automatic Washer operate, but come at once and learn the profits that all agents derive from selling the machine. Work in this state has only just begun and ere long it will be introduced into every county in Pennsylvania. Enterprising business men are taking hold of it, as they realize that nothing else can touch it in the way of profit. I will be pleased to talk with any one desiring information in regard to the business of selling this machine.
