Alah School Bulletin. EDITORIAL STAFF. Editer-in-Chief-Harry C. Herpel, '00

Assistant Editor Clara Geisler, '00 Local Editor Lois Robinson, '00.

With this issue begins the second ear of the HIGH SCHOOL BULLETIN. May the present year be as prosperous as the preceding one. Judging from the number in favor of the publication. we can predict a successful year. The aim of the BULLETIN is to promote literary work among the students and to inform the patrons of what is being done. It will be necessary that all contribute. Some students think the editors are elected to write overything for the paper. Not so. Their business is to see the pupils about material for the BULLETIN. Hoping that no difficulty will be experienced in getting news, we enter upon our careers as editors of the BULLETIN.

MONEY.

The word "money" has been defined by a distinguished American economist as being "that which passes freely from hand to hand throughout the community in final discharge of debts and full payment for commodities." This is received equally without reference to the character or credit of the person who offers it and without the intention of the person receiving it to consume, to enjoy, or to use the same for any other purpose than in turn to tender it to others in discharge of debts or payment for commodities.

The first inhabitants of the earth were almost all shepherds and husbandmen; they, therefore, made their money standard to consist in a certain portion of their flocks, and when they wished to purchase any commodity it was said to be worth so many sheep or oxen. It was afterward thought more convenient to express the value of the commodities by bits of leather which by certain marks showed the number of beasts they were worth. This was the first money and the origin of all coins. Silver money was not used in Rome until 485 years after the building of that city, and gold was first coined in the year 547. Julius Caesar was the first whose head was stamped on money by order of the Roman senate. The use of paper as a money became, after some time, a necessity. It is evident that if the cheaper metals were used very extensively the sum required could be carried only in wagons or carts. Not only silver and gold were used for coinage, but other metals were also used. Iron has been employed as currency. Lead has also served as money, as it does at the present time in Burmah. Copper has been used more extensively than either lead or iron. Tin has not been so favorite a material for money as copper.

ing year are as follows: President, Ella Lenkord: Vice-Pres., Lydia Mellinger: Sec., Etta Shaffer: Treas., Florence Stone

The following officers were elected at the organization of the Shakespearean Literary Society last Friday: President, Etta Shaffer: Vice-President, Bertha Marshall; Secretary, Ella Lenkerd; Program Committee, Christine Brown and Ethel Winstow: Critics, Edna Myers, Katie King and Mollie McDonald: editor-in-chief, Harry Herpel: assistant editor, Clara Geisler; local editor, Lois Robinson.

Literary societies have been organized in all the up-stair rooms

The Juniors have started their Gen eral History work.

Emerickville.

Wm. Benninger and wife spent Sunday at Rathmel.

The festival held Saturday night by the ladies netted them about \$15.

James VanTassel, of Sigel, spent Sunday with his mother in this place. Mrs. Michael Mowery and daughter. Esther, were in Reynoldsville Saturday Geo. Rhoads and wife, of Knox town ship, spent Sunday with friends in this place

Prof. Hall and Miss Steel, of Baxter, were the guests of H. M. Mowery and wife Sunday.

Constable Rob't Stewart broke ground for his new dwelling on his farm on Monday of this week.

Rev. H. H. Hawk, pastor of the Church of God, preached his farewell sermon last Sabbath.

J. R. Keys, filer on a mill at Dunlo, Cambria county, is spending a few days with his family here.

Rev. C. J. Zetler and family, of Clayville, are visiting among relatives and friends the present week

Edward Eiler, of Pittsburg, and W. R. Meredith, of Punxsutawney, both lumber merchants, transacted business in town Friday.

Mr. and Mrs. O. F. Haines, Mrs. Eli Haines and daughter, Gertie, were at Oak Ridge last Wednesday attending the golden wedding of Mrs. Haines brother, Mr. Niece.

The following young people of this place, drove to Pansy last Sunday: Misses Esther Mowery, Cora Schugars, Lavina Hetrick, and Messrs, K. C. Schugars, Loe Boyle, Lyle Gourley, the latter from Reynoldsville.

Emanuel Bussard has soveral men at work prospecting for fire clay on Ben Swartz' farm and reports having found a good quality of clay. If the quantity proves to be such as will pay, preparations will be made at once for mining and shipping. This clay will have to The only other metals employed were be drawn about two miles to A. V. road. The following relatives of Mr. and

National Export Exposition

The National Export Exposition. which opens at Philadelphia on Sept. 14 and continues until Nov. 30, will be the most interesting and important event occurring in Philadelphia since the Centennial Exhibition of 1876. In addition to its valuable commercial exhibits it will present many features of popular interest and amusement. The United States Marine Band, Sousa's Band, the Banda Rossa, Innes' Band, Damrosch's Orchestra, and other cele brated hands will furnish music alternately, and a Midway Plaisance, equa if not superior to the famous World's Fair Midway at Chicago, and comprising a Chinese Village, a Chinese Thea ter, aerobats, and customs, an Orienta Village, London Ghost Show, Hagenbeck's Wild Animal Show, Blarney Castle, and many other unique presen tations, will furnish abundant and diversified amusement. Arrangements have also been made for Mandolin, Guitar and Banjo Concerts, and for a grand chorus from the German Singing Societies.

For this occasion the Pennsylvania

Railroad Company will sell excursion

tickets from all points on its line, to

Philadelphia and return, at rate of a

nickel and platinum. Among progressive people metals seem to supersede all other forms of money. It is necessary that any material used for money possess intrinsic value or represent some substance which does possess intrinsic value, that it be portable, that the material used can be divided and united again without destroying its value, and

that the substance be durable. The metals are durable, divisible and recognizable and are the only substances now used by advanced nations. It has been well said concerning the necessary qualities, of gold and silver as money materials, "that gold and silver alone are of small volume, of equal goodness, easy of transport, divisible without loss, easily guarded, and very durable."

The earliest systems of currency are hose of the Greek states. The Roman system was established after the Greek and is therefore much better known and understood. "PANSY."

[TO BE CONTINUED.]

LOCALS. The High School is in a deplorable condition in regard to athletics. Not

even enough boys for a football team. The Seniors unanimously give one of their number the title of "jester" since she said, "Let me play the fool."

Rooms No. 10 and 13 are open for inspection-there are no windows in the doors.

The political machine of the High School is the Senior class.

The Juniors and Subs have had the experience of remaining in their seats and watching the remainder of the school march out.

Miss Bertha Marshall spent Saturday last in Pittsburg.

Number of pupils absent during the week of Sept. 18-22 is 90, out of an enrollment of 669.

Number of pupils tardy during the last week, 13.

Monday and Thursday there were no tardy pupils.

The editor-in-chief made an atomizer for experiments in the Physic class. The Senior class officers for the ensu-

Mrs. Wm. Moore made them a very pleasant visit last Friday: James Lonton and wife, of Big Run, Mrs. Martin Hoover, of DuBois, Mrs. John Hoover. of West Liberty, Harry Owens and wife, of Eleanora, and Amos Owens of Kansas City. The latter is a nephew of Mr. and Mrs. Moore and had not seen them for 13 years.

This item explains how some of the people of this town spend the time. One week ago Saturday night communion service was held in one of the churches: the following Monday evening the lovers of dancing had a free-for-all hop; Friday night the hen house of Israel Clepfer was released of its finest poultry; Saturday night a festival and two fights and Sunday some were out gathering money for the preacher and the balance were gathering chestnuts, and the Lord only knows what will be next.

Rev. T. J. Baker, member of the Methodist Episcopal conference of Ohio, filled the pulpit in the M. E. church last Saturday morning. Rev. Baker was pastor of the Emerickville charge 34 years ago, coming here when this whole country was all a wilderness. He preached his first sermons in the little old log school house that stood in the hollow where Ben Reymer's barn now stands, and had but three members, Mr. and Mrs. James Moore and Mrs. Samuel Britton. After a short time a few more were gathered in and a church was erected, which is part of the present church. Rev. Baker spoke very nicely and told of the good oldfashioned meetings they used to have. Nearly all of his members have passed over into their Eternal Home.

Excursions to Pittsburg.

The Allegheny Valley R'y has an-nounced its excursion rates from points along the line, to Pittsburg on account of the Exposition at the latter place. They will be run on Wednesdays and will include the following dates: Sept. 13, 20 and 27. Oct. 4, 11 and 18. Tick-ets will be good four days returning, in-cluding date of issue, and include ad-mission to the Exposition. The rate will be \$4.00 from DiBois, Reynoldsville and intermediatestations and \$3.90 from Brookville.

sited in this place S J. F. Bowser had business west of Brookville Monday of this week. Samuel Brison and William Charlton were in Emerickville Sunday night. James Hodge, who has been on the sick list for some time, is improving and hopes to be among his friends soon. James Sneddon, of Glen Richey, has taken charge of the Peal store above town. Mr. Sneddon, who is a young man, has many friends here.

E. O. Dickey, David Sneddon, Frank How, John McPherson and George Kengle were at Falls Creek Friday attending the lecture given by Rev. Neff. Rev. O. H. Sibley, M. E. pastor here, preached his last sermon Sunday evening until after the annual conference, which meets at Jamestown, N. Y., today. Rev. F. B. Hawk, pastor of the Church of God, preached his last sermon the same evening until after the Eldership, which meets at New Brighton October 4th.

Ridgway Tannery Burned.

The Ridgway Star says the origin of the fire that destroyed the tannery at that place last Wednesday morning is unknown but the most plausible theory is that of spontaneous combustion. It is estimated that not more than eighty cords of bark were burned or destroyed. The leather in the vats is damaged somewhat, but the immense stock in the two drylofts and the brick warehouse, which were saved, is uninjured. The tannery was insured for \$60,000 and and the loss is estimated at from \$10,000 to \$15,000 more. The plant gave employment to about eighty hands and had a record of fewer shut downs than any similar establishment in this part of the country.

Pittsburg Exposition Excursion.

Commencing Wednesday, September 20th, and overy Wednesday until and including October 18th, the Buffalo, Rochester & Pittsburg Railway Co. will sell special low rate excurson tick-ets to Pittsburg and return, including admission to the Exposition, at rate of \$4,00. Tickets good returning on all trains until the Saturday following date of sale. Good Percale, Ladies Shirt Waist, 3 L Ribbed Vest, for Summer Silk, 44 14

N. HANAU.

SOME OF THE GOOD THINGS **ABOUT THE ELK**

PERFECT COMBUSTION OF GAS.

The construction of the ELK is so ar-ranged as to give perfect combustion, thus overcoming one of the greatest objections in the use of natural gas. If the ELK is connected with flue as we suggest and recommend, there never will be the slight-est fume of burnt gas.

EVEN DISTRIBUTION OF HEAT.

By a retention and concentration of the heat by means of pro-jections on the fire front, the cold air which is drawn from the floor as it passes through a chamber directly in the rear of the fire front, is heated and passes out at the top, thus creating a current. This re-sults in an even temperature, and the entire apartment is warmed instead of it being extremely hot directly in front of the heater and cold elsewhere in the room, as is the case in the use of most gas heaters.

CUTS THE GAS BILL DOWN ABOUT ONE-HALF.

One of the strong points in favor of the ELK heater is in the economy of gas consumption by its use. One No. 3 will comfortably heat a double parlor connected with folding doors, with less than half the consumption of gas of two old-style heaters, giving heat by direct radiation with imperfect combustion.
