## New B., R. & P. Schedule.

The new schedule introduced by the B., R. & P. R'y Sunday reduces the number of passenger trains in and out this place, and does not give our people the accommodation they formerly had for traveling north over the B., R. & P. The train for Pittsburg leaves here now at 7.00 s. m. The train arriving here at 10.50 a. m. and the one leaving at 12.45 p. m. have been taken off. A train arrives here at 1.20 p.m. and leaves at 4.40 p. m., and the Pittsburg train arrives at 9.48 p. m. The 1.20 p. m. train leaves Falls Creek after the flyer from Pittsburg arrives there. Under this new schedule the B., R. & P. train at noon is scheduled to leave Falls Creek at 12.57, about twenty minutes before the A. V. R'y noon train arrives at Falls Creek, thus making it impossible for our people to travel north on the noon train over the B., R. & P. If people want to travel to Pittsburg on the B., R. & P. vestibuled train that leaves Falls Creek at 2.31 p.m., they will have to go to Falls Creek on the

A. V. R'y noon train, 1.00 p. m., arriving at Pittsburg at 6.30 p. m. This train will hardly catch many Reynoldsville people, for they can remain at home a half hour longer and arrive at Pittsburg an hour earlier by leaving here on the A. V. R'y train at 1.38 p.m.

## Good Lecture.

Rev. B. H. Hart, of Jersey Shore, delivered a lecture in the M. E. church Friday evening on "The Good Samaritan" to a good sized audience. Rev. Hart is a pleasant talker and he held the undivided attention of his hearers from his appearance in the pulpit to the close of his discourse. His remarks on the descendants of the characters represented in the parable of the good Samaritan, whom he showed to be in existence at the present time, were very pointed. Taken as a whole the lecture was intensely interesting and was of the kind that inspires men to better and nobler deeds. Rev. Hart is a prominent Methodist Episcopal minister of the Central Pennsylvania Conference, as well as a popular lecturer, and the Order of Odd Fellows, under whose auspices he appeared at this place, take great pride in his success, he with five brothers and sisters, at an early age, upon the death of their father, having been taken care of and educated by the above order.

# **KEEPING UP WITH PROCESSION !**

Street Cars-Electric Lights-Glass Plant -Board of Trade to be Resuscitated.

It is a settled fact that Reynoldsville will have an electric street car line next year and that our town will be illuminated with electric lights about the time the year 1900 makes its appearance. and there is a scheme being worked now which is pretty sure to land a glass plant at Reynoldsville within one year, and perhaps a brick plant also.

E. A. Ferrin, the gentleman who has completed arrangements for the proposed electric railway, appeared before council Wednesday evening of last week and made application for the right of way for an electric light plant in this borough. It was granted and our borough "dads" wisely decided to take a number of arc lights to illuminate our town. This was the proper step for council to take. True, there may be some opposition, but the town cannot afford to be in darkness. If we would be a live town we must keep up-to-date. These things may increase the taxes a little, but property in a town that keeps up with the times is worth more money and will sell to better advantage than it will in a town that will not attract ne people

The town council of West Reynoldsville also granted Mr. Ferrin right of way for electric lights in that borough. There is no doubt but that the coun-cil will take several arc lights for their borough, notwithstanding the fact that at a citizens' meeting Monday evening Pa., three weeks, returned to this place the majority of those present were not in favor of lighting the streets of that borough with electricity. After the lights have been in one year, the people would object very much to having them last week. ion county, is clerking in Bing & Co.'s dry goods store. taken out.

team of their age.
