

"He That Any Good Would Win"

Should have good health. Pure, rich blood is the first requisite. Hood's Sarsaparilla, by giving good blood and good health, has helped many a man to success, besides giving strength and courage to women who, before taking it, could not even see any good in life to win.

Hood's Sarsaparilla

Never Disappoints

I use Pilo's Cure for Consumption both in my family and practice. Dr. G. W. FARRIS, Inkster, Mich., Nov. 5, 1894.

Fits permanently cured. No fits or nervousness after first day's use of Dr. King's Great Nerve Restorer. 23 trial bottles and treatise free. Dr. R. H. KLINE, Ltd., 331 Arch St., Phila., Pa.

Ten Weeks for 10 Cents.

That big family paper, THE ILLUSTRATED WEEKLY, of Denver, Col., (founded 1890) will be sent ten weeks on trial for 10¢ clubs of 4, 5¢ for 2. Special offer solely to introduce it. Latest interesting news and illustrations of scenery, true stories of love and adventure. Address as above and mention this paper. Stamps taken.

Beware of Ointments for Catarrh That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75¢ per bottle. Hall's Family Pills are the best.

Tastes Differed.

In his entertaining biography of Lord Houghton, Sir T. Weymes Reid tells how when Carlyle paid his first visit to Fryson, Mr. Milnes (Lord Houghton's father), on hearing his guest express admiration of the prospect from the hall, pointed out the tall chimney of some manufactory on the far horizon and expressed his regret that it should recently have been erected and spoiled the rustic character of the view. "Spoiled the view!" said Carlyle, "why, sir, I think that is just the pleasantest feature in the whole bit of scenery. It shows us that somebody is doing something in this part of the world at any rate."

Like Finding Money.

The use of the Endless Chain Starch Book in the purchase of "Red Cross" and "Hubinger's Best" starch, makes it just like finding money. Why, for only 50 you are enabled to get one large 10¢ package of "Red Cross" starch, one large 10¢ package of "Hubinger's Best" starch, with the premiums, two Shakespeare panels, printed in twelve beautiful colors, or one Twentieth Century Girl Calendar, embossed in gold. Ask your grocer for this starch and obtain the beautiful Christmas presents free.

His Record Saved Him from Punishment.

H. B. Ford was a member of company B, Idaho volunteers, which recently got home from the Philippines, with a splendid record of hard fighting to their credit. Ford went to Spokane after the regiment was discharged. There he was recognized as an escaped convict by Sheriff Tucker of Yakima county, whom Ford, then going under the name of Feamster, attempted to shoot several years ago. For the crime he was arrested at the time and sentenced to ten years in the penitentiary. He escaped from jail while his case was pending on an appeal and volunteered for service in the Philippines. When the sheriff heard his story he offered to ask for his permanent discharge, and the Superior court has just suspended his sentence indefinitely.

Too Small.

Uncle Zeke's Watson was accustomed to seeing good-sized squares of cupcake, "election cake or gingerbread on the super table, and when he had his first plate of ice cream in a city restaurant he looked with some disfavor upon the macaroons and small sponge drops which accompanied it. "How do you like it?" asked his niece, who was doing the honors of the city for her uncle. "The ice cream is first rate," said Uncle Zeke. "I call it extra good; but when you come to these things," he added, lifting one of the sponge "lady fingers" and surveying it doubtfully. "I presume to say they're all right enough, what there is of 'em, but there isn't enough of 'em—just nothing but game and swallow!"

[LETTER TO MRS. PINKHAM NO. 94,198]

"I am so grateful to you for what Lydia E. Pinkham's Vegetable Compound has done for me that I feel as though I must tell about it. A year ago I was taken very sick. Doctors could do me no good only to deaden the pain which I had almost constantly. I got some of your Compound and took one bottle and received benefit from it at once. I have taken it ever since and now have no headache, no pain in my side and my stomach and bowels are perfectly well. I can honestly say that there is nothing like it. If I could only tell every woman how much good your medicine has done me, they would surely try it."—MARTHA M. KING, NORTH ATTLEBORO, MASS.

The way women trifle with health shows a degree of indifference that is past understanding. Happiness and usefulness depend on physical health; so does a good disposition. Disease makes women nervous, irritable and snappish. The very effort of ailing women to be good-natured makes them nervous. Write to Mrs. Pinkham, she will help you to health and happiness. It costs nothing to get Mrs. Pinkham's advice. Her address is Lynn, Mass.

Women Would Surely Try Mrs. Pinkham's Medicine if They Only Knew, Says Mrs. King

We believe the small hand separators can be profitably used where there are a half dozen good cows, and if all who have even a dozen would do their separating at home, the factory would have little difficulty in handling the rest, and separating "while you wait." Let them make a price on cream which will induce the farmers to do their own skimming or separating, and much of the trouble with fowl cans giving unpleasant odors and flavors to the cream would be avoided. —Farm, Field and Fireside.

Keep Away Snow and Rain.

To protect shingles from the weather a Nebraskan has patented a metallic covering of proper shape to fit under the lower edge of the shingle and extend upward under the next course, thus preventing snow and water from coming in contact with the wood.

FARM TOPICS

Cows For All Purposes.

A cow that is good alike for milk, for making butter and for beef is probably not good for much in either of these directions. She is like some men who are Jack-at-all-trades and good at none. Each of the dairy breeds has had its own special excellency for some purpose developed by breeding and care. It can easily beat in its own department any cow that has been carelessly bred. The herd of pure breeds is especially valuable to any farmer who wishes to improve his stock. Its propensities will stamp its own excellences on the progeny secured by breeding cows to males of the breed that is known to possess them.

Carrying Eggs Safely.

When a basket of eggs is to be carried over a rough road, either the horse must be made to walk all the way, or broken eggs be carried back. Saw off the bottom of an empty grocery

CARRIER FOR EGG CASES.

box and mount it above its cover by four small springs from the upholsterer's, or from a worn-out chair or couch. Set the basket of eggs in this, and it will ride safely over rough roads with the horse at a trot.

Sheep Shelter.

One of the advantages in keeping sheep is that they do not need an expensive building as a shelter. A shed open on one side suits them as well as a tight barn, and even better, as they require considerable ventilation. But it should be so arranged that both rain and snow can be kept out of it, for the sheep should not get their fleeces wet in cold weather. It takes too long to get it dry again, and the whole body gets chilled, reducing vitality, even if they do not take colds to set them coughing and running at the nose. Nor should water be allowed to run into the shed from outside. A sheep will not lie down in the mud or wet straw. Keep the inside of the shed dry and well littered with clean straw and the sheep will be healthy and thrive well, even on moderate feed.

Begin With a Small Flock.

It requires a year's experience to know where the mistakes are made, and if one can learn how to avoid them, one-half of the difficulty will have been overcome. The greatest mistake is in undertaking the business with too many hens. The proper mode is to commence with a small flock, breed for the kinds preferred and gradually increase until the desired number has been secured. A breeder who had but little experience when he began procured several hundred hens with which to commence, but nearly two-thirds of them died with disease. He regards the disease as the most fortunate thing that happened, as he found out how to avoid mistakes that he had made, and the result is that he has since made his flocks pay him well. Drawbacks are discouraging, but they are sometimes blessings in disguise. —Poultry Keeper.

Keep the Skim milk on the Farm.

We do not believe in the policy of keeping large herds of hogs at the creamery or near it to use up the skim milk and buttermilk. The creamery help should have enough to do without looking after another separate business. Few men can take proper care of as large a lot of hogs as would be necessary to use so much milk in an economical manner, for hogs need grain along with the milk to give best results in fattening, and to keep so many hogs in one place is to invite disease among them, or to provide facilities for a wholesale loss if it once gets there. Few men would keep the pigery and yards so clean that they would not taint the air for a mile away at some seasons of the year, and when the wind blew from the pigery toward the creamery the flavor of the butter would not be improved by it.

But there are other reasons. The farmer needs the skim milk upon his farm. When he sells only the butter fat he is not robbing the farm of its fertility as he would be in selling the whole milk. He can raise calves to replenish or increase his dairy with the progeny of his best cows. He can fatten his own pork. He can, if he wishes, return the skim milk back to the cows to increase their production. Either the farmer should have a separator and take out his skim milk to be left at home and used while sweet, lightening the load he has to carry over the road, or the creamery should be prepared to separate each lot as quickly as received, and return the skim milk to him while it is yet sweet.

We believe the small hand separators can be profitably used where there are a half dozen good cows, and if all who have even a dozen would do their separating at home, the factory would have little difficulty in handling the rest, and separating "while you wait." Let them make a price on cream which will induce the farmers to do their own skimming or separating, and much of the trouble with fowl cans giving unpleasant odors and flavors to the cream would be avoided. —Farm, Field and Fireside.

To protect shingles from the weather a Nebraskan has patented a metallic covering of proper shape to fit under the lower edge of the shingle and extend upward under the next course, thus preventing snow and water from coming in contact with the wood.

Ayer's PILLS

Look at your tongue! If it's coated, your stomach is bad, your liver out of order. Ayer's Pills will clean your tongue, cure your dyspepsia, make your liver right. Easy to take, easy to operate. 25c. All druggists.

Want your complexion or beard a beautiful brown or rich black? Then use the BUCKINGHAM'S DYE for Whiskers.

Member of the Family.

Omaha World-Herald: Papa Gruff—"That young Softleigh asked me for your hand today." Ethel Gruff—"And what did you say to him, papa, dear?" Papa Gruff—"I told him your mother needed 'em both in the dishwasher, but compromised by giving him my foot."

Save the Nickels.

From saving, comes having. Ask your grocer how you can save 10¢ by investing 5¢. He can tell you just how you can get one large 10¢ package of "Red Cross" starch, one large 10¢ package of "Hubinger's Best" starch, with the premiums, two beautiful Shakespeare panels, printed in twelve beautiful colors, or one Twentieth Century Girl Calendar, all for 5¢. Ask your grocer for this starch and obtain these beautiful Christmas presents free.

Crushed Him.

Indianapolis Journal: The Shoe Clerk—Beg your pardon, madam, but it is a number five shoe you want, instead of a number three. She—Number five! You must be thinking of the size of your hat.

How Are Your Kidneys?

Dr. Hobbs' Serranus Pills cure all kidney ills. Sample free. Add. Sterling Remedy Co., Chicago or N. Y.

According to a German journal, more than 3 per cent. of all seafaring men are afflicted with rheumatism.

An energetic temperament and active habits conduce to longevity.

To Cure Constipation Forever.

Take Cascarets, Candy Cathartic, 10c or 50c. If C. C. C. fail to cure, druggist refund money.

The controversy about dressing for dinner at hotels appears to have spread to Switzerland, but those who favor it are not in the least likely to carry the day. Whatever English people may do, German travelers, who regard their 1 o'clock meal as dinner and everything else as a secondary matter, neither wear dress clothes nor carry them about.

The Baltimore & Ohio lines west of the Ohio River present a very busy appearance these days, as there is scarcely a ten-mile stretch without a bridge or a construction gang at work. There are still a few of the 33 bridges purchased last January to be erected, and almost all of the 20,000 tons of 35 pound rails have been laid.

At several points between Bellairs and Newark, O., sidings of 100 car capacity are being constructed, and between Newark and Chicago Junction thousands of men are working on extensive grade reductions, some of the cuts and fills being two miles in length.

Between Chicago Junction and Chicago nearly a score of passing sidings are being constructed and work on these is being pushed with unusual haste, in order to complete them for the heavy winter traffic. The sidings are being built with a view of a double track some time in the future. They are to be long enough in most cases to hold three 50 car trains. The new east bound yard at Garrett, Ind., is ready for the rails, and will be completed by the middle of November.

In one corner of the melting rooms at the New Orleans mint is a large iron tank in which the newly-cast silver bars are dropped, heating to cool off. At the end of a hard day's work the surface of the water shows a faint rainbow-hued seam, like the metallic luster of stagnant pools, seen near a dye house. It comes in part from microscopic flakes of silver that have scaled off in cooling.

IRON MILLS CATCHING UP WITH ORDERS AND THERE IS A SLIGHT REDUCTION IN PRICES.

E. G. Dun & Co.'s weekly review of trade reports as follows for last week: The signs of shrinkage in the new demand for iron and steel products become more clear, and while prices of pig are maintained without change, OAKS is quoted lower, only because premiums for earlier deliveries are no longer paid, plates are quoted lower at the East, with some small mills selling at 2 1/2 cents at Pittsburgh, and sheets are sold by some works there at 2 1/2 to 2 1/4 less than the regular price. The strength of bars at the West is largely due to the great demand for cars, of which it is said that 1,900 per day are ordered, but at the East prices are a shade lower. A new demand does not make up for the rapid completion of old orders in some lines, so that competition of works weakens prices.

In minor metals the collapse of London speculation depressed tin to 26 cents on Wednesday, but subsequently an advance of 2 1/4 per ton in the foreign market brought the New York price up to 28 cents. A sale of copper by the Calumet & Hecla, said to be 20,000 pounds, lowered the price to 17 cents. Spelter is weak at 4 1/2 cents, with lead and tin prices unchanged.

Shipments of boots and shoes fall off, and yet are larger than in any previous year, for the first two weeks of November 183,231 cases, against 162,709 in 1897, and 146,972 in 1894, and less in all other years. Advances asked especially since the recent rise in leather, have prevented much buying, though many works still have business ahead for some time.

Textile manufacturers are doing well, though in woolsens the speculation in material threatens to cause some embarrassment. Sales of wool were again heavy, 21,642,311 pounds at the three chief markets, making in two weeks 48,281,341 pounds, against 17,437,100 pounds last year, when the mills were well employed. Clearly a large share of the transactions has been for speculation, but the mills have been buying also, especially those recently started after long idleness. Prices are also a shade stronger for fine washed eastern fleeces, and for fine and medium delaine, so that the entire list averages about an eighth of a cent higher. Wanted goods are in good demand and have been advanced in price with some flannels. Carpets also have been active, with prices advanced 5 per cent for the season. Cotton goods continue to advance, with a strong demand, and with belief in a short crop, so that some have been for the time entirely withdrawn from the market by the mills, while bleached were advanced to the highest quotation for four years.

Wheat declined a fraction, but fully recovered, although Atlantic exports were only 2,976,552 bushels, four included, against 3,968,768 bushels for the same week last year, and Pacific exports 730,793 bushels, against 1,588,063 bushels last year. The course of the market is the more noteworthy because western receipts are much reduced, being only 5,897,867 bushels, against 19,377,311 bushels last year. Corn declined a fraction, with heavier exports than last year and smaller receipts.

Failures for the week 219 in the United States, against 223 last year, and 29 in Canada, against 26 last year.

Placed Dynamite Under the House.

Fred O'Brien, of Janesville, Wis., a few days ago placed a ten-pound stick of dynamite beneath his wife's bedroom. A terrific explosion followed, partly wrecking the house, which is a one-story building. In the two small bedrooms and Mrs. O'Brien and two small children and Mrs. Fred O'Brien and child.

O'Brien's act is attributed to his wife's refusal to live with him.

One of the trials of those interested in the culture of flowers is the presence of destructive insects. Persons who have been discouraged by the trouble and often lack of success attending the use of insecticides will find the following simple and easily prepared wash entirely effective. It is the recipe of Mr. Eben E. Rexford, an authority of national reputation.

Shave a quarter of a pound of Ivory Soap in water sufficient to cover it and dissolve upon the stove, then add five gallons of warm water. Spray this solution upon the plants with a florist's syringe, or if they are small dip them bodily into it. In either case, be sure to reach every part. Let them stand half an hour and then rinse with clear water.

COPYRIGHT 1898 BY THE PROCTOR & GAMBLE CO., CINCINNATI

According to Dr. Schiering, there were only 950 cases of tuberculosis last year in a force of 514,830 men. The number of deaths from this disease in the army has been gradually decreasing from 42 per thousand in 1892 to 34 per thousand in 1897.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic, clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

Contagious diseases kill 240,000 people in France yearly.

Educate Your Bowels With Cascarets.

Candy Cathartic, cure constipation forever. 10c, 25c. H. C. C. C. fail, druggist refund money.

SHE WAS A BRAVE GIRL.

Kept Her Presence of Mind When Attacked by an Alligator.

Some days ago a little girl, a daughter of Mrs. Fields, living on Lake Gibson, near Lakeland, Fla., jumped off the wharf on the lake to take a swim. She is an expert swimmer, but had hardly touched the water before she was seized by the leg, between the knee and ankle, by an alligator. She was pulled under the water by the saurian, but managed to break away and started hastily toward the shore, only a few yards distant. The 'gator again came to the attack, this time seizing her in the fleshy part of the side, between the ribs and hip. The little one was plucky, however, and managed to again break away from the cruel jaws, this time reaching the shore, the 'gator following until she was on dry land; then he disappeared from view. The girl never lost her presence of mind, which probably was the reason of her escaping alive. She gives a very graphic description of the dangerous encounter, and has two very ugly wounds to vouch for her story. She says she could not see the entire length of the beast, but from what she could see would judge it to have been only about five feet long—a small 'gator to attack a person. The girl is 14 years of age.—Baltimore Sun.

Not Exactly a Failure.

Mrs. Gotham—So your marriage was a failure? Mr. Lakeside—Yes, but I'm the preferred creditor. All my husband's property is in my name.—Town Topics.

DR. BULL'S COUGH SYRUP

Cures a Cough or Cold at once, Conquers Croup without fail. Is the best for Bronchitis, Grippe, Hoarseness, Whooping-Cough, and for the cure of Consumption. Mothers praise it. Doctors prescribe it. Small doses; quick, sure results.

FOR ALL LUNG TROUBLE

RAILWAY MAIL.

Positions pay \$80 to \$100 a year. We pay successfully for all examinations. Rates low. Send for full particulars to CIVIL SERVICE SCHOOL, Lebanon, Pa.

CARTER'S INK

Has a good deep color and does not strain the eyes.

DROPSY NEW DISCOVERY.

Quick relief and cures without cost. Box of testimonials and 10 days' treatment free. Dr. H. K. GEE, 2108, Bar 2, Atlanta, Ga.

HOLIDAY GIFTS FOR ALL.

The first five persons procuring the Endless Chain Starch Book from their grocer will each obtain one large 10¢ package of "Red Cross" Starch, one large 10¢ package of "Hubinger's Best" Starch, two Shakespeare panels, printed in twelve beautiful colors, as natural as life, or one Twentieth Century Girl Calendar, the finest of its kind ever printed, all absolutely free. All others procuring the Endless Chain Starch Book, will obtain from their grocer the above goods for 5¢. "Red Cross" Laundry Starch is something entirely new, and is without doubt the greatest invention of the Twentieth Century. It has no equal, and surpasses all others. It has won for itself praise from all parts of the United States. It has superseded everything heretofore used or known to science in the laundry art. It is made from wheat, rice and corn, and chemically prepared upon scientific principles by J. C. Hubinger, Keokuk, Iowa, an expert in the laundry profession, who has had twenty-five years' practical experience in fancy laundering, and who was the first successful and original inventor of all fine grades of starch in the United States. Ask your grocer for the Starch and obtain these beautiful Christmas presents free.

One of the English correspondents in France has heard it said that 29,000 of the best families in France are divided over the Dreyfus affair as bitterly and completely as only a legacy of no matter how few pounds, or a religious dispute can divide blood relations.
