FIFTY-SIXTH CONGRESS Senate.

TWENTY-NINTH DAY. When the Senate finance committee met to-day Senator Aldrich, chairman, offered an amendment declaring for international agreement for the recogni-tion of bimetallism. The Republican members manifested no surprise, and the Democrats received the amendment with a sarcastic smile. There was but little discussion.

Senator Penrose introduced a bill to extend the provisions of the pension laws to the officers and members of the militia during the civil war who served during emergencies, but were never en-listed in the regular service, and to their widows and children. The secretary of the navy has sent to

The secretary of the navy has sent to Congress a deficiency estimate of \$3,8,-300 to meet increase expenditures inci-dent to the establishment of naval sta-tions outside of the United States. THIRTY-FIRST DAY. In the Senate discussion of the finan-cial bill occupied the session. Mr. Allen, Populist, Nebrasha, charged the Repub-lican party with breaking faith with the people on bimetallism and systematic-ally discrediting the work of the in-ternational bimetallic commission. Mr. Cockrefl, Democrat, Missouri, contend-ed that the bill contained the initial movement toward the perpetuation of the National deb. The House received the reports from

The new istimum catal freaty with Great Britain was taken up by the Sen-ate committee on foreign relations. Senator Penrose introduced a bill au-thorizing the publication of the pro-ceedings of the G. A. R. encampments as a government document and provid-ing for their distribution among the various G. A. R. bets. The Senator also introduced the bill to authorize the Lake Eric and Ohio river ship canal, that was introduced in the House by Representative Dalzell. The Senator also presented the resolutions of the Pittsburg chamber of commerce urg-ently praying for the necessary legisla-tion for the canal, and inclosing the re-ports made by its hoard of engineers in 1896 on the subject. Representative McClellan, of New York, introduced a bill for the acquire-ment of the Eric canal by the United States government and its enlargement to a capacity sufficient for the largest vessels of war, at a cost not exceeding \$75,000,000.

vessels of war, at a cost not exceeding \$75,000,000.

Representative Acheson introduced in the House a bill appropriating \$2.000,-000 for the extension of rural free de-livery of mail service, THIRTY-SECOND DAY.

There was a scene during to-night's session of the House which recalled the exciting days of the Fifty-first Con-gress. An irate member rushed down the main aisle, brandishing his arms and the main assic, orandishing his arms and shouting for recognition, while half the Democratic members were execrating the occupant of the chair for what they termed his arbitrary course, and from several places in the hall came loud

As no Senator was prepared to pro-ceed with a discussion of the finance measure, the Senate transacted only routine business, and adjourned early to enable members to attend the obsequies of Gen. Lawton. In the absence of Mr. Turley the Quay case was not taken up though Mr. Chandler was anxious to

viding that the fixed policy of the Uni-ted States is to pay off the national debt as rapidly as possible; that the specie basis, consisting of gold or silver or both, is the only true basis of bank bills, and that it is unjust to change the present financial system.

The House committee on war claims reported favorably Representative Dal-zell's bill to reimburse the common-wealth of Pennsylvania for expenses in-curred during the civil war in equipping troops. The amount of the claim \$46,345, with interest.

The House Committee on Claims favorably reported the Cooper bill for the payment of the Southern cotton claims. The bill involves an expenditure of \$10, Representative Graham introduced

by request, the most drastic naturaliza-tion bill that has made its appearance for years. It was sent to him by John H. Stephenson, of Allegheny.

The Pepperton Cotton Mills of Jack-son, Ga., will add about 7,300 spindles and 200 looms, which will give it a to-tol equipment of 12,300 spindles and 300 looms. The new machinery will cost about \$00,000. The company produces four-yard sheetings. Thomas Rodd, chief engineer of the Pennsylvania Company and consulting engineer for the Westinghouse interests, has gone to Europe with the plans for the great new plant of the British West-inghouse Company, at Manchester, England. Mr. Rodd expects to be gone six weeks, and in that time it is gone six weeks, and in that time it is probable that bids for the work will be asked for from Pittsburg contractors. A contract for a \$500,000 re-equipment of a street railway is already in the

hands of the company. The Limestone Manufacturing Co., of Gaffney, S. C., will build a cotton fac-tory, capitalized at \$100,000. The equipment has not been decided upon yet. The city council of Roanoke, Va., has extended the period of the exemption

Ostrich Spolled IT's Speech. Anybody who heard Senator Allen of Nebraska, deliver his famous fifteen-hour speech against the bill for the repeal of the Sherman silver bill would hardly believe that anything coud stump him. Yet there is an experience in the senator's life which shows that, after all, he is like unto other mortals, says the Washington Post. "I was campaigning in my state once," said the senator, "when I had occasion to speak at a fair grounds. The grand stand was full, and the occasion seemed to be full of promise for an orator overflowing as was with political gospel. Just as I had commenced a man brought out an ostrich hitched to a sulky. I don't know whether you ever saw the trot ting ostrich in the east, but out west he was a great attraction. Well, as soon as that bird began to run around the track I wasn't in it. The ostrich monopolized the attention of every man, woman and child. When the bird stopped the people listened to me, but when he threw out his long legs again there was a roar of laughter and applause which drowned every word I uttered. Finally, I gave it up. I let the trotting ostrich have everything his own way."

And light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions of Women

Use CUTICURA SOAP exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and healing, red, rough, and sore hands, in the form of baths for annoying irritations and chaflags, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odors. No other medicated soap ever, compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the tollet, bath, and nursery. Thus it combines, in ONE SOAP at ONE PRICE, viz., TWENTY-FIVE CENTS, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world. All that has been said of CUTICUSA SOAP may be said with even greater emphasis of CUTICUBA Ointment, the most delicate, and yet most effective of emolients, and greatest of skin cures. Its use in connection with CUTICUBA SOAF (as per directions around each package), in the "ONE NIGHT CUBE FOR SOAE HANDS," in the "INSTANT RELIEF TREATMENT FOR DISTICUBING ITCUBAS AND INERITATIONS," and in many uses too numerous to mention, is sufficient to prove its superiority over all other preparations for the skin.
