Are Cured by Hood's Sarsaparilla

It Purifies the Blood.

Cures All Eruptions.

Eradicates Scrofula.

"I was troubled with blotches on my face, and began taking Hood's Sarsaparilla. After taking one bottle I was entirely cured." Miss E. H. MERRILL, Clarkburg, Mass.

"My brother had a humor in his blood which broke out in frightful sores. He began taking Hood's Sarsaparilla and it cured. I take Hood's as my spring tonic." Mrs. M. S. SPAN, Fairville, N. Y.

A Counter Proposition.

A Memphis young lady who is very fond of her sister's little child, a boy of 2 or 3 years, who is visiting her now, was trying yesterday to get him to let her "fix him up" to have his photograph taken. She got her curling tongs and was trying to coax him to let her curl his hair. But with true boyish disgust at the idea of having his hair treated like a girl's, he refused to submit to the process. She insisted, however, and offered him every kind of bribe, but in every instance he refused to allow her to do what she wished, and finally, becoming tired of her attempt to get him to submit, he sat down, crossed his legs, and looked up at her "slyly" and said: "Auntie, I tell you what I'll do. I won't take a dollar to let you curl my hair, but I'll give you a dollar if you just go away and let my hair alone."—Memphis Scimitar.

Try Grain-O!

Ask your Grocer to-day to show you a package of GRAIN-O, the new food drink that takes the place of coffee.

The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. At the price of coffee, 15 cents and 25 cents per package. Sold by all grocers.

Tastes like Coffee. Looks like Coffee. Insist that your grocer gives you GRAIN-O. Accept no imitation.

FIFTY-SIXTH CONGRESS, Senate.

FORTY-SECOND DAY.

The day was devoted to discussion of the constitutional question of tariff laws for Puerto Rico by both Senate and House. President Pro. Tem. Frye laid before the Senate the following telegram addressed to him from Camara Commercial at San Juan de Puerto Rico: "Commissioned by people Puerto Rico, attending celebration commemoration anniversary birth Washington, request that for humanity sake a solution be adopted, economic problems. Every day represents considerable loss, leading to total ruin."

Representative Richardson of Tennessee, introduced joint resolutions in the House against the steel trust and against trusts in barbed wire, wire nails, etc. in the form similar to those introduced by him against the sugar and paper trusts.

Forty-third Day.

Throughout the session the Senate had under consideration the Hawaiian government bill. The discussion took a wide range, but the basis of it was an amendment offered by Mr. Platt (Conn.) as to the appointment of tenure of office of the judges of the Hawaiian courts.

A new bill to establish the University of the United States was introduced by Senator Chauncey M. Depew.

Forty-fourth Day.

After a series of conferences among the Republicans of the House the last of which adjourned at 11 p. m., an agreement was reached on the subject of the Puerto Rican tariff. Messrs. Payne and Dabell were obliged to make some very radical concessions, and the assurance is given that the modified bill, if passed, will be approved by the President. The compromise reduces the proposed rate of duty of goods exported to the United States from 25 to 15 per cent. of the American tariff, and limits the operation of the act to two years.

Formal discussion of the right of ex-Senator Quay to a seat in the Senate was begun.

In the Senate Senator Sewell reported favorably a bill to pay James Young, of Middleton, Pa., \$10,383.80 for use of his farm by the volunteer troops at Camp Meade during the Spanish-American war.

Forty-fifth Day.

When the Quay case was called up in the Senate Mr. Turley, Democrat, Tennessee, resumed his speech against seating the Pennsylvania claimant. He was maintaining that the framers of the constitution intended that the Legislature and not the governor should name the senators, except in certain circumstances presented clearly by the constitution.

Mr. Depew addressed the Senate on the Philippine question. He strongly upheld the policy of the administration, and, in conclusion, pictured so brilliant commerce and civilization moving hand in hand for the happiness and uplifting of the people of the Philippines, as well as those of this country, that the galleries were swept by a storm of applause.

Forty-sixth Day.

The struggle over the Puerto Rican tariff bill ended in the House in a sweeping victory for the Republicans. The bill, amended as agreed upon at the conference of Republicans on Monday night, so as to reduce the tariff from 25 to 15 per cent. of the American tariff, and limiting its life to two years, was passed by a vote of 172 yeas to 161 nays.

Adulteration of food and drink was the subject of a report submitted by the Senate committee on manufactures. The committee announced its purpose to adopt this uniform rule: "To prohibit the sale of deleterious and unhealthy food products, and as to those food products which are simply cheapened by adulterations, to compel the marking of those goods for what they are."

Forty-seventh Day.

The Senate committee on Pacific islands and Puerto Rico, to which the House Puerto Rican tariff bill was referred, acted very promptly and substituted for it the foraker bill for the civil government of the island, amended by reducing the rate of duty therein provided to 15 per cent. instead of 25, thus making it conform to the House bill.

Representative Sherman, of New York, from the House committee on commerce, has presented a favorable report on Representative Lacey's bill to prohibit the interstate transportation of game killed in violation of local laws.

Forty-eighth Day.

An hour and a half of the session was devoted by the Senate to consideration of the Quay case. Mr. Hoar presenting a constitutional argument in favor of seating Mr. Quay on the ground mainly that it was the intention of the framers of the constitution that the Senate at all times should have its full quota of members.

Within two hours after a special message from the President recommending the immediate passage of a bill to place in his hands all the moneys collected upon Puerto Rican goods since the Spanish evacuation of the island, to be used for the relief of the Puerto Ricans, had been read to the House, the House had passed and sent to the Senate a bill to carry out the recommendation.

Usually with long-lived folk the trunk is long and the legs short in proportion. The habit of deep, slow breathing also belongs to this section of the human race. A calm nature is necessary, too, for a person always in a flutter either with rage or joy wears himself out.

REVIEW OF TRADE.

Business Healthy—Stormy Weather Somewhat Delays Spring Trade—Iron and Steel Booming.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Besides the 881 commercial failures for \$9,931,048, which were reported to-day, there were in February six banking failures for \$620,241 and receivers were appointed for the United States Milling Co., with \$25,000,000 of stock and \$15,000,000 of bonds authorized at its organization last April, and for the Third Avenue Railroad Company. Unless separated from such events, commercial failures could not be compared with benefit. The manufacturing failures for \$4,257,638 were larger than in February of 1896 or 1895, but more than half the amount was in two classes, four large lumber and one clothing failure making 38 per cent. of the whole. The trading failures were larger than in February of last year only, but 20 per cent. of these defaults were made in five failures. In most branches the comparison with previous years is encouraging and analysis brings out in strong light the remarkably low average of liabilities in the smaller failures, which constitute the great majority, indicating sound business conditions and unusually satisfactory collections. The small rise in wheat last week, although the price is quite low, sufficed to call from the farms such receipts, 4,105,661 bushels against 3,195,437 last year, as to indicate that supplies are not nearly exhausted. Exports from Atlantic ports continue small, for the week, flour included, only 1,812,366 bushels against 4,069,984 last year, and in four weeks from both coasts exports have been 11,639,260 against 14,823,373 bushels. Though exports run behind last year's, which were almost unequalled, they have already exceeded in eight months those of most full years and the exports of corn, in four weeks, 12,724,645 bushels against 12,051,053 last year, explain much of the difficulty, corn rising 3/4 of a cent during the week, while wheat declined 1/4 cents. The iron and steel industry continues the greatest weekly output ever known, even while men speak of it as waiting for more definite assurance about the future. Prices of pig yield a little, some sales of Bessemer having been made at Pittsburgh for \$24, and Anthracite No. 1 is quoted here at \$23.50. Billets have been sold at \$33 at Pittsburgh. For most finished products prices are stronger than a week ago, or as strong, bars and sheets being strengthened by large business, while only plates appear weaker, 2.10 being quoted for sizes not the widest. Coke is scarce and higher in spite of the largest output ever known. Failures for the week have been 222 in the United States, against 186 last year, and 28 in Canada, against 47 last year.

Out of 175 school children at Hazel Dell, Lawrence county, 80 have measles.

Ambushed the Filipinos.

Col. Anderson with the Thirty-eighth infantry, employing the insurgents' own tactics, has ambushed the enemy near Batangas. Through spies Col. Anderson learned that a detachment of insurgents would pass a certain road. He posted his soldiers, concealed among the trees lining the road, and when the enemy arrived the Americans volleyed unexpectedly, killing 24 insurgents, wounding 30 and capturing several. Some arms and ammunition also were captured. The effect of this blow has been salutary. The enemy in that locality are dismayed.

Frightening the Lions.

M. Foa, the French explorer, says that lions have a wholesome fear of African wolves, which hunt in packs, and do not scruple to attack even the lion. There are terrible battles in which the lion succumbs to numbers, and dies fighting. In connection with the lion's fear of wolves, M. Foa tells a story from his own experience. It was a very dark night, so black that trees could not be distinguished until the travelers were close upon them. Lions prowled about the party, one of them roaring from a point so close as to have an alarming effect on the nerves. The animals could not be seen, but they could be heard on all sides. Reaching a tree, the men found one of their comrades with rifle cocked peering into the darkness, trying to discover the whereabouts of the animals, that could be plainly heard walking among the leaves. A second man was trying to relight a half-extinguished torch. Still the lions could be heard coming and going in the darkness. At this point the native servant whispered the advice to imitate the cry of wolves in the distance. The party at once began barking and shouting, "Hui! hui! hui!" in an undertone, as if the pack were still at a distance, while the man at the camp made the same well-imitated cry. The effect was instantaneous. There was the sound of a rapid stampede across the dry leaves. The lions decamped in a panic, driven off by the supposed approach of a pack of wolves. For the rest of the night the party was undisturbed.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 to 30 drops. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and pamphlet. Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists. The Hall's Family Pills are the best.

A Boston Institution.

Among the unique institutions of this city is the Peabody Medical Institute, 4 Duffin street, established six years before the death of the great philosopher, the late Mr. George Peabody, from whom it takes its name. During the past thirty years it has achieved a wide and lasting distinction, and today it is the best of its kind in this country. The medical publications of this institute have millions of readers, and are as standard as gold. Their latest pamphlet, sixty-four pages, entitled "Know Thyself," free by mail on receipt of six cents for postage. Send for it to-day.—Boston Journal.

A simple and safe way to clean costly and easily-injured articles is to make a suds of hot water and Ivory Soap, and allow it to cool until lukewarm. This solution, while very effective, is perfectly harmless. Ivory Soap contains no alkali. It will not destroy the surface or texture of any material, however delicate. Ivory Soap differs from other soaps. It is more carefully made, and the materials used in its manufacture are the purest and best.

First Row in Paradise.

A Russian correspondent sends us details of a very interesting and amusing tale told by a Russian veterinary surgeon who was sent into the Ural district to buy horses and hay for the peasants of the famine-stricken provinces. He had to do mostly with the natives (Kirghis), who are half-savage, but who, nevertheless, were found to be extremely honest and absolutely trustworthy in all buying and selling, some of them even offering to give horses for the starving peasants. Quite a different story has the surgeon to tell of the Ural Cosacks, who did their level best to cheat him in the most barefaced manner, and on whom no reliance was to be placed. And yet these Cosacks are very religious and so simple in certain respects that a swindler succeeded in selling them quite a number of tickets for—paradise. The veterinary surgeon saw several of these tickets, which were marked "First rows," and sold for 25 rubles, back seats bringing considerably less.—Commercial Intelligence.

Why People Are Right-handed.

A professor who has made a study of children says he has discovered why the majority of people are right-handed. Infants use both hands until they begin to speak. The motor speech function controls the right side of the body and the first right-handed motions, tending to help out speech. As speech grows so grows right-handedness.

I Look 25 Years Younger

"I am now seventy-two years of age and my hair is as dark as it was twenty-five years ago. People say I look at least that much younger than I am. I would be entirely bald or snow-white if it were not for your Hair Vigor."—Mrs. Anna Lawrence, Chicago, Ill., Dec. 22, 1898.
