SAFE FOR ALL LUNG TROUBLE

Foreigners in our service. The Irish brigade in the Boer army numbers 2,500 men. The German brigade has 2,000, nearly all trained in the German army, and commanded by officers who fought against France in 1870. And a third brigade of foreigners is composed of French, Scotch and English, the last two elements fighting as valiantly against the British as those who make up the Irish brigade. There are nearly 200 Americans, principally from the Rocky Mountain country, enrolled in the Irish brigade. Gen. Blake, a West Point graduate and an Indian fighter on the plains, leads this brigade.

Wyoming is a graveyard of vast numbers of enormous fossils. The bones of animals and great reptiles that flourished in the Jurassic and the triassic period of the earth's geological history are now being dug out of the sandstone strata and the shale. Fossil mining has become quite an industry in the state.

MY BEAUTIFUL BABY BOY

Weak Women Made Happy by Lydia E. Pinkham's Vegetable Compound - Letters from Two Who Now Have Children.

"DEAR MRS. PINKHAM:—It was my ardent desire to have a child. I had been married three years and was childless, so wrote to you to find out the reason. After following your kind advice and taking Lydia E. Pinkham's Vegetable Compound, I became the mother of a beautiful baby boy, the joy of our home. He is a fat, healthy baby, thanks to your medicine."—MRS. MINDA FINKLE, Roscoe, N. Y.

From Grateful Mrs. Lane "DEAR MRS. PINKHAM:—I wrote you a letter some time ago, stating my case to you. "I had pains through my bowels, headache, and backache, felt tired and sleepy all the time, was troubled with the whites. I followed your advice, took your Vegetable Compound, and it did me lots of good. I now have a baby girl. I certainly believe I would have miscarried had it not been for Lydia E. Pinkham's Vegetable Compound. I had a very easy time; was sick only a short time. I think your medicine is a godsend to women in the condition in which I was. I recommend it to all as the best medicine for women."—MRS. MARY LANE, Coytes, Tenn.

INSOMNIA

"I have been using CASCARETS for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented."—THOS. GILLARD, Esq., Ill.

FIFTY-SIXTH CONGRESS

Senate.

Forty-Seventh Day.

The Senate committee on Pacific Islands and Puerto Rico, to which the House Puerto Rican tariff bill was referred, acted very promptly and substituted for it the Foraker bill for the civil government of the island, amended by reducing the rates of duty therein provided to 15 per cent. instead of 25, thus making it conform to the House bill.

Representative Sherman, of New York, from the House committee on commerce, has presented a favorable report on Representative Lacey's bill to prohibit the interstate transportation of game killed in violation of local laws.

Forty-Eighth Day.

An hour and a half of the session was devoted by the Senate to consideration of a constitutional amendment in favor of seating Mr. Quay on the ground mainly, that it was the intention of the framers of the constitution that the Senate at all times should have its full quota of members.

Within two hours after a special message from the President recommending the immediate passage of a bill to place in his hands all the moneys collected upon Puerto Rican goods since the Spanish evacuation of the island, to be used for the relief of the Puerto Ricans, had been read to the House, the House had passed and sent to the Senate a bill to carry out the recommendation.

The Senate held a brief session Saturday, adjourning early on account of the death of Representative Eppes, of Virginia. During the session Mr. Teller spoke in criticism of the conference report upon the currency bill. A number of private pension bills were passed.

Senator Pettus, of Alabama, has introduced a number of amendments to the Puerto Rican bill, which include free trade with the island, reducing the President's power over the revenue and changing the bill in various other features.

Fiftieth Day.

The President sent to the Senate the correspondence called for by a resolution of Senator Hear, asking for information relative to our course in the Philippines. Among other things the record contains information "as to aid or encouragement received by Aguinaldo and his followers from persons in the United States, as to what pamphlets, speeches or other documents emanating in the United States and adverse to its authority and its policy were circulated in whole or in part among the Filipinos in arms against the United States, among other inhabitants of the island, or among the soldiers of the United States."

Senator Davis offered an amendment to the Puerto Rican bill in the Senate. Its effect is to have the tariff laws of the United States applied to Puerto Rico upon foreign imports, but allows absolute free trade between the United States and Puerto Rico.

Representative Gillette, of Massachusetts, introduced a bill prohibiting the sale of distilled or intoxicating liquor in the Philippines in quantities less than 20 gallons, except on a physician's prescription for medicinal purposes.

Fifty-First Day.

Representative Levy, of New York, introduced a resolution in the House directing that the collector of customs for the island of Cuba be instructed to deduct from the monthly receipts of the island 25 per cent. of the total amount collected until the total sum expended by the United States on behalf of Cuba during the war with Spain and since, shall have been paid. The resolution places the cost of the war with Spain at more than \$300,000,000, besides \$3,000,000 to effect disarmament of the Cuban army and the cost of since maintaining an armed force in Cuba.

Senator Scott, of West Virginia, introduced a resolution authorizing the President to govern the Philippine islands until Congress shall provide otherwise.

Fifty-Second Day.

The House was in session but 25 minutes, adjourning out of respect to the memory of the late Representative Harmer, of Pennsylvania, who died Tuesday. The usual committee was appointed to attend the funeral.

Fifty-Third Day.

Formal discussion of the Puerto Rican tariff and civil government bill began in the Senate and continued for an hour and a half. The principal speakers were Mr. Foraker, in charge of the measure, and Mr. Pettus (Dem., Ala.).

Fifty-Fourth Day.

The Senate committee on foreign affairs reached an agreement on an amendment to the Hay-Pauncefote isthmian canal committee intended to meet the objections of those who oppose the clause forbidding the fortification of the canal.

Discussion of Mr. Mason's resolution expressing sympathy for the Boers was conducted in the Senate behind locked doors.

Senator Lodge introduced a joint resolution giving to the senior major general of the army, while commanding the army, the rank of lieutenant general, together with the emoluments and pay of that rank.

Either Drinking in Prussia.

To the evils of alcohol are now added the evils of either drinking, which has spread alarmingly in Eastern Prussia, where either is sold in the saloons like any liquor, four or five grammes in a glass. In the town of Memel alone, it is stated, the amount thus sold last year was about 8,500 quarts, and in reality twice this amount was consumed, the rest brought in by smugglers. The effect is said to be four times more powerful than an equal amount of alcohol.

Vermont fox, close-pressed by two bounds, dashed across a railroad track in front of an advancing train, which killed the dogs.

What Do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing, and takes the place of coffee. The more GRAIN-O you give the children the more health you distribute through their systems. GRAIN-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee, but costs about 1/2 as much. All grocers sell it, 15c. and 25c.

It is proposed by a Michigan company to carry an electric current of 40,000 volts 90 miles.

REVIEW OF TRADE.

Trade Expanding—Less Speculation Than There Was a Year Ago—Plenty of Wheat in Sight.

R. G. Dun & Co.'s weekly review of trade gives out the following:

A certain hesitation in business with shrinkage in its volume is not unusual nor unnatural at this season. It is not necessarily disheartening, therefore, if business is no longer as large in volume as ever, but falls behind that on February, on January, or of the corresponding week last year. Strikes in building, trade or of manufacturers, and others at Chicago affect many industries and the wages of 50,000 hands. Wide differences of opinion also exist regarding the effects of monetary action by Congress.

Special causes are not needed to account for some pause after a year of unprecedented buying. That such trade could not continue without a pause is evident and there is now not the excessive speculation which threatened monetary trouble a year ago.

Estimates of wheat in farmers' hands March 1, 1898, 3,000,000 bushels, according to the American Agriculturist, do not indicate a lack of supply this year, for with 54,000,000 bushels in visible stocks, there is in sight nearly as much as a year ago, when foreign demands were extraordinary, and yet the crop year ended with over 33,000,000 bushels in visible supply. This year net exports in seven months, flour included, have been 111,221,835 bushels, against 149,916,407 last year, and in February enough to make about 125,000,000 bushels, against 168,000,000 last year, with no indications of a future foreign demand approaching that of last year from March 1 to July 1. Returns as to condition of winter wheat are also satisfactory. But of late prices have been very low and have advanced this week nearly 3 cents for spot and 1 cent for May options.

Failures last week were in amount \$3,482,827, manufacturing, \$1,118,651, and trading, \$2,161,211. Failures for the week have been 205 in the United States, against 182 last year, and 33 in Canada, against 37 last year.

Wheat, including flour, shipments for the week aggregate 4,308,728 bushels, against 3,863,387 last week, 4,398,821 bushels in the corresponding week of 1897, 4,484,761 bushels in 1898, 1,509,482 bushels in 1897 and 2,401,209 bushels in 1896. Since July 1 this season the exports of wheat aggregate 138,579,386 bushels, against 173,111,693 bushels last year and 168,941,514 bushels in 1897-98.

Corn exports for the week aggregate 2,187,824 bushels, against 4,533,730 bushels last week, 3,736,586 bushels in this week a year ago, 3,385,056 bushels in 1898, 5,310,514 bushels in 1897 and 1,708,678 bushels in 1896. Since July 1 this season corn exports aggregate 145,714,838 bushels, against 117,242,627 bushels during the same period a year ago, and 122,595,795 bushels in 1897-98.

Wool taken from thousands.

Building material firms of Chicago have voted to close their plants until conditions change for the better. Because of the paralysis in building operations brought on by labor troubles, they have been conducting business at a loss since October. By the closing 10,000 men are made idle. Added to the 30,000 idle in the building industry, the 7,000 striking machinists and the 3,000 on strike in other lines it makes the total number of unemployed in the city 50,000.

What Do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing, and takes the place of coffee. The more GRAIN-O you give the children the more health you distribute through their systems. GRAIN-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee, but costs about 1/2 as much. All grocers sell it, 15c. and 25c.

I Could Hardly Breathe

"I had a terrible cold and could hardly breathe. I then tried Ayer's Cherry Pectoral and it gave me immediate relief. I don't believe there is a cough remedy in the world anywhere near as good."—W. C. Layton, Sidell, Ill., May 29, 1899.

Cures Night Colds

How will your cough be tonight? Worse, probably. For it's a cold, then a cough, then bronchitis or pneumonia, and at last consumption. Coughs always tend downward. It's first the throat and then the lungs. They don't naturally tend to get well. You have to help Nature a little.

You can stop this downward tendency any time by taking Ayer's Cherry Pectoral. Then take it tonight. You will cough less and sleep better, and by tomorrow at this time you will be greatly improved.

You can get a small bottle of Ayer's Cherry Pectoral, now, for 25 cents. For hard coughs, bronchitis, asthma, and the croup, the 50 cent size is better. For chronic cases, as consumption, and to keep on hand, the \$1.00 size is most economical.
