According to estimates by State Geologist Eugene A. Smith, the mineral output of Alabama in 1890 was 7,484,763 tons of coal, 2,627,000 tons of iron ore, 635.514 tons of stone for flux, 63.614 cubic feet of building stone, 14,144 ton of bauxite, 225,000 barrels of lime and

about sixty tons of graphite.
Coal has been selling in Austria at \$10 a ton, and some of the German schools have been closed for lack of fnel. Exports of American coal to Eu-rope are becoming common. An Eng-lish syndicate is said to have contracted for 2,000,000 tons of Alabama coal to be

According to a report issued by the geological survey, the mineral output of Canada for the year 1899 is placed at \$47,000,000. Of this sum, gold is the largest factor, the total being \$21,040,000, and of which the Yukon contributed \$16,000,000. Coal is the next item of importance, the production for the year 1800 being \$2,040,000. Since 1806, the 1890 being \$9.040,000. Since 1896, the mineral production of Canada has well-nigh doubled in value. Cripple Creek is said to be the rich-

Cripple Creek is said to be the richest mining section in the United States. Last year there was \$20,000,000 of gold secured in that little section of Colorado. It only covers 24 square miles, but out of that place more gold came last year than from the whole State of California or from Alaska. The richness of Cape Nome is nothing compared to the Cripple Creek region. It may surprise you to know that the Gold Mining Exchange of Colorado is the largest of its kind in the world. The daily business amounts to over \$1,000,000 in shares, and of this fully one-000 in shares, and of this fully quarter is on a cash basis. The Rhine of Ireland.

The Blackwater, which has been styled the Irish Rhine, has been included in many tourist programmes. Wicklow, a run of only an hour or two from Dublin, with its lakes and hills, has been made easily accessible to the ordinary tourist by good services of public cars and coaches. The up-todate character of tourist enterprise in developing our tourist industry is evidenced by the fact that a service of automobiles is at present being organized to run from Dublin to the Dargle. The beautiful Lough Gill, in Sligo, and the winding banks of Erne, in Fermanagh, are now visited by hundreds for the one-generally a stray fisherman—who used to stroll along their shores.

REVIEW OF TRADE.

The General Outlook is Far From Discouraging-Foreign Commerce Continues Active. fron and Steel Status.

R. G. Dun & Co.'s Weekly Review of Trade for the week, says: Failure returns for April are especially valuable because they show that there does not exist, in the most important branches of business, the conditions which threaten disaster. They call attention to one line in which some curtailment had disaster. seemed from previous returns to be in progress and has been hastened by ex-tensive strikes in the building trades.

Some reaction from the abnormal excitement and expansion and rise of prices last year was necessary to continned prosperity. Its duration may, therefore, be expected to depend on the promptness with which production and prices adjust themselves to actual de-mands. Much progress in that adjustment has been made during the past week, with increased activity already work and wages have made distinct

progress toward settlement.

The reduction in prices of iron and steel and their products has gone far enough to bring out much new business. In pipes and tubes there is some yielding, with larger business in fence and other wire since the reduction. Not a sale of Bessemer pig is reported, the association still asking \$24.90, while eastern pig is offered at Pittsburg below \$23.00 and local forge is lower at \$20.00, with eastern at \$19.75. Chicago local code her declined for and Southern also with eastern at \$19.75. Chicago local coke has declined 50c and Southern also. There are large foreign contracts for pig pending and important sales of finished products for export have been

The close of the wool year has come without the searcity which some expected, but with the average of quotations by Coates Bros. reduced in April about 1 cent. Cotton goods have shown weakness in transactions for future delivery new business is narrow

April exports of breadstuffs have been April exports of breadstuffs have been large, both wheat and corn surpassing last year's record. Atlantic exports of wheat in five weeks, flour included, have reached 11,080,003 bushels, against 10,744,798 bushels last year. Pacific exports, 3,15,1,250 bushels, against 2,000,737 bushels last year, and corn exports, 15,-773,337 bushels, against 12,740,042 bushels last year.

ls last year. All exports from New York in four weeks have been 31.4 per cent., or over \$11,000,000 larger than last year, and with the gain of \$15,000,000 in cotton from other ports the month's aggregate for merchandise should rise above \$100,000,000. Imports will hardly exceed \$70,000,000.

Failures for the week have been 209 in the United States, against 138 last year, and 27 in Canada, against 23 last

Bradstreet's says: That the basic conditions of general business, such as the outlook for the crops, the export demand and the increased purchasing power of the people at large, have not been much reduced, but on the contrary actually improved, seems evident from the advices received this week. Business at wholesa'e is relatively quieter, but more than crdinary marked attention is being con entrated upon the retail demand. Good crop prospects and the weakness in provisions, charged partly to increased receipts of hogs, but also attributed to bear operations by packers, have exercised a depressing influence upon corn at d wheat. Bradstreet's says: That the basic

Sodan Baby. In the Church of All Saints in Caire overthrow of khallfadom in Africa was christened in the presence of a large gathering of English people and under the auspices of Queen Victoria. The small heroine of the gathering was the daughter of Col. Sir Reginald Wingate (pasha, sirdar of the Egyptian army and governor of the Sudan) and of Lady Wingate. The queen, represented by the Hon, Mrs. Talbot, was the principal godmother. The child was born the day after Sir Reginald Wingate's victory over the khalifa at Om Debrikat, where the dervishes were routed and the khalifa killed. Her majesty presented a diamond pendant to her godchild, who also received a handsome cup from Lord Cromer, a golden cross from the bishop of Jerusalem, who performed the ceremony, and a diamond cross from Sir R. Slatin. The child was christened Victoria Alexandrina Catherine.

Body Cleaning

Every spring you clean the house you live in, to get rid of the dust and dirt which collected in the winter. Your body, the house your soul lives in, also becomes filled up during the winter with all manner of filth, which should have been removed from day to day, but was not. Your body needs cleaning inside. If your bowels, your liver, your kidneys are full of putrid filth, and you don't clean them out in the spring, you'll be in bad odor with yourself and everybody else all summer.

DON'T USE A HOSE to clean your body inside, but sweet, fragrant, mild but positive and forceful CASCARETS, that work while you sleep, prepare all the filth collected in your body for removal, and drive it off softly, gently, but none the less

surely, leaving your blood pure and nourishing, your stomach and bowels clean and lively, and your liver and kidneys healthy and active. Try a 10-cent box today, and if not satisfied get your money back-but you'll see how the cleaning of your body is
