

A BLOOD TROUBLE

Is that tired feeling—blood lacks vitality and richness, and hence you feel like a laggard all day and can't get rested at night. Hood's Sarsaparilla will cure you because it will restore to the blood the qualities it needs to nourish, strengthen and sustain the muscles, nerves and organs of the body. It gives sweet, refreshing sleep and imparts new life and vigor to every function.

Tired Feeling—I had that tired feeling and headaches. Was more tired in the morning than when I went to bed, and my back ached. Hood's Sarsaparilla and Hood's Pills have cured me and made me feel ten years younger. B. SCHREIBER, 274 Bushwick Place, Brooklyn, N. Y.

THE HEALTH OF YOUNG WOMEN

Two of Them Helped by Mrs. Pinkham

"Dear Mrs. Pinkham:—I am sixteen years old and am troubled with my monthly sickness. It is very irregular, occurring only once in two or three months, and also very painful. I also suffer with cramps and once in a while pain strikes me in the heart and I have drowsy headaches. If there is anything you can do for me, I will gladly follow your advice."

—Miss MARY GOMES, Aptos, Cal., July 31, 1898.

"Dear Mrs. Pinkham:—After receiving your letter I began the use of your medicine, taking both Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am now regular every month and suffer no pain. Your medicine is the best that any suffering girl can take."

—Miss MARY GOMES, Aptos, Cal., July 6, 1899.

Nervous and Dizzy
"Dear Mrs. Pinkham:—I wish to express my thanks to you for the great benefit I have received from the use of Lydia E. Pinkham's Vegetable Compound. I suffered constantly from terrible sideache, had chills, was nervous and dizzy. I had tried different kinds of medicine but they all failed entirely. After taking three bottles of Vegetable Compound and three of Blood Purifier I am all right. I cannot thank you enough for what your remedies have done for me."

—Miss MATHILA JENSEN, Box 18, Ogdenburg, Wis., June 10, 1899.

WESTFIELD, MASS., Nov. 27, 1899.
The Genesee Pure Food Co., Le Roy, N. Y. Gentlemen—Having used your GRAIN-O for the past 3 mos. I thought I would write and let you know how much good it has done me. When I was on my vacation last summer the people I visited asked me to try GRAIN-O, and I drank some, but I didn't like it; but the more I drank the better I liked it, and now I wouldn't drink anything else. I never weighed over 166 lbs. and last winter I was down to 120, and now I weigh just 120. I never felt better in my life. It gives me an awful appetite and makes me strong. It is doing me more good than anything I ever took. I recommend it to everybody.
Yours truly, Mrs. Geo. B. Browns.

BARB WIRE TELEPHONE LINE.

Two Indiana Towns, Fifteen Miles Apart, Successfully Connected.

An Anderson, Ind., correspondent writes: One of the most novel telephone systems in the world is the "barbwire" line, which connects the towns of Anderson, Pendleton and Ingalls. It is fifteen miles in length. Its inventor, builder and sole owner, Cassius Alley of Pendleton, Ind., now has six subscribers at \$50 a year each. The time is not far distant when there will be ten-fold this number. One clothing company at Anderson with branch stores at Pendleton, and the Wagner Glass Works, with offices at Anderson and factory at Ingalls, are using this barb-wire system in their business affairs exclusively. They use the line frequently. They can convert it into a private line by plugs so arranged that when one party is using the line he can cut out all others except in Mr. Alley's residence, which is used as a central station. It is no exaggeration to say that this barb-wire telephone system is quite as satisfactory as the copper circuit of the Bell. Ordinary phones are used with no special strength of battery and there is very little trouble with the lines. In constructing the line Mr. Alley used the top strand of the barb-wire fence of the Big Four railway, making the connections with the offices of his subscribers with ordinary telephone wire. In some instances where the posts had rotted it was necessary to paint the wire and posts with rubber paint to insulate the wire. The whole line of fifteen miles was built at a cost of about \$100, and the outfit for each house, consisting of receiver, transmitter, battery, call, etc., costs not over \$10. The line has been in operation since December 22, and has not been out of order except for a few hours when a fast train on the railway track struck a cow, threw her body against the fence and broke the wire.

"How Do You Do?"
The Germans say "Wie befinden sie sich?" (How do you find yourself?) or "Wie gehts?" (How goes it?) or the Dutch "Hoe vaart gij?" (How do you fare?); the Italians, "Come state (How do you stand?); the French "Comment vous portez-vous?" (How do you carry yourself?). In Spain, as in Germany, the usual greetings are "Como state usted?" (How are you) or "Que tal va?" (How goes it?). The Greeks say "Ti Kamete?" (What do you do?), while in China the expression is, "Have you eaten your rice?" in Russia, "Be well!" or "How do you live on?" and in Arabia, "May your morning be good!" or "God grant thee big favors." The Turk's greeting is, "Be under the care of God," and that of the Persians, "Is thy exalted condition good? May thy shadow never be less!" The briefest and at the same time most expressive salutation is the North American Indian's "How!"—Collier's Weekly.

Kissed Mrs. Cleveland's Hand.
"It has been my pleasure to meet newspaper reporters in all the cities of America that I have visited since my residence in this country, and but once have I had any occasion to regret my contact with them," said Rt. Hon. Charles B. Cahan. "This was in Washington, D. C., when, by some chance that to me is still a dark and unfathomable mystery, a reporter learned that I was presented to President and Mrs. Cleveland, and that, ignorant of American customs, for it was the first time that I had been presented to the executive of a republic, I went down on my knees before Mrs. Cleveland and kissed her hand. Imagine my chagrin the next day, when, upon picking up the paper, my eye fell upon a headline reading, 'He Kissed Her Hand. A Titled Englishman Kneels Before Mrs. Cleveland.' Now, as I say, I did not know but the customs of Europe prevailed here."—Denver Republican.

Religion lent.
Prof. Carl Bryan, the aeronaut, had a thrilling experience at Reading, Pa., Friday. While his balloon was being inflated with hot air a spark unnoticed by the aeronaut settled on the canvas. The ascent was made, and when at a height of about 1,000 feet the balloon took fire. In a short time it was a mass of flames.

For some time Bryan, on a trace below, was unaware of the fire and his own peril. He distinctly heard the shouts of the people below, and glancing up, saw the balloon on fire. He quickly cut loose his parachute and leaped. This, on account of haste, he did imperfectly, and he fell a great distance before the parachute opened. Bryan, however, landed without sustaining injury.

REVIEW OF TRADE.

Sliding to Lower Cost—It Brings an Increased Demand for Iron—Decline in Corn and Wheat.
R. G. Dun & Co.'s "Weekly Trade Review" says: With wholesome promptness the country is recovering from the embarrassment of unnaturally high prices. In some lines the great manufacturing associations have taken the lead; in others reductions are still deferred because the entire producing capacity is engaged at high prices for some months to come; in others it comes in spite of resistance because buyers hold back orders for their own protection until material concessions are made. No disturbance nor stringency of credits results, nor any sign of alarm, and the movement is perhaps more healthy than it could have been if entirely controlled by the competition of many small concerns. The weekly output of pig iron May 1 was 293,850 tons, against 289,482 April 1, while unsold stocks not held by the great steel makers increased 44,645 tons. This would indicate a daily consumption of 40,641 tons against 41,642 in January, hitherto the largest, but for the fact that considerable stocks have also accumulated in the hands of consuming concerns, of which enough to use much more than 1,000 tons daily are now idle. Bessemer pig at Philadelphia and Lehigh Valley No. 1 here are quoted at \$22.00 per ton and market wire has been reduced in correspondence with barbed and plain. Considerable increase of business is reported resulting from recent reductions, but demands for higher wages and also for closing of some iron works two months in the year, whether there is business or not, causes some hesitation regarding further contracts. In spite of good exports wheat prospects suffice to cause a decline of 13c, while corn has declined 25c. Corn exports still run much beyond last year's, in two weeks 6,850,500 bushels against 4,720,666 last year, and Atlantic exports of wheat, flour included, have been in two weeks 2,109,508 bushels against 2,236,705 last year, with Pacific exports 1,024,607 bushels against 1,084,132 bushels last year. Of both grains the movement from the farms is large enough to dispel all fear that the supply will run short. Failures for the week have been 192 in the United States, against 164 last year, and 15 in Canada, against 20 last year.

A NINE-CENT MFAL.

Prince and Princess of Wales Dine at the People's Restaurant.

A touching incident, simple in its character, but invested with almost historical interest, marked the opening of a couple of weeks ago of the first of the poor men's restaurants which the Princess of Wales has succeeded in establishing in London. No formal ceremony inaugurated the opening day of the business at the establishment founded by the Alexandra Trust in the City-road, London. Something much more telling than prosaic speeches, more impressive than votes of thanks, occurred to draw attention to the cooked meals which are served at a cost below anything previously attempted in London. One day the Prince and Princess of Wales, accompanied by the Hon. Sydney Greville, drove down to the City-road on a surprise visit to the Alexandra restaurant. Luncheon tickets were bought in the ordinary way at 1/4d, (9 cents) each. Whilst thousands of toilers, workmen, factory girls, shop boys and needy clerks were consuming the luncheon provided in the big dining halls, the royal visitors sat down to a similar meal in an adjoining room. There were six in the royal luncheon party. Three courses were served. The bill for the whole party came to 2s. 3d. (54 cents). Needless to say, the presence of the heir-apparent and the princess in the restaurant was the occasion of a singularly interesting demonstration on the part of the people.

Mysteries of a Toilet.

Every man has a theory against an apparent abhorrence of a woman's use of artificial means in the way of producing a bloomy complexion, and yet as surely as the needle to the magnet you will invariably find him gravitating toward the girl or woman with a made complexion. The fact of the matter is men don't know face powder and rouge when they see it, they are not prone to recognize it even on a face as near as that of their own wives. So despite that much is being said and more written about the latter day woman's frank use of rouge, powder and pencil, as long as one of her most appealing charms is veiled in a rose and cream complexion, just so long will she make use of the means whereby to build it.

LANGUID

How are the children this spring? Complaining a good deal of headache, can't study as well as usual, easily fall asleep, and are tired all the time? And how is it with yourself? Is your strength slipping away? Do you tremble easily, are your nerves all unstrung, do you feel dull and sleepy, and have you lost all ambition?

That's Spring Poisoning

Nearly everyone needs a good spring medicine; a medicine that will remove impurities from the system, strengthen the digestion, and bring back the old force and vigor to the nerves. A perfect Sarsaparilla is just such a medicine; a Sarsaparilla that contains the choicest and most valuable ingredients; a Sarsaparilla accurately and carefully made, and one that experience has shown is perfect in every way.

That's AYER'S

"The only Sarsaparilla made under the personal supervision of three graduates: a graduate in pharmacy, a graduate in chemistry, and a graduate in medicine."
\$1.00 a bottle. All Druggists.

"I am perfectly confident that Ayer's Sarsaparilla and Pills have saved my life by taking them every fall and spring. I have kept them in the house for the past twenty years."—EVA N. HART, Buffalo, N. Y., March 29, 1900.

MEN OF GENIUS.
First-Born Sons Do Not Monopolize Greatness.

Professor Axenfeld, an eminent European physiologist, has brought about an interesting discussion by the statement of his belief that men of genius are always the oldest of families. "Second or third sons, may be eminent men," he adds, "and sons born later may be men of talent, but they can never be great." Dr. Cyrus Edson, a physiologist of New York, undertakes to controvert these statements, and furnishes the following names of men of genius who were not the first-born: Benjamin Franklin, fifteenth; Sir R. Arkwright, thirteenth; Joseph Butler, eighth; Sir Joseph Reynolds, seventh; Alfred the Great, fifth; Sir Charles Bell, fifth; Prince Bismarck, fourth; Gladstone, fourth; Cecil Rhodes, fourth; Wellington, third; Charles James Fox, third; Sir Robert Walpole, third; Shakespeare, third; Beaumont, third; Fletcher, third; Lord Lytton, third; Phillip of Macedonia, third; Tennyson, third; Simon de Montfort, third; Napoleon Bonaparte, second; Turanne, second; Solomon, second; Sir William Wallace, second; John Wesley, second; Sir F. Baring, second; Montaigne, second; Carlyle, second; Brian Boru, second; Christopher Huggens, second; R. B. Sheridan, second.

ALABASTINE Is a durable and natural cement. Base wall coating. In 5 lb. paper packages, made ready for use in white and fourteen beautiful tints by mixing with cold water. It is a cement that goes through a process of setting, hardens with age, and can be coated and recoated without washing off its old coats before renewing.

ALABASTINE Is entirely different from all the various kalsomines on the market, being durable and not stuck on the wall with glue. Alabastine customers should insist on having the goods in packages properly labeled. They should reject all imitations. There is nothing "just as good."

ALABASTINE Prevents much sickness, particularly throat and lung difficulties, attributable to unsanitary coatings on walls. It has been recommended in a paper published by the Michigan State Board of Health on account of its sanitary features; which paper strongly condemned kalsomines. Alabastine can be used on either plastered walls, wood ceilings, brick or concrete, and any one can brush it on. It admits of radical changes from wall paper decorations, thus securing at reasonable expense the latest and best effects. Alabastine is manufactured by the Alabastine Company of Grand Rapids, Michigan. Instructive and interesting booklets mailed free to all applicants.
