

June, the Month of Hot Weather

And we want to make this month eclipse all former months in business and we have the goods and prices to do it. Not a clothing house in town as well able to take care of the Clothing and Gent's Furnishings goods trade as we are.

Don't Ask Me

If I am hot enough. Wait until you see me half hour from now—then you may ask me with an easy conscience if it is hot enough for me. Fact is, I'm a trifle overheated in my haste to reach McClelland's for one of their Serge or Crash Suits.

What is the use of wearing a heavy suit when we can sell you a genuine Serge Suit for \$10.00 and a first-class Crash or Linen Suit for \$2.00 to \$4.00. So come and look our line over and you will go away pleased.

Mothers, About Wash Suits.

Our line of these popular suits was never finer and cheaper. Exclusive patterns and fabrics turned and sewed with utmost care. We have a special line of boy's D. B. coats in linen that are just what you want for your boy. Prices from 50c. the suit to \$2.00.

Shirts.

Correct dressers who appreciate exclusiveness, perfection of fit and good workmanship find the Monarch and Gold and Silver make the very best makes. Come and look this line of Shirts over and be convinced that we have the strongest line of 50c., 75c. and \$1.00 shirts you ever saw.

Get next to you a suit of our French Balbriggan Underwear.

The greatest Underwear on the market for 50 cents the garment.

The Last Touch

Is what gives a distinction to a man's dress—it is his

Necktie.

Our furnishings are calculated to appeal to the most cultivated tastes. They have been selected with special reference to what a well dressed gentleman should wear, so come and see that we are the store you are looking for.

Pleased to Meet You, Sir.

Let us sell you a Hat. We offer you three things—Quality, Assortment and Lowest Prices. Ice is a good thing but you can't wear a float of ice in your head. What is next best is one of our

Straw Hats.

Don't buy until you have seen them. Ours are exactly what you want.

SCOTT McCLELLAND,
CLOTHIER, HATTER AND FURNISHER.

Letter from Philippines.
SANTA ANA, P. I., Apr. 25, 1900.
MR. E. S. STRAWCUTTER.
DEAR BROTHER—I received your letter a few days ago and was glad to hear from you. I am enjoying the best of health and am getting accustomed to army life in the Philippines. We have been on the island nearly three months. We left New York Bay on the evening of Nov. 20th amid the cheering of people and shrieking of whistles from tug boats. The last point of land visible was Sandy Hook. We reached Gibraltar in twelve days. We were certainly glad to sight land and everybody was in the best of health and spirits. Gibraltar is a magnificent fortress. I was told twelve thousand soldiers were garrisoned here.

Our trip through the Mediterranean sea was grand. Malta, an island in the Mediterranean, is one of the oldest and most historic places in the world. It is a beautiful spot and I enjoyed it very very much. Suez canal is another place of interest. There are some beautiful places along this canal. It cost Uncle Sam \$2.00 a piece for a man to pass through here, in all costing over \$3,000 for the transport Logan to pass.

Singapore, India, was our next stop. It, too, is a point of interest. There are all classes of people to be seen here. We stayed three days. During this time we cooled. A good many of the boys went ashore and reported a good time.

On Jan. 4th, sailed in Manila Bay, where Dewey made himself famous. On 6th we went ashore and camped at Malata, on the outskirts of Manila. I went down to Manila and there saw many sights both strange and queer. There are a great many Spaniards here and not a few Chinese. Their stores are not as good as in the States, but there churches are grand and they pay marked attention to their religion.

On the 12th we moved by rail (a distance of forty miles) north of Manila. From there we marched to San Pedro, Magalang, ten miles in the interior. We were there two months and then came to this place.

While at Magalang the "insurrectos" fired on us a number of times. This town is at the foot of Mt. Arayat to which point a number of expeditions were made. Gen. Grant took four companies and three guns of Co. E, 1st Artillery up. My company was advance guard. General Grant seems to be a fine man and the men all had confidence in him. This mountain is very steep and difficult to ascend. It is thickly wooded with valuable woods, such as mahogany, ebony, rosewood, French briar, and other hard wood. The guns had to be left near the base of the mountain while the men moved slowly up. The "insurrectos" had left. We found their outposts and trenches. It would be a hard place to take when once located there. I believe they left on account of no water there. Co. A, 25th, a negro company, had quite a fight here some time before this. Some places steps are cut in the rocks to reach higher points; other places ladders are used.

Since coming to this place (Santa Ana) we have not been fired on at all. Everything moves along smoothly. The whole company has been issued coats to sleep on and we are now very comfortable. The rainy season will set in in a few weeks and we will be hemmed in for several months.

The natives here are yellow people and not so large as Americans. They eat rice, bananas and fish. A great deal of sickness is among them all the time and you frequently see eight or ten funerals in a single day. I have told you before how they conduct a funeral. For work they use a large animal called a caraboo or water buffalo. They also have small ponies which they drive to a little two wheeled cart or buggy.

Easter is just over and they had a great time, a grand street parade, many balls and feasts. The padre or priest is very popular here and seems to take an interest in the soldiers.

One curiosity I saw is plowing fish out of the swamps. I also have seen the natives digging for them. Some large fish are caught in this way. How would you like to fish in this way?

There is only one company stationed here. San Fernando the second city on the island is ten miles from here. It is situated on the railroad. The railroad is a one horse affair and nothing like the roads in the States. It was seized by the soldiers and now run by the government. It has been fired on several times and a number of natives have been killed. There is not much fighting, only small bands of "ladrones" roaming around stealing. They kill their own people as quick as us.

Our regiment may return to the States next fall but it is doubtful. I certainly hope I will get back by Xmas. This is a lonely country and nothing like the United States. If I get back I

don't think I shall leave soon. A good many of the men have been sick with the fever and one in Company E died of the small pox.

I will try and describe this island. It is Luzon, the largest and most important of the Philippine group. The interior is quite level, with mountain ranges along the coasts. You can scarcely see anything but cane and rice fields. The cane is principally all cut and the natives are getting their rice fields ready for the rainy season. Sugar mills are quite numerous. A native receives ten cents per day for work and then takes half of that out in sugar. The houses are principally built of bamboo with mahogany floors. Every town has a large stone church and convent with a large plaza in front. A bamboo tree grows very tall and slender, probably four to six inches through. The joints are about one foot apart.

The people think America glitters with gold and a soldier is almost a millionaire. They ask us about three prices for anything we buy. Nearly all the boys are tired of army life in the Philippines, although it is a trip worth much to us for the many sights we have seen. I will send you some views of places I saw on our voyage as soon as I can procure them.

Very truly, your brother,
M. C. STRAWCUTTER,
Co. F, 41st U. S. V. Manila, P. I.

Census Pointers.

Census Enumerators George W. Warnick and Samuel B. J. Saxton have about finished taking the census of this borough, and if any one has been missed, or any one knows of a person whose name has been omitted, they should report the same to the enumerator in the district where the missed one resides. It is not a matter of moment to the enumerator, but every citizen is, or should be, interested in having our full quota reported and the census as near correct as possible.

It is not likely the census enumerators will be paid for their work before September next, after the books have been gone over by the experts and the enumerations verified.

Census enumerators cannot give out information concerning their work, not even state the population of territory assigned them when the work is complete, under a penalty of \$500.

Much interest and many inquiries have been made as to the time and manner in which the census returns will be made public. It is supposed that by July 1, Superintendent Merriam of the census will likely have his first announcement to make. Commencing with the larger cities and coming down in as nearly regular order daily bulletins will be issued of the populations.
